WHEREAS, the Engineer is licensed, qualified, willing and able to perform the engineering expert witness services required on the terms and conditions hereinafter set forth.

NOW, THEREFORE, in consideration of the mutual covenants herein contained, the Client and the Engineer do hereby agree as follows:

ARTICLE 1- SERVICES TO BE PROVIDED BY THE ENGINEER

1.1 Engineering Expert Witness Services

The Engineer agrees to perform engineering expert witness services for Wekiva Parkway Projects 429-203, Parcel 197. It is understood and agreed that the performance of the engineering expert witness services requires the expertise of an individual engineer and the exercise of his or her independent judgment and that the continued and uninterrupted performance of the services is essential, and, therefore, if the Engineer of Record leaves the Engineer's employ, for any reason, the Client shall have the option, in its sole discretion, of assigning this Agreement, and any Addenda hereto, to the Engineer of Record so that the services shall be rendered without interruption or shall require the Engineer to appoint a different individual as the Engineer of Record. If the Agreement is assigned to another engineering firm, payment shall be made to the Engineer for all services rendered. Payment for engineering expert witness services shall be made in accordance with the compensation schedule set forth in **Exhibit A**.

The Engineer shall commence work on the engineering report(s) immediately and shall perform the work in the most expeditious manner and shall complete the engineering report(s) within the specified timeframe, which the Engineer acknowledges is reasonable. Upon the request from the Client, the Engineer shall provide a progress report which shall advise as to the status of the services to be performed by the Engineer.

It is agreed and understood that all services rendered under this Agreement, and any Addenda hereto, are at the direction of the Client, and, as such, all communications and documents of any kind are privileged work product and shall not be provided to any person unless directed by the Client.

The Client shall have no liability or obligation to the subconsultants hereunder. Client shall have the right, but not the obligation, based upon sworn statements of accounts from the subconsultants, to pay a specific amount directly to a subconsultant. Subconsultant fees shall be invoiced at cost with no additional markup applied by the Engineer.

1.4 Engineer's Standards of Performance

The Engineer shall use professional standards of performance to perform all services in such sequence, and in accordance with such reasonable time requirements and reasonable written instructions, as may be requested or provided by the Client. The Engineer has represented that it is possessed of that level of skill, knowledge, experience and expertise that is commensurate with firms of national repute and acknowledges that the Client has relied on such representations. By executing this Agreement, the Engineer agrees that the Engineer will exercise that degree of care, knowledge, skill and ability and agrees to perform the services in an efficient and economical manner.

1.5 Engineer's Obligation to Correct Errors or Omissions

The Engineer shall be responsible for the professional quality, technical adequacy and accuracy, timely completion, and coordination of all data, designs, specifications, calculations, estimates, plans, drawings, photographs, reports, memoranda, other documents and instruments, and other services furnished by the Engineer. The Engineer shall, without additional cost or expense to the Client, correct or revise any errors, omissions, or other deficiencies in the services performed by the Engineer.

1.6 Non-Exclusive Rights

The rights granted to the Engineer hereunder are nonexclusive, and the Client reserves the right to enter into agreements with other Engineers to perform engineering expert witness services, including without limitation, any of the services provided for herein.

1.7 Engineer's Compliance with Laws and Regulations

The Client shall have the right, by written notice to the Engineer, to reduce the scope of services to be rendered hereunder. If the Client reduces the services to be rendered, the Engineer will be paid in accordance with the compensation schedule set forth in the attached Exhibit A for any time spent in connection with the reduced services. The Engineer shall not be entitled to any anticipated profit as a result of the reduced scope of services.

ARTICLE 2- TIME

The Engineer shall not receive compensation for services performed in connection with the modification or preparation of any supplement or update to any engineering report furnished under this agreement if (1) applicable principles of law require the modification on or supplementing of such engineering report, (2) material omissions, inaccuracies, or defects in the engineering report are discovered, or (3) the Engineer receives or becomes aware of relevant additional information in existence prior to the date the Engineer signed the report.

3.4 Compensation for Litigation/Consultation Services

It is expressly agreed and understood that the Engineer shall be paid for all litigation support services in accordance with the compensation schedule set forth in **Exhibit A** within thirty (30) days after receipt of each monthly invoice, provided that the invoice is received by the 3rd of each month.

3.5 Invoices

The Engineer shall submit detailed invoices to the Client for all services rendered. The Engineer represents and warrants that all billable hours and rates furnished by the Engineer to the Client shall be accurate, complete and current as of the date of this Agreement or the Addendum.

If the Engineer submits the draft or final engineering report more than seven (7) calendar days after the Due Date the Engineer will be assessed two percent (2%) of the lump sum for such report per calendar day thereafter, until the engineering report is received by the Client.

4.2 Responses, Modifications, or Corrections

The Client will notify the Engineer of any modifications, corrections or additional services that, in the sole discretion of the Client, are determined to be necessary. All modifications, corrections, or additional services shall be completed within five (5) calendar days after the request is made by the Client. Production of such records by the Engineer shall not constitute promulgation and shall retain in the Engineer all rights and privileges of workmanship, confidentiality and any other vested interests. If, as a result of an audit, it is established that the Engineer has overstated its hours of service, per diem or hourly rates for any month, the amount of any overcharge paid as a result of an overstatement shall forthwith be refunded by the Engineer to the Client with interest thereon, if any, at a rate of six percent (6%) per annum on the overstated amount accrued from forty-five (45) days after the Client's notice to the Engineer of the overstatement.
