Shari Croteau

Hello Kurt,

As the public involvement coordinator for the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation being conducted by the Central Florida Expressway Authority, your query was forwarded to me.

You're correct that robust key stakeholder engagement has been underway on the study in order to further refine the parkway alternatives. Due to the feedback received and latest alternative evaluations, we are working currently to schedule a public meeting on Nov. 19.

We will be sending details on the meeting out shortly to property owners, as well as those who've asked to be added to the study database. We also will be posting the latest information on the study webpage in the coming weeks.

You and your clients can check for updates on the study webpage at: <https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension-pde/>

Stay tuned for more information soon. Thank you.

Mary Brooks

Dear Linda:

I hope you are doing well.

Just checking in to see if there is any new information regarding the above referenced project.

The last time we discussed this matter, it was my understanding that CFX staff and consultants were still working with the primary stakeholders, and hoped to have another public meeting later this year to announce the preferred alignment.

Any information you can provide would be greatly appreciated. Thank you.

Sincerely,

**Kurt H. Garber**

Shari Croteau

Dear Mr. Gausman:

Thank you for attending the recent public workshop for the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation conducted by the Central Florida Expressway Authority (CFX). We had more than 430 people attend the November 19 workshop, with more than 220 submitting written comments that evening.

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Hello John,

It was good to speak with you yesterday. As discussed, you may find the exhibit for the Central Florida Expressway Authority's Osceola Parkway Extension PD&E Study Re-evaluation at the following link:

[https://www.cfxway.com/wp-content/uploads/2018/12/OPE\\_PDE\\_Overview\\_Map-111518.pdf](https://www.cfxway.com/wp-content/uploads/2018/12/OPE_PDE_Overview_Map-111518.pdf)

You can find other study information at this location:

<https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension-pde/>

As noted, we do not have a final alignment selected at this time. Any construction currently underway in this area would be done by others, not as part of this project.

We will be happy to add you to the project database so you can receive future updates on the study.

I hope you find this information helpful. Thank you.

8/7/2019 12:50 PM 8/7/19 1250 p.m.: Shari Croteau

John Gordon [JRGordon610@gmail.com](mailto:JRGordon610@gmail.com) stopped by CFX looking for a map of the planned extension and other improvements to Cyrils Drive. PIO noted the OPE involves some improvements to a small portion of Cyrils, but as far as the extension that would be either Osceola Co. or the developers. He said he went to both of those and they sent him to CFX. Pio said we have exhibits on the study webpage showing the alternatives for OPE, we're still in the study phase and don't have a preferred alternative yet. He said how is that possible when there is construction going on right now out there. PIO noted there are developments under construction; we are only in the PD&E re-evaluation phase, don't have a final alignment yet. He said then how are they allowed to build out there knowing the road is coming through? So you all are going to have to buy those new roads and homes? PIO noted we reach out to the developers and share information; some of them provide their plans, others not so much. PIO noted we provide information, but there is nothing that stops them - if they have the right permits, etc., from developing their properties. He went on at length about eminent domain and what the agency's authority was in that regard, and how we fund our projects. He said he's not against the project, it will be needed to serve the airport and will all of the development going on out there. PIO to email him the link to the study map on the webpage. He said he'd appreciate it and thanks for taking the time to discuss with him.

Dear Ms. Guerrero:

Thank you for your comment regarding the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation being conducted by the Central Florida Expressway Authority (CFX).

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Dear Mr. Harry:

Thank you for attending the recent public workshop for the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation conducted by the Central Florida Expressway Authority (CFX). We had more than 430 people attend the November 19 workshop, with more than 220 submitting written comments that evening.

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the ~~study webpage. You're also welcome to contact me as the public~~

I believe the original intention in setting acreage aside to mitigate habitat destruction must be upheld and that we are at an environmental tipping point. There are several listed species that live in Split Oak Forest and one of which, the Gopher Tortoise, is a keystone species, whose burrows are utilized by more than 250 other species. This is an area that should never be developed or destroyed. It is crucial that we preserve this area as an example of wild Florida and not destroy it due to industry pressure and financial gain. The beauty of Split Oak is worth much more than money!!</p> <p>- This e-mail was sent from a contact form on Central Florida Expressway Authority (<a href="https://www.cfxway.com">https://www.cfxway.com</a>)</p>	Shari Croteau

Hello Mr. Heilmann:

Thank you for having the Central Florida Expressway Authority at Lake Ajay's annual HOA meeting last night. We appreciate the opportunity to bring the residents an update on the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation.

Attached is the first of the three display boards shown at last night's Lake Ajay HOA meeting. It's a large file, so I'm sending this one first and will send the other two in a second email. Please remind residents that they may make comments via email to ProjectStudies@CFXWay.com.

Also, they can view information about the study on its website at <https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension-pde/>. And remember to follow the study on Facebook @OsceolaPkwyExtPDE.

Again, thank you for having us last night.

Hello, my name is Jackie Hernandez. I'm calling about the Osceola Extension through Boggy Creek and all of that. My number is 407-920-2754 cause I'm in the process of possibly buying a house in Lake Ajay but I was wondering if it's been decided or close to deciding which one of the routes they are going to take east of Narcoossee. Ah, whether it's going to be right near the lake or one of the other areas if you have any idea. 407-920-2754. Thank you.

8/2/2018	3:55 PM	From: conceptstudies Sent: Thursday, August 2, 2018 3:55 PM To: gailhovey@kw.com Subject: Re: Osceola Parkway Extension Information	Shari Croteau
----------	---------	--	---------------

Hello Gail,

Thanks for taking the time to contact us regarding the CFX Osceola Parkway Extension Project Development and Environment (PD&E) Study, which began in July and is expected to take eight months to complete.

You can find information about the study, which is in its very early stages, on the study webpage at the following link:

<https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension-pde/>

We've also attached the study fact sheet here for your information.

As we are early in the study process, no decisions have been made. The study team will be providing numerous opportunities for the public to provide input on the alternatives to be evaluated.

The study team will be looking at previous alternatives in more detail, as well as developing and evaluating new alternatives. To review the map and alternatives from the previous Concept, Feasibility and Mobility Study, click on the following link: <https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension/>

We hope you find this information helpful. Thank you.

Shari Croteau, for  
Mary Brooks  
Public Involvement Coordinator

8/1/2018	1:20 PM	Ms. Hovey called the CFX PIO number on Wednesday, August 1 to ask about more information on the Osceola Parkway Extension study because she has an active listing in the Phillip Landing Subdivision which backs up to the preserve. (This is near the Narcoossee/Boggy Creek area).	Shari Croteau
----------	---------	--	---------------

7/30/2018	10:13 PM	Mary Brooks emailed Ms. Hovey back, letting her know it's still early in the process and an alternative has not yet been selected. She also sent her the fact sheet and the link for the web page.	Shari Croteau

Shari Croteau,

Date Range - Notes: All Dates; History: 1/1/2020 - 1/31/2020

7/30/2018	11:34 AM	From: Gail Hovey, PA <gailhovey@kw.com> Sent: Monday, July 30, 2018 11:34 AM To: Internet <Info@CFXWay.com>; conceptstudies <conceptstudies@CFXWay.com> Subject: Osceola Pkwy Extension	Shari Croteau
-----------	----------	--	---------------

Good morning,

I have an active listing in Fells Landing (14806 Fells Lane) that backs up to the Preserve. The Seller isn't aware of anything tangible to disclose other than there is some planning and that there have been some community meetings as well as discussion on the neighborhood Facebook page. We've had a couple of potential buyers ask as well. Is there anything that is available to disclose the potential impact to homes in Fells Landing that back up to the Preserve? This neighborhood borders Narcoossee and Boggy Creek. Just from looking at what is available online, it appears there is planning and some proposals that have been made and that this would actually be a positive impact on the neighborhood by relieving traffic congestion. Do any of the potential plans/proposals involve going through the Preserve and/or eliminating some of these homes through Eminent Domain?

Subject: Acknowledgement of Osceola Parkway Extension PD&E Study Re-evaluation Comment

Shari Croteau

Dear Mr. Huerd:

Thank you for attending the recent public workshop for the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation conducted by the Central Florida Expressway Authority (CFX). We had more than 430 people attend the November 19 workshop, with more than 220 submitting written comments that evening.

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

<u>Date</u>	<u>Time</u>	<u>Regarding</u>	<u>Record Manager</u>
12/20/2019	9:35 PM	From: Project Studies Sent: Friday, December 20, 2019 9:35 PM To: Trombley99@hotmail.com <Trombley99@hotmail.com> Subject: Acknowledgement of Osceola Parkway Extension PD&E Study Re-evaluation Comment	Shari Croteau

Dear Jarin:

Thank you for your comment regarding the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation being conducted by the Central Florida Expressway Authority (CFX).

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Shari Croteau

This is Pam Jones at Gaylord Merlin and I was just calling about the Osceola Parkway Extension. I was trying to get a report on the status of the project. If you could give me a call back my number is 813-221-9000. Thank you.

12/10/19

PIO returned her call and let her know the study re-evaluation and the recommended preferred alternative was going to the CFX Governing Board at 9 a.m. on Thursday, Dec. 12. The PIO also let her know she could view the meeting live on Orange TV. Ms. Jones said that's all she needed to know and thanked the PIO for the return call.

 Subject: Why is Development a Foregone Conclusion?

Shari Croteau

Hi

I was disappointed to see the news this morning about Split Oak and that you are still putting the road through it. This is a conservation area that needs protection.

I don't understand why if people get so riled up against fires in the Amazon that they are not riled up against over-development in Central Florida. It's the same thing. Why do we assume that we HAVE to over-develop? Maybe we should change our thought processes about development sometime soon?

Anyway, I strongly prefer that you route the expressway AROUND Split Oak Forest instead of through it.

Regards,

Christi Kapp, Kissimmee

------------	---------	---	---------------

Hello Anthony:

Thanks for taking the time to contact us regarding the Osceola Parkway Extension Project Development and Environment (PD&E) Re-evaluation Study being conducted by the Central Florida Expressway Authority (CFX). As we discussed on the phone, alternatives are still being studied. We anticipate the public meeting will be held in April 2019. The eventual recommendations for a preferred alternative likely will go before the CFX Governing Board next summer.

You can find the latest information about the study at the following webpage: <https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension-pde/#1529005671300-d4674569-0ef4>

We also suggest you follow the project on Facebook for real-time updates: @OsceolaPkwyExtPDE

We added you to the project database so you'll receive updates and notice of the public meeting by email.

I hope you find this information helpful. Please feel free to contact me for additional information. Thank you.

Kathy Putnam for  
Mary Brooks  
Public Information Coordinator

11/28/2018	9:30 AM	PIO called him back on 11/28/18.	Shari Croteau
------------	---------	----------------------------------	---------------

He wanted to know if an alignment(s) were chosen for the Osceola Parkway Extension yet. PIO said no and told him the anticipated schedule. She said she would email him the study website address and add him to the study database.

11/27/2018	3:59 PM	Called received 11/27/18	Shari Croteau
------------	---------	--------------------------	---------------

Hello, my name is Anthony Katchuk. Calling to get some more information regarding the Boggy Creek extension of the Osceola Parkway Extension. The best number to reach me on is 727-421-4645. Thank you.

Shari Croteau

Dear Ms. Keane:

Thank you for attending the recent public workshop for the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation conducted by the Central Florida Expressway Authority (CFX). We had more than 430 people attend the November 19 workshop, with more than 220 submitting written comments that evening.

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the ~~study webpage. You're also welcome to contact me as the public~~

**Subject:** RE: PIR19-2003 CFX Osceola Parkway PD&E - Kim Buchheit Request

Hello Kim,

Thanks for your patience. Attached please find a summary of the previous meeting held with yourself, Glenn Pressimone and I.

After conferring with the GEC and study team, we have determined we do not have the records requested as we have not done any formal right-of-way mapping of title work for this study nor for the easements, etc., in the Split Oak Forest.

Thank you.  
Mary Brooks

**Subject:** Re: Osceola Parkway PDE Schedule

Mary-

Thank you for acknowledging your commitment to provide the notes.

Our meeting was a bit intense. As you may recall, I was caught off guard when Glenn effectively stated that CFX does not go through people's homes. I am sure that you can understand why I took offense to that statement and why I became upset.

I would like to have official documentation that our meeting occurred, who was there and what we talked about. In particular, when I specifically asked about the proposed roadway geometry, Glenn clearly stated that the roadway geometry for all of the proposed alignment curves met appropriate criteria and that they all "worked".

Also, I asked if I could obtain a copy of the title work that was being reviewed by the consultant. I had stated that I had already provided a reference for all the documents that I was aware of. For your use, I am attaching the comments I submitted in February of 2018 which confirms that I have already provided this information as a courtesy.

Please consider this my request for the title work that the consultant is reviewing for all of the matters that pertain to Split Oak Forest WEA in Orange and Osceola Counties, Glenn also mentioned that the consultant was mapping the Split Oak property showing all of the easements and other matters.

I would like to obtain a copy of that map with an overlay of the current alignments being considered. I understand that it is work in progress and is subject to change.

Let me know if you have any questions.

Thanks again.  
Kim Buchheit

Hello Kim,

The information is going out to everyone in the current and previous study databases, as well as to officials and advisory group members.

Please forward whatever specific questions you have and we will work with the agency and study team to find out what information is available for you.

Thanks.  
Mary Brooks

Mary and Kathy-

Thanks for sending.

I assume this went out to your overall project mailing list.

Did this include the Lake Ajay Village Community, Lake Mary Jane Alliance, Audubon, Sierra, etc.?

Also, who should I contact about more detailed engineering questions? I'd like to know a little more about the geometry and the proposed traffic flows

Thanks again. I hope that everyone sees the information and becomes acquainted with the project progress.

Have a good weekend.  
Kim Buchheit

<ProjectStudies@cfxway.com> wrote:

Good afternoon:

Thank you for your continuing interest in the Central Florida Expressway Authority's (CFX) Osceola Parkway Extension PD&E Study Re-evaluation. Due to recent conversations and possible confusion of our schedule and most current study exhibits including maps, we wanted you to know that we are committed to keeping our project information current and available on the study website. The most recent project information is posted and is dated November 2018.

As part of the study process, the alternatives continue to be refined as additional input is received via stakeholder meetings, as well as through environmental and engineering analysis. No alternative has been selected nor decisions made regarding the study. This spring, we will hold another public meeting where the updated information and exhibits will be presented. You will be notified once the date and location have been determined.

We appreciate your input and interest as public involvement remains an integral part of the study process.

Sincerely,  
Mary Brooks  
Public Involvement Coordinator

Dear Commissioner Siplin-

I am following up with you because you expressed an interest in obtaining additional information about the Osceola Parkway Extension PD&E Study being conducted by the Central Florida Expressway (CFX).

I have communicated with Mary Brooks, the Public Information Officer for CFX on Osceola Parkway Extension PD&E Study. I have included Mary in this email to you so that you may contact her on your own, if desired. I have always found Mary to be helpful and professional in all of my dealings with her over the years.

I have obtained the most current information available from CFX and I am forwarding the email thread which contains Mary's comments and a link to the most current information. She has responded to my inquiry and has stated,

"It appears some of the citizens who provided comments at the recent Orange County Board of County Commissioners' meeting were referencing exhibits from the previous Concept, Feasibility and Mobility Study and related stakeholder meetings. These previous exhibits do reference Alignment Refinement 1A; however, that specific alignment is not part of the current re-evaluation study. Again, the exhibit on the PD&E Study webpage identifies the most current and official alternatives being analyzed and evaluated."

To further clarify, there was information presented by members of the public at the 1/8/19 BCC Meeting that is out-of-date and misrepresents the current alignments under study.

Shari Croteau

For example, none of the alignments currently under consideration by CFX impact any part of the Lake Ajay Village Community, as can be confirmed from inspection of the official materials referenced by CFX. Therefore, it was incorrectly stated that an alignment which avoids Split Oak Forest will result in any taking of homes in Lake Ajay Village. I understood that was of concern to you.

I hope this factual information is helpful and I look forward to meeting with you in person to assist with a more thorough understanding of the relevant issues. I certainly appreciate your thoughtful consideration and your hard work on behalf of the citizens of Orange County and the people of the State of Florida.

Thank you very much-

Subject: RE: Current Alignment Alternatives Request- Osceola Parkway Extension

Hello Kim,  
Happy New Year!

The CFX Osceola Parkway Extension PD&E Study Re-evaluation exhibit dated November 2018 and posted on the study webpage is the most current and official map of the alternatives presently being analyzed and evaluated by the study. No alternative has been selected.

Alternatives continue to be refined as additional input is received via stakeholder meetings, as well as through environmental and engineering analysis. We anticipate having another update to the exhibit for the public meeting in the spring.

It appears some of the citizens who provided comments at the recent Orange County Board of County Commissioners' meeting were referencing exhibits from the previous Concept, Feasibility and Mobility Study and related stakeholder meetings. These previous exhibits do reference Alignment Refinement 1A; however, that specific alignment is not part of the current re-evaluation study. Again, the exhibit on the PD&E Study webpage identifies the most current and official alternatives being analyzed and evaluated.

We strive to regularly update, and encourage everyone to view the latest materials on the study webpage (<https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension-pde/>) though unfortunately previous exhibits are sometimes referenced out of context.

We believe this addresses your concerns. Please don't hesitate to contact me with additional questions.

Thank you.  
Mary Brooks

Subject: Current Alignment Alternatives Request- Osceola Parkway Extension

Hello-  
Happy New Year.

Is there anything more current than this Alignment Alternatives version from Nov. 2018?

[https://www.cfxway.com/wp-content/uploads/2018/12/OPE\\_PDE\\_Overview\\_Map-111518-2.jpg](https://www.cfxway.com/wp-content/uploads/2018/12/OPE_PDE_Overview_Map-111518-2.jpg)

At least two (2) people spoke up today at the Orange County Board of County Commissioners meeting this morning and made reference to Alignment Alternative 1A as identified in March of 2018. They seemed to be under the impression and were spreading information in a public forum regarding specific alignment geometry and area calculations. The information that was publicly displayed today was not consistent with the alignments that you currently have posted on the CFX website.

Has Alignment Refinement 1A been selected?

If so, kindly provide the verification of this.

If Alignment Refinement 1A has not been selected, please clarify the status of the Alignment Alternatives under consideration and please provide the materials that indicate the current alignments.

In addition, if Alignment Refinement 1A has not been selected, I would suggest that someone at CFX counsel various individuals to cease in their use of outdated materials and immediately discontinue the dissemination of misleading information to the public and decision makers.

You may view an example of the comments that seem to be based on out of date and misleading information here:

<http://otv.ocfl.net/otv/BCC2019/BCC010819/BCC010819C.mp4>

# Notes/History

Shari Croteau,

Date Range - Notes: All Dates; History: 1/1/2020 - 1/31/2020

1/8/2019 6:57 PM (...Continued) Shari Croteau

For example, Ms. Susan Arnold speaks at 6:04 on the ticker and shows the map at approximately 7:34.

Please send me the most current information to me. It is very confusing to attend Orange and Osceola County Board of County Commission Meetings and witness presentations by members of the public that are not consistent with the information that you have published on the official CFX website. This should not be occurring and I thought that you should be made aware.

I hope that you appreciate this information and can take the necessary steps to get control of the situation so that the public and decision makers can be properly informed.

Thank you for your diligence-

Great.  
Thanks again.

I'd still like a detailed schedule.  
Do you want me to request it?  
If so, who is the contact person on that?

Kim

Subject: Osceola Parkway Extension - Request to be on Mailing List and Detailed Project Schedule

Hi Mary-

This is regarding:  
Osceola Parkway Extension  
(From 417 to the Sunbridge Parkway)  
Project Environmental Impact Report Re-evaluation (Contract #001250)

I desire to be added to the "Project Mailing List" for the project referenced above.

I am making this request as outlined in Item 3.1.2 of the Scope of Services dated June 2018 ("Other informed parties who notify the CONSULTANT that they desire to be added to the mailing list").

Can you please provide me with the Consultant's contact information so that I can formalize this request? Or can you confirm that I will be added to the list?

Please add my email addresses:  
kimberlybuchheit@gmail.com  
kbuchheit@buchheitassoc.com

For Mailing Address:  
Buchheit Associates, Inc.  
PO Box 2016  
Apopka, FL 32704

Also, could you please provide me with a copy of the Detailed Project Schedule submitted by the Consultant?

A pdf file of the printed version is fine. I would like to see the detailed tasks and the dependencies. The Schedule posted online is just a very generalized graphic.

I am trying to plan my schedule for the project period and would like to be sure that I can be fully available to participate when critical milestones are projected. For this reason, I would also like to be added to the distribution list to receive Schedule Updates, if possible.

If you have any questions, feel free to contact me.

I hope that all is well with you.

Thanks!  
Kimberly A. Buchheit, PSM

Subject: Acknowledgement of Osceola Parkway Extension PD&E Study Re-evaluation Comment

Shari Croteau

Dear Mrs. Knight:

Thank you for attending the recent public workshop for the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation conducted by the Central Florida Expressway Authority (CFX). We had more than 430 people attend the November 19 workshop, with more than 220 submitting written comments that evening.

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

-----------	----------	---	---------------

Good afternoon:

Thank you for your continuing interest in the Central Florida Expressway Authority's (CFX) Osceola Parkway Extension PD&E Study Re-evaluation. Due to recent conversations and possible confusion of our schedule and most current study exhibits including maps, we wanted you to know that we are committed to keeping our project information current and available on the study website. The most recent project information is posted and is dated November 2018.

As part of the study process, the alternatives continue to be refined as additional input is received via stakeholder meetings, as well as through environmental and engineering analysis. No alternative has been selected nor decisions made regarding the study. This spring, we will hold another public meeting where the updated information and exhibits will be presented. You will be notified once the date and location have been determined.

We appreciate your input and interest as public involvement remains an integral part of the study process.

Sincerely,

Mary Brooks  
Public Involvement Coordinator

Dear Calli:

Thank you for your comment regarding the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation being conducted by the Central Florida Expressway Authority (CFX).

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

-----------	----------	--	---------------

Good morning:

Thank you for your continuing interest in the Central Florida Expressway Authority's (CFX) Osceola Parkway Extension PD&E Study Re-evaluation. Due to recent conversations and possible confusion of our schedule and most current study exhibits including maps, we wanted you to know that we are committed to keeping our project information current and available on the study website. The most recent project information is posted and is dated November 2018.

As part of the study process, the alternatives continue to be refined as additional input is received via stakeholder meetings, as well as through environmental and engineering analysis. No alternative has been selected nor decisions made regarding the study. This spring, we will hold another public meeting where the updated information and exhibits will be presented. You will be notified once the date and location have been determined.

We appreciate your input and interest as public involvement remains an integral part of the study process.

Sincerely,  
Mary Brooks  
Public Involvement Coordinator

Shari Croteau

Dear Ms. Little:

Thank you for attending the recent public workshop for the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation conducted by the Central Florida Expressway Authority (CFX). We had more than 430 people attend the November 19 workshop, with more than 220 submitting written comments that evening.

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

To: Mary Brooks <Mary.Brooks@qcausa.com>, kathy.putnam@qcausa.com <kathy.putnam@qcausa.com>

Good afternoon:

Thank you for your continuing interest in the Central Florida Expressway Authority's (CFX) Osceola Parkway Extension PD&E Study Re-evaluation. Due to recent conversations and possible confusion of our schedule and most current study exhibits including maps, we wanted you to know that we are committed to keeping our project information current and available on the study website. The most recent project information is posted and is dated November 2018.

As part of the study process, the alternatives continue to be refined as additional input is received via stakeholder meetings, as well as through environmental and engineering analysis. No alternative has been selected nor decisions made regarding the study. This spring, we will hold another public meeting where the updated information and exhibits will be presented. You will be notified once the date and location have been determined.

We appreciate your input and interest as public involvement remains an integral part of the study process.

Sincerely,  
Mary Brooks  
Public Involvement Coordinator

Shari Croteau

Dan:

I worked with Glenn and just sent Brian the following:

Brian:

I talked with Glenn about OBJ reporter Ryan Lynch's questions regarding the Orange County BCC meeting tomorrow. He and I suggest the following replies. Ryan said he did not have a hard deadline.

How many of the plans that were previously presented will be presented at the BCC meeting? Just one or a few of the options? Kathy Putnam spoke with the reporter and let him know that we didn't know what was being presented tomorrow as it's an Orange County Commission work session and we're not presenting.

How much has the project changed since March when public hearings were held? What came out of the concept study was a refined alignment that impacted Split Oak Forest. As part of this study re-evaluation, we're looking for avoidance or minimization alignments. The study team expects to have updated alternatives maps for the Osceola Parkway Extension by the end of the year and are working to schedule a public meeting by spring of 2019.

When is the parkway expected to have its final destination mapped out and ready for construction to begin? We anticipate the study results will go to the Central Florida Expressway Authority (CFX) Board in May 2019. If the Board decides that the project should move to the design phase, you could expect 18 to 24 months for design then a number of months for potential right of way acquisition, advertising for a contractor, etc. It could be up to five years before construction begins if the CFX Board approves the project.

Thanks,  
Kathy Putnam

Brian,

Today is the first that we have knowledge of the Orange County BCC meeting and are not aware that a presentation is to be made. I am aware that Commissioner Hawkins was in the CFX offices on Friday and that Glenn was attempting to meet with him. Just speculation on my part that perhaps the Commissioner is doing the update. So, not certain as to the depth of information that can be provided to Ryan Lynch's questions.

Some suggested material can be found below. Glenn should have the final call on input.

10/29/2018 5:14 PM Dan Kristoff/Kathy Putnam drafted the answers to the following questions: Shari Croteau

Hello Brian,

I'm Ryan Lynch of the Orlando Business Journal. I was just reaching out about the Osceola Parkway Extension work session at the Orange County BCC meeting tomorrow and I had a few questions. I do understand this is just informational and no decisions will be made on the expansion. I will leave below. Thank you.

How many of the plans that were previously presented will be presented at the BCC meeting? Just one or a few of the options?

CFX has entered a contract with a consulting firm to evaluate the Osceola Parkway Expressway Authority's (OCX) previous PD&E Study preferred alternative and the concepts that were studied in the CFX Concept Feasibility and Mobility Study. The study team is then to present the most appropriate alignment alternatives to the CFX staff for consideration. Those prior study alternatives are currently being assessed with a goal to reduce the number of alternatives to no more than two or three. The study team has not formally presented those to the CFX staff. Therefore

How much has the project changed since March when public hearings were held?

At this point in time the project itself has not changed from the original purpose, which is to assist in meeting future regional transportation east-west connectivity needs. The current study team is assessing the information from both studies with the task of recommending the most appropriate alignment for the extension of the Osceola Parkway. The study team will continue to meet with stakeholders, secure input from an Environmental Advisory Group and a Citizens Advisory Group, which will be followed by a presentation of potential alignments at an open public meeting. The project is to provide an expressway type facility from SR 417 near the Boggy Creek Road interchange to a location just east of the Split Oak Forest Conservation property.

When is the parkway expected to have its final destination mapped out and ready for construction to begin?

The current schedule is to have a formal presentation of the study findings to the CFX Board in the early spring of 2019. Should the CFX staff find merit for a concept alignment to extend the Parkway, it will be presented to the CFX Board in the Spring of 2019. The time line for final plans development and construction will not be addressed prior to CFX Board adoption of a preferred alignment.

Subject: Acknowledgement of Osceola Parkway Extension PD&E Study Re-evaluation Comment

Shari Croteau

Dear Mr. Mathis:

Thank you for attending the recent public workshop for the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation conducted by the Central Florida Expressway Authority (CFX). We had more than 430 people attend the November 19 workshop, with more than 220 submitting written comments that evening.

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Subject: Acknowledgement of Osceola Parkway Extension PD&E Study Re-evaluation Comment

Shari Croteau

Dear Mr. Moon:

Thank you for your comment regarding the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation being conducted by the Central Florida Expressway Authority (CFX).

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Subject: Acknowledgement of Osceola Parkway Extension PD&E Study Re-evaluation Comment

Shari Croteau

Dear Ms. Moon:

Thank you for your comment regarding the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation being conducted by the Central Florida Expressway Authority (CFX).

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Shari Croteau

Good Morning,

I would like to request information for the following project. Thank you in advance for your assistance!

### Osceola Parkway Extension

1. What is the status of the PD&E?
2. Has a recommended alignment been selected? If so, which one?
3. When will the PD&E be available (preliminary and/or final)?

Thank you in advance for your assistance.

Wendy L. Nelson

**Subject:** RE:CFX OSCEOLA PARKWAY EXTENSION

Hello Catherine,

As the public involvement coordinator for the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation being conducted by the Central Florida Expressway Authority, your query was forwarded to me.

Robust key stakeholder engagement has been underway on the study in order to further refine the parkway alternatives. Due to the feedback received and latest alternative evaluations, we are working currently to schedule a public meeting on Nov. 19.

We will be sending details on the meeting out shortly to property owners, as well as those who've asked to be added to the study database. We also will be posting the latest information on the study webpage in the coming weeks.

You can check for updates on the study webpage at:  
<https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension-pde/>

Stay tuned for more information soon. Thank you.

Hello Ms. Newman,

Thanks for taking the time to write to us regarding the Central Florida Expressway Authority's Project Development and Environment (PD&E) Re-evaluation Study of the Osceola Parkway Extension.

CFX in July began the study, which is expected to take eight-nine months to complete.

CFX is conducting a re-evaluation of the Project Environmental Impact Report (PEIR) for the proposed Osceola Parkway Extension. This CFX PD&E study will review and re-evaluate the recommended alternative of the Osceola County Expressway Authority's (OCX) PD&E Study (completed in 2017) in comparison with the proposed alternatives and findings of the recent CFX Concept, Feasibility and Mobility Study to assess and recommend a further, refined alternative.

You can find information about the PD&E re-evaluation study, which is in its very early stages, on the study webpage at the following link:

[<https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension-pde/>](https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension-pde/)

We've also attached the study fact sheet here for your information. You also can follow the study activities on the following Facebook page:

@OsceolaPkwExtPDE

As we are early in the study process, *no decisions have been made*. The study team will be providing numerous opportunities for the public to provide input on the alternatives to be evaluated. A public meeting will be held in December; details to follow.

The study team will be looking at previous alternatives in more detail, as well as developing and evaluating new alternatives. To review the map and alternatives from the previous Concept, Feasibility and Mobility Study, click on the following link: [<https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension/>](https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension/)

Hello Ms. Newman,

The Osceola Parkway Extension PD&E Study is scheduled to conclude in the spring of 2019. The CFX Board's decision on whether any recommended alternative should move forward would have to take place at that time.

If the Board approves moving forward, design would be estimated to begin in late 2019-2020. Design can take up to two years, and usually gets to at least 60 percent completion before right of way acquisition would commence.

I hope you find this information helpful. Thank you.

Shari Croteau

Hello Ms. Newman,  
Thanks for taking the time to write to us regarding the Central Florida Expressway Authority's Project Development and Environment (PD&E) Re-evaluation Study of the Osceola Parkway Extension.

CFX in July began the study, which is expected to take eight-nine months to complete.

CFX is conducting a re-evaluation of the Project Environmental Impact Report (PEIR) for the proposed Osceola Parkway Extension. This CFX PD&E study will review and re-evaluate the recommended alternative of the Osceola County Expressway Authority's (OCX) PD&E Study (completed in 2017) in comparison with the proposed alternatives and findings of the recent CFX Concept, Feasibility and Mobility Study to assess and recommend a further, refined alternative.

You can find information about the PD&E re-evaluation study, which is in its very early stages, on the study webpage at the following link:  
<https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension-pde/>

We've also attached the study fact sheet here for your information. You also can follow the study activities on the following Facebook page:  
[@OsceolaPkwyExtPDE](#)

As we are early in the study process, no decisions have been made. The study team will be providing numerous opportunities for the public to provide input on the alternatives to be evaluated. A public meeting will be held in December; details to follow.

The study team will be looking at previous alternatives in more detail, as well as developing and evaluating new alternatives. To review the map and alternatives from the previous Concept, Feasibility and Mobility Study, click on the following link: <https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension/>

Once the study is completed, the findings will be reviewed by the CFX Board. If the Board approves the project to move forward, design of the project would begin and take approximately two years. Once the design plans reach about 60 percent completion, the right of way acquisition process would begin.

I hope you find this information helpful. Please feel free to contact me as noted below for additional information. Thank you.

Shari Croteau, for  
Mary Brooks, Public Information Coordinator

Shari Croteau

Dear Nguyen:

Thank you for your comment regarding the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation being conducted by the Central Florida Expressway Authority (CFX).

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

12/1/2019 12:04 PM RUTH NICHOLS <rutharella@comcast.net>  
Sun 12/1/2019 12:04 AM  
Attention: Study Team Members -

Shari Croteau

I am writing in opposition to the construction of a toll road through any part of Split Oak Forest WEA.

As everyone knows - Split Oak Forest WEA was acquired in 1994 with funds received through the Florida Fish and Wildlife Conservation Commission's Mitigation Park Program, and is currently being managed by the FWC, in cooperation with Orange and Osceola Counties. According to the FWC, "...SOFWEA was acquired and established for the purpose of conserving natural and cultural resources, and for conserving wildlife species habitat as a conservation measure designed to offset environmental impacts caused by existing and proposed development,..." ( <https://myfwc.com/media/16063/sofweamp2016-2026.pdf> )

For 25 years SOFWEA has provided a safe haven for threatened species, while offering residents of the greater Orlando-metro area a place to recreate and commune with nature. County officials and the CFX have had more than enough time to plan for new development surrounding SOFWEA - time to ensure that SOFWEA would remain protected in perpetuity. But, now the integrity of this vital gopher tortoise habitat and public recreation land is at risk.

Please consider alternate routes. Thank you.

Regards, RN

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Shari Croteau

Dear Mr. and Mrs. Odena:

Thank you for attending the recent public workshop for the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation conducted by the Central Florida Expressway Authority (CFX). We had more than 430 people attend the November 19 workshop, with more than 220 submitting written comments that evening.

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Shari Croteau

Hello Mr. Patel:

We did a little research and found that the property you and I discussed on Nov. 26 (Parcel ID 012530330800010060) is not expected to be directly impacted by the recommended preferred alternative for the Osceola Parkway Extension.

The property you're interested in is depicted below within the blue outline. It is in Osceola County. The currently recommended preferred alternative for the OPE is shaded in pale green, in Orange County on the former Poitras property (now Tavistock).

Kathy,

See below graphic

The property for which Mr. Patel has an interest is depicted below within the blue outline. It is in Osceola County. The currently recommended alignment for the OPE is shaded in pale green, in Orange County on the former Poitras property (now Tavistock). Technically, there is no anticipated taking of land from the parcel in question.

**Subject:** Fw: Need information please.

Dan or Kelsey:

Would you look at the email below and let me know if the property he refers to would be directly impacted by the Recommended Preferred Alternative? I looked on the map and I think the property isn't directly impacted, but wanted to touch base with you first. The parcel ID for the property he's looking at is 012530330800010060. I know we can't advise him, but I do want to let him know if this parcel is directly impacted by the alternative.

Thanks,  
 Kathy Putnam

Respected Person  
 My name is Kiran. I am a Orlando; Florida resident. I heard about Osceola Parkway Extension news. I am planing to purchase a 5 Acres land in Kissimmee, FL:34744. This Land is located next to property address 4191 High Plains LN, Kissimmee, FI:34744. It will be a big inverstment for me. I need your knowledge and expertise to find out if it will be Safe or not to buy this property. I will be really appreciated if you give me more information as soon as possible before i purchase this property. Thank you for your time.

From:  
 Kiran

Subject: Acknowledgement of Osceola Parkway Extension PD&E Study Re-evaluation Comment

Shari Croteau

Dear Mr. Phillips:

Thank you for your comment regarding the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation being conducted by the Central Florida Expressway Authority (CFX).

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Hello Ms. Phillips:

You, Jim Phillips, Steven Barnick and Napoleon Estrada are the listed Lake Ajay members of the Project Advisory Group. Please note paragraph three in the attached invitation letter that you received last Thursday: One person from each PAG member organization may sit at the discussion table.

We do this so we have enough room for a representative from each PAG organization. We strongly encourage non-PAG members to come to the November 19 public workshop at Lake Nona Middle School. You should have also received the invitation letter to that event on Thursday.

As noted in the PAG invitation letter, please let us know by November 12 which Lake Ajay PAG members plan on attending the PAG meeting.

Thanks for your participation.

Thank you for your comment regarding the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation being conducted by the Central Florida Expressway Authority (CFX).

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Hello Cierra,

Brian Hutchings at CFX forwarded your request for information on the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation to me as the public involvement coordinator.

I called and left you a couple of voicemails, and wanted to also provide you with some information to address your questions. We can also discuss scheduling an interview this week on the study:

1. "The website says the board approved advancing it to the Project Development and Environment study phase. Is that the case?"
  - A. Yes
2. If yes, when is that study expected to be complete?
  - A: The PD&E Study is scheduled to hold Environmental Advisory Group and Project Advisory Group meetings on May 14 at CFX. The public workshop on the study to review the evaluation of the latest alternatives in July, tentatively July 23. The public workshop input and refined alternative evaluation will go to the CFX Governing Board for consideration in August-September to decide whether or not to move the recommended alternative forward to design and construction.
3. When is the next time the board will discuss the extension?
  - A. See above
4. When is the next time there will be a public hearing about the extension?
  - A. See No. 2

I look forward to discussing this further with you at your convenience. Thank you.

Mary Brooks

Hello Ms. Riethmiller,

Thank you for your patience in allowing us to get this summary of our field meeting to you. We are experiencing a high volume of requests for information about the CFX Osceola Parkway Extension PD&E Study Re-evaluation.

As we discussed, you're welcome to contact me directly with additional questions or concerns.

We are planning a public workshop on the latest alternatives for the study at the end of February; you will be receiving notification once those details are finalized.

In the meantime, you can find information on the study at the following study webpage: <https://www.cfxway.com/agency-information/plans-studies/project-studies/osceola-parkway-extension-pde/>

Thank you for your input into this study. I have shared your comments with the study team for their consideration.

Much obliged and take care.

Subject: RE: CFX Osceola Parkway Extension PD&E Re-evaluation Study - Field meeting request

Hello Annamarie,

Thanks for your correspondence. I haven't had a chance to finish our field meeting summary, but hope to do so soon and will provide that to you.

The public meeting for the Osceola Parkway Extension PD&E Study Re-evaluation is not scheduled until late February, most likely. You would receive a notification letter on that after the New Year.

Thank you.  
Mary Brooks

Dear Ms Brooks

Thank you so much for your site visit. I appreciate you taking the time and look forward to the report you kindly advised I would receive a copy of. In addition, I have not received an alert as to meetings, which I shall be most grateful to receive.

Kind regards  
Annamarie Riethmiller

 - Field meeting request  
 When: Friday, September 28, 2018 1:30 PM-2:30 PM.  
 Where: 5900 Cyrils Dr, near Epshire

Dan and John,

FYI, I've had a field meeting request from Ms. Riethmiller below, 5900 Cyrils Dr. I will be meeting with her Friday, Sept. 28 at 130 p.m.

She said the newest plans go through her property, she wants to ask about that, and she is wondering about one of the areas that goes through some wetlands. She wants to know if they are going to build a critter crossing.

I will need a roll plot or something showing whatever alternatives are available to share. Please advise what we'll have - thanks.

Mary,  
An Anna Marie (?) Ryslinder(?) called wanting to meet with you about the Osceola Parkway Extension. She said the newest plans go through her property, she wants to ask about that, and she is wondering about one of the areas that goes through some ?wetlands?, she wants to know if they are going to build a critter crossing?

I told her I would send you the information and you can call her with the information, but she is adamant that she wants to meet with you. So give her a call and you can decide how to proceed. Her number is 407-375-7840.

Thanks!  
Shari Croteau

Shari Croteau

Dear Mr. Rivera:

Thank you for attending the recent public workshop for the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation conducted by the Central Florida Expressway Authority (CFX). We had more than 430 people attend the November 19 workshop, with more than 220 submitting written comments that evening.

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Subject: RE: New Voicemail from 4077448002 - 4077448002

Hi, Kathy.

I just got off the phone with Ms. Rodriguez, please find recap below for PI updates:

- Name: Carydad Rodriguez
- Email: [Caryr215@gmail.com](mailto:Caryr215@gmail.com) <<mailto:Caryr215@gmail.com>>
- Phone Number: 407-744-8002

PIO spoke to Spanish-speaking only stakeholder. PIO explained expected project limits and went over letter sent to property owners. Stakeholder expressed hesitation to go to meeting because of non-Spanish resources, but PIO reassured her that translators will be present to answer any questions.

Stakeholder also expressed how she drives this route daily and the alleviation the proposed expressway would provide. PIO stated that this is one of the reasons we do the public workshop to look at all alternatives and get feedback from people living in the area. Stakeholder said this is great and will speak to her neighbors that also received letter to try and make the public workshop.

PIO took down Ms. Rodriguez email: [Caryr215@gmail.com](mailto:Caryr215@gmail.com) <<mailto:Caryr215@gmail.com>> and provided to principal for project for all future project updates. Ms. Rodriguez asked if she could follow up with PIO if she had any future questions and PIO said that is not a problem.

Please give him (her?) a call and explain what it is. I've attached the letter that was sent to property owners for next Tuesday's OPE public workshop. Please let her know there will be translators there. Please give us a recount of your conversation after your call. We need it for the PI Update and the database.

Subject: Acknowledgement of Osceola Parkway Extension PD&E Study Re-evaluation Comment

Shari Croteau

Dear Mr. Rodriguez:

Thank you for your comment regarding the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation being conducted by the Central Florida Expressway Authority (CFX).

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway. It also approved agreements for right of way associated with the project and as well as the conveyance of the donation of 1,550 acres of conservation land located just to the east of Split Oak Forest.

The Osceola Parkway Extension has been identified as a need in several local, long-range plans and master plans. The former Osceola County Expressway Authority (OCX) completed a PD&E Study in May 2017 for the Osceola Parkway Extension and presented a recommended alternative.

CFX's enabling legislation (Senate Bill 230, Ch. 2014-171) incorporated the parkway extension and other portions of the OCX 2040 Master Plan into the CFX 2040 Master Plan. In 2018, CFX completed a Concept, Feasibility, and Mobility Study for the Osceola Parkway Extension and concluded the project is viable under CFX criteria. In July 2018, CFX officially began a re-evaluation of the OCX PD&E Study and its adopted alternative. The input provided through the public outreach, including stakeholder meetings, site tours and advisory group meetings, has been a major component of CFX's PD&E Study Re-evaluation.

Again, we thank you for your input. For more information, check out the study webpage. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Shari Croteau

Dear Mr. Rodriguez:

Thank you for attending the recent public workshop for the Osceola Parkway Extension Project Development and Environment (PD&E) Study Re-evaluation conducted by the Central Florida Expressway Authority (CFX). We had more than 430 people attend the November 19 workshop, with more than 220 submitting written comments that evening.

We appreciate your input. Your written comments, received by the end of the November 30, 2019 public comment period, are part of the public workshop record for the study re-evaluation. They were considered during the final evaluation of the preferred alternative. The comment period ended on November 30, 2019.

On December 12, 2019, the CFX Governing Board approved the recommended preferred alternative for the planned 9-mile expressway.
