PUBLIC HEARING

CENTRAL FLORIDA EXPRESSWAY AUTHORITY

Poinciana Parkway Extension
Project Development and Environment Study

Project Development & Environment Study

POINCIANA PARKWAY EXTENSION

Summer 2019

PROJECT DESCRIPTION

The Central Florida Expressway Authority (CFX) is conducting a Project Development and Environment (PD&E) Study for the proposed Poinciana Parkway Extension. The study is looking at extending the Poinciana Parkway to County Road (CR) 532 at the Osceola County/Polk County line.

UPDATES SINCE MARCH 2019 PUBLIC MEETING

More than 160 people attended an alternatives public workshop on March 14, 2019 at Poinciana High School. Three study alternatives – Alternatives 1A, 4A and 5A – and a comparative evaluation matrix were presented for public review and comments. Following the public meeting, the study team further evaluated these alternatives.

The original Alternative 4 was intended to provide reduced impacts to the Reedy Creek Mitigation Bank compared to Alternative 5. However, due to refinements to the alignments, Alternative 4A resulted in more impacts to the Reedy Creek Mitigation Bank than 5A, and was eliminated from further consideration.

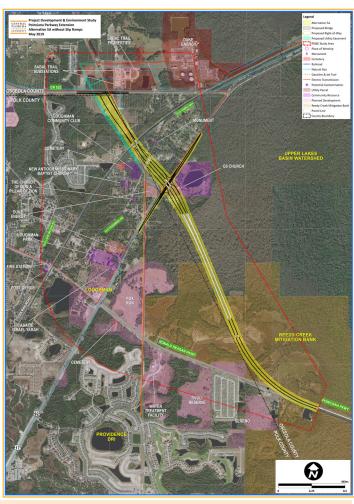

Based on input from the study's Project Advisory Group,
slip ramps to and from Ronald Reagan Parkway were added to Alternative 5A. These ramps resulted in more impacts to the Reedy Creek Mitigation Bank, more impacts to residential parcels, higher project costs and lower traffic volumes.

ore impacts to residential parcels, higher project costs and lower traffic volumes.

Alternative 1A had more impacts to residential parcels, higher project costs and lower traffic volumes than Alternative 5A.

After evaluating the alternatives, the study team proposes to advance Alternative 5A without slip ramps as the preferred alternative. This alternative has the lowest social impacts, and lower natural impacts than would occur if the slip ramps are added. This alternative also has the lowest total cost and the highest traffic volume. This helps with the financial feasibility of the project since it is a tolled roadway.

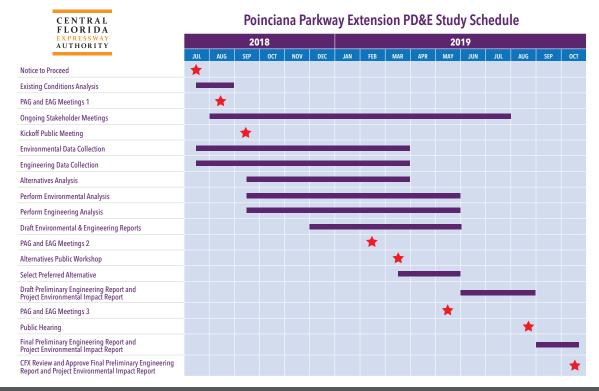

PUBLIC INVOLVEMENT

Public involvement and community engagement are a crucial component of this study. We value your input. CFX is providing multiple opportunities for participation, including a public hearing scheduled on August 29, **2019** from 5:30 p.m. – 8:00 p.m. at the Poinciana High School, 2300 S. Poinciana Blvd., Kissimmee, FL 34758. Community groups can request a presentation via the CFXWay.com website or by emailing Public Involvement Coordinator Mary Brooks at ProjectStudies@CFXWay.com. You're also welcome to submit your comments via the website or project email address. And follow the study on Facebook for updates.

The PD&E study began in July 2018 and is expected to finish in fall of 2019. A graphic of key study milestones is shown here.

PROJECT GOALS

The goals of this proposed 3-mile, limited-access facility include improving the roadway connections from CR 532 to the greater Poinciana area, enhancing mobility of the area's growing population and economy, relieving congestion on local roads and promoting regional connectivity.

AVISO DE AUDIENCIA PÚBLICA ESTUDIO
DE DESARROLLO Y MEDIO AMBIENTE DE
PROYECTOS (PD&E) DE CFX POINCIANA
PARKWAY EXTENCIÓN (EXTREMO NO RTE DE
POINCIANA PARKWAY HASTA CR 532) CFX
NÚMERO DE PROYECTO: 599-224
La Autoridad de Autopista de Florida
Central está proporcionando una
qualiencia pública sobre el estudio

La Autoridad de Autopista de Florida Central está proporcionando una audiencia pública sobre el estudio previsto para el jueves, 29 de agosto de 2019 de 5:30 p.m. a 8:00 p.m. en la escuela superior de Poinciana, 2300 South Poinciana Boulevard, Klssimmee, FL 34758.

La segunda reunión pública de alternativas sobre el estudio se llevó a cabo el 14 de marzo de 2019. A raiz de los comentarios de dicha reunión, como también del público en general, locales, evaluaciones ambientales, culturales, sociales y costos considerados, la alternativa preferida ha sido seleccionada y se presentará en la audiencia pública pautada para el 29 de agosto. Los asistentes tendrán una oportunidad final para comentar sobre los estudios económicos, sociales e Impactos del medio ambiental.

El propósito del estudio es para determinar si la vía de acceso entre el extremo norte de Polinciana Parkway hasta la Carretera 532 en la línea dívisora de los condados Osceola y Polk es necesaria y financiable según las políticas y procedimientos de CFX.

Los documentos del estudio estarán disponíbles para vista pública desde el 8 de agosto hasta el 9 de septiembre en la página web https://blt.ly/2ECX9a y en las siguientes localidades:

- La Autoridad de Autopista de Florida Central 4974 ORL Tower Road, Orlando, FL 32807 Lunes – Viernes: 8 a.m. – 5 p.m.

PUBLIC MEETING NOTICE CFX PROJECT DEVELOPMENT AND ENVIRONMENT (PD&E) STUDY Poinciana Parkway Extension CFX Project Number: 599-224

The Central Florida Expressway Authority (CFX) is conducting a Project Development and Environment (PD&E) Study for the proposed Poinciana Parkway Extension, as identified in our 2040 Master Plan. The study will determine if a limited access facility between the north end of the Poinciana Parkway bridge over the Reedy Creek Mitigation Bank and County Road 532 at the Osceola County/Polk County line is viable and fundable in accordance with CFX policies and procedures.

CFX will hold a public meeting for this study on Thursday, March 14, from 5:30 p.m. to 7:30 p.m. in the cafeteria of Poinciana High School, located at 2300 South Poinciana Boulevard, Kissimmee, FL 34758. The meeting will be held in an open house format and community members may come at any point during the meeting time to view the exhibits, ask questions and provide comments. A looping audiovisual presentation providing an overview of the study will be available for viewing throughout the meeting.

The overall goals of this project are to improve roadway connections from CR 532 to the greater Poinciana area; reduce congestion and delays on local roads; accommodate anticipated transportation demand; provide consistency with local and regional plans; support economic vitality and lob creation; support intermodal opportunities; and enhance evacuation and emergency services.

Initial PD&E study alternatives were presented for public input at the last public meeting held on September 25, 2018. Based on the input we received, the alternatives have been further refined.

The exhibits that will be on display include the three study alternatives and their potential impacts to the physical, natural, social and cultural environment. Public involvement and interagency coordination have been an integral part of the assessment process, and opportunities for participation will continue throughout the duration of the study process.

If you have questions or would like more information about the study, please contact Mary Brooks, Public Involvement Coordinator, by phone at 407-802-3210, or by email at ProjectStudies@CFXway.com, or go to https://bit.ly/2KECX9a to visit the study webpage.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons who require accommodations under the Americans with Disabilities Act or persons who require translation services, free of charge, should contact Ms. Putnam as noted above at least seven (7) days prior to the meeting.

PUBLIC MEETING NOTICE CFX PROJECT DEVELOPMENT AND ENVIPONMENT (PD&E) STUDY Poinciana Parkway Extension CFX Project Number: 599-224

The Central Florida Expressway Authority (CFX) is conducting a Project Development and Environment (PD&E) Study for the proposed Poinciana Parkway Extension, as identified in our 2040 Master Plan. The study will determine if a limited access facility between the north end of the Poinciana Parkway bridge over the Reedy Creek Mitigation Bank and County Road 532 at the Osceola County/Polk County line is viable and fundable in accordance with CFX policies and procedures.

CFX will hold a public meeting for this study on Thursday, March 14, from 5:30 p.m. to 7:30 p.m. in the cafeteria at Poinciana High School, located at 2300 South Poinciana Boulevard, Kissimmee, FL 34758. The meeting will be held in an open house format and community members may come at any point during the meeting time to view the exhibits, ask questions and provide comments. A looping audiovisual presentation providing an overview of the study will be available for viewing throughout the meeting.

The overall goals of this project are to improve roadway connections from CR 532 to the greater Poinciana area; reduce congestion and delays on local roads; accommodate anticipated transportation demand; provide consistency with local and regional plans; support economic vitality and lob creation; support intermodal opportunities; and enhance evacuation and emergency services.

Initial PD&E study alternatives were presented for public input at the last public meeting held on September 25, 2018. Based on the input we received, the alternatives have been further refined.

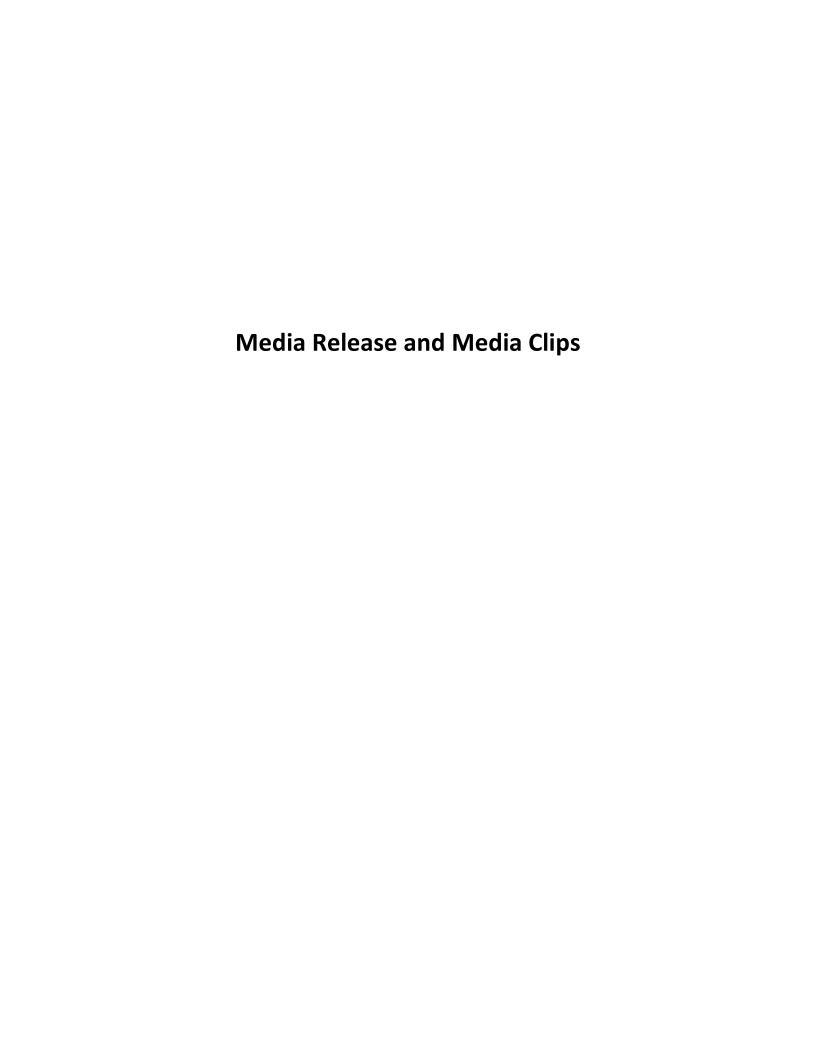

The exhibits that will be on display include the three study alternatives and their potential impacts to the physical, natural, social and cultural environment. Public involvement and interagency coordination have been an integral part of the assessment process, and opportunities for participation will continue throughout the duration of the study process.

If you have questions or would like more information about the study, please contact Mary Brooks, Public Involvement Coordinator, by phone at 407-802-3210, or by email at ProjectStudies@CFXway.com, or go to https://bit.ly/2KECX9a to visit the study webpage.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons who require accommodations under the Americans with Disabilities Act or persons who require translation services, free of charge, should contact Ms. Putnam as noted above at least seven (7) days prior to the meeting.

PUBLIC HEARING SCHEDULED FOR POINCIANA PARKWAY EXTENSION STUDY

(ORLANDO, FL) – The <u>Central Florida Expressway Authority</u> (CFX) is holding a public hearing for the Poinciana Parkway Extension Project Development and Environment (PD&E) Study. The study will determine if a limited access facility between the north end of Poinciana Parkway to County Road 532 at the Osceola County/Polk County line is viable and fundable in accordance with CFX policies and procedures.

The overall goals of the Poinciana Parkway Extension are to provide improved connections between area roads; accommodate anticipated transportation demand; provide consistency with local and regional plans; support economic viability and job creation; support intermodal opportunities; and enhance evacuation and emergency services.

The public hearing will be held on:

Thursday, August 29, 2019
 5:30 p.m. to 8:00 p.m.
 Poinciana High School
 2300 South Poinciana Boulevard
 Kissimmee, FL 34758

Following the formal presentation, attendees who fill out a speaker's card will be given the opportunity to make an oral statement that will become part of the public hearing record. People may also submit written comments. All comments received or postmarked by September 12, 2019 will become part of the hearing record. A court reporter will be present to record a formal transcript of the hearing.

The study documents will be available for public viewing from August 8, 2019 through September 12, 2019 on the study webpage at https://bit.ly/2KECX9a and at the following locations:

- Central Florida Expressway Authority
 4974 ORL Tower Road, Orlando, FL 32807
 Monday Friday: 8 a.m. 5 p.m.
- Poinciana Library
 101 N. Doverplum Avenue, Kissimmee, FL 34758
 Monday Thursday: 9 a.m. 9 p.m.
 Friday and Saturday: 9 a.m. 6 p.m.
 Sunday: 12 p.m. 6 p.m.

Haines City Library

111 N. 6th Street, Haines City, FL 33844

Monday: 10 a.m. - 7 p.m. Tuesday: 10 a.m. - 8 p.m.

Wednesday and Thursday: 10 a.m. - 6 p.m.

Friday: 10 a.m. - 5 p.m. Saturday: 10 a.m. - 3 p.m.

Sunday: Closed

For additional information concerning this study, please contact Mary Brooks, Public Involvement Coordinator, by calling 407-802-3210, by emailing ProjectStudies@CFXway.com, or click here to visit the study webpage.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons who require accommodations under the Americans with Disabilities Act or persons who require translation services, free of charge, should contact Ms. Brooks as noted above at least seven (7) days prior to the meeting.

About the Central Florida Expressway Authority CFX

The Central Florida Expressway Authority (CFX) is an independent agency of the State of Florida that operates and maintains a regional network of expressways for 3 million residents of Brevard, Lake, Orange, Osceola and Seminole counties and more than 75 million annual visitors to Central Florida. CFX's 118-centerline mile, user-funded system which includes, 69 interchanges, 17 mainline toll plazas, 74 ramp toll plazas and 339 bridges. On average, more than 1.3 million toll transactions are recorded daily, nearly 90 percent of them electronically. CFX operates E-PASS, the first electronic toll collection system in Florida, with nearly 500,000 E-PASS accounts. For more information, visit CFXway.com.

Officials make case for Poinciana Parkway extension

Posted on Wednesday, September 4, 2019 at 2:45 pm

By STEVEN RYZEWSKI | Executive Editor

POINCIANA — On August 29, the Central Florida Expressway Authority held an open house and public comment hearing at Poinciana High School.

The topic of discussion was a proposed expansion of the Poinciana Parkway, a project that — if undertaken — would represent a significant step toward connecting the roadway to Interstate 4. Currently, the Poinciana Parkway is a 7.2-mile toll road that begins at Cypress Parkway on its south end and travels north-northwest, turning into Kinney Harmon Road at its north end about three-quarters of a mile southeast of the U.S. 17-92 intersection. Originally built for use in 2016 by the then-Osceola County Expressway Authority, the toll road features all-electronic tolling as well as a 6,200-foot portion of the highway that is an elevated bridge over the Reedy Creek Swamp and other wetlands.

In 2018, the Osceola County Expressway Authority dissolved and turned control of its entities over to the Central Florida Expressway Authority.

The Project Development and Environmental Study that the Central Florida Expressway Authority has

commissioned seeks to connect the road roughly three miles further north, toward Interstate 4, at Osceola Polk Line Road (County Road 532).

Mary Brooks, the Public Involvement Coordinator for the study on behalf of the Expressway Authority, says the project is important for a number of reasons, as it represents a step toward the larger goal of connectivity to I4, but also should help to alleviate traffic in Poinciana in the meantime.

"The Poinciana area has been one of the fastest growing in Florida for years — they have probably one of the worst commutes in the country," Brooks said. "There are very few ways to get out of that community and it's pretty horrific during peak hours."

Brooks and other officials utilized the meeting and open house to showcase what has become the study's preferred route. After looking at the environmental, social and physical impacts of several options, staff have settled on "5A" — a route that would turn the highway north where it currently ends, toward U.S. 17-92 and C.R. 532.

This route is described by staff as being the least obstructive and also the most cost effective. As it would largely travel over wetlands, it would require similar elevated bridges to those already on the toll road, which the study determined would have no adverse impacts to protected species known to be in the area (such as the gopher tortoise). It would require the least amount of disruption of existing homes and subdivisions and, with a tentative price tag of \$280,075,000, it is the cheapest of the options.

"It has fewer social impacts, fewer environmental impacts and it also would have the highest traffic at about 25,000 vehicles per day," Brooks explained. "You can't design and build a new corridor like this without having some impact, but compared to other alternatives it has fewer impact and less cost."

As originally pitched, the 5A Alternative would be built as four lanes (two traveling each way) but with space between to become an eight-lane toll road. This alternative would require two extended bridges over wetlands and would also have an interchange at U.S. 17-92. At its end, it would intersect with Osceola Polk Line Road in such a way that would allow for the later extension project to Interstate 4.

In total, the study suggests 66 acres of wetlands would be impacted by the road being extended. Around 50 people attended the presentation and public comment hearing, though more were present earlier in the evening at the open house. No residents present took the opportunity to make a public comment, with some instead opting to do a written comment, but Brooks read aloud a public comment on behalf of homeowners from the Lake Wilson Preserve Community.

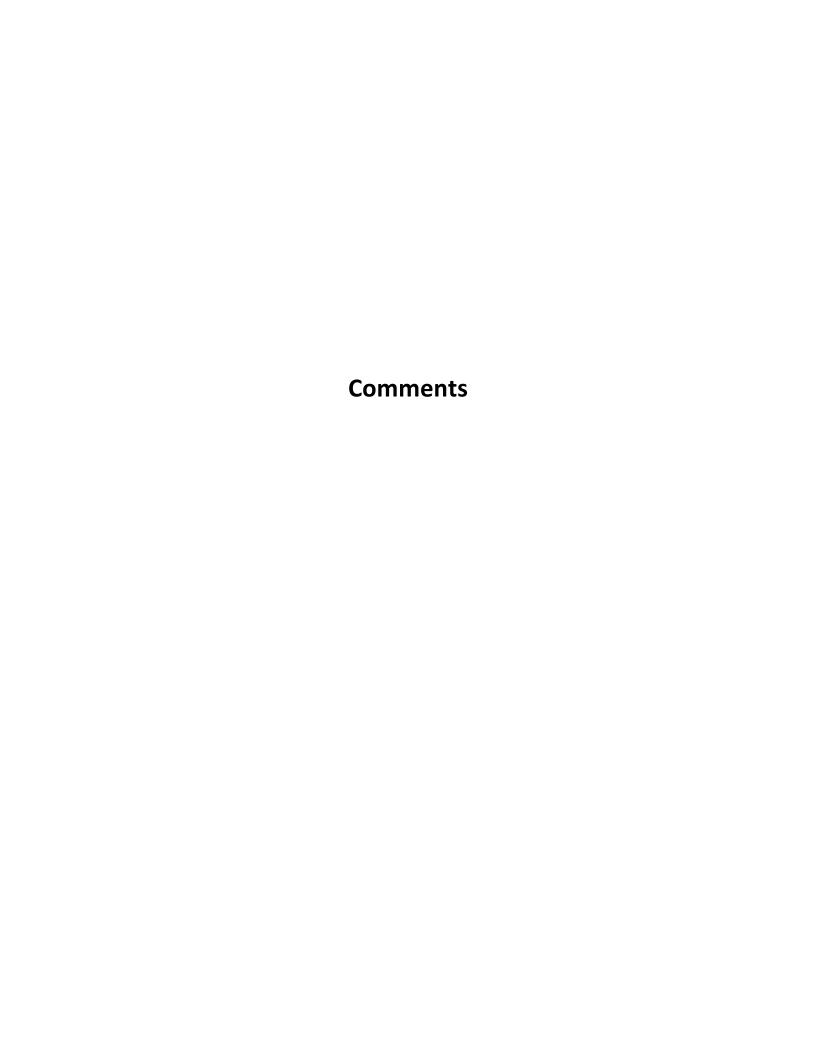

The main takeaway from the letter was that residents would prefer a project that went all the way to Interstate 4 as opposed to two projects over many years.

Brooks said this comment has been common as she and her staff have solicited feedback, with some residents feeling the proposed extension is more of a band-aid to the larger need of connectivity from Poinciana to the interstate. That eventual connection to I4, Brooks explained would require Federal and Florida Department of Transportation Coordination as it is a large undertaking. She said possible connection points could be at Interstate 4's intersection with CR 532, near ChampionsGate, or at State Road 429, another toll road operated by the Expressway Authority that travels north through Winter Garden and Apopka.

The study will be presented to the Central Florida Expressway Authority in October, at which point it will be voted on whether to take the project to its design phase. If approved in October, a design phase would last roughly one or two years and land would still need to be acquired from landowners whose property is in the intended path, meaning actual construction is still several years off at best.

Public comment is still be solicited by staff through Sept. 9 to be entered into the record. More information on the project, and how to have your say, can be found at cfxway.com.

 		-	 August 29, 2019	
			direction, the East/West routes which most of the	
			traffic would use is already 2 lanes and there is not	(REPLIED 9/10/19)
			much room to expand further. If Phase 1 went	
			ahead on its own, it is felt that during peak times	
			this intersection would reach grid-lock.	
			this intersection would reach grid look.	
			□ 14 typetion FQ evieting tailbacks	
			☑ 14 Junction 58 – existing tailbacks	
			The I4 Junction 58 at Champions gate is one of the	
			most congested intersection on the I4. Traffic	
			tailbacks from the junction cause congestion	
			backing up on the I4 for several miles during peak	
			times. By splitting the project in to 2 phases, this	
			would add a considerable amount of traffic to this	
			junction and make the problems and tailbacks even	
			worse.	
			It is acknowledged that proposed changes to a	
			diamond formation/continuous flow intersection	
			would help improve flow around the junction.	
			However, planned developments in the Reunion,	
			Champions Gate and Ronald Reagan areas will	
			dramatically increase traffic congestion further in	
			the next few years.	
			Neighborhood intersections	
			The junction with the main entrance at Reunion on	
			CR532 has already been upgraded with traffic	
			lights. Intersections for the other residential	
			communities along CR532 at Lake Wilson Preserve,	
			Tanglewood, Sandy Ridge, Ashebrook, Legacy	
			Village etc would also require upgrading so that	
			vehicles can turn across Parkway traffic.	
			E D' and an anal's a la 14/CD420's the san formal	
			② Direct connection to I4/SR429 is the preferred	
			option	
			A significant volume of traffic could use SR429	
			rather than the I4 and so a direct connection to the	
			I4/SR429 junction would not only reduce traffic at	
			the Champions Gate junction, it would also help	
			reduce traffic on the I4 and would be the preferred	
			option by far.	
			SR429 has direct access to Walt Disney World	
			theme parks and Orlando and would support all of	
			the project overall goals.	
			In addition, SR429 already has a junction on the I4	
			as well as existing road bridges crossing the I4	
			carrying traffic north & south over the interstate.	
			carrying traine north a south over the interstate.	

	1	1	<u> </u>		August 23, 2013	
					The existing SR429 could be extended south to join up with the Poinciana Parkway.	
					It is understood that the connection to the I4 has	
					multi-state/county authority complications. Would	
					it be more acceptable to treat the whole project as	
					the 'southern extension to SR429' as this would not	
					require new access to the I4?	
					In conclusion, the overwhelming opinion is that the	
					construction of the Poinciana Parkway extension	
					should be carried out in a single phase, directly	
					connecting to SR429 and I4.	
					We should be grateful if the Central Florida	
					Expressway Authority would take our residents'	
					views and concerns into account.	
					Sincerely,	
					Pippa Blackmore For and on behalf of the Lake	
					Wilson Preserve Residents' Committee for the	
					Poinciana Parkway I4 Connector	
					pipblackmore@outlook.com

MILESTONE | REPORTING COMPANY

TOMORROW'S TECHNOLOGY TODAY

MILESTONE | REPORTING COMPANY

TOMORROW'S TECHNOLOGY TODAY

PROCEEDINGS

MS. BROOKS: The Central Florida Expressway
Authority welcomes you to the public hearing for the
Poinciana Parkway Extension Project Development and
Environment Study. My name is Mary Brooks. I am
with Quest Corporation of America, and I am the
project's Public Involvement Coordinator. This study
is to determine if an extension of the Poinciana
Parkway from its northern point to County Road 532 -
- the Polk/Osceola County line is viable and
fundable in accordance with CFX policies and
procedures. This hearing is being held to provide
you with the opportunity to comment on the project.
You will see a presentation and have an opportunity
to provide a comment at the microphones. Here with
me tonight are Glenn Pressimone, Chief of
Infrastructure for the Central Florida Expressway
Authority. Will Hawthorne, Director of Engineering
for CFX, and the study consultant, Clif Tate with
Kimley-Horn and Associates. At this time, we'd like
to recognize any federal, state, county, or city
officials who may be present tonight. Are there any
officials who would like to be recognized? Okay.
Seeing no officials. Public participation at this
hearing is encouraged and solicited without regard

MILESTONE REPORTING COMPANY

to race, color, national origin, age, religion, disability, or family status. Persons wishing to express their concerns about Title VI may do so by contacting CFX as shown here. The contact information is also displayed at this hearing. We will now begin the presentation.

PRESENTATION: Tonight's presentation will discuss the purpose of the hearing, the needs and goals of this study, as well as the preferred alternative and its potential impacts. You will then have an opportunity to comment on the project. There are three primary components to tonight's hearing. First, the open house, which occurred prior to this presentation, where you were invited to view the project displays and to speak directly with the project team and provide your comments in writing or to the court reporter. Second, this presentation, which will explain the project purpose and need, study alternatives, potential beneficial, and adverse social, economic, and environmental impacts and anticipated costs. Third, the public hearing also serves as an official forum providing an opportunity for members of the public to express their opinions regarding the project. A formal comment period will follow this presentation where

you will have the opportunity to provide oral
statements at the microphone, or you may provide
your comments directly to the court reporter or in
writing. In addition to the court reporter in the
cafeteria, a court reporter is available here in the
auditorium to document comments. CFX follows the
project development process for new alignment
expansion projects. At each step in the process,
the project could be placed on hold to be revisited
in the future. This exhibit displayed at tonight's
meeting shows that we are currently in the project
development and environment, or PD&E, study phase.
A PD&E study has three main components: An
engineering component which consists of the
development and analysis of potential design
solutions; an environmental component which
evaluates potential impacts to the natural, social,
and physical environments; and the public
involvement component to inform and involve all
interested parties in the development of the
proposed transportation project. The Poinciana
Parkway Extension PD&E study will determine if a
limited access facility between the north end of the
Poinciana Parkway Bridge and County Road 532 is
viable and fundable in accordance with CFX policies

MILESTONE REPORTING COMPANY
TOMORROW'S TECHNOLOGY TODAY

and procedures. The study area limits are outlined
in red and are generally described as County Road
532 on the north, east of the Osceola and Polk
County Line on the east, Ronald Reagan Parkway on
the south, and west of Sandy Ridge Drive on the
west. The need for a transportation project arises
from deficiencies, issues, or concerns that
currently exist or are expected to occur within the
study area. The six project needs that serve as
justification for the proposed Poinciana
Parkway Extension are: enhanced mobility from
County Road 532 to Poinciana Parkway, reduce roadway
congestion and delays on area roadways, expand
regional connectivity, provide transportation
infrastructure for planned growth, provide
consistency with local plans and policies, and
enhance safety. The proposed Poinciana Parkway
Extension has been an identified need for several
years and has gone through a number of steps in the
project development process with the former Osceola
County Expressway Authority and the Central Florida
Expressway Authority. In March 2018, CFX considered
results of a concept feasibility and mobility study
for the Poinciana Parkway Extension and in July
2018, initiated this PD&E study. The evaluation of

MILESTONE | REPORTING COMPANY

TOMORROW'S TECHNOLOGY TODAY

alternatives and the development of the preferred
alternative were closely coordinated with project
stakeholders. Public involvement meetings began in
September 2018 and have continued throughout the
study process. A total of 33 meetings have been
held. Representatives from CFX and the consultant
team were available at each meeting to discuss the
project and answer questions. The public
involvement effort for this project included three
scheduled public meetings, including tonight's
public hearing; three environmental advisory group
meetings; three project advisory group meetings; and
several meetings with project stakeholders,
including discussions with the Loughman community.
All input received was considered during refinement
of the alternatives and the development of the
preferred alternative. The proposed typical section
consists of a 330-foot right-of-way width and would
accommodate an initial four lanes. The proposed
typical section also provides a median width of 92
feet to accommodate a future widening to eight
lanes, including potential multiuse lanes in the
median. Preliminary alternatives were developed
using this proposed typical section. The study area
includes several constraints which were considered

MILESTONE | REPORTING COMPANY

TOMORROW'S TECHNOLOGY TODAY

in developing and evaluating the various
alternatives. These include the Reedy Creek
Mitigation Bank; wetland areas; numerous community
resources; several major utility facilities,
businesses, and residences; and the Loughman
community. The initial study alternatives, as shown
here, were presented at the public meeting in
September 2018. Those alternatives were further
refined and subsequently designated as Alternatives
1A, 4A, and 5A and were presented at the March 2019
public meeting. Further refinements to Alternative
4A resulted in greater impacts to the Reedy Creek
Mitigation Bank, and as such, Alternative 4A was
eliminated from further analysis. Tonight we will
present Alternatives 1A and 5A. The evaluation
aspects of Alternative 1A included decreased impacts
to wetland, conservation, and mitigation areas;
increased impacts to residential and nonresidential
parcels; reduced impacts to the historic Loughman
community area; a projected daily traffic volume of
18,000 vehicles in the year 2045; and a projected
cost of \$297 million. Evaluation aspects of
Alternative 5A included the required relocation of
utilities; bridging wetland areas in the Reedy Creek
Mitigation Bank and upper lakes basin watershed;

MILESTONE | REPORTING COMPANY

TOMORROW'S TECHNOLOGY TODAY

JACKSONVILLE, FL 32256 TAMPA, FL 33602

constructing a cul-de-sac on the Ronald Reagan Parkway just east of the Sereno development; increased impacts to wetland, conservation, and mitigation areas; decreased impacts to residential and nonresidential parcels; a projected daily traffic volume of 25,200 vehicles in the year 2045; and a projected cost of \$280 million. request of Polk County staff to provide additional access to the Poinciana Parkway Extension, slip ramps at Ronald Reagan Parkway were incorporated and This graphic illustrates Alternative 5A analyzed. with slip ramps to Ronald Reagan Parkway. evaluation aspects of this alternative included the incorporation of slip ramps increased impacts to the Reedy Creek Mitigation Bank, increased impacts to residential and nonresidential parcels, decreased projected daily traffic volume to 15,200 vehicles in the year 2045, and increased the project cost to \$315 million. The alternatives evaluation compares the performance of each viable alternative and quantifies the potential impacts to the natural, social, cultural, and physical environment. The evaluation analysis and potential impacts of each of the alternatives studied is summarized in an alternatives evaluation matrix, which is on display

TOMORROW'S TECHNOLOGY TODAY

JACKSONVILLE, FL 32801 TAMPA, FL 33602

at tonight's meeting. After evaluating the
alternatives, the study team identified Alternative
5A without slip ramps to Ronald Reagan Parkway as
the preferred alternative. This alternative has the
lowest social impacts and lower natural resource
impacts than would occur if the slip ramps to Ronald
Reagan Parkway were incorporated. This alternative
also has the lowest total cost and the highest
traffic volume, which aids the financial feasibility
of the project as a CFX tolled expressway. The
preferred alternative begins at the northern end of
the existing Poinciana Parkway Bridge and extends
along the Osceola County side of the Osceola and
Polk County line. It includes two extended bridges
over wetlands within the Reedy Creek Mitigation Bank
and Upper Lakes Basin Watershed. An interchange
will be provided at US 17-92 to provide local
access. A single point interchange design has been
utilized to minimize impacts and reduce traffic
signal wait times. US 17- 92 will be widened to
four lanes within the vicinity of the interchange to
provide for more efficient movement of local
traffic. The preferred alternative then extends
northwest bridging over Old Tampa Highway and the
CSX Railroad. The expressway also transitions into

MILESTONE | REPORTING COMPANY

JACKSONVILLE, FL 32256 TAMPA, FL 33602

1 Polk County in this area. Existing utilities, 2 including power transmission towers and underground gas pipelines, will be relocated to the west side of 3 4 the expressway from north of County Road 532 to Old 5 Tampa Highway. The preferred alternative ends at County Road 532 at an at-grade intersection. 6 7 However, the design at the intersection allows for 8 conversion to an interchange, should the Poinciana 9 Parkway Extension be directly continued to 10 Interstate 4. As part of this CFX project, County 11 Road 532 will be widened to four lanes in the 12 vicinity of the intersection as well as a distance 13 of one mile to the west. Osceola County will 14 continue to widen County Road 532 to Lake Wilson 15 Road on the west. These combined improvements will 16 provide four lanes of travel from the Poinciana 17 Parkway Extension intersection with County Road 532 18 to Interstate 4. Following identification of the 19 preferred alternative, the study team conducted more 20 detailed analysis to refine potential impacts. 21 Within the study area, 8 historic resources and 11 22 archeological sites were identified, but all were 23 determined ineligible for listing on the National 24 Register of Historic Places, except potentially the 25 Old Kissimmee Road/Old Tampa Highway. The project

MILESTONE | REPORTING COMPANY

includes bridging this resource, and no adverse
impacts are anticipated. No impacts to any historic
resource or archeological site are anticipated under
the preferred alternative. The project will not
impact any parks or recreation areas. Biologists
performed desktop and field surveys and mapped
wetlands throughout the project area. Under the
preferred alternative, there would be approximately
66 acres of impacts to wetlands. Unavoidable
impacts to wetlands will be mitigated. Because
avoidance and minimization measures were
implemented, no adverse impacts to listed species
are anticipated. Gopher tortoise are present in the
study area. Prior to the construction, a complete
survey of gopher tortoise burrows will be required
along with associated permitting and relocation.
Surveys for sand skink, listed plants, and other
state listed species will be updated as needed
during design. All natural and human environmental
resources and impacts are described and addressed in
the project environmental impact report. As part of
this project, right-of-way acquisition of private
properties will be required. A CFX right-of-way
specialist is here this evening and will be happy to
answer your questions and describe the CFX property

MILESTONE REPORTING COMPANY
TOMORROW'S TECHNOLOGY TODAY

acquisition process. A preliminary cost estimate that includes construction, right-of-way acquisition, mitigation, and other design and administrative fees has been prepared for this project. The total cost for implementation of the project's preferred alternative is presently estimated at \$280 million. The evaluation and analysis from the engineering and environmental studies conducted for this project were documented in a series of reports. These reports and preliminary plans showing the proposed improvements are available here tonight for anyone who wishes to examine them. Project information is also available for review on the study website, accessible at cfxway.com. The study website is continually updated with study documents. You are able to navigate to the study website from the CFX home page, or you can use the shortened web address shown here. All of the materials presented at tonight's public hearing will be posted on the study webpage within five business days. There have been various opportunities for the public to provide input on this project. We welcome your oral or written comments. At the conclusion of this presentation, staff here this evening will distribute speaker

TOMORROW'S TECHNOLOGY TODAY

cards to those in the audience who have not received one and would like to make a statement. A court reporter will record your statement and a verbatim transcript will be made of all oral proceedings at this hearing. If you do not wish to speak at the microphone, you may present your comments in writing or directly to the court reporter at the comment table in the cafeteria. Every comment method carries equal weight. Written comments received or postmarked by September 12, 2019, will become a part of the public record for this hearing. All written comments should be mailed to the address shown on the slide or in your handout.

MS. BROOKS: All right. Thank you for that. We will now call upon those who have turned in the speaker cards. When you come forward, please state your name and address for the record. If you represent an organization, municipality, or other public body, please give us that information as well. We ask that you limit your comments to three minutes. The timer before you, Shari, will let you see just how much time you have left to comment. If you don't want to comment at the microphone, you're welcome to return to the cafeteria and you can speak to the court reporter there. This is not a

question-and-answer period. If your questions
weren't answered during the open house in the
cafeteria, you can speak to a member of the study
team excuse me study team following tonight's
comment period. Please come to the microphone so
the court reporter will be able to complete to
get a complete record of your comments. Do we have
anyone who has completed a speaker comment card or
wishes to speak and we didn't get your comment card?
No comments? We did receive a comment from the Lake
Wilson Preserve Community that I will now read into
the record. "Thank you for keeping us informed
about the proposals for the Poinciana Parkway
Extension. Please can you read our comments and
submit them as part of the public hearing record, as
we are not able to attend the meeting? It is
preferred for construction not to be split into two
phases. If construction of the project is split
into two phases, the congestion will significantly
increase on County Road 532 until the second phase
is built. Most of the traffic wants to get to I-4
or to State Road 429, so it is not ideal to have
such a volume of commuting traffic using this route
when a direct connection to I-4/State Road 429 is
preferred. County Road 532/County Road 545/Old Lake

MILESTONE | REPORTING COMPANY

TOMORROW'S TECHNOLOGY TODAY

1 Wilson junction has existing congestion and delays. 2 While it is noted that one of the overall goals of 3 the project is to reduce congestion and delays on 4 local roads, the study does not appear to have adequately considered the existing significant 5 congestion at the County Road 532/545/0ld Lake 6 7 "This junction is already Wilson junction. 8 congested with traffic lights on red for up to five 9 minutes, and having all Poinciana Parkway traffic 10 heading through, it will cause significant delays 11 and tailbacks in all directions; whereas the north/south road at this junction could do with 12 13 being expanded to two lanes in each direction. 14 east/west routes, which most of the traffic would 15 use, is already two lanes, and there is not much 16 room to expand further. If Phase 1 went ahead on 17 its own, it is felt that during peak hours, this 18 intersection would reach gridlock. The I-4 junction 19 58 at Champions Gate is one of the most congested 20 intersections on I-4. Traffic tailbacks from the 21 junction cause congestion backing up on the I-4 for 22 several miles during peak times. By splitting the 23 project into two phases, this would add a 24 considerable amount of traffic to this junction and 25 making problems and tailbacks even worse. It is

MILESTONE | REPORTING COMPANY TOMORROW'S TECHNOLOGY TODAY

acknowledged that proposed changes to a diamond	
formation, continuous-flow intersection would help	
improve around the junction. However, planned	
developments into the Reunion, ChampionsGate, and	
Ronald Reagan areas will dramatically increase the	
traffic congestion further in the next few years.	
Neighborhood intersections: The junction with the	
main entrance at the union of County Road 532 has	
already been upgraded with traffic lights.	
Intersections for the other residential communities	S
along County Road 532 at Lake Wilson Preserve,	
Tanglewood, Sandy Ridge, Ashbrook, Legacy Village,	
et cetera, would also require upgrading so that	
vehicles can turn across parkway traffic. Direct	
connection to I-4/State Road 429 is the preferred	
option. A significant volume of traffic could use	
State Road 429 rather than the I-4, and so a direc	t
connection to the I-4/State Road 429 junction woul	d
not only reduce traffic at the ChampionsGate	
junction, it would also help reduce traffic at the	
I-4 and would be the preferred option by far. Sta	te
Road 429 has direct access to Walt Disney World	
theme parks and Orlando and would support all of t	he
project overall goals. In addition, State Road 42	9
already has a junction on the I-4 as well as	

MILESTONE | REPORTING COMPANY

TOMORROW'S TECHNOLOGY TODAY

existing road bridges crossing the I-4 carrying traffic north and south over the interstate. The existing State Road 429 could be extended south to join up with the Poinciana Parkway. It is understood that the connection to I-4 has multi-state/ county authority complications. Would it be more acceptable to treat the whole project as the 'southern extension to State Road 429,' as this would not require new access to the I-4? In conclusion, the overwhelming opinion is that the construction of the Poinciana Parkway Extension should be carried out in a single phase, directly connecting to State Road 429 and I-4. We should be grateful if the Central Florida Expressway Authority would take our residents' views and concerns into account. Sincerely, Pippa Blackmore for and on behalf of the Lake Wilson Preserve Residents Committee for the Poinciana Parkway I-4 Connector." Any others who would like to make comments for the record? Okay. If not, the verbatim transcript of this hearing's oral proceedings, together with all written material received as part of the hearing record and studies, displays, and information material provided at the hearing will be made part of the project decision-making process and will be

Project Development & Environment Study

POINCIANA PARKWAY EXTENSION

Summer 2019

PROJECT DESCRIPTION

The Central Florida Expressway Authority (CFX) is conducting a Project Development and Environment (PD&E) Study for the proposed Poinciana Parkway Extension. The study is looking at extending the Poinciana Parkway to County Road (CR) 532 at the Osceola County/Polk County line.

UPDATES SINCE MARCH 2019 PUBLIC MEETING

More than 160 people attended an alternatives public workshop on March 14, 2019 at Poinciana High School. Three study alternatives – Alternatives 1A, 4A and 5A – and a comparative evaluation matrix were presented for public review and comments. Following the public meeting, the study team further evaluated these alternatives.

The original Alternative 4 was intended to provide reduced impacts to the Reedy Creek Mitigation Bank compared to Alternative 5. However, due to refinements to the alignments, Alternative 4A resulted in more impacts to the Reedy Creek Mitigation Bank than 5A, and was eliminated from further consideration.

Based on input from the study's Project Advisory Group, slip ramps to and from Ronald Reagan Parkway were added to Alternative 5A. These ramps resulted in more impacts to the Reedy Creek Mitigation Bank, more impacts to residential parcels, higher project costs and lower traffic volumes.

RESTITUTE FOR THE STATE OF THE

Alternative 1A had more impacts to residential parcels, higher project costs and lower traffic volumes than Alternative 5A.

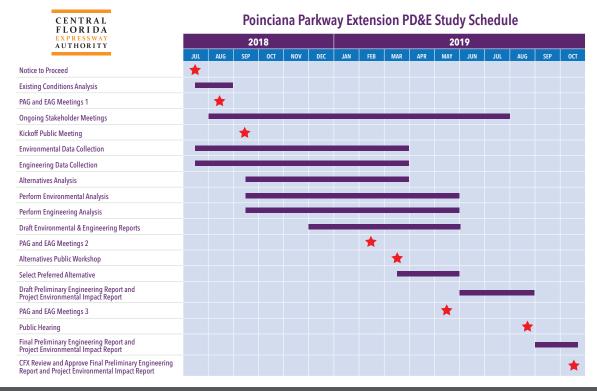

After evaluating the alternatives, the study team proposes to advance Alternative 5A without slip ramps as the preferred alternative. This alternative has the lowest social impacts, and lower natural impacts than would occur if the slip ramps are added. This alternative also has the lowest total cost and the highest traffic volume. This helps with the financial feasibility of the project since it is a tolled roadway.

PUBLIC INVOLVEMENT

Public involvement and community engagement are a crucial component of this study. We value your input. CFX is providing multiple opportunities for participation, including a **public hearing** scheduled on **August 29**, **2019** from 5:30 p.m. – 8:00 p.m. at the Poinciana High School, 2300 S. Poinciana Blvd., Kissimmee, FL 34758. Community groups can request a presentation via the CFXWay.com website or by emailing Public Involvement Coordinator Mary Brooks at ProjectStudies@CFXWay.com. You're also welcome to submit your comments via the website or project email address. And follow the study on Facebook for updates.

The PD&E study began in July 2018 and is expected to finish in fall of 2019. A graphic of key study milestones is shown here.

PROJECT GOALS

The goals of this proposed 3-mile, limited-access facility include improving the roadway connections from CR 532 to the greater Poinciana area, enhancing mobility of the area's growing population and economy, relieving congestion on local roads and promoting regional connectivity.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Para más información en español acerca del proyecto, por afavor comuníquese con Alicia Arroyo al 407-509-0231 o por correo electrónico Alicia. Arroyo@QCAusa.com.

Desarrollo de Proyectos

& Estudio de Medio Ambiente

POINCIANA PARKWAY EXTENSION

Verano 2019

DESCRIPCIÓN DEL PROYECTO

La Autoridad de Carreteras de la Florida Central (CFX) está conduciendo un estudio del Proyecto de Desarrollo y Medio Ambiente. (Project Development and Environment/ PD&E) para la propuesta de Extensión de Poinciana Parkway. El estudio busca ampliar Poinciana Parkway desde la Carretera (CR) 532 hasta la línea entre los condados de Osceola / Polk.

ACTUALIZACIONES DE REUNIÓN PÚBLICA DESDE MARZO DE 2019

Más de 160 personas asistieron a un taller público que fue llevado acabo el 14 de marzo de 2019 en la escuela superior de Poinciana.

Tres alternativas de estudio – Alternativas 1A, 4A y 5A – y un sistéma comparativo de evaluación fue presentado para revisión pública y comentario. Después de la reunión pública, el grupo del estudio evaluó aún más estas alternativas.

La alternativa número 4 original fue creada para reducir y aliviar los impactos a la reserva de alivio de Reedy Creek comparado con la alternativa número 5. Sin embargo, debido a los logros refinados, la alternativa número 4A resulto con más impactos a la reserva de alivio Reedy Creek en comparación con la 5A, y fue eliminada de mayor consideración.

Basado en los datos aportados por el estudio conducido por

el Grupo Asesor de Proyectos, rampas de deslizamientos con acceso hacia y desde Ronald Reagan Parkway fuerón agregadas

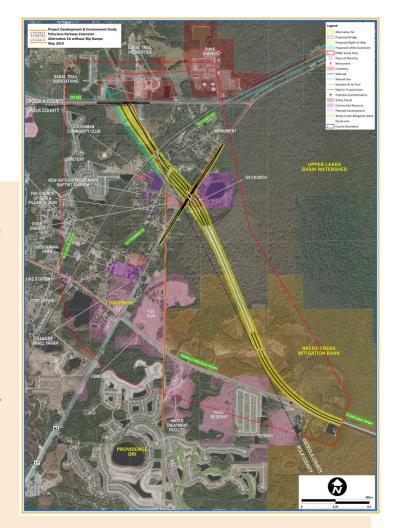

a la alternativa 5A. Por consecuencia, estas rampas resultaron con más impactos a la reserva de alivio Reedy Creek, más impactos a las zonas residenciales, mayores costos al proyecto y menores volúmenes de tráfico.

La Alternativa 1A tuvo más impactos en la zona residencial, mayores costos al proyecto y menores volúmenes de tráfico que la Alternativa 5A.

Después de evaluar las alternativas, el equipo de estudio propone fomentar la alternativa 5A sin rampas deslizantes como alternativa preferida. Esta alternativa tiene un bajo impacto natural que producirían si se añadieran las rampas deslizantes. Esta alternativa también tiene el menor costo total y el volumen de tráfico más alto. Esto ayuda con la viabilidad financiera del proyecto ya que es una carretera de peaje.

PARTICIPACIÓN PÚBLICA

La participación pública y la participación de la comunidad son un componente crucial de este estudio. Valoramos su opinión. CFX está proporcionando múltiples oportunidades para participar, incluyendo una audiencia pública prevista para el 29 de agosto de 2019 de 5:30 p.m. a 8:00 p.m. en la escuela superior de Poinciana, 2300 S. Poinciana Blvd., Kissimmee, FL 34758. Los grupos comunitarios pueden solicitar la presentación a través de la página web de CFXWay.com ó enviando un córreo electrónico a la Coordinadora de Participación Pública, Mary Brooks, en ProjectStudies@CFXWay.com. También pueden enviar sus comentarios a través de la página web o al correo electrónico del proyecto. Les invitamos a que sigan el estudio en Facebook para actualizaciones.

OBJETIVOS DEL PROYECTO

Los objetivos de esta propuesta instalación de 3 millas y acceso limitado incluyen mejorar las conexiones de la carretera CR 532 en la mayor zona de Poinciana, mejorando la movilidad de la creciente población y economía de la zona, aliviando congestión en las carreteras locales y promoviendo la conectividad regional.

PROJECT DEVELOPMENT PROCESS

Feasibility Study

CFX Board

approves

findings of

feasibility study

on the project?

Project is placed on

hold to be revisited in

the future.

New Alignment Expansion Projects

Identify Project

Project identified in CFX Board approved Visioning +2040 Master Plan (Long-Range Transportation Plan).

Work Plan

Is project identified in the approved Five-Year Work Plan?

Project is placed on hold to be revisited in the future.

(We are here.)

PD&E Study

Does CFX **Board approve** PD&E Study?

Project is placed on hold to be revisited in the future.

Recommended Alternative/Final Design

Does CFX Board approve project for the Final Design Phase?

Project is placed on hold to be revisited in the future.

Right-of-Way

Does CFX Board accept the Right-of-Way Committee's requested acquisitions and approve start of right-of-way purchasing?

Permitting

Does CFX **Board accept** the proposed mitigation/ conservation easement settlements and approve permit agreements?

Utilities

Does CFX Board accept the proposed utilities relocation settlements and approve utility agreements?

Project is placed on hold to be revisited in the future.

Advertise Bids

Does CFX **Board approve** CFX's request to advertise bids for construction?

Award Contract

Does CFX accept bid and approve award of contract to construct roadway?

Project is placed on hold to be revisited in the future.

CFX may re-advertise project to accept new bids OR project design is revised and/or repackaged for bids.

Construction

Construction commences.

constructed roadway is opened to traffic.

Purpose and Need

- 1 Enhance mobility: CR 532 to Poinciana Parkway
- 2 Reduce roadway congestion and delays on local roadways
- 3 Expand regional connectivity
- 4 Provide transportation infrastructure for planned growth
- 5 Provide consistency with local plans and policies
- 6 Enhance safety

Background

- 2005 Osceola County Comprehensive Plan: New corridors around growth boundary
- 2012 Osceola County Expressway Authority (OCX): 2040 Master Plan
- 2016 Poinciana Parkway Connected to US 17/92
- March 2018 CFX completed Feasibility Studies
 - Authorized Poinciana Parkway Extension PD&E study
- July 2018 PD&E Study began

Proposed Typical Section

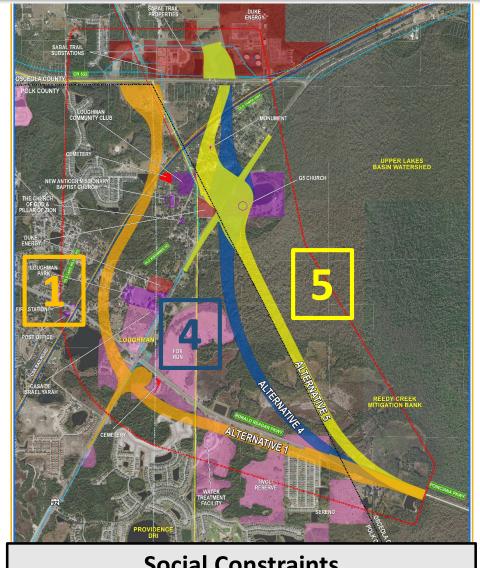

Constraints

- Mitigation Bank
- Wetland Areas
- Community Resources
- Major Utility Facilities
- Businesses and Residences
- Loughman Community

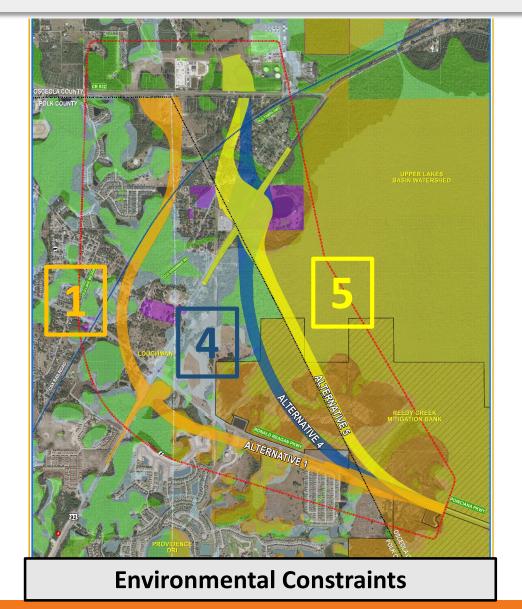

Initial Study Alternatives

Social Constraints

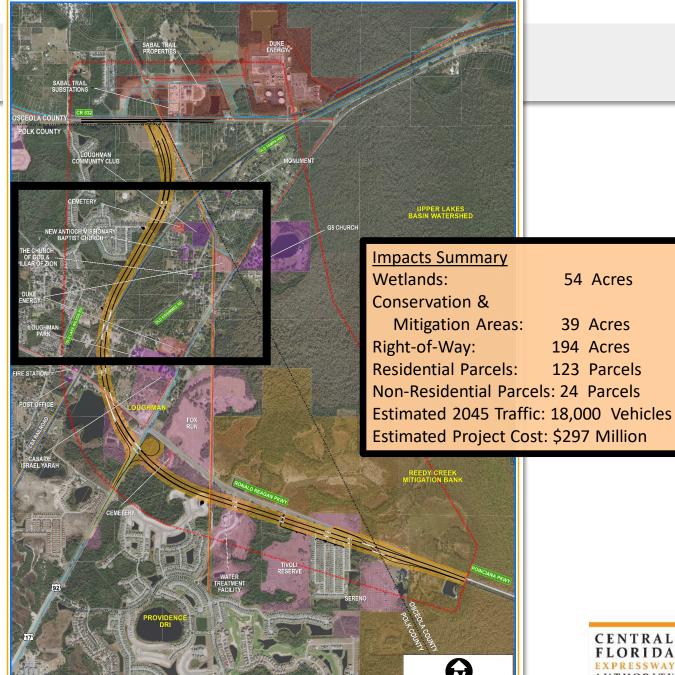

Alternative 1A

- Expressway on west side of railroad tracks
 - Less impacts to existing residents

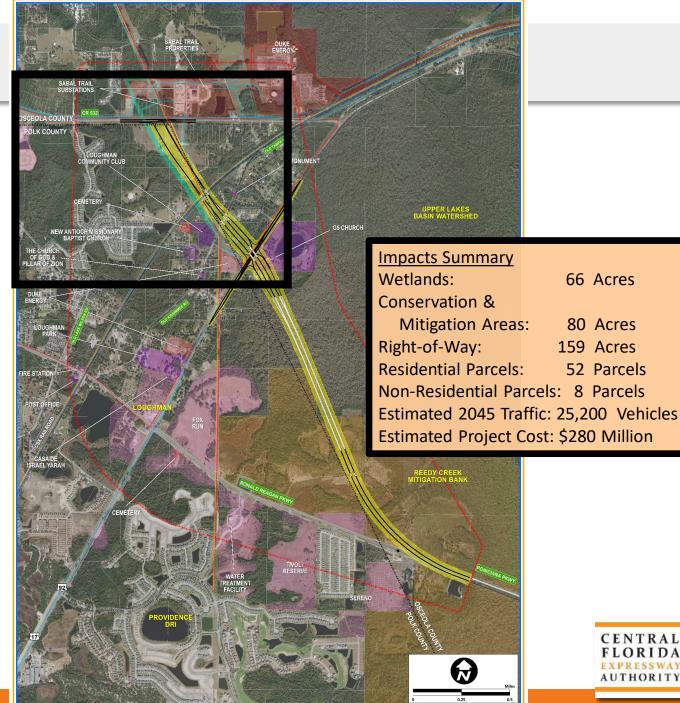

Alternative 5A

- Requires utility relocations
- Bridge over wetland areas
- Cul-de-sac Ronald Reagan Pkwy.

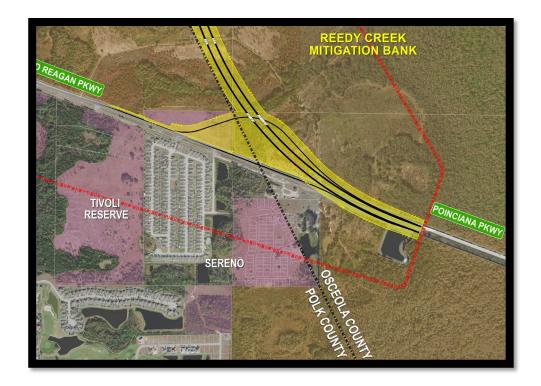

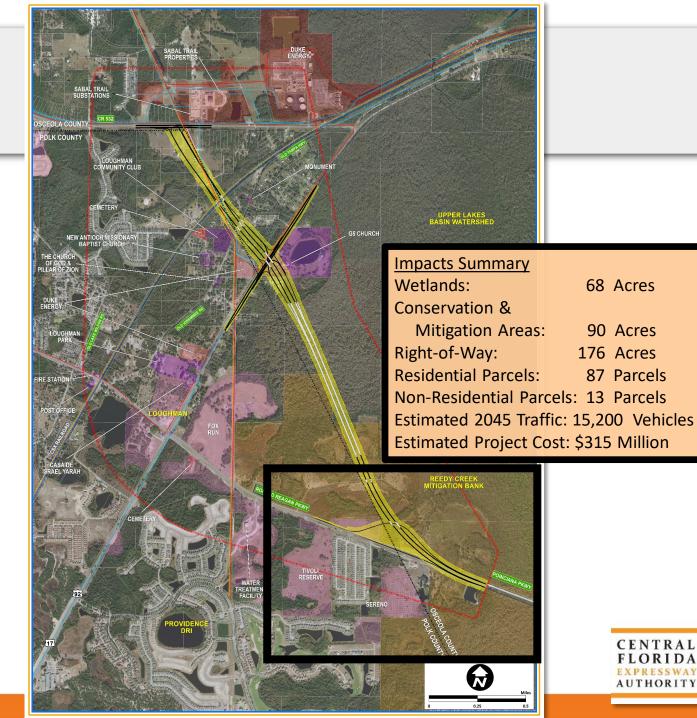

Alternative 5A (With slip ramps)

 Evaluate slip ramps to Ronald Reagan Parkway

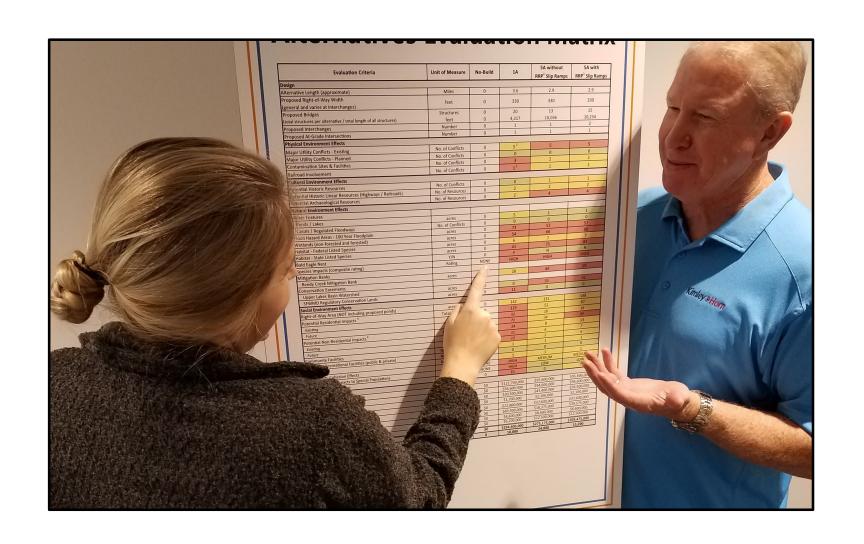

Alternatives Evaluation Matrix

Natural

- Social
- Cultural
- Physical

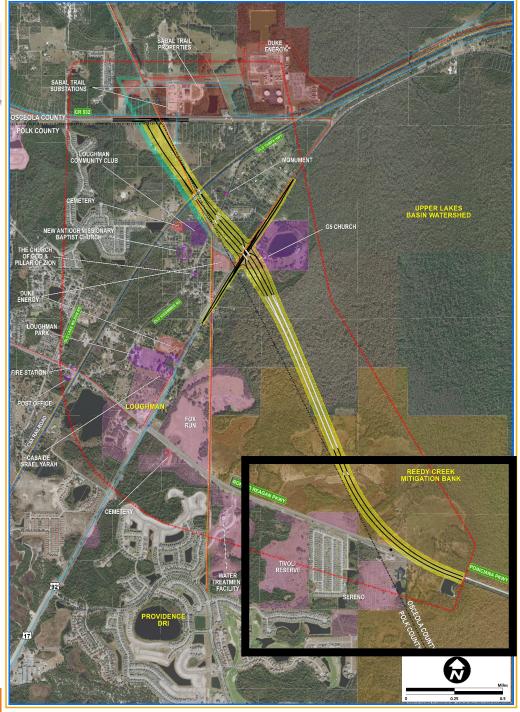

Preferred Alternative

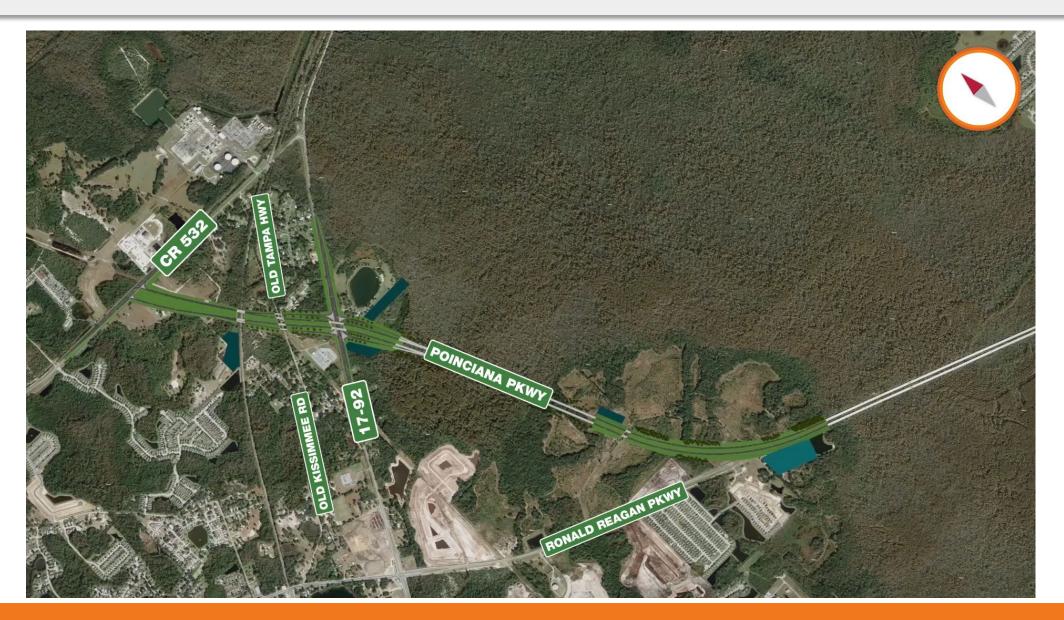

Alternative 5A Without Slip Ramps

- Lowest social impacts
- Lower natural impacts
- Lowest cost
- Highest traffic

Preferred Alternative

Environmental Analysis

All natural and human environmental impacts are documented in Project Environmental Impact Report (PEIR)

Cultural Resources

- Old Kissimmee Road/Old Tampa Highway potentially eligible for National Register – no adverse impacts
- All other resources not eligible
- No impacts to parks or recreation areas

Wetlands and Surface Waters

66 acres of wetlands and surface waters impacts to be mitigated

Protected Species

- No adverse effects anticipated to listed species
- Gopher tortoise present (surveys, permitting, and relocation to occur in subsequent project phases)
- Sand skink, listed plants and updated surveys for state listed species will be conducted during the design phase, as needed

Estimated Project Cost

Preferred Alternative	
Roadway Construction	\$65,900,000
Bridge Construction	\$99,000,000
Interchange Construction	\$27,000,000
Toll Collection Equipment	\$ 2,100,000
Utility Relocation	\$46,600,000
Right-of-Way Areas	\$18,375,000
CR 532 (West)	\$ 8,600,000
Mitigation, Wetlands, & Wildlife	\$12,500,000
TOTAL ESTIMATED COST	\$280,075,000

Project Documents

- Preliminary Engineering Report (PER)
- Project Environmental Impact Report (PEIR)
- Contamination Screening Evaluation Report (CSER)
- Cultural Resources Assessment Survey Report (CRAS)
- Natural Resources Evaluation (NRE)
- Noise Study Report (NSR)
- Pond Siting Report (PSR)
- Location Hydraulics Repot (LHR)

Telephone Call Summary

By: Clif Tate

Date: September 20, 2018

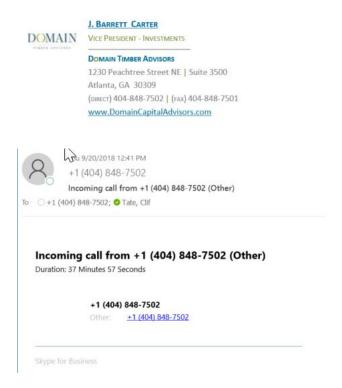

Subject: Potential Poinciana Parkway Extension impacts to Reedy Creek Mitigation Bank

I received a call from Barrett Carter, who is involved in the management of the Reedy Creek Mitigation Bank (his contact information is provided below). He requested information about the history of the project. He said he had spoken with Lynn Kiefer and it was his understanding that we were not aware that the area was a mitigation bank. I explained that he must have misunderstood because we have been aware that the property is a mitigation bank.

He is concerned about the prospect of the expressway through the mitigation bank and wanted the study team to know that they are not OK with Alternatives 4 and 5. They won't be complacent as previous mitigation owners may have been. He wanted to make sure CFX understands their concerns and I said I will pass along his concerns but if he wanted to talk to CFX's general engineering consultant, he could contact Jonathan Williamson and provided him with Jonathan's phone number. I encouraged him to work communications through Mary Brooks, as we wanted to make sure all communications are documented and taken into consideration.

He said they may not be able to attend the September 25, 2018 public meeting. I let him know that meeting materials will be posted online and that they can provide written comments.

I asked about access to the property and he said they are working on it.

I would like Alternate route of and 5 considered since
it's less homes to take and they are mobile homes. They
are easier to move since they are structured for mobility
It's more convenient because it has a lot of empty lots
as well. We need bigger roadways because traffic
keeps on increasing. What used to take you 10 min before
now takes you 30 minutes. The area is growing
exponentially and Championsgate Reunion continues to
grow every year. This increases more vacationers to
come to our area and now from Poinciana taking
Poinciana Phwy, it has also taken a toll on our
traffic. Ronald Reagan, 17-92, and CR532 and

s. Late Wilson Rd are ridiculously high in traffic. During school times and rush hours including lunch time. I feel it is reduct ridiculous that new home buyers are not being informed about the project. Also, if you are oping to do this the majority of us would like a decision to be made to see if we should continue to renovate our house or just stop completely. This is like being on a seesaw Yes/no , maybe etc. This is affecting everyones house so the sooner we know the better. It takes long just to SEARCH for the ideal house. We love our area Cocause of the location, the country side but accessible to all nearby cities and that is why we understand why Alternate Rute 4+5 are being taken into consideration but it disheartens the majority of us due to it being the ideal area to live in and its Our first nome. This is definitely gonna benefit others, but bring burden to anyone who has a home in the way. Our house just had its septice tank cleaned, a brand new house roof with a 30 year warranty and fencing. This house has a fireplace and wooded flooring with 4/2 and 2,052 sq A. It includes a 300 sqft tool shed. Try finding that kind of house in our area without having to pay extra. Also finding a house with .50 acres is difficult in Florida especially on without HOA fees. Work is only 15minutes away and my neighbors/neighborhood are amazing! This is truly going to affect is but we understand why upu are doing this. It will come at a very HIGH price. Thank you. loccause of the location, the country side but accessible price. Thank you.

After the public meeting held at poinciona
high school and learning about afternatives
#1, #4 and #5, I consider that alternatives
4 and # 5 would be more beneficial to
the residents of Polk County. Alternative #1
would impact, dramaticaly, the businesses
and residents of the area.
Alternative #1, would create lots of noise
and polution affecting peoples quality of life
and pede detriment to the environment.
I expect for you not to take this sequest
lightly and make a smart descision for everyone.

I see no reason to build this extension and charge yet more tolls when we pay a fortune for our 10-mile section already. I would only approve this if we can still get off the parkway at 17-92 and take Ronald Reagan to get to the 1-4 or to Lake Wilson Road to get to Disney. There are so many other roads that need to be expanded, that this just seems like a waste. Furthermore, to I do NOT want afreeway along Cypress Parkway -it would ruin our pretty little town.

I am a first time homebuyer. I bought my house last year expecting to have a bit of time in my house. While I understand the purpose of this project. and definitely want traffic to be alleviated, my entire life is in a holding pattern. Obviously, I haven't lived here long, so I don't know the difference in the amount of traffic, but I would just like this be resolved. At this point, I would aimost prefer they do alternative 4 or 5 () assumation landough and another what's going to happen. I understand that manufactured homes are easier to displace than neighborhood homes. I have put a lot of time and money into my house, and really am just forward to the results of this study & knowing when I if from me. I'm very perturbed that eminent domain (Please continue comments on the back of this page if more space is needed. Thank you.)

Katherine Coolidge Name: 10678 Old Tampa Address: Davenport, Fl 33896 baby blue 994@yahoo.com Email: *(*508) 272-0437

Is an actual thing, and when people find THEIR house it can just be taken away with no thought to how it is horting anyone. If they are going to take my house away well and time for this house, just make a decision, because finding another house that a composition want to uve in is going to take a very long time & I have the best neight now, and you want to take that all away. My how has its own septic tank, FIVE BEDROOMS and THREE BATHROOMS, and 2300 square feet so my cat can run around the entire house. I don't have an HOA, and that is a very big deal, because if you add in an HOA fee, I can't afford a lot of houses. If you are going to rip my house away from me, just make a decision one way or the other.

Thank you for attending the recent kick-off public workshop for the Poinciana Parkway Extension Project Development and Environment (PD&E) Study, being conducted by the Central Florida Expressway Authority. We had more than 130 people attend the meeting, with more than 20 submitting written comments.

We appreciate your input. All written comments will become part of the public meeting record for the study, and will be considered during the evaluation of the study alternatives.

You may view the exhibits and presentation from the public workshop on the study webpage at the following link:

https://www.cfxway.com/agen cy-information/plansstudies/projectstudies/poinciana-parkwayextension-pde/

y - Poinciana Parkway Extension -

visory Group (PAG), comprised of stakeholders within the r, is an important component of this study. The input needs, concerns and environmental impacts being PAG continues to be crucial in the evaluation of the

The Poinciana Parkway
Extension PD&E Study began
in July 2018 and is scheduled
to finish in fall of 2019.
Public involvement and
intergovernmental
coordination are integral
parts of the study process,
and multiple opportunities
for community engagement
are being provided.

You may submit comments via the study webpage, or by sending information to the study email address at ProjectStudies@CFXWay.co m.

The next public meeting is anticipated in March of 2019, and the public hearing is expected the following August or September. The CFX Governing Board is slated to review the recommended alternative for the study corridor in September or October 2019.

For more information on the study, check out the study webpage and follow the project on Facebook. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Mary Brooks

Mary, I am on the General Business Board at Reunion Resort and attended the meeting last night at Poinciana High School. Please add me to the email and mailing list regarding updates and meetings for the Poinciana Parkway Extension Project. Even though currently this phase does not directly impact our property at Reunion Resort by building roads, etc... this will potentially impact traffic on CR 532 and Old Lake Wilson Rd (which is already very heavily used) when/if the project starts and upon completion of the extension. Both of these roads ubuts Reunion Resort property. Thank you in advance for your time and consideration.

I thought the larger maps were great. It let me know where the proposed parkway will go. It will effect many people. The traffic on 17-92 is getting much buyser. From my development it will be hard to get onto Hwy 17-92 to Kissimmee. I belive the alternative 1 may effect less people. Alternative 4 & 5 will effect my neighbors but my lot may be saved. I don't like idea of looking at a road or bridge out of my front windows. I lived here since 1984 and do hope to live here till my end. I wish you will as you know you will not make everyone happy. Progress must happen that can help everyone. Thank You for listening.

Mary, Could you please add my email address to the distribution list for all future updates on the Poinciana Expressway connector? Thank you

Dear Mary Brooks, I own a property on Old Lake Wilson Road [Lake Wilson Preserve] just off the 532 and am inquiring if the project goes ahead on the 532 would we still be able to get access directly from our community to the I4 via the 532 or a slip / connection road leading from Old Lake Wilson Road to the I4 and the Champions Gate area. Also would we still be able to directly access the 545 via the same route. Many thanks,

Hi Mary, Please find attached some questions and comments about the first stage of the PD & E study. Unfortunately, we cannot attend the meeting tomorrow so would be very grateful if you could take note of our comments and answer our questions. Best wishes.

Dear Ms Brooks, Questions and Comments on Proposed Poinciana Parkway Extension/I-4 Connector Project. Family Home: 136 Mockingbird Road, Davenport, Florida, 33896

We have reviewed the information available on the CFXWay website and it has left us with a number of questions and concerns. They are:

- 1. ■as Route 3A been eliminated as a possibility for the connector?
- 2. the plan to build a connector from Poinciana Parkway to CR532, at least initially, without connecting it directly to
- 3. Me hy are these corridors being studied separately without also considering where the road will eventually connect to the I4? Isn't this one of the most important determining factors in assessing a route between Poinciana Parkway and I4.
- 4. Now will connecting the Poinciana Parkway to CR532 reduce congestion? Without a proper route to 14 being done at the same time, the congestion on CR532 will only get worse. Extending the road by a few miles to CR532 will not solve the problem, only move it.
- 5. In ill limiting this study only to connecting Poinciana Parkway to CR532 without determining where the rest of the connection will take place not ultimately lead to more problems down the road? Why not decide where the connector will ultimately go in its totality, rather than looking at this section in isolation? Planning this section with the future in mind will eliminate many future problems.

Please can you pass on these comments and respond with answers to my questions. Yours sincerely,

Alt 1 seems to impct a lot of homes and wetlands. Does it impact the historical Polk County Marker.

As owner of 21 Palms RV Resort, I have a definite interest in the alignment of the Poiniciana Extension where it connects to Hwy 532. 21 Palms is home to 150 families. Please consider Alternative 4 & 5. The roadway could be moved 150 to 200 feet to the west of what is now shown and would interrupt one commercial building and business. 21 Pines Resort provides permanent lodging and is zoned as a P.U.D. The cost difference will be greatly different I think. Please contact me at 407-397-9110 or 407-791-8159.

Thank you for listening and hearing our voices on the studies that concern our community.

I would like alternate route 4 and 5 considered since it's less homes to take and they are mobile homes. They are easier to move since they are structured for mobility. It's more convenient because it has a lot of empty lots as well. We need bigger roadways because traffic keeps increasing. What used to take you 10 minutes before now takes you 30 minutes. The area is growing exponentially and Champuonsgate/Reunion continues to grow every year. This increases more vacationers to come to our area and now from Poinciana taking Poinciana Parkway. It has also taken a toll on our traffic. Ronald Reagan, 17/92 and CR532 and Lake Wilson Road are ridiculously high in traffic. During school times and rush hours including lunch time. I feel it is ridiculous that new home buywers are not being informed about the project. Also, if you are going to do this, the majority of us would like a decision to be made to see if we should continue to renovate our house or just stop completely. This is like being on a see-saw, yes/no,maybe etc. This is affecting everyone's house so the sooner we know the better. It takes long just to search the ideal house. We love our area because of the location, the countryside but accessible to all nearby cities and that is why we understand why alternate Route 4+5 are being taken into consideration, but it disheartens the majority of us due to it being the ideal area to live in and its our first home. This is definitely gonna benefit others, but bring burden to anyone who has a home in the way. Our house just had its septic tank cleaned, a brand new house roof with a 30-year warranty and fencing. This house has a fireplace and wood flooring with 4/2 and 2.052 square feet. It includes a 300 sqft tool shed. Try finding that kind of house in our area without having to pay extra. also, finding a house with 50 acres is difficult in Florida, especially without HOA fees. Work is onky 15 minutes away and my neighbors, neighborhood are amazing! This is trully going to affect us, but we understand why you are doing this. It will come at a very high price. Thank you.

Pienso que la alternativa #1 seria la perfecta puva la controcion ya que las otrus obsignes le afecta menos a las familias.

Please provide a sign language interpreter for all future public meetings. Thank you.

My solution for you is to fix the roads (17 and 532) and not tear down OUR houses so someone else can get to the highway a little quicker. Alternative one would be the best for us. Five and four would take our property, which is unacceptable. Maybe if these folks in Poinciana wanted to be closer to I-4, they shouldn't have built/bought in Poinciana!

Can you please keep us abreast as to the time limit, surveying, impact? Please contact me, Henry Lozann. I can speak for Elio 6804, 6812 Ana Lozann. Please give me contact for relocation or purchaser.

Why would a road go through land that has a lake with beautiful sunsets? (Alternative 1). People should be on that land as our family has been for 60 years. Wetlands and endangered species are <u>not</u> more important than people and life. Please do not through the SW corner of 17/92 and Ronald Reagan Parkway.

I am a current homeowner in the community of Sereno. I do not have any problems if Alternative 1 takes out my home.

Fix the roads we already have. Or widen OBT to 2 lanes on each side. Alternative One would be better all around. Less people to ruin the lives of and closer to I-4. I should not lose the house I worked so hard to get because other people want a quicker way to the highway. It took us a long time to find this house. We had to battle retired people and flippers. Our house is perfect for our needs. I just put a new roof on and a new breaker box. I'm also still paying on it. I'm three and a half years into a 30-year mortgage. Alternative four and five are unacceptable. If the homeowner associations wanted to be closer, they should have built closer or planned better.

After the public meeting held at Poinciana High School and learning about alternatives 1, 4 and 5, I believe alternatives #4 and #5 are more beneficial to the residents of Polk County. Alternative #1 would impact, dramatically, the businesses and residents of the area. Alternative #1 would create lots of noise and pollution affecting people's quality of life and detriment to the environment. I expect for you to not take this request lightly and make a smart decision for everyone. Thanks.

I see no reason to build this extension and charge yet more tolls when we pay a fortune for our 10-mile section already. I would only approve this if we can still get off the parkway at 17/92 and take Ronald Reagan to get to I-4 or Lake Wilson Road to get to Disney. There are so many other roads that need to be expanded, that this just seems like a waste. Furthermore, I do not want a freeway along Cypress Parkway. It would ruin our pretty little town.

I question how necessary this expansion is. I asked several people at the meeting what the purpose is. Each said "to conect to I-4." But no one could tell me why.

I am a first-time homebuyer. I bought my house last year expecting to have a lot of time in my house. While I understand the purpose of this project and definitely want traffic to be alleviated, my entire life is in a holding pattern. Obviously, I haven't lived here long, so I don't know the difference in the amount of a traffic, but I would just like to have this situation resolved. At this point, I would almost prefer they do Alternative 4 or 5. What bothers me the most is not knowing what is going to happen. I understand that mobile homes are easier to displace than neighborhood homes. I have put a lot of time and money nto my house and really am just looking forward to the results of this study, and knowing when and if my house will be taken from me. I'm very perturbed that eminent domain is an actual thing, and that when people find their house it can just be taken away with no thought to how it is hurting anyone. If they are going to take my house away, mind you, after I searched a very long time for this house, just make a decision, because finding another house that I would want to live in is going to take a very long time. I have the best neighbors now and you want to take that all away. My house has its own septic tank, five bedrooms and three bathrooms and 2300 square feet so my cat can run around the entire house. I don't have a HOA and that is a very big deal, because if you add in a HOA fee, I can't afford a lot of houses. If you are going to rip my house away from me, just make a decision one way or the other.

Thank you for the presentation today at Poinciana High School. I am part owner of 21 Palms Resort at 6951 Osceola Polk Line Road. It appears you have three alternative routes for the addition to Poinciana Parkway. If Alternative 1 is chosen, then DOT will have no other choice than to add to Alternative 1 and ultimately destroy our business. We currently have 150 families living in our permanent park models. We built this business from scratch twenty years ago and this park is home to so many people. I urge you to please consider Alternative 4-5 to prevent destroying our park. Thank you.

We would appreciate that alternative 4 and 5 will not be an option for you guys; it'll affect wetlands that are there and mostly all of the families that live in this area. Not only would it affect us humans, but species of animals that live in those woods. If I have no other option than to move, I hope you guys pay us good amount of money for us to be able to move and still have a good amount left to do things around the house.

Hello, I wanted to touch base and see if my previous email was received and wanted to see if there are presentation materials available from the public meeting held on 9/25/2018? Thanks

Hello, I am checking in on the Poinciana Parkway Project from CR 54 to I-4 at SR 429 - PDE Study - I-4 Poinciana Connector. I am wondering if a public hearing date has been selected? I also heard that the Southern segment of the project would be constructed first and that alternatives 2 and 3 had been eliminated from the Southern Section of project. I wanted to confirm that this is true? Thanks

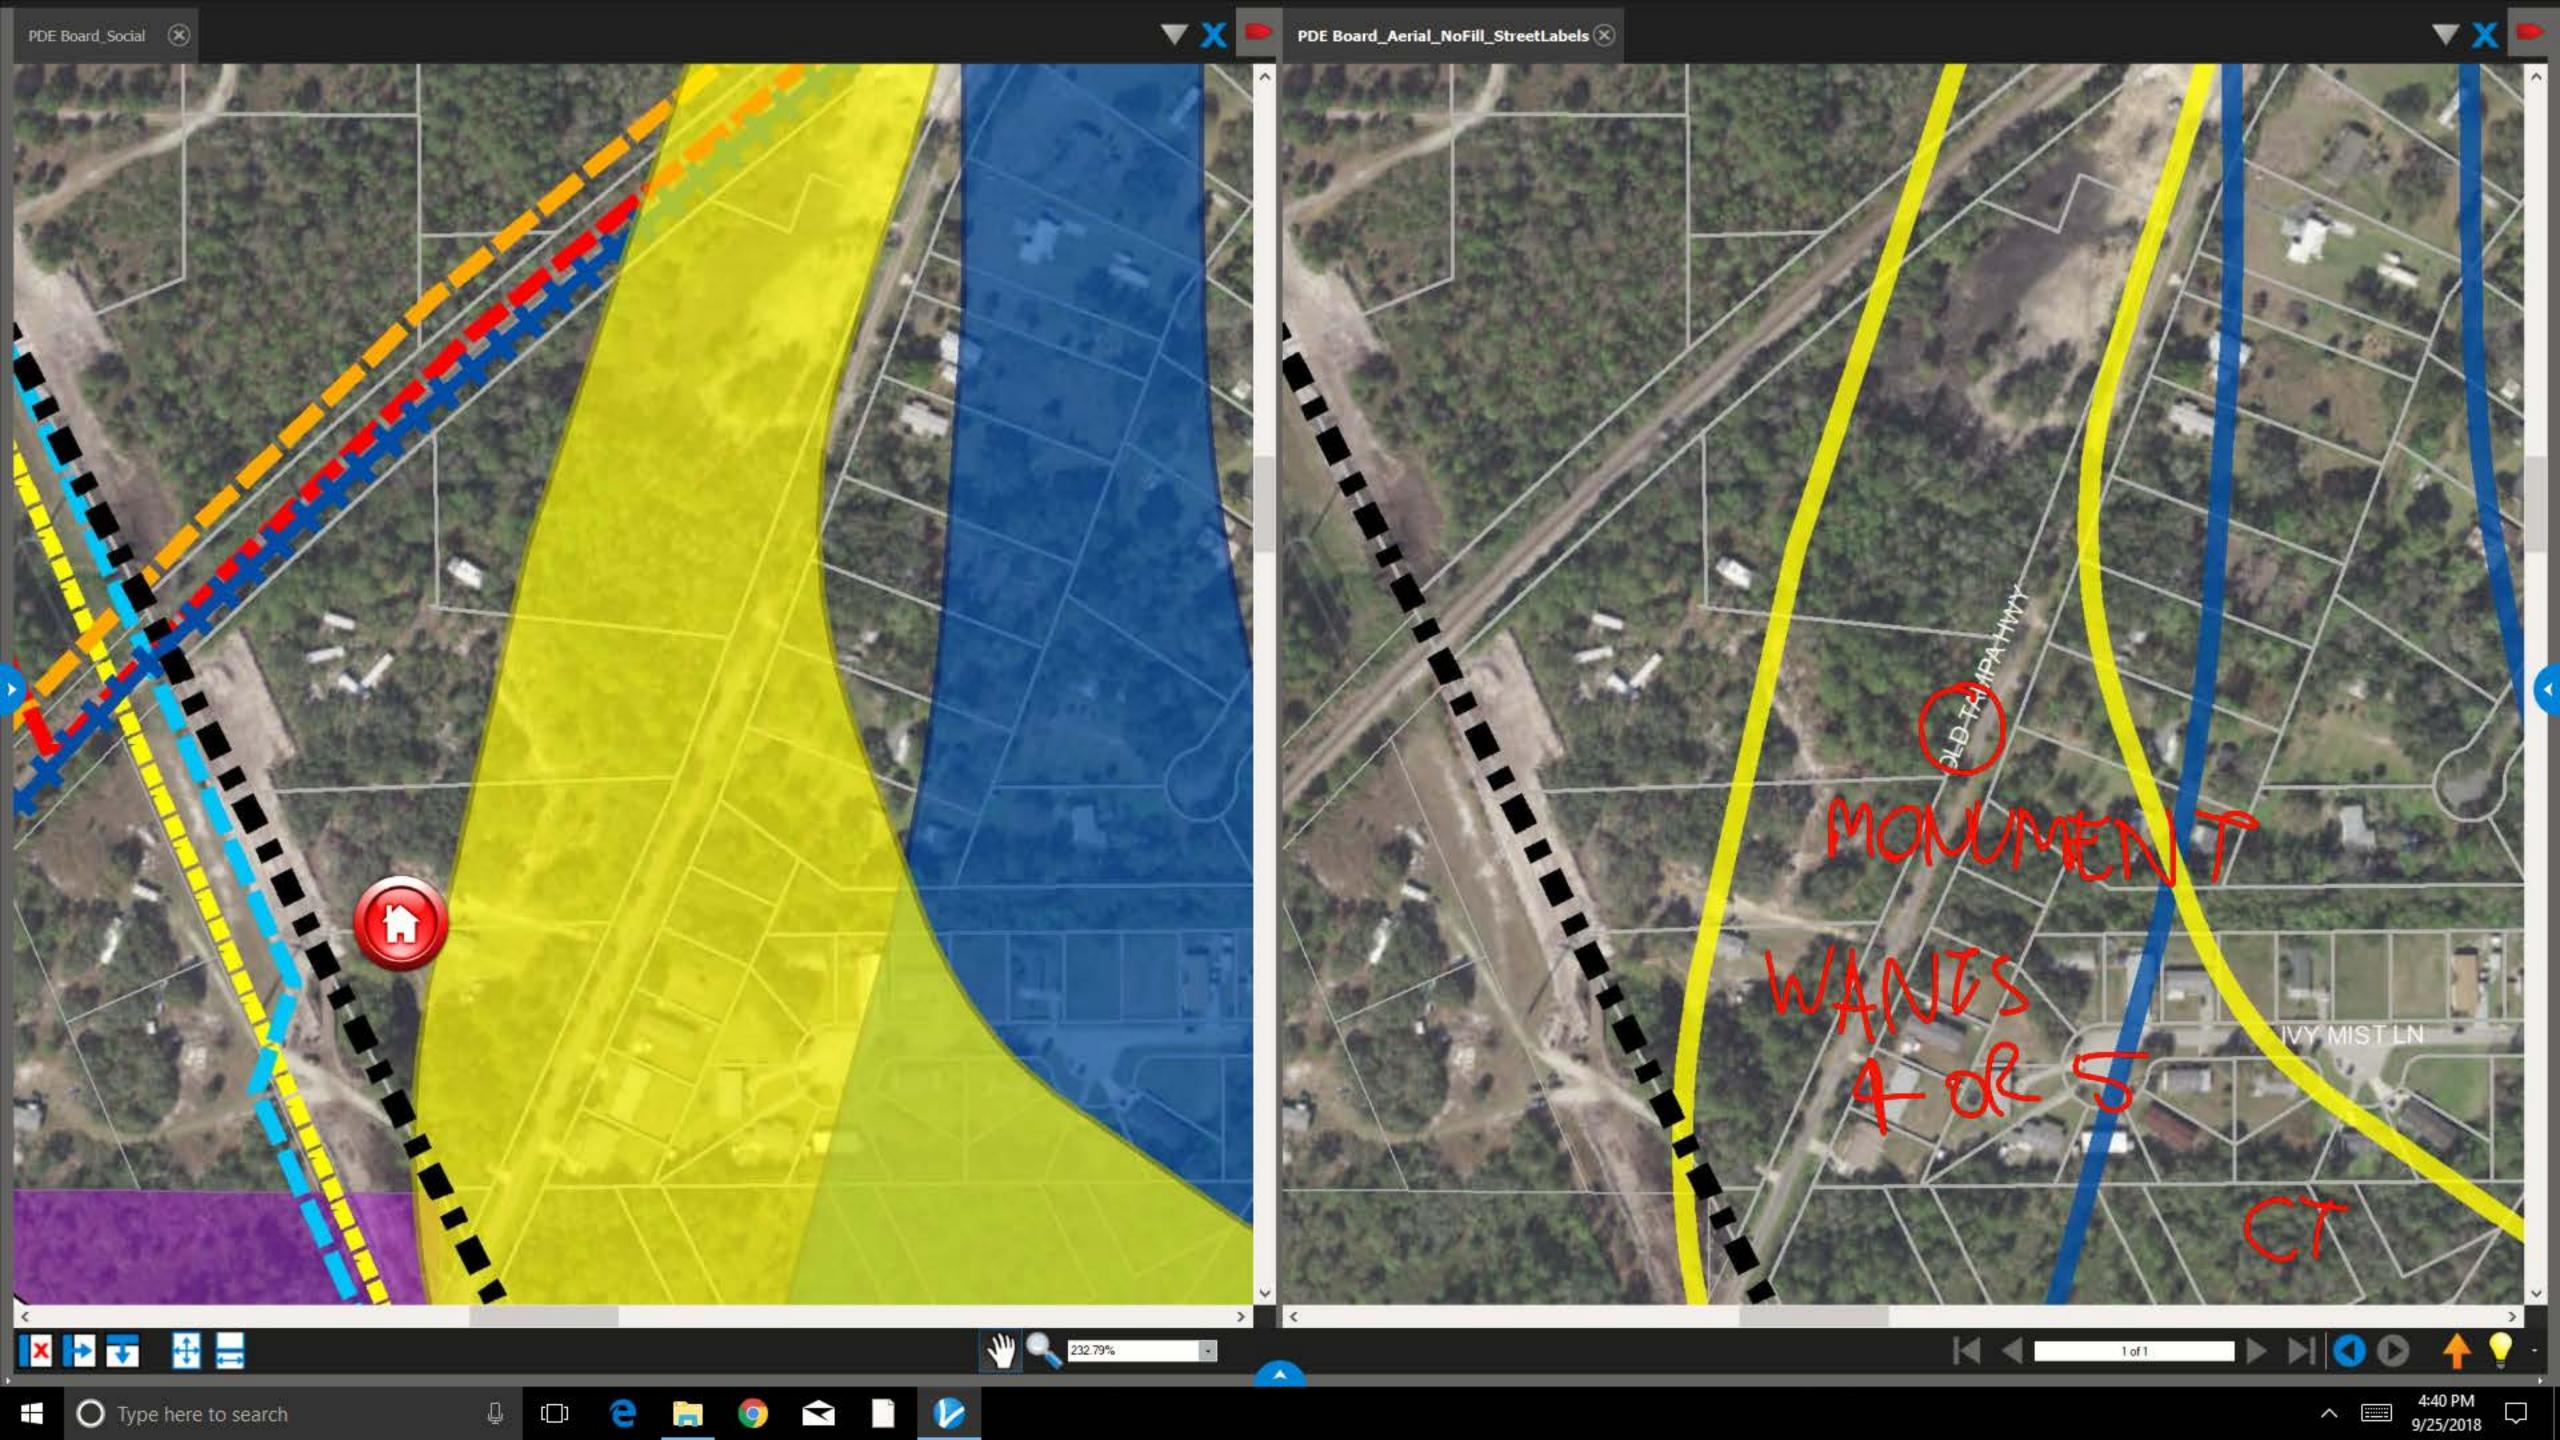

I see that a Public Meeting was held for Poinciana Parkway Extension last week and I was wondering when the next
one would be?

Subject: RE: Screening Analysis of Alternatives 1 and 1A

Clif:

Our schedules finally cooperated, so I had a chance to meet this morning with Bill Beasley, Deputy County Manager, and Jay Jarvis, Roads and Drainage Director, regarding the Poinciana Parkway Extension Improvement Alternatives. We would like offer the following staff comments:

- Staff is concerned with the potential impacts of both Alternatives 1 and 1A due to the high number of residential and non-residential parcels identified as being impacted under either alternative. Also, both Alternatives 1 and 1A potentially impact a major water production facility that serves northeast Polk County.
- We could encourage the study team to focus on Alternatives 4 and 5 due to the reduced social impacts and attempt to minimize the natural environment impact associated with these alternatives.

Finally, we understand the study team is working on design alternatives for the required future interchange between the Poinciana Parkway Extension and CR 54 (Ronald Reagan Parkway). We look forward to an update on this issue as work progresses.

Thanks.

Tom

Subject: [EXTERNAL]: Screening Analysis of Alternatives 1 and 1A

Tom,

Per our discussion, as part of the Poinciana Parkway Extension PD&E, we are conducting a screening analysis of Alternative 1 and Alternative 1A (Alternative 1A was suggested by the Loughman Community). These alignments are illustrated in the attached graphics.

A matrix comparing Alternatives 1 (which runs on east side of railroad) and 1A (which runs on west side of railroad) is provided below. The attached graphics illustrate the natural features within these alternatives. Note that there is an eagle nest within the needed right-of-way for both alternatives. It appears that the nest was previously outside of these alternatives; however, the eagles recently moved it to the location illustrated in the figure. The nest may ultimately eliminate both of these alternatives from further consideration.

There is not a significant Physical, Cultural or Natural difference between these two alternatives. Alternative 1 impacts 6 more residential parcels and Alternative 1A impacts 2 more non-residential parcels. The PD/DRI impacts are reflected in the parcel impacts. Alternative 1A is \$5.3 million more expensive due to longer bridges.

We would like to get Polk County's thoughts on these two alternatives and we can discuss them further during our meeting this Thursday at 11 AM.

Feel free to contact me if you have any questions.

Thanks,

Clif

CFX POINCIANA PARKWAY EXTENSION PD&E STUDY PUBLIC MEETING #2 March 14, 2019

	NAME	ADDRESS	CITY	ST	7IP	•		ON POWE STUDY PUBLIC MEETING #2	
1	NAME Kevin Dunn	ADDRESS 2263 Royal Ridge Dr	Davenpor	FL FL	3389 6	EMAIL Kevin@Kevin-Dunn.com	PHONE 217-972- 1857	COMMENT FORM Plan 1A must not move forward! The largest impact on homeowners in Polk County, this must be heavily considered. You can't play with the economic livelihood of families in the community! Plans 4A and 5A are shorter and mostly impacting swamp land. Please make the right choice for the families in the community. Poinciana needs the road, but not at such a high price for so many of us in the Polk County community.	PRAFT RESPONSES Project Studies 3/22/19, 11:45 AM Kevin@Kevin-Dunn.com; Mary Brooks; shari.croteau@qcausa.com Hello Mr. Dunn: Thank you for attending the recent public meeting for the Poinciana Parkway Extension Project Development and Environment (PD&E) Study, being conducted by the Central Florida Expressway Authority. We had more than 150 people attend the meeting, with 32 submitting written comments will become part of the public meeting record for the study and will be considered during the evaluation of the study alternatives as a recommended preferred alternative is identified. You may view the exhibits and presentation from the March 14 public meeting on the study webpage at the following link: https://bit.ly/2KECX9a The Poinciana Parkway Extension PD&E Study began in July 2018 and is scheduled to finish this fall. Public involvement and intergovernmental coordination are integral parts of the study process, and multiple opportunities for community engagement are being provided. You may submit comments via the study webpage, or by sending information to the study email address at ProjectStudies@CFXway.com.

CFX POINCIANA PARKWAY EXTENSION PD&E STUDY PUBLIC MEETING #2 March 14, 2019

						The public hearing is anticipated in this summer and the CFX Governing Board is slated to review the recommended preferred alternative for the study corridor in the fall of 2019. For more information on the study, check out the study webpage and follow the project on Facebook @PoincianaPkwyExt. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you. Kathy Putnam for Mary Brooks Public Involvement Coordinator 407-802-3210
Vince Zembaty	307 Florida Ave.	Davenpor	FL 3389 6	housewizz@yahoo.com	I vote for either 4A or 5A. They have environmental impacts but that is minimal compared to the 1A Alternative that would wipe out the city of Loughman, and cost more in the long run. Toll road revenue would go up as the public gets used to the new roads. 1A Alternative is not a good option and I will fight it any way I can.	Project Studies 3/22/19, 11:43 AM housewizz@yahoo.com; Mary Brooks; shari.croteau@qcausa.com Hello Mr. Zembaty: Thank you for attending the recent public meeting for the Poinciana Parkway Extension Project Development and Environment (PD&E) Study, being conducted by the Central Florida Expressway Authority. We had more than 150 people attend the meeting, with 32 submitting written comments that evening. We appreciate your input. Your written comments will become part of the public meeting record for the study and will be considered during the evaluation of the study alternatives as a recommended preferred alternative is identified. 	1 8	Shumard	330 Cortez Court	e e	FL	8	James.shumard.richard@gmail.com	407-414-5976	Great plans, but where does all the traffic flow to? Onto Cypress Road – already a traffic nightmare – Lake Wilson Road & 532 intersection. A. Has two lanes southbound, one left the other straight & right turns. The intersection needs to be enlarged to accommodate a right turn lane, this would reduce the traffic backup. B. How about adding southbound entry ramps at Marigold & KOA Roads? Traffic going to Haines City has to use Marigold to access Cypress. If toll road access was allowed southbound entry and exit at these roads then it would put money in your pocket for a more rapid transit. Thank you.	Project Studies 3/22/19, 11:13 AM James.shumard.richard@gmail.com; Mary Brooks; shari.croteau@qcausa.com Hello Mr. Shumard: Thank you for attending the recent public meeting for the Poinciana Parkway Extension Project Development and Environment (PD&E) Study, being conducted by the Central Florida Expressway Authority. We had more than 150 people attend the meeting, with 32 submitting written comments that evening. We appreciate your input. Your written comments will become part of the public meeting record for the study and will be considered during the evaluation of the study alternatives as a recommended preferred alternative is identified. You may view the exhibits and presentation from the March 14 public meeting on the study webpage at the following link: https://bit.ly/2KECX9a The Poinciana Parkway Extension PD&E Study began in July 2018 and is scheduled to finish this fall. Public involvement and intergovernmental coordination are integral parts of the study process, and multiple opportunities for community engagement are being provided. You may submit comments via the study webpage, or by sending information to the study email address at ProjectStudies@CFXway.com.

PD&E STUDY PUBLIC MEETING #2 March 14, 2019
Thank you again for your and
Clif Tate's presentation at the
Lake Wilson Preserve Home
Owners Association meeting
in January.
Following the meeting we
have distributed copies of the
presentation to members of
Lake Wilson Preserve HOA
who were unable to attend in
person and we have received
a considerable amount of
feedback, which we have
summarised as follows:-
It is preferred for
construction not to be
split in to 2 phases
If construction of the
project is split in to 2
phases then congestion
will significantly increase
on CR532 until the
second phase is built.
Most of the traffic wants to
get to the I4 or SR429 so
it is not ideal to have such
a volume of commuting
traffic using this route
when a direct connection
to I4/SR429 is preferred.
• CR532/CR545 Old Lake
Wilson junction -
existing congestion and
delays
Whilst it is noted that one
of the overall goals of the
project is to reduce
congestion and delays on
local roads; the study
does not appear to have
adequately considered
aucquatery considered

CIAT OINCIANAT ANNWAT EATENSIG	DN PD&E STODY POBLIC MEETING #2 INdi CIT 14, 2019
	the existing significant
	congestion at the
	CR532/CR545 Old Lake
	Wilson junction.
	This junction is already
	heavily congested with
	traffic lights on Red for up
	to 5 minutes, and having
	all of Poinciana Parkway
	traffic heading through it
	will cause significant
	delays and tailbacks in all
	directions.
	Whereas the North/South
	road at this junction could
	do with being expanded to
	2 lanes in each direction,
	the East/West routes
	which most of the traffic
	would use is already 2
	lanes and there is not
	much room to expand
	further. If Phase 1 went
	ahead on its own, it is felt
	that during peak times this
	intersection would reach
	grid-lock.
	• I4 Junction 58 – existing
	tailbacks
	The I4 Junction 58 at
	Champions gate is one of
	the most congested
	intersection on the I4.
	Traffic tailbacks from the
	junction cause congestion
	backing up on the l4 for
	several miles during peak
	times. By splitting the
	project in to 2 phases, this
	would add a considerable
	amount of traffic to this
	amount of traffic to tills

CIAT ON CHARLET	ION PDAE STODY POBLIC MEETING #2 March 14, 2019
	junction and make the
	problems and tailbacks
	even worse.
	It is acknowledged that
	proposed changes to a
	diamond
	formation/continuous flow
	intersection would help
	improve flow around the
	junction. However,
	planned developments in
	the Reunion, Champions
	Gate and Ronald Reagan
	areas will dramatically
	increase traffic congestion
	further in the next few
	years.
	Neighborhood
	intersections
	The junction with the main
	entrance at Reunion on
	CR532 has already been
	upgraded with traffic
	lights. Intersections for
	the other residential
	communities along
	CR532 at Lake Wilson
	Preserve, Tanglewood,
	Sandy Ridge, Ashebrook,
	Legacy Village etc would
	also require upgrading so
	that vehicles can turn
	across Parkway traffic.
	Direct connection to
	I4/SR429 is the
	preferred option
	A significant volume of
	traffic could use SR429
	rather than the I4 and so
	a direct connection to the
	I4/SR429 junction would

CIAT ON C	JANA PARKWAY EXTENSION PD&E STUDY PUBLIC MEETING #2 March 14, 2019
	not only reduce traffic at
	the Champions Gate
	junction, it would also help
	reduce traffic on the I4
	and would be the
	preferred option by far.
	SR429 has direct access
	to Walt Disney World
	theme parks and Orlando
	and would support all of
	the project overall goals.
	In addition, SR429
	already has a junction on
	the I4 as well as existing
	road bridges crossing the
	I4 carrying traffic north &
	south over the interstate.
	The existing SR429 could
	be extended south to join
	up with the Poinciana
	Parkway.
	It is understood that the
	connection to the I4 has
	multi-state/county
	authority complications.
	Would it be more
	acceptable to treat the
	whole project as the
	'southern extension to
	SR429' as this would not
	require new access to the
	I4?
	In conclusion, the
	overwhelming opinion is that
	the construction of the
	Poinciana Parkway extension
	should be carried out in a
	should be carried out in a single phase, directly
	connecting to SR429 and I4.
	We should be grateful if the
	Central Florida Expressway

						CIATOMCIANATANK	WAT EXTENSION	Authority would take our residents' views and concerns into account. Sincerely, Pippa Blackmore For and on behalf of the Residents' Committee

	back roads are congested	
	because of that. I'm not sure	
	how much of an	
	improvement we would have	
	with the expansion overall	
	since the major critical	
	struggle points are the roads	
	I mentioned above.	
	Either way, we strongly	
	oppose to alternative 1A	
	and we have been	
	discussing this in length with	
	our HOA and other	
	homeowners that would be	
	negatively impacted by that.	

CFX POINCIANA PARRWAT EXTENSION PDAE STODT POBLIC MIEETING #2 MIDICIT 14, 2019
Our request would be for
option 5A to be chosen, or
any alternative that does not
pass through our
community (Sereno) nor
entrance. Certainly NOT 1A
the way it was presented.
For what we could see,
alternative 5A would not
impact our community, and
it would be a straighter
route to 532, which could be
more effective.
The other suggestion is to
move/push the southern
part of alternative 1A farther
north so it doesn't affect our
Sereno community (neither
houses nor the entrance). If
that was the case, the area
impacted would be Sereno
phase 3, right across the
road, which would not
create such a negative
impact since Sereno 3 has
not been built yet. There's
plenty of empty areas there
that could be repurposed if
anything.

CIAT GINCIANA LANGWAY EXTENSION LOGIC MEETING #2 March 14, 2015

Central Florida Expressway Authority Attention: Mary Brooks 4974 ORL Tower Road Orlando, FL 32807

Subject: Comments on Poinciana Parkway Extension to CR 532

Dear Ms. Brooks,

Expansion of the Poinciana Parkway should be done in a manner that minimizes environmental impact. I recommend Alternative 1A with the following conditions as Alternatives 4A and 5A would mainly cross Upper Lakes basin watershed and adversely affect water flow and roughly twice the amount of state designated wildlife habitat:

- 1. Elevate road over lake crossing.
- 2. Design the bridge over lake to prevent water runoff from affecting the lake.
- 3. Relocated affected gopher tortoises.
- 4. Build road in a manner so that it will not be flooded by a 100 flood and last at least twenty years without potholes.
- 5. Replace any wetlands taken as result of this project with at least twice the number of acres of wetlands taken.

For more information, contact John M. Puhek at (407) 766-8988 or (407) 996-5295 (home).

Sincerely yours,

John M. Pulek

			direction, the East/West routes which most of the	
			traffic would use is already 2 lanes and there is not	(REPLIED 9/10/19)
			much room to expand further. If Phase 1 went	
			ahead on its own, it is felt that during peak times	
			this intersection would reach grid-lock.	
			this intersection would reach grid look.	
			□ 14 typetion FQ evieting tailbacks	
			☑ 14 Junction 58 – existing tailbacks	
			The I4 Junction 58 at Champions gate is one of the	
			most congested intersection on the I4. Traffic	
			tailbacks from the junction cause congestion	
			backing up on the I4 for several miles during peak	
			times. By splitting the project in to 2 phases, this	
			would add a considerable amount of traffic to this	
			junction and make the problems and tailbacks even	
			worse.	
			It is acknowledged that proposed changes to a	
			diamond formation/continuous flow intersection	
			would help improve flow around the junction.	
			However, planned developments in the Reunion,	
			Champions Gate and Ronald Reagan areas will	
			dramatically increase traffic congestion further in	
			the next few years.	
			Neighborhood intersections	
			The junction with the main entrance at Reunion on	
			CR532 has already been upgraded with traffic	
			lights. Intersections for the other residential	
			communities along CR532 at Lake Wilson Preserve,	
			Tanglewood, Sandy Ridge, Ashebrook, Legacy	
			Village etc would also require upgrading so that	
			vehicles can turn across Parkway traffic.	
			E D' and an anal's a la 14/CD420's the san formal	
			② Direct connection to I4/SR429 is the preferred	
			option	
			A significant volume of traffic could use SR429	
			rather than the I4 and so a direct connection to the	
			I4/SR429 junction would not only reduce traffic at	
			the Champions Gate junction, it would also help	
			reduce traffic on the I4 and would be the preferred	
			option by far.	
			SR429 has direct access to Walt Disney World	
			theme parks and Orlando and would support all of	
			the project overall goals.	
			In addition, SR429 already has a junction on the I4	
			as well as existing road bridges crossing the I4	
			carrying traffic north & south over the interstate.	
			carrying traine north a south over the interstate.	

	T		 	1	1	August 23, 2013	
						The existing SR429 could be extended south to join up with the Poinciana Parkway.	
						It is understood that the connection to the I4 has	
						multi-state/county authority complications. Would	
						it be more acceptable to treat the whole project as	
						the 'southern extension to SR429' as this would not	
						require new access to the I4?	
						In conclusion, the overwhelming opinion is that the	
						construction of the Poinciana Parkway extension	
						should be carried out in a single phase, directly	
						connecting to SR429 and I4.	
						We should be grateful if the Central Florida	
						Expressway Authority would take our residents'	
						views and concerns into account.

Central Florida Expressway Authority
ConceptStudies@CFXway.com

Dear Mary

RE: PD & E STUDY FOR THE PROPOSED POINCIANA PARKWAY EXTENSION PUBLIC MEETING AUGUST 29, 2019

Thank you for keeping us informed about the proposals for the Poinciana Parkway Extension.

Please can you read out our comments and submit them as part of the public hearing record as we are not able to attend the meeting.

It is preferred for construction <u>not</u> to be split in to 2 phases

If construction of the project is split in to 2 phases then congestion will significantly increase on CR532 until the second phase is built. Most of the traffic wants to get to the I4 or SR429 so it is not ideal to have such a volume of commuting traffic using this route when a direct connection to I4/SR429 is preferred.

CR532/CR545 Old Lake Wilson junction - existing congestion and delays

Whilst it is noted that one of the overall goals of the project is to reduce congestion and delays on local roads; the study does not appear to have adequately considered the existing significant congestion at the CR532/CR545 Old Lake Wilson junction.

This junction is already heavily congested with traffic lights on Red for up to 5 minutes, and having all of Poinciana Parkway traffic heading through it will cause significant delays and tailbacks in all directions.

Whereas the North/South road at this junction could do with being expanded to 2 lanes in each direction, the East/West routes which most of the traffic would use is already 2 lanes and there is not much room to expand further. If Phase 1 went ahead on its own, it is felt that during peak times this intersection would reach grid-lock.

I4 Junction 58 – existing tailbacks

The I4 Junction 58 at Champions gate is one of the most congested intersection on the I4. Traffic tailbacks from the junction cause congestion backing up on the I4 for several miles during peak times. By splitting the project in to 2 phases, this would add a considerable amount of traffic to this junction and make the problems and tailbacks even worse.

It is acknowledged that proposed changes to a diamond formation/continuous flow intersection would help improve flow around the junction. However, planned developments in the Reunion, Champions Gate and Ronald Reagan areas will dramatically increase traffic congestion further in the next few years.

Neighborhood intersections

The junction with the main entrance at Reunion on CR532 has already been upgraded with traffic lights. Intersections for the other residential communities along CR532 at Lake Wilson Preserve, Tanglewood, Sandy Ridge, Ashebrook, Legacy Village etc would also require upgrading so that vehicles can turn across Parkway traffic.

Direct connection to I4/SR429 is the preferred option

A significant volume of traffic could use SR429 rather than the I4 and so a direct connection to the I4/SR429 junction would not only reduce traffic at the Champions Gate junction, it would also help reduce traffic on the I4 and would be the preferred option by far.

SR429 has direct access to Walt Disney World theme parks and Orlando and would support all of the project overall goals.

In addition, SR429 already has a junction on the I4 as well as existing road bridges crossing the I4 carrying traffic north & south over the interstate. The existing SR429 could be extended south to join up with the Poinciana Parkway.

It is understood that the connection to the I4 has multi-state/county authority complications. Would it be more acceptable to treat the whole project as the 'southern extension to SR429' as this would not require new access to the I4?

In conclusion, the overwhelming opinion is that the construction of the Poinciana Parkway extension should be carried out in a single phase, directly connecting to SR429 and I4.

We should be grateful if the Central Florida Expressway Authority would take our residents' views and concerns into account.

Sincerely,

Pippa Blackmore

Alternative 5A without the originally proposed
Slip ramps seems to be an attractive
solution to traffic thoise to existing
neighborhoods, as well as eliminating
outright eminent domaine issues.
The swamp which the following will
overpass will quickly return to its
desired wildness. The fact that
Alternative 5A is also of the lowest
cost makes it most enticing as well.
As population increases in Harida it is
progressive to plan for traffic movement

September 24, 2019

Chairman Jay Madara Central Florida Expressway Authority 4974 Orl Tower Road Orlando, FL 32807

Dear Chairman Madara:

I would like to commend the Central Florida Expressway Authority (CFX) for your dedication to providing transportation opportunities to the people of Poinciana. I appreciate your commitment to widening the Poinciana Parkway and your efforts to connect this important road to Interstate 4.

Linking Poinciana Parkway to Interstate 4 is a critical quality of life issue for this community. According to Sperling's Best Places, the average one-way commute in Poinciana takes approximately 43 minutes, while the average U.S. commute is approximately 26 minutes.¹

Until the opening of the Poinciana Parkway in 2016, Poinciana residents had just two roadways to get into and out of their community. Even with the fairly recent addition of the Poinciana Parkway, a two-lane limited access roadway, aggressive growth creates clogged roadways in this part of Osceola County.

I want to assure the CFX Authority that you have my wholehearted support. As Interstate 4 is a federal highway, Congress has a responsibility to assist CFX in your work to link Poinciana Parkway to Interstate 4. Please do not hesitate to let me know how I can be of service in this endeavor and other efforts to improve infrastructure in Central Florida.

Sincerely,

Darren Soto

Member of Congress

Subject: Poinciana Parkway Extension PD&E Study

Dear Ms. Cortes and Mr. Avila:

Thank you for attending the recent kick-off public workshop for the Poinciana Parkway Extension Project Development and Environment (PD&E) Study, being conducted by the Central Florida Expressway Authority. We had more than 130 people attend the meeting, with more than 20 submitting written comments.

We appreciate your input. All written comments will become part of the public meeting record for the study, and will be considered during the evaluation of the study alternatives.

You may view the exhibits and presentation from the public workshop on the study webpage at the following link:

https://www.cfxway.com/agency-information/plans-studies/project-studies/poinciana-parkway-extension-pde/

The Poinciana Parkway Extension PD&E Study began in July 2018 and is scheduled to finish in fall of 2019. Public involvement and intergovernmental coordination are integral parts of the study process, and multiple opportunities for community engagement are being provided.

You may submit comments via the study webpage, or by sending information to the study email address at ProjectStudies@CFXWay.com.

The next public meeting is anticipated in March of 2019, and the public hearing is expected the following August or September. The CFX Governing Board is slated to review the recommended alternative for the study corridor in September or October 2019.

For more information on the study, check out the study webpage and follow the project on Facebook. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Hello Philip,

Thank you for your comment. We will make sure it becomes part of the study record.

We do have a public workshop coming up on September 25, 2018 for the Poinciana Parkway Extension PD&E Study. If you would like to attend, it is being held at Poinciana High School in the cafeteria. The address is 2300 S. Poinciana Blvd., Kissimmee, FL 34758. It will be an open house format from 5:30 p.m. to 7:30 p.m.

I have attached the fact sheet for this project. If you would like any more information about this project, you can visit our website at the below link:

https://www.cfxway.com/agency-information/plans-studies/project-studies/poinciana-parkway-extension-pde/

You can also go to our Facebook page, @PoincianaPkwyExt, and "like" the page to keep up with the latest on the project.

If you have any other questions, please do not hesitate to contact us.

Thank you.

Ms. Adams:

The Poinciana Parkway Extension Project Development and Environment (PD&E) Study's latest evaluation has resulted in Alternative 5A being considered as the preferred alternative.

We hope you will be able to attend the public hearing where we will review the preferred alternative this Thursday evening:

- 5:30 p.m. 8 p.m.
- Thursday, August 29
- Poinciana High School, 2300 S. Poinciana Blvd., Kissimmee, FL 34758

Please visit the study web page at https://bit.ly/2KECX9a for the most recent information.

We anticipate the study will be presented to the Central Florida Expressway Authority Governing Board at its October 10 meeting. The Board at that time will decide whether the project should move forward to design and eventual construction.

Thank you.

Hello Ms. Adams:

The last sheet in your attachment was for an independent PD&E Study done by the Florida Department of Transportation (FDOT) from County Road 54 to I-4.

This was done separately by a different agency (FDOT) and, while some of the study areas may overlap, it is not related to the current CFX Poinciana Parkway PD&E study from the existing parkway to County Road 532.

The other pages in your attachment are from CFX and relate to the current PD&E Study for the Poinciana Parkway Extension.

Please let us know if you have any questions.

Subject: Poinciana Parkway - Project Briefing/Meeting

Hi Clif, I got your information from Glenn from CFX. We are working with a large landowner near the Haines City area, and they are wanting to learn more about the Poinciana Parkway Extension project.

I would like to set something up in the first or second week of August where we can meet in your office or CFX and get a detailed briefing on the latest for the project.

Attendees on our side, in addition to myself would be: Jose Munoz, BCC Engineering President Rennie Heath, Cassidy Homes JD Alexander, Cassidy Homes Al Cassidy, Cassidy Homes

Let me know some dates and I can set it up, thanks, have a great weekend.

Alfred

Subject: RE: CFX Poinciana Parkway Extension PD&E Study - Commission

Comments

Presentation and comments have concluded. Commissioner comments included:

Commissioner Hawkins noted the PPE was the reason he was in Washington, D.C., recently was seeking federal support for the next phase to connect to I-4. He quoted Laura as saying that interchange will be about \$1 billion; also noted the MOT will be monumental to try to keep traffic moving through this area during construction.

Commissioner Hawkins stated pending CFX Board approval, the agency could be ready to move forward with construction of phase I in two years. He reiterated the need for input from the federal government.

He noted phase I "will relieve some people coming out of Poinciana, but could create some problems up the road."

He referenced the infrastructure bill that was coming, and noted all of the delegates in Washington are arguing for this to be a priority.

Commissioner Choudry asked how we were publicizing the public hearing, which I explained in detail. She also wanted to be sure we were publicizing in Hispanic publications and I assured her we were.

Commissioner Arrington thanked us for the presentation and for honoring the commitment to move forward on the Poinciana Parkway Extension. --258 p.m.

Subject: CFX documents at Poinciana Library

Hello Jackie:

I'm following up on Lisa Nason's email regarding public display of documents for the Central Florida Expressway Authority's Poinciana Parkway Extension Project Development and Environment Study. We must have the study's draft environmental report on public display at least 21 days prior to the August 29 public hearing. We also keep the documents on display for the 10-day comment period that follows the public hearing.

The display entails setting up the materials (typically several large notebooks, fact sheets for public distribution, and a sign-in sheet) on a small table near a staffed desk or counter. Another option is keeping the materials behind a reference desk and displaying a sign at the front desk that the materials are available for viewing at the reference desk.

I, or another member of our team, would bring the materials and set them up. We'd like to use the Poinciana Library because of its proximity to the study area. Here is the link to the study's webpage if you need information about the study: https://www.cfxway.com/agency-information/plans-studies/project-studies/poinciana-parkway-extension-pde/

Please let me know if you have any questions. Unless I hear otherwise from you, I'll call you on Monday, August 5 to schedule our delivery of the documents to the Poinciana Library.

Thank you for your assistance. Kathy Putnam

Hi Ms. Baird:

Thanks for the notice of the email addresses being shown. You're right, that should have been under BCC. We'll make certain future group emails are sent that way, as we typically do.

Yes, we look forward to your comments regardless of you attending a public meeting. You may either email us at ProjectStudies@CFXWay.com or through the project website at https://www.cfxway.com/agency-information/plans-studies/project-studies/poinciana-parkway-extension-pde/. You'll find the online comment form at the lower right corner.

Also, we anticipate the video-looped presentation to be posted to the study website within a week after the Sept. 25 public meeting. You may want to watch that before commenting.

Please let us know if you have any questions.

Rolando & Belinda Balleras

DateTimeRegardingRecord Manager3/11/20195:05 PMPPE call on 031119Shari Croteau

Rolando Balleras & Belinda Balleras.

Good afternoon. This is my second call; I called you earlier this morning. My name is Rolando. My telephone number is 321-356-0109. My name is Rolando, I called you earlier, this is my second call. Please return my call.

PIO called him back. He received the letter for the 3/14 meeting, but his property is north of CR 532. Should he still come to the meeting? Also, he can't understand why the extension is going to CR 532 when it's desperately needed up to I-4. PIO explained the extensive coordination needed with FDOT and its plan for the Beyond the Ultimate. He said he likely won't come to Thursday's meeting, but stressed the extension is needed to I-4.

9/24/2018 12:00 PM Rolando Balleras returned call on 9/24/18.

He asked why he received notice of tomorrow's public meeting if his

property supposedly wouldn't be affected by this project. PIO explained that everyone who was potentially impacted under the Concept Study received the notice. CFX wanted to invite the property owners north of CR 532 to the public meeting to answer any questions they had and ensure

them of the project limits.

9/24/2018 11:45 AM PIO returned call on 9/24/18. Shari Croteau

She left a message for Rolando letting him know that the current study was extending Poinciana to CR 532. She also said that there was a public meeting tomorrow night at Poinciana High School from 5:30p - 7:30p. It would be great if he could make it. She left her phone number and asked

him to call her back.

Request

Hello Stephanie,

As the public involvement coordinator for the Poinciana Parkway Extension Project Development and Environment (PD&E) Study being conducted by the Central Florida Expressway Authority, your query was forwarded to me. I would be happy to get with you to address your questions on camera.

I've also provided some information to your questions below in green.

Do you intend to attend the public meeting tonight at Poinciana High school, 530-730 p.m.? Please feel free to call me to discuss this further.

Thank you. Mary Brooks (Continued....)

Created 1/9/2020 at 9:42 AM Page 21 of 363

3/14/2019 1:20 PM (.. continued)

Shari Croteau

1. Can I please get a copy of the three exhibits (the three study alternatives that show potential impacts to the physical, natural, social and cultural environment) that will be on display at tonight's Poinciana meeting?

The exhibits we're showing tonight are the same as what was shown to the EAG/PAG three weeks ago, which are also posted on the study webpage:

https://www.cfxway.com/agency-information/plans-studies/project-studies/poinciana-parkway-extension-pde/

The public meeting exhibits will be posted within 7 business days also.

2. Do you all have someone out of Osceola County that is familiar with this project, that would be able to do an on-cam interview down the line? We used to interview Atlee Mercer back in the day.

I can address an on-camera interview request.

3. Are there any more public meetings of its kind scheduled for this?

After the public meeting tonight, the study team will be developing a preferred alternative. That will be shared at a public hearing in August-September for comment. The preferred alternative and comments received will be provided for review by the CFX Board in September-October. A decision at that time will be made on whether the project moves forward to design, or is put on hold until sometime in the future.

4. How much would this Poinciana Parkway extension cost? And where does the money come from? Would any funds come from the potential sales tax increase Osceola County is putting on the ballot for voters (in May)?

The cost estimates are still being developed for the various alternatives. Initial cost estimates - without right of way costs, which are still being developed - for the alternatives range from \$247 million - \$311 million, depending on the alternative. The entire CFX system - 118 miles - is supported by tolls; no taxes of any kind fund CFX operations.

PS: Can I please be added to the CFX media list serve? I cover a lot of Osceola County, so if there's a specific list for this particular area, also please add me: Stephanie.Bechara@charter.com

We can certainly add you to the media list, no problem.

Thanks. Please call me to discuss further.

Hello Melissa,

Thanks for contacting us regarding the Central Florida Expressway Authority's Poinciana Parkway Extension Project Development and Environment (PD&E) Study. A public meeting held on this corridor on September 25, 2018, was attended by 134 people and 21 comments were submitted. Materials from this meeting can be found on the study webpage at: https://www.cfxway.com/agency-information/plans-studies/project-studies/poinciana-parkway-extension-pde/#1529005822570-8cb4e5c0-80c4

CFX anticipates holding the next public meeting on this study in March. Information on the public meeting will be sent to property owners within the study area, as well as posted on the study webpage. We will be happy to provide the public meeting information to you once details are available.

In the meantime we encourage the public to visit the study webpage periodically for updates, and to follow the study on Facebook for the latest information.

Thank you.

Subject: Poinciana Parkway Extension Study question

Hello Manuel,

Thanks for contacting the Central Florida Expressway Authority (CFX) regarding the Poinciana Parkway Extension Project Development and Environment (PD&E) Study. I'm glad you were able to review the information on the study webpage on the CFX website www.cfxway.com>.

I forwarded your query to the study team about potential impacts to the property owned by Diamond Back Land Company LLC (parcel ID #06-26-28-0000-0071-0000) at Osceola-Polk Line Road and Old Tampa Highway.

Based on the feedback from the March 14 public workshop, as well as stakeholder input, an evaluation of engineering, environmental and social impacts, and potential costs, the study team is recommending Alternative 5A without slip ramps at Ronald Reagan Parkway as the preferred alternative. (Continued...)

Created 1/9/2020 at 9:42 AM Page 31 of 363

7/9/2019 1:00 PM (...Continued)

Shari Croteau

Shari Croteau

The study team reviewed this property location and provided the attached map graphic. Understanding that alignment locations and other details are subject to change, at this time Alternative 5A shown in the graphic would affect the western portion of the property in question.

As discussed on the phone, we are preparing for a public hearing to receive comments on the preferred alternative on August 29 at Poinciana High School from 5:30 p.m. - 8 p.m. More information on the public hearing will be provided soon.

The CFX Governing Board is scheduled at the Oct. 10 meeting to review the study findings and to decide whether the project would move forward to design and eventual construction.

We hope you find this information helpful. Please feel free to contact us with additional questions.

Thank you.

Subject: CFX Poinciana Parkway Extension PD&E Study - Property Query

Hello Clif,

I hope you had a great holiday?

I received a call from a RealVest agent working with the owner of a large parcel (#06-26-28-0000-0071-0000) at Osceola-Polk Line Road and Old Tampa Highway. He said they have a buyer but one of the alternatives is very close, so they're concerned about potential impacts and the effect on their transaction.

He said the owner was Diamond Back Land Company LLC, and the agent listed is William Glenn Roy.

Can you have someone take a look and maybe provide the info and graphic you've done for other properties so we can address this concern? Let me know, thank you!

5/28/2019

12:50 PM

Shari Croteau

5/28 1250 p.m. Hercules Betts called (407-928-5209) said he missed the meeting, is there another meeting coming up? PIO said we have a public hearing scheduled for Aug. 29, will be sending out details on that when we get closer. He said so does that mean a decision has been made if we're going to public hearing? PIO said we have a recommendation for a preferred alternative that we'll be sharing at the hearing and getting feedback. PIO noted the recommendation is for 5A, which has the least residential impacts, highest traffic and lowest cost. PIO recapped the comments received a the previous public meeting, though noting a couple of environmental agencies are not thrilled with 5A due to the environmental impacts. Mr. Bettis said I think the residential impact ... economically and socially it (alternative 1A) would devastate the residents in this area (Loughman). He said 5A is better than 4A, but either one of them would be better than 1A. PIO talked him through finding the advisory group exhibits on the website, and said we'd be sending out notice on the hearing when we get closer. He was thankful for the information.

2/6/2019 7:49 PM PPE call from Hercules Betts 2/6/19

Shari Croteau

Good evening, Ms. Brooks. This is Hercules Betts from Loughman Community Association. I'm just reaching out to touch base with you to see if anything else has transpired with the situation in Loughman and the study. If there is, please text me at 407-928-5209. And again, thank you.

PIO got the voicemail after the Feb. 19 PAG meeting. She texted Mr. Betts about the upcoming public meeting on Mar. 14.

Subject: Poinciana Parkway typical section width

Hello, Mr. Betts:

The typical section of a CFX expressway is contained within a right-of-way of approximately 330 feet. Attached is a photo of a typical section that was included in the presentation at the recent Poinciana Parkway Extension public meeting.

As you see here, the 330 feet allows for four travel lanes, shoulders, and room in the median or to the outside of the roadway for future widening.

You can find the presentation video at this link (https://www.youtube.com/watch?v=9TtQQ-moPKQ&feature=youtu.be) and will find the explanation for this graphic by going to the eightminute, 30-second mark in the video.

Let me know if you have any questions.

Subject: Poinciana Parkway Extension PD&E Study

HI Mr. Betts:

Again, thanks for looking for information to share with your neighbors in Loughman. As we discussed, the study, which began in July, is expected to last 15 months. The previous study anticipated extending Poinciana Parkway to I-4, but this study is looking at an extension just to County Road 532.

Here is the link to the website (https://www.cfxway.com/agency-information/plans-studies/project-studies/poinciana-parkway-extension-pde/) for the Poinciana Parkway Extension Project Development and Environment (PD&E) Study. The tag for the Facebook page is @PoincianaPkwyExt.

Attached is the study fact sheet. I am also sending you the invitation to the Project Advisory Group meeting from 2 p.m. - 4 p.m. on Wednesday, Aug. 15 at the Central Florida Expressway Authority offices at 4974 ORL Tower Road, Orlando, Florida 32807. As Vice President of the Loughman Community Association, your input would be valuable for this study. I'll also email you a calendar invite for that day.

The study team would be happy to provide a presentation at an upcoming Loughman Community Association meeting. Let us know if you would like to schedule that.

Please don't hesitate to contact us if you have questions. We hope to see you on Aug. 15.

Thanks,

Kathy Putnam for Mary Brooks Public Involvement Coordinator

8/1/2018 11:00 AM

PIO called back on 8/1.

Shari Croteau

Shari Croteau

Mr. Betts says they're having a community meeting tomorrow night and he's looking for information that he can share with his neighbors. They're very concerned about alignments going through Loughman and are frightened they'll soon have to move out of their homes. PIO said she would email available project information, project website and Facebook links to Mr. Betts so he could share that with the community. She also offered a study team presentation to a community meeting as CFX did during the concept study phase. PIO explained the PD&E study and design timelines to help ease people's fears about imminent disruption. Mr. Betts said that was very helpful. PIO said she would add Mr. Betts to the project database so he would get updates. The Loughman Community Association meets their first Tuesday of every month.

Hello Mr. Betz:

Thank you for attending the recent public meeting for the Poinciana Parkway Extension Project Development and Environment (PD&E) Study, being conducted by the Central Florida Expressway Authority. We had more than 150 people attend the meeting, with 32 submitting written comments that evening.

We appreciate your input. Your written comments will become part of the public meeting record for the study and will be considered during the evaluation of the study alternatives as a recommended preferred alternative is identified.

You may view the exhibits and presentation from the March 14 public meeting on the study webpage at the following link: https://bit.ly/2KECX9a

The Poinciana Parkway Extension PD&E Study began in July 2018 and is scheduled to finish this fall. Public involvement and intergovernmental coordination are integral parts of the study process, and multiple opportunities for community engagement are being provided.

You may submit comments via the study webpage, or by sending information to the study email address at ProjectStudies@CFXway.com.

The public hearing is anticipated in this summer and the CFX Governing Board is slated to review the recommended preferred alternative for the study corridor in the fall of 2019.

For more information on the study, check out the study webpage and follow the project on Facebook @PoincianaPkwyExt. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Subject: Poinciana Parkway Extension PD&E Study Comment Letter

Dear Ms. Blackmore,

Thank you for your comment submitted for the Public Hearing on August 29, 2019 for the Poinciana Parkway Extension Project Development and Environment (PD&E) Study, being conducted by the Central Florida Expressway Authority (CFX).

We appreciate your input. Your letter was read as requested as part of the public comment period during the hearing. Your written comments will become part of the public hearing record for the study and will be considered during the final evaluation of the preferred alternative.

As noted in your letter regarding the next phase of the parkway corridor, CFX is undertaking the coordination required with the Florida Department of Transportation and the Federal Highway Administration with respect to a possible connection to Interstate 4. The location of the connection to I-4 would be determined by a future PD&E Study programmed by FDOT; CFX remains in communication with the Department in this regard.

Regarding your concerns about CR 532 intersections with neighboring communities, CFX plans to widen about a mile of CR 532 adjacent to the parkway and Osceola County plans to do likewise from that point to Old Lake Wilson Road. Intersections would be looked at in further detail if the parkway project is approved to move forward to design.

You may view the exhibits and presentation from the August 29 public hearing on the study webpage at the following link: https://bit.lv/2KECX9a

Sent: Thursday, June 27, 2019 10:36 AM

Subject: RE: Poinciana Parkway Extension

Hello Pippa,

Thanks for reaching out to us for an update on the CFX Poinciana Parkway Extension PD&E Study. We are preparing to send out invitations at the end of July for a public hearing to receive formal comment on the preferred alternative, Alternative 5A.

The public hearing is scheduled for Thursday, August 29 from 5:30 p.m. - 8 p.m. at Poinciana High School, located at 2300 South Poinciana Boulevard, Kissimmee, FL 34758.

The CFX Governing Board is slated to review the public hearing comments and preferred alternative for the study corridor in October. The Board would then decide whether the project should move forward to design and eventual construction. Additional schedule information would be determined subsequent to that decision, as appropriate.

We do not have a schedule at this time for the study of Phase 2 from County Road 532 to I-4. As noted previously, that phase requires extensive coordination with the Florida Department of Transportation and the Federal Highway Administration, which is ongoing.

Regarding potential community impacts, those would be determined and evaluated as part of the Phase 2 study.

I hope you find this information helpful. You can view all of the latest study information on the study webpage at:

mailto://www.cfxway.com/agency-information/plans-studies/project-studies/poinciana-parkway-extension-pde/

Please feel free to contact us any time for additional information.

We hope to see you all at the public hearing.

Thank you. Mary Brooks

Subject: Re: Poinciana Parkway Extension

Hi Mary and Clif,

I hope you are both well.

I have just seen on the <u>Poinciana Parkway Extension PD&E</u> facebook page that Alternative route 5a is going ahead. What happens now? I hope that you can answer some of our questions.

- Will Alternative Route 5a be built first? Is there a time-line for this?
- Will Phase 2 (looking at the route from the CR532 to the I4) commence in the summer?
- Do you have any more details about Phase 2?
- Is our community at Lake Wilson Preserve still under threat?

I look forward to hearing from you.

Best wishes Pippa and Gary Blackmore 136 Mockingbird Road Lake Wilson Preserve

Hi Mary and Clif,

I hope you are both well. Thank you for attending our meeting in January; we really appreciate it.

Please find attached a letter from the residents of Lake Wilson Preserve to present at the Poinciana Parkway Extension PD & E study meeting on March 14.

Kind regards
Pippa Blackmore

Hi Mary,

We would like to thank you and Clif very much for attending our meeting and showing your PowerPoint presentation to the Lake WIIson Preserve Homeowners; we really appreciated it. Everyone who attended felt that it was very useful and informative and we now feel that we understand the current proposals and timeline in more detail. As discussed at the meeting, I should be grateful if you would send me a copy of the slides as I would like to forward them to everyone else in Lake Wilson Preserve who couldn't attend.

I look forward to hearing from you.

Once again, many thanks.

Best wishes,

Pippa and Gary Blackmore

Pippa,

Clif Tate, the Kimley-Horn study consultant, and I can attend the meeting. I will bring a brief PowerPoint presentation and we will also have exhibits. We look forward to seeing you all there, thanks.

Hello Pippa,

Happy New Year!

Let me confer with the study team and check schedules, and see if a

couple of us can make it. Stay tuned. Thanks.

Hi Mary,

Happy New Year.

As I am sure you are aware I lead the committee on the Poinciana Parkway Extension Project Development and Environment (PD&E) Study for the Lake Wilson Preserve Community. We are holding a meeting at our house on 9th January at 19:00. Our address is 136 Mockingbird Road, Davenport, 33896. We would really appreciate it if you (or a representative) could attend to meet the residents and answer any questions.

I look forward to hearing from you.

Best wishes Pippa Blackmore

Subject: Poinciana Parkway Extension PD&E Study

Dear Ms. Blackmore:

We regret you couldn't attend the recent kick-off public workshop for the Poinciana Parkway Extension Project Development and Environment (PD&E) Study, being conducted by the Central Florida Expressway Authority. We had more than 130 people attend the meeting, with more than 20 submitting written comments.

We appreciate your input. All written comments will become part of the public meeting record for the study, and will be considered during the evaluation of the study alternatives.

You may view the exhibits and presentation from the public workshop on the study webpage at the following link:

https://www.cfxway.com/agency-information/plans-studies/project-studies/poinciana-parkway-extension-pde/

The Poinciana Parkway Extension PD&E Study began in July 2018 and is scheduled to finish in fall of 2019. Public involvement and intergovernmental coordination are integral parts of the study process, and multiple opportunities for community engagement are being provided.

You may submit comments via the study webpage, or by sending information to the study email address at ProjectStudies@CFXWay.com.

The next public meeting is anticipated in March of 2019, and the public hearing is expected the following August or September. The CFX Governing Board is slated to review the recommended alternative for the study corridor in September or October 2019.

For more information on the study, check out the study webpage and follow the project on Facebook. You're also welcome to contact me as the public involvement coordinator as noted below. Thank you.

Hello Pippa,

Thanks for taking the time to send your concerns regarding the CFX Poinciana Parkway Extension Project Development and Environment (PD&E) Study. We've been coordinating with the study team on your questions and concerns. Please see the responses in your email below.

Please feel free to contact us with additional questions or concerns. FYI, Amy Sirmans is no longer with FDOT and Mark Callahan is not associated with this study.

Thank you.

Thank you for this information. A couple more questions: When will the next phase begin (link from the CR532 to the I4)? When is the next meeting?

I look forward to hearing from you.
