Examples of Public Workshop Invitations

December 3, 2009

**Subject: Wekiva Parkway Public Workshop in East Lake County
For Review and Discussion of Service Road Concept**

This notification is to advise you that District Five of the Florida Department of Transportation (FDOT) and the Orlando-Orange County Expressway Authority (OOCEA) will be conducting a public workshop in east Lake County to discuss a preliminary service road concept as a part of the proposed Wekiva Parkway project. Information on the public workshop is provided below:

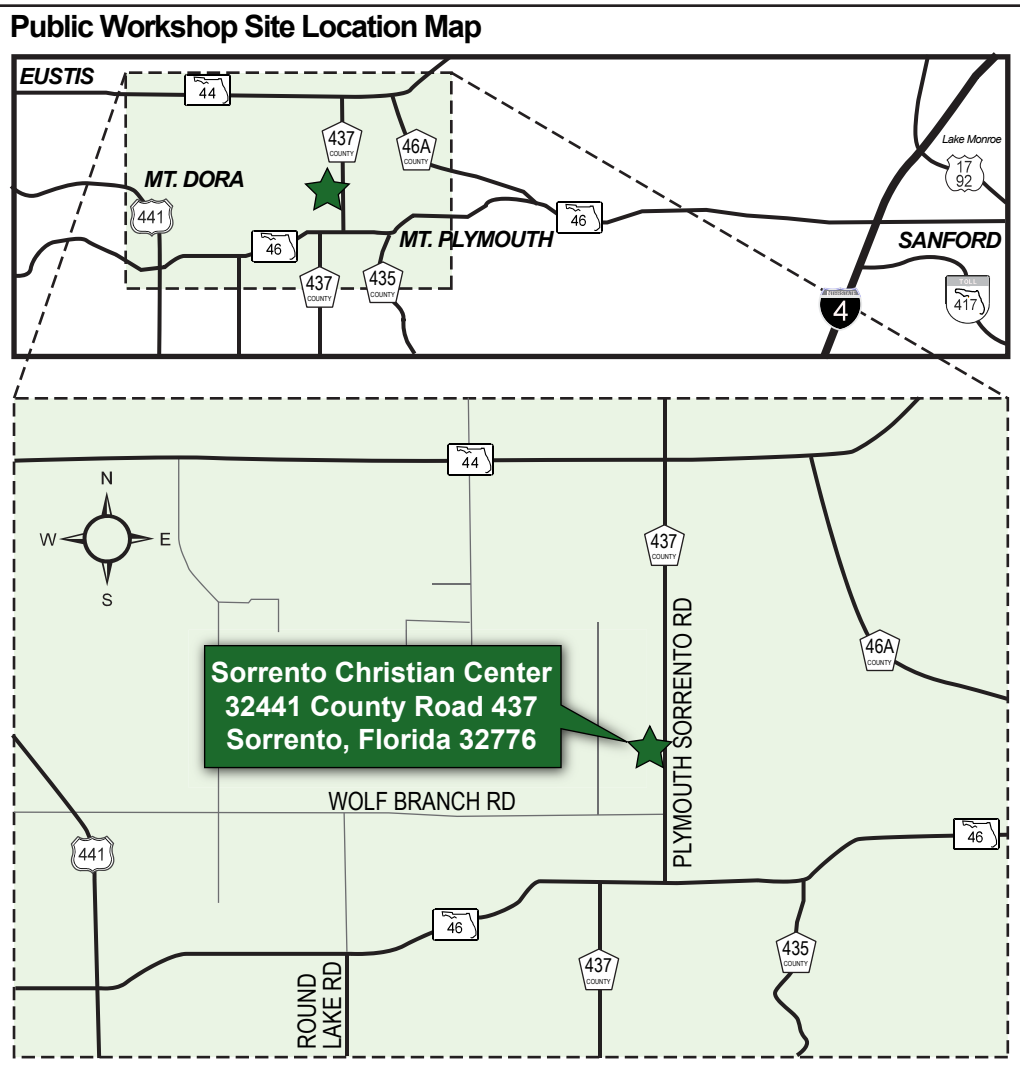

**Location: Sorrento Christian Center
32441 County Road 437
Sorrento, Florida 32776**
Date: Thursday, December 17, 2009
Time: 5:00 p.m. to 8:00 p.m. (EST)

Members of the Wekiva Parkway study team will have displays and information at the workshop, and will be available to discuss the service road concept and answer any questions from the public. Brian Hutchings, Public Involvement Coordinator, may be contacted by anyone needing more information or special accommodations under the Americans With Disabilities Act of 1990. He can be reached at:

(Tele) 407.383.5817
(Fax) 407.690.5033
(E-mail) construction@oocea.com
or write to
4974 ORL Tower Road
Orlando, FL 32807

Special accommodation requests under the Americans With Disabilities Act should be made at least seven (7) days prior to the public workshop. A map showing the location of the public workshop site is provided to the right.

Public participation is solicited without regard to race, color, religion, gender, age, national origin, disability, or family status.

5:00 p.m. to 8:00 p.m. (EST)
Sorrento Christian Center

Preliminary Service Road Concept
In East Lake County
Public Workshop Summary

Appendix B

Media Notification

PUBLIC WORKSHOP IN EAST LAKE COUNTY ON PRELIMINARY SERVICE ROAD CONCEPT WEKIVA PARKWAY PROJECT DEVELOPMENT AND ENVIRONMENT STUDY

District Five of the Florida Department of Transportation (FDOT) and the Orlando-Orange County Expressway Authority (OOCEA) will conduct a public workshop on the preliminary Service Road Concept in east Lake County developed in the Wekiva Parkway Project Development and Environment (PD&E) Study.

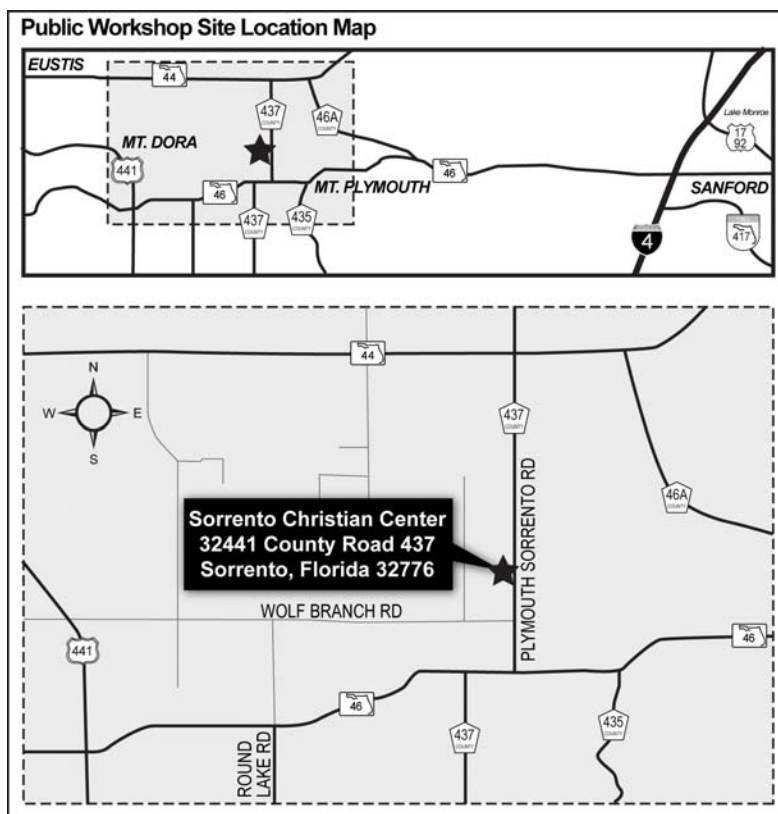

Information on the date, time and location of the public workshop is as follows:

Date: December 17, 2009

Time: 5:00 p.m. to 8:00 p.m. (EST)

**Location: Sorrento Christian Center
32441 County Road 437
Sorrento, Florida 32776**

This workshop is being held to inform the general public of the project's progress and to solicit feedback in regard to the preliminary Service Road Concept. Display boards and other relevant information will be available at the workshop for public review. Members of the study team will be available to provide assistance and answer questions. The format of the meeting will be informal. The public is invited to attend at any time during the workshop to review the project information, ask questions, and discuss any ideas or concerns with members of the study team.

Public comment forms will be available at the workshop. Written comments may be submitted at the workshop or mailed to:

Brian Hutchings
Public Information Officer
4974 ORL Tower Road
Orlando, Florida 32807

Written comments may also be sent to construction@oocea.com or by fax at 407.690.5033. Anyone with questions or needing special accommodations under the Americans With Disabilities Act of 1990 should contact him by telephone at 407.383.5817 or by writing to the above address. Special accommodation requests pursuant to the Americans With Disabilities Act should be made at least seven (7) days prior to the workshop.

Your attendance at this public workshop is encouraged and any comments made will be appreciated.

***Public participation is solicited
without regard to race, color,
religion, gender, age, national
origin, disability, or family status.***

Preliminary Service Road Concept
In East Lake County
Public Workshop Summary

Appendix D

Workshop Handouts

WEKIVA PARKWAY PROJECT INFORMATION

Authorized in 2004 by the Florida legislature in the Wekiva Parkway and Protection Act (the Act), the 27-mile Wekiva Parkway would:

- Complete the Western Beltway (State Road 429) around metropolitan Orlando;
- Provide an alternative to Interstate 4;
- Relieve SR 46, US 441 and other local roads of traffic congestion between Orange, Lake and Seminole Counties;
- Improve safety to reduce vehicle crash fatalities, particularly on SR 46;
- Develop a transportation facility that minimizes impacts to Wekiva River Basin resources, and that specifically improves wildlife habitat connectivity between conservation lands and reduces vehicle-wildlife conflicts.

The parkway will help to protect area resources in several ways:

- **Elevated Parkway:** In Lake and Seminole counties the roadway will replace segments of existing SR 46, one of the deadliest roads in Florida for both people and wildlife. Elevating portions of the roadway is expected to greatly reduce vehicle collisions with animals.
- **Extensive Wildlife Crossings and Longer Bridges:** Currently, two wildlife tunnels under SR 46 in east Lake County provide a total of 78 ft. of safe crossing for hundreds of animals. The Wekiva Parkway project would replace the tunnels with two wildlife bridges totaling nearly 6,000 ft. in length -- more than 76 times the current crossing space. These new bridges will enhance habitat connectivity by allowing more animals to safely move between the Rock Springs Run State Reserve and the Seminole State Forest. Another 800 ft. long bridge is planned for the Neighborhood Lakes conservation property to allow wildlife to move east/west to and from the Rock Springs Run State Reserve. In addition, the parkway would replace the existing 561 ft. Wekiva River bridge with one about 2,150 ft. in length.
- **Realigning County Road 46A:** Closing the portion of existing CR 46A which passes through the Seminole State Forest will reduce the number animals harmed by vehicles and provide habitat connectivity in the forest. The realigned CR 46A would connect to SR 46 further to the west, outside the forest.

The preliminary engineering and environmental study (referred to as a PD&E Study) for the Wekiva Parkway was initiated in 2005 under the joint management of the Orlando-Orange County Expressway Authority (OOCEA) and Florida Department of Transportation (FDOT), District Five. OOCEA and FDOT have been working with local governments, state agencies such as the Florida Department of Environmental Protection, environmental interest groups, and federal agencies to make the Wekiva Parkway a reality.

The expressway would begin at the planned SR 429 (Daniel Webster Western Beltway) and SR 414 (John Land Apopka Expressway) interchange at US 441 in Apopka, go north and then east along the current SR 46 alignment and connect to Interstate 4 in Sanford. The project also includes widening and realignment of a segment of SR 46, which would begin at US 441 and SR 46 near Mount Dora, go east past Round Lake Road, and connect to the Wekiva Parkway in northwest Orange County. The Act requires that SR 46 in east Lake County west of the Wekiva River not be a continuous roadway.

As recommended by the Lake County Commission, the Wekiva River Basin Commission and the Florida Department of Environmental Protection (in keeping with the mandates of the Act), the plans in east Lake County eliminate SR 46 as a through road from the Neighborhood Lakes area eastward to the Wekiva

River. At the time the Act was passed, it was assumed the Wekiva Parkway would not be a tolled roadway. However, after an extensive financial analysis estimated the total cost of construction of the parkway to be \$1.8 billion and with declining transportation dollars available to FDOT, it became evident that the Wekiva Parkway from Apopka to Sanford would not be financially feasible without tolls.

More recently, citizens in the east Lake County area who live and work along existing SR 46 expressed concerns over paying a toll for a local trip. In mid 2009, OOCEA and FDOT began analyzing options to provide a non-tolled service road in east Lake County along the Wekiva Parkway route. In response to those citizen concerns, a service road concept has been developed. Once public comment has been received, reviewed and incorporated, the service road concept will be included as a part of the PD&E Study.

While the required planning process for the parkway is still underway, several key factors of the Act have been accomplished. In September 2008, OOCEA and several agency partners finalized the purchase of Pine Plantation, a 385 acre parcel in Orange County, the third large conservation parcel identified for acquisition. This, along with the 1,619 acre Neighborhood Lakes parcel in Lake and Orange Counties that was acquired in 2007, are important for environmental conservation and limiting development in the project area.

Today, OOCEA and FDOT are continuing to coordinate with the Federal Highway Administration (FHWA) and awaiting their feedback on environmental documents. FHWA approval of those documents is required before public hearings can be scheduled on the recommended Wekiva Parkway route. After years of engineering and environmental planning efforts, and nearly 300 agency and community meetings on the project, those public hearings will be an essential next step in gathering further community feedback on the proposed Wekiva Parkway. Public hearings are anticipated to be held in Summer 2010 and the PD&E Study may be completed in late 2010. The final roadway design process would begin after the PD&E Study is complete, depending upon funding availability.

EAST LAKE COUNTY PUBLIC WORKSHOP WEKIVA PARKWAY PROJECT INFORMATION

Background

Based upon a cooperative effort between the Florida Department of Transportation (FDOT) and the Orlando-Orange County Expressway Authority (OOCEA), a Project Development and Environment (PD&E) Study of the Wekiva Parkway (SR 429)/SR 46 Realignment Project began in 2005. The public workshops on Initial Roadway Alternatives for the proposed Wekiva Parkway project were held in Lake, Orange and Seminole Counties in the Fall of 2005. After further analysis and evaluation, public workshops on Viable Alternatives (potential routes) were conducted in each of the three counties in the Summer of 2006. Throughout 2007 and 2008, the study team worked to identify and further refine a roadway alignment for the overall project that now is known as the Recommended Preferred Alternative.

More recently, citizens in the east Lake County area who live and work along existing SR 46 expressed concerns over having to pay a toll for making a local trip. In mid 2009, FDOT and OOCEA began analyzing options to provide a toll free service road in east Lake County along the Wekiva Parkway route. Discussion of the preliminary results of that evaluation by FDOT and OOCEA is the primary purpose of this workshop.

Brief Description of Service Road Concept in East Lake County

The service road concept in east Lake County has been developed adjacent to the Wekiva Parkway route. It provides local residents a non-tolled alternative to the Wekiva Parkway when traveling between Mount Dora and the Sanford area. Traffic and road access from Neighborhood Lakes to and across the Wekiva River would be similar to the existing SR 46. The preliminary concept has the service road north of and running parallel to the Wekiva Parkway. In order to remain environmentally sensitive and compatible, the preliminary service road concept is elevated in sections and includes wildlife bridges at the same locations as the Wekiva Parkway. Please see the display boards which show the service road concept. A member of the study team will assist you with further information.

Preliminary Schedule

The PD&E Study schedule currently envisions completion of the study in approximately 12 months. Estimated date for public hearings in Lake, Orange and Seminole Counties on the Recommended Preferred Alternative is the Summer of 2010. It is estimated that the PD&E Study may be complete, with all required federal, state and local approvals, in late 2010. Final design, right-of-way acquisition, and construction are not fully funded at this time, so the start and completion dates for those activities are currently undetermined.

YOUR COMMENTS ARE IMPORTANT TO US!

Comment Forms are available at the sign-in table. You may fill out a form and return it at this public workshop, or you may take the form with you and mail it to the Public Involvement Coordinator, Wekiva Parkway PD&E Study, 4974 ORL Tower Road, Orlando, FL 32807. You may also email your comments to construction@oocea.com or fax them to 407.690.5033. **Please send your comments by January 4, 2010.** Wekiva Parkway project updates are available on the Internet at www.expresswayauthority.com.

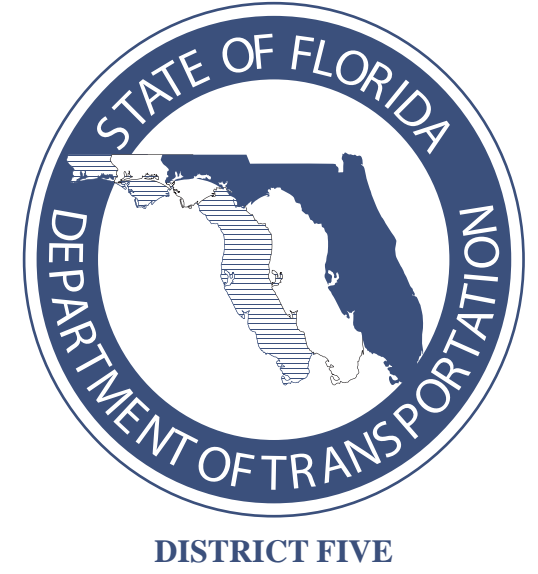

Your attendance at this workshop, and any comments you may have, are appreciated.

Address: 29409 C.R. 46-A
Sorrento, FL 32776

Email Address: NONE

Phone No.: 352-383-8084

Comments: Please Consider the following changes to
property #3240:

1) Narrowing service road in front of property
3240.

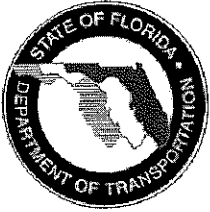

2) Provide Access from property driveway to service road.

3) Provide property owner Access to cell tower.

These changes would allow me to keep more
of my property and curtail unwanted traffic from
venturing in private property. I have spoken to Brian
O'Connor, Mike Snyder and Mark Callahan about these
changes and they are aware of my concerns to preserve
as much of my property as possible. Thank you.

Phone No.: 352-735-2425

Comments: Dead ending areas of 46 is NOT the way to proceed.
Why not utilize the existing road + build temp roads @ areas where
46 needs raised. I don't know the exact dollars but building miles
of new Road has to be more expensive than building a few miles
of temporary Road. Making people back track to go the complete
opposite way isn't reasonable. The service Road is most definitely
the way to go. I should not be FORCED to take a toll road to
travel from Mt. Plymouth to Sanford or Mt. Dora, but you need to
Remember the residents + small businesses present. Most of us are located
in this area to get away from the 6 lane highways + such. We like
our scenic country drive.

Phone No.: 352-383-4942

Comments: Ridiculous!!

This service road is a waste of money

When you can leave 46 open! As

A Taxpayer, we Resent The Carelessness
of this decision. Living on Old McDonald
Road you have now increased the amount of
Time For Fire or Law Enforcement Help if
needed.

It was our understanding 46 would be left open
from the last meeting.

Comments: Thank you for coming to Sorrento but - A lot of us feel
you should have also had a discussion w/us after we looked at
the maps! I do NOT feel you should be cutting off 46 - make
this road the Service Road - No Trucks!! We were here 1st
+ those who have business on 46 should still have 46 open to them
we do NOT need to "Build" A Service Road! We already have
one, "46"! This entire Deal seems to us that we are the losers
and we must lose it ALL so everyone else can get to the other
county's at our loss + expense! We do not seem to have
a clean voice! PS. The next time we meet please
Talk to us AS A group so we can express our views + hear!
Your answers ALL together! Thanks for coming to Sorrento

BettyAnn Christian

Phone No.: 352-735-7126

Comments: (1) The non-toll service road as proposed offers a multi-modal opportunity to accommodate trail use and alternative transportation. Wide bike lanes and shoulders make sense.

(2) The Wekiva Parkway project should accommodate the trail use and assist by providing adequate right-of-way and river crossing, etc.

(3) Please prioritize this project as authorized per the Wekiva Act so it can benefit our region sooner than later.

Comments: Good job! You have met the need to be
able to travel from Sanford to Mt Dora via Sorrento
without a toll. This is important to businesses in
Sorrento. I am a business owner in Sorrento
and this plan will meet our needs

Address: 32030 HOLOPAW TRAIL
SORRENTO, FL 32776

Email Address: _____

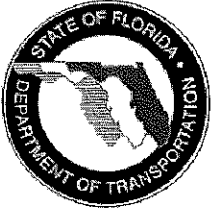

Phone No.: 852 383-7680

Comments: _____

I AM MUCH IMPRESSED WITH THE NEW CONCEPT
OF THE ELEVATED PORTIONS TO PROTECT THE
WILDLIFE AND THE SERVICE ROAD

Wekiwa Parkway Public Workshop in East Lake County For Review and Discussion of Service Road Concept

Public Workshop
Thursday, December 17, 2009
5:00 pm - 8:00 pm (EST)
Sorrento Christian Center
32441 C.R. 437 North
Sorrento, Florida 32776

Name: Angela Bolin-Hines Date: 12/17/09
(Please Print Clearly)

Address: 28014 County Rd. 46A
Sorrento, FL. 32776

Email Address: Fouilly@hotmail.com

Phone No.: _____

Comments: We prefer the service road concept. Less
interchanges means less impact. Traffic "passing
through" ~~can~~ will not be slowed down at these interchanges.
Local traffic on 46 and 46A will have a lower traffic
and thus safer service road alternatives for their
daily commute — Great idea!

(Please Print Clearly)

Address: 28827 SR 46
SORRENTO FL 32776

Email Address: JASMINEJUNK@COMCAST.NET

Phone No.: 407-761-4288

Comments: The Service Road plan is a much better
plan than the Current Alternative.

There really is no comparison - it
far outweighs the Current Alternative
in fairness to everyone.

Wekiva Parkway Public Workshop in East Lake County For Review and Discussion of Service Road Concept

Public Workshop
Thursday, December 17, 2009
5:00 pm - 8:00 pm (EST)
Sorrento Christian Center
32441 C.R. 437 North
Sorrento, Florida 32776

Name: Jim Yatsuk Date: 12-17-09
(Please Print Clearly)

Address: 206 E 9th Ave
Moult Dora FL

Email Address: Kuslay@gmail.com

Phone No.: 352-383-1314

Comments: Reduce Service road Lanes to 10'
To encourage low speed. Consider a striped
Bike Path on one side with standard
shoulder on other. Also consider Alternative
crossing for trail south of Parkway old
RR crossing
