

# 5.0 Measures to Minimize/Mitigate Harm

---

The development of measures to minimize and/or mitigate potential effects to the historic resources will be developed in coordination with FHWA and FDOT upon review of this document. Once direction is set on the historic issues, further coordination with the SHPO will be required.

The following lists are provided for discussion purposes at such time development of measures is appropriate.

## 5.1 Minimization/Mitigation of Harm to Bock House Property

Potential measures to minimize and/or mitigate effects to the Bock House Property include:

- Historic American Building Survey (HABS) standard photography and documentation,
- Repairs to structures, and
- Landscape screening between the structures and the proposed roadway.

## 5.2 Minimization/Mitigation of Harm to Strite House Property

Potential measures to minimize and/or mitigate effects to the Strite House Property include:

- HABS standard photography and documentation,
- Repairs to structures,
- Landscape screening between the structures and the proposed roadway, and
- Relocate house to south end of the property (*note: the property owner has proposed several relocation options*).
