Southport Connector Expressway

Project Advisory Group Meeting No. 2

February 6, 2018

CENTRAL

FLORIDA EXPRESSWAY

AUTHORITY

This meeting, project, or study is being conducted without regard to race, color, national origin, age, sex, religion, disability or family status. Persons wishing to express their concerns relative to compliance by the Central Florida Expressway Authority (CFX) with Title VI may do so by contacting:

> Joseph Passiatore CFX General Counsel 4974 ORL Tower Road Orlando, FL 32807 407-690-5000 Joe.Passiatore@CFXWay.com

All inquiries or complaints will be handled according to CFX procedure and in a prompt and courteous manner.

AGENDA

- I. Introductions
- II. Study History
- III. Study Corridor Overview
- IV. Project Goals
- V. Study Methodology & Schedule

- VI. Public Involvement
- VII. Study Corridor Updates & Evaluation Matrices
- **VIII.** Open Discussion
- IX. Next Steps
- X. Action Items

Study History

December 19, 2005: Osceola County Comprehensive Plan adopted, proposed several new corridors to meet the county's anticipated growth.

2012: Osceola County Expressway Authority (OCX) began creating its first long-range expressway plan.

August 13, 2013: OCX Master Plan 2040 finalized, defining the county's expressway needs and providing for a program of projects to implement the plan.

September 8, 2016: CFX Board approved an interlocal agreement with Osceola County and OCX to transfer the lead for developing the remainder of the OCX 2040 Master Plan to CFX. CFX incorporated the OCX master plan segments into the CFX master plan.

March 9, 2017: CFX Board approved consultant contracts to conduct the Concept, Feasibility and Mobility studies.

April 2017: CFX commenced four concept, feasibility, and mobility studies to determine if any of the corridors are viable and fundable in accordance with CFX policies and procedures.

Each of the four corridor segments has been previously studied to varying degrees of detail. Our consultant teams have reviewed and evaluated the previous studies for each corridor segment.

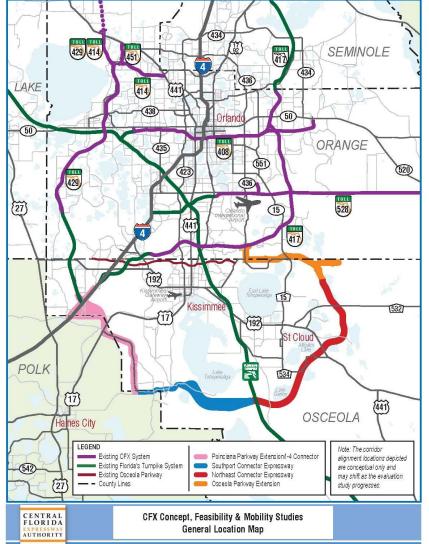

- Poinciana Parkway Extension / I-4 Connector
 Alternative Corridor Evaluation Report (ACER) November 2015
- Southport Connector Expressway
 Alternative Corridor Evaluation Report (ACER) October 2015
- Northeast Connector Expressway
 (Southport Connector East, from Canoe Creek Road to SR 528)

 Preliminary Alignment Evaluation June 2010
- Osceola Parkway Extension
 Project Development & Environment (PD&E) Study May 2017

Study Corridor Overview

The four corridors lie within Osceola, Polk, and Orange Counties and encompass approximately 60 miles of primarily new-location highway.

- Poinciana Parkway Extension / I-4 Connector Approximately 13 miles
- Southport Connector Expressway Approximately 13 miles
- Northeast Connector Expressway Approximately 25 miles
- Osceola Parkway Extension Approximately 9 miles

CENTRAL Florida

AUTHORITY

Overall Goals of the Project Corridors

- Improve roadway connections from I-4/SR 429 to Florida's Turnpike, to US 192 and SR 417;
- Promote regional connectivity and enhance mobility of the area's growing population and economy via a high-speed expressway;
- Provide additional traffic capacity within the study area;
- Reduce congestion and delays on local roads by providing a new limited-access transportation option;
- Provide for the incorporation of transit options.

Input from both the EAG and PAG contributed to the development of the Purpose & Need for each corridor segment.

Study Methodology

The analysis has incorporated and built upon the previous work and coordination achieved from the preceding studies, while conducting a "fresh-look" at the proposed corridor segments and researching recent information that could influence the current decision-making.

- Documentation of the physical, natural, social and cultural environment, and assessment of potential impacts.
- Transportation demands have been determined and a range of transportation mobility options and programs are being developed and evaluated.
- If corridor(s) are found to be feasible, would proceed to a Project Development and Environment (PD&E) Study.

Notice to Proceed **Review of Previous Studies Report** EAG & PAG Project Kickoff Meetin Collection of Additional Data Review and Define Purpose & Nee Public Informational Kickoff Meet **Corridor Analysis** Concept, Traffic & Design Analysis Concept, Feasibility & Mobility Stu Concept, Feasibility & Mobility Stu EAG & PAG Pre-Public Workshop M **Public Informational Meetings** Revise Concept, Feasibility & Mob **CFX Board Review**

Concept, Feasibility & Mobility Study Final

Public Involvement

Public involvement and stakeholder coordination are an integral part of the study and multiple opportunities for participation are being provided.

- Environmental Advisory Group & Project Advisory Group (July, January & February)
- Public Meetings
 - Kick-off: Sept. 19 & 26, Oct. 5, 2017 (400+ attendees, 284 comments received)
 - Draft Concept Report: Feb. 13, 15 & 21
- Board Presentations:
 - Polk County Board of Commissioners: Aug. 8
 - Osceola County Expressway Authority: Oct. 10
 - Central Florida Expressway Authority: Oct. 12
- Additional Stakeholder Meetings Ongoing
- CFX Study Webpage:

Project Background

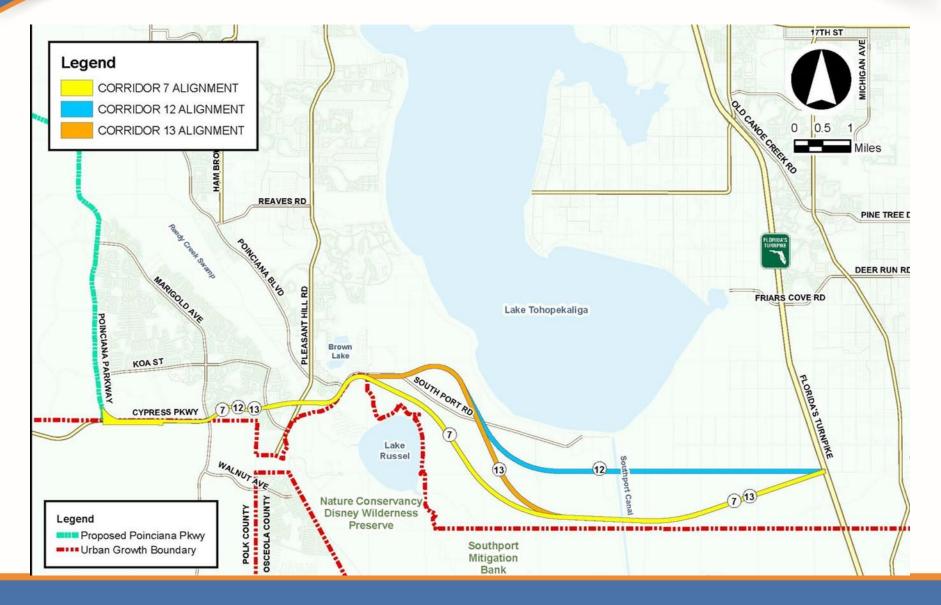

FDOT Alternative Corridor Evaluation (ACE) Study

- Advanced Notification Package distributed
- ETDM Programming Screen was initiated
- Public Kick-off Meetings (2 locations)
- Corridor Public Workshops (2 locations)
- Agency Project Advisory Group (APAG):
- Alternative Corridor Evaluation Report (ACER)

September 2012 September 2013 September 2013 January 2015 3 Meetings October 2015 UTHORITY

ACE Recommended Corridors

Southport Connector Expressway

ACER Evaluation Review Technical Memorandum (ACER TECH MEMO)

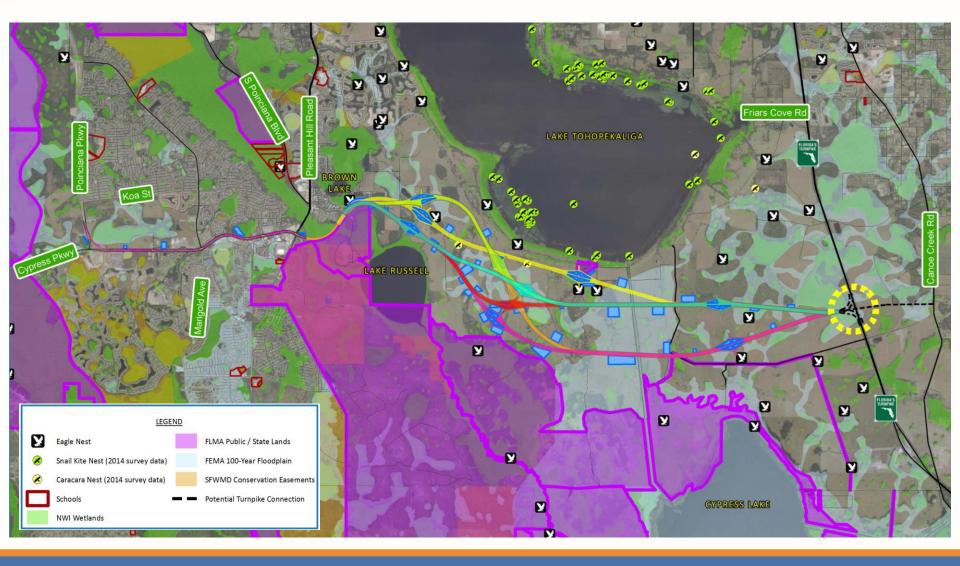

- Review all ACE documents
- Identify any changed conditions
- In-depth evaluation of the ACE findings, recommendations and commitments

"The study team concurs with the ACE decision to drop all corridors crossing Lake Toho.....

The study team also concurs to co-locate all corridors with the Cypress Parkway between Poinciana Parkway and the Reedy Creek Ecosystem....."

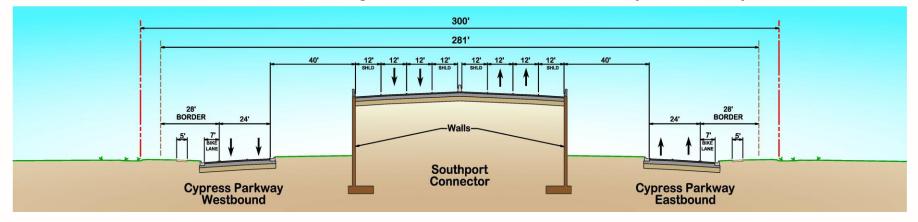

Southport Connector Expressway Environmental Constraints
