PROJECT ADVISORY GROUP MEETING NO. 2
Lake / Orange County Connector (US 27 to SR 429)
Feasibility/Project Development & Environment Study
— February 12, 2019 —
Title VI Compliance

This meeting, project, or study is being conducted without regard to race, color, national origin, age, sex, religion, disability or family status. Persons wishing to express their concerns relative to compliance by the Central Florida Expressway Authority (CFX) with Title VI may do so by contacting:

Kathy Putnam
Public Involvement Coordinator
4974 ORL Tower Road
Orlando, FL 32807
407-802-3210
LakeOrangeStudy@CFXway.com

All inquiries or complaints will be handled according to CFX procedure and in a prompt and courteous manner.
Project Advisory Group (PAG)

PAG Goal
• Receive input regarding local needs, concerns and potential environmental impacts
• Foster an atmosphere that encourages discussion

PAG Member Role
• Assist in the identification of potential project impacts, opportunities and constraints
• Provide feedback and comments regarding the information presented
Study Objective

Determine if a Lake/Orange County Connector is viable and fundable.
Future Land Use

Wellness Way Area Plan
- Lake County
- Significant economic development potential
- Anticipated build-out of 16,531 units will generate over 26,839 jobs

Horizon West Special Planning Area
- Orange County
- Fast-growing master-planned community
- Anticipated build-out of 40,000 dwelling units
Project’s Development Process

**Previous Feasibility Studies**
- Feasibility studies conducted in 2002 and 2007
- Traffic and revenue analysis conducted in 2017

**Identify Project**
- Identified in the CFX 2040 Master Plan
- Identified in the Lake and Orange County Long Range Transportation Plans

**Work Plan**
- PD&E and design phases funded
  (Design funds indicated as a placeholder pending the outcome of this PD&E Study)

**PD&E Study**
- Current project phase
Project Needs

1. Improved connections between area roads
2. Future transportation demand
3. Consistency with local & regional plans
4. Economic viability & job creation
5. Intermodal opportunities
6. Evacuation & emergency services
The PD&E Study will determine if there is an engineering and environmentally feasible alternative to meet the project needs.

Two main phases of this PD&E Study:

1. **Alternative Corridor Evaluation**
   - Identify roadway corridors to carry forward for additional analysis

2. **Alternatives Analysis**
   - Identify a preferred project alternative
Alternative Corridor Evaluation

Engineering Evaluation Criteria
- Major Utility Conflicts
- Geometric Considerations
- Floodplain Encroachment
- Traffic Considerations

Socio-Economic Evaluation Criteria
- Approved Planned Unit Developments
- Historical/Archaeological Resources
- Parks/Recreational Facilities
- Right-of-Way Impacts

Environmental Evaluation Criteria
- Wetlands
- Wildlife and Habitat
- Conservation Lands/Mitigation Banks
- Contamination
Stakeholder Outreach

- CEMEX
- FDOT
- Lake County
- Lake-Sumter MPO
- MetroPlan Orlando
- Orange County
- South Florida Water Management District
- Water Conserv II
Public Involvement

• Public involvement and interagency coordination have been an integral part of the assessment process

• First Public Meeting was held August 30, 2018.

• Opportunities for participation will continue to be provided throughout the duration of the study
The northern most connection will pull more people.
The northern alignment will be disruptive to development currently in the works.
The northern corridors will disrupt developing agritourism.
Minimize impacts to Horizon West Town Center.
Concerns with it being a limited-access roadway.
There are benefits to a limited access facility but impacts to property owners need to be considered.
Coordinate with land owners/developers.
There should be more access points along the corridor.
Alternative Corridor Evaluation

Evaluation Results

• Corridors 12, 17 and 20 ranked highest

• The recommended corridor encompasses the area that is bordered by Corridor 20 on the north and Corridor 17 on the south
Alternative Corridor Evaluation

• The methodological approach used to identify the recommended corridor area is documented in an Alternative Corridor Evaluation Report.
Alternatives Analysis

• Four Build Alternatives
• Proposed interchanges
  o US 27
  o CR 455 future extension
  o Future Valencia Parkway
  o SR 429 (systems interchange)
• No-Action or No-Build Alternative
Alternatives Analysis

Typical Section

- 330-foot wide right-of-way
- Allows for future widening to the inside
# Alternatives Analysis

## Comparative Evaluation Matrix

**LEGEND**
- **SUSTANTIALLY REDUCED IMPACT OR BEST ALTERNATIVE**: 1.0
- **MINORLY REDUCED IMPACT OR GOOD ALTERNATIVE**: 0.8
- **MODERATELY REDUCED IMPACT OR MODERATE ALTERNATIVE**: 0.6
- **SOMewhat REDUCED IMPACT OR MINOR ALTERNATIVE**: 0.4
- **SUBSTANTIAL IMPACT OR WEAK ALTERNATIVE**: 0.2
- **SIGNIFICANTLY INCREASING IMPACT OR POOR ALTERNATIVE**: 0.0
Alternatives Analysis

What’s Next?

• Receive input on the project alternatives
• Select a recommended preferred alternative
• Conduct detailed engineering and environmental analysis
• Prepare engineering and environmental reports
Group Discussion
Upcoming Public Involvement

• Second Public Informational Meeting

  March 7, 2019
  5:30 p.m. – 7:30 p.m.
  Bridgewater Middle School Cafeteria
  5600 Tiny Road
  Winter Garden, FL

• PAG Meeting No. 3 (final meeting) is anticipated to occur in May 2019
• Public Hearing is anticipated to occur in June 2019
• One-On-One or small group meetings available upon request
Study Website

- Study documents and meeting materials are posted to the study website
- Shortened study web address: https://bit.ly/2MdwCmH
