

# CFX AT A GLANCE

The Central Florida Expressway Authority (CFX) is an independent, locally-controlled toll agency responsible for construction, maintenance and operation of 118 miles of expressway. CFX serves more than 3 million residents in five counties, plus an estimated 75 million visitors each year.

Established in 2014 as a regional expressway authority; membership includes the City of Orlando, and Brevard, Lake, Orange, Osceola, and Seminole counties

All CFX operations are funded solely by tolls – no taxes of any kind

Five year \$2.5 billion work plan details such improvements as new road construction, road widening, system and technology upgrades, new mobility needs, including potential new transit corridors.
