

# SR 417 CORRIDOR CAPACITY IMPROVEMENTS PROJECT: SEGMENT 3

## LANDSTAR BOULEVARD TO BOGGY CREEK ROAD

### PROJECT DESCRIPTION

The Central Florida Expressway Authority is performing capacity improvements on State Road 417 (Central Florida GreeneWay) from Landstar Boulevard to Boggy Creek Road in order to reduce congestion and improve traffic flow. This 3.7-mile project will add a lane in each direction, expanding the expressway from four to six travel lanes. Ten noise walls will be built on this segment. See the map for noise wall locations.

CFX is also adding wider median shoulders that can temporarily accommodate additional traffic during emergency response events, such as traffic accidents or hurricane evacuations. This is one of five capacity improvements projects on SR 417 between International Drive and SR 528 (Martin B. Andersen Beachline).

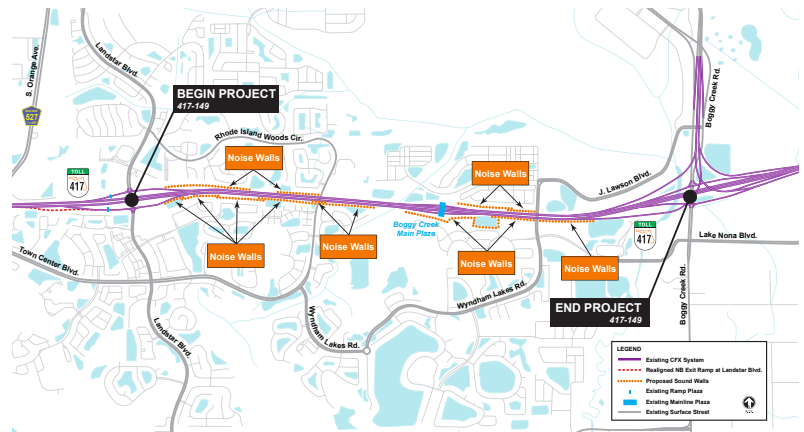

### WHAT TO EXPECT

During construction, temporary lane and ramp closures will be necessary to accommodate work. To minimize the impact of construction to motorists traveling on SR 417, lane and ramp closures will not be permitted during peak travel times. There will be night and weekend work on this project.

### WORK ZONE SAFETY

For the safety of motorists and work crews, speed limits will be strictly enforced during construction. Speeding fines are doubled in work zones when workers are present. Motorists are reminded to change lanes for safety when they see Road Rangers assisting other motorists or flashing lights — it's Florida law.
