CENTRAL FLORIDA EXPRESSWAY AUTHORITY

AMENDED AGENDA CENTRAL FLORIDA EXPRESSWAY AUTHORITY FINANCE COMMITTEE MEETING July 24, 2020 11:00 AM

Meeting location: Microsoft Teams Virtual Meeting Call (321) 430-0870 Input Conference ID: 586 836 375#

A. CALL TO ORDER

B. PUBLIC COMMENT – Pursuant to Executive Order 2020-69, and as extended by Executive Order 2020-150, both issued by Governor Ron DeSantis, "local government bodies may utilize communications media technology, such as telephonic and video conferencing, as provided in section 120.54(5)(b)2., Florida Statutes," in order to establish quorums. As such, procedures for all CFX public meetings have been temporarily modified to allow public meetings to occur remotely and reduce the spread of transmission of the COVID-19 virus. Any public comments to the Finance Committee were noticed and requested to be emailed to financecomments@cfxway.com and were to be received by 4 p.m. on July 23rd, 2020 to be included as part of the record.

Such comments were to be limited to any such items that are either identified on this meeting agenda as requiring action or anticipated to come before the Committee for action in reasonable future. Public comments will be read into the record except that if the comments exceeded 3 minutes in length, when read, they will only be attached as part of the minutes. In any case, all comments received were to be distributed electronically to all members in advance of the meeting date.

- C. APPROVAL OF THE JULY 25, 2019 MINUTES (action item)
- D. BUDGET UPDATE FISCAL YEAR 2021 OPERATIONS, MAINTENANCE AND ADMINISTRATION AND FISCAL YEAR 2021-2025 FIVE-YEAR WORK PLAN (info. item)
- E. MARKET UPDATE (info. item)
- F. OUTSTANDING DEBT OVERVIEW (info. item)
- **G. REFUNDING OPPORTUNITIES** (action item)
- * H. DEBT AND INTEREST RATE RISK MANAGEMENT POLICIES (action item)
 - I. OTHER BUSINESS
 - J. ADJOURNMENT

(CONTINUED ON PAGE 2)

THIS MEETING IS OPEN TO THE PUBLIC

Section 286.0105, Florida Statutes states that if a person decides to appeal any decision made by a board, agency, or commission with respect to any matter considered at a meeting or hearing, he or she will need a record of the proceedings, and that, for such purpose, he or she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

Persons who require translation services, which are provided at no cost, should contact CFX at (407) 690-5000 x5316 or by email at Iranetta.Dennis@CFXway.com at least three business days prior to the event.

In accordance with the Americans with Disabilities Act (ADA), if any person with a disability as defined by the ADA needs special accommodation to participate in this proceeding, then not later than two (2) business days prior to the proceeding, he or she should contact the Central Florida Expressway Authority at (407) 690-5000.

C. Approval of Minutes

CENTRAL FLORIDA EXPRESSWAY AUTHORITY

DRAFT MINUTES

CENTRAL FLORIDA EXPRESSWAY AUTHORITY
FINANCE COMMITTEE MEETING
July 25, 2019

Location: Central Florida Expressway Authority
Pelican Conference Room 107
4974 ORL Tower Road
Orlando, FL 32807

Committee Members Present:

Jennifer Barker, Lake County Jason Bates, Citizen Representative Amanda Clavijo, Osceola County Chris McCullion, City of Orlando

Committee Members Not Present:

Kurt Petersen, Orange County, Committee Chairman Wael Saeed, Citizen Representative Timothy Jecks, Seminole County Brevard County: Not appointed

Also Present:

Laura Kelley, Executive Director Linda Lanosa, Deputy General Counsel Lisa Lumbard, Chief Financial Officer Michael Carlisle, Director of Accounting and Finance Ruth Valentin, Recording Secretary/Administrative Coordinator Brent Wilder, PFM Hope Scarpinato, PFM Evan Rapp, PFM Steven Zucker, Shutts and Bowen Rafael Rodriguez, Citigroup Anna Ohanian, Citigroup Joe Stanton, Nelson, Mullins, Broad and Cassel John Generalli, Wells Fargo Todd Morley, Wells Fargo Matt Williams, Bank of America Merrill Lynch Tamaa Patterson, Jefferies Rawn Williams, Jefferies

A. CALL TO ORDER

Kurt Petersen, Orange County and Committee Chairman was not present. The committee members came to a unanimous decision to appoint Jennifer Barker as Pro Temp Chairman.

The meeting was called to order at approximately 1:01 p.m. by Pro Temp Chairman Ms. Barker.

B. PUBLIC COMMENT

There was no public comment.

C. APPROVAL OF MINUTES

A motion was made by Mr. McCullion and seconded by Ms. Clavijo to approve the April 25, 2018 Finance Committee minutes as presented. The motion carried unanimously with four members voting AYE by voice vote; Mr. Petersen, Mr. Jecks, and Mr. Saeed were not present.

D. MUNICIPAL MARKET OVERVIEW

Brent Wilder, PFM, presented the Municipal Market Overview.

(This item was presented for information only. No formal committee action was taken.)

E. DISCUSSION AND RECOMMENDATION OF BOND ISSUANCE(S)

Mr. Wilder and Hope Scarpinato, PFM, presented the discussion and recommendation of Bond Issuance(s). Committee members asked Lisa Lumbard, Chief Financial Officer, questions pertaining to the recommended bond issuances. Mr. Wilder also gave an overview of CFX's variable rate debt and swap portfolio. He further stated that the level of variable rate debt was manageable and based on current market conditions, there was not a compelling reason to terminate any of the swaps at a loss. The Committee members concurred.

A motion was made by Mr. Bates and seconded by Mr. McCullion to approve the following recommendation; based on the favorable market conditions, authorize the issuance of revenue bonds for the acquisition of Poinciana Parkway and authorize a new money issuance of up to \$500 million in tandem. Both will be issued via negotiated sale with

MINUTES CENTRAL FLORIDA EXPRESSWAY AUTHORITY FINANCE COMMITTEE MEETING July 25, 2019

> JPMorgan Serving as senior underwriter and all other banks in CFX's pool serving as cosenior managers or co-managers based on their approved role within the pool. The motion carried unanimously with four members voting AYE by voice vote; Mr. Petersen, Mr. Jecks, and Mr. Saeed were not present.

F. OTHER BUSINESS

Ms. Lumbard informed the committee that the Disclosure Counsel Contract is expiring in January 2020. Ms. Lumbard will reach out to Kurt Petersen to request he sit on the upcoming committee.

By consensus the Committee instructed Linda Lanosa, Deputy General Counsel, to amend the Finance Committee Charter to clarify who is the appointed chairman if a representative is not appointed for a jurisdiction.

G. ADJOURNMENT

The meeting adjourned at 1:39 p.m.

Minutes approved on _____, 2019.

Pursuant to the Florida Public Records Law and the CFX Records & Information Management Program Policy, audio tapes of all Board and applicable Committee meetings are maintained and available upon request to the Custodian of Public Records at (407) 690-5326, Public Records (CFX way.com, or 4974 ORL Tower Road, Orlando, FL 32807.

E. MARKET UPDATE

CENTRAL FLORIDA EXPRESSWAY AUTHORITY

Finance Committee

Debt Overview and Refunding Update

July 2020

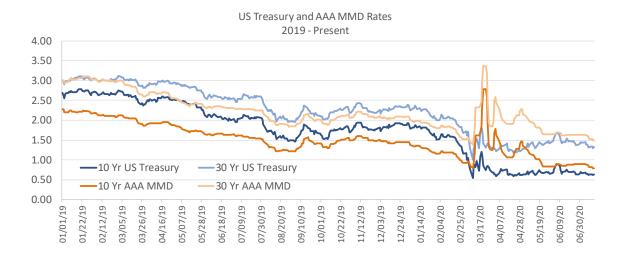

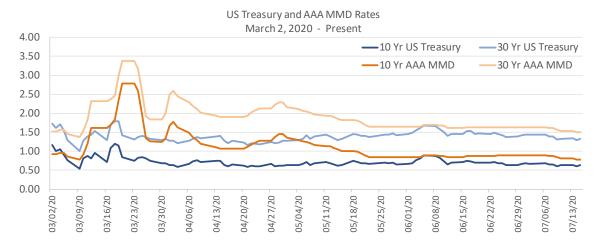

Municipal Market Overview

Municipal and US Treasury rate movement – volatile elevation followed by steady improvement and stabilization

- Beginning the week of March 9, Municipal and US Treasury rates experienced extreme volatility, driven by fears of global economic downturns due to the COVID-19 pandemic.
- Municipal and Treasury rate movements became disjointed, leading US Treasury rates lower while Municipal rates spiked.
 - AAA MMD yields have rallied and stabilized beginning and through the weeks since April 6, with numerous maturities achieving all-time low levels in July.

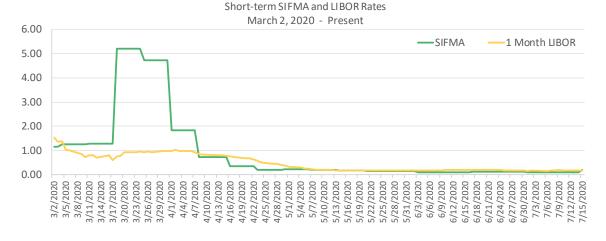

© PFM Source: Refinitiv 3

Short-term markets – selling pressures drive sharp movements in rates with a return to low levels

- Redemptions in short-term money market funds in March caused short-term municipal supply / demand imbalances, which resulted in severe challenges in remarketing municipal short-term debt and sharp increases to the SIFMA variable rate index.
- New facilities implemented by the Fed, allowing for the use of highly-rated, short-term municipals as eligible collateral, provided benefit to short-term municipal markets.
 - Daily and monthly VRDO resets normalized through April, carrying through to the July 8 SIFMA reset at 0.21%, down 499 basis points from the 5.20% reset on March 18.

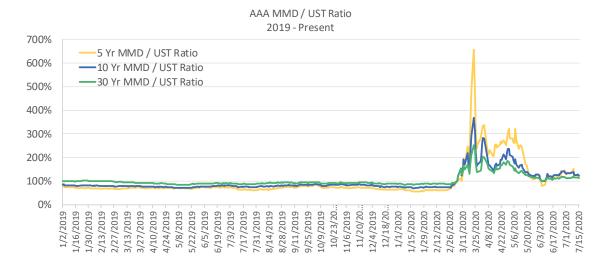

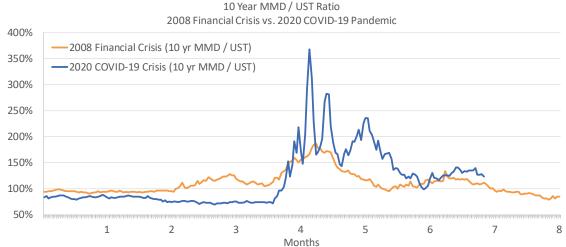

© PFM Source: Refinitiv 4

US Treasury and Municipal ratios – dislocation and a trend towards normalization

- The global rush for liquidity led to a dislocation between the US Treasury and Municipal markets, driving ratios to levels that have not been seen since the start of the 2008 financial crisis.
- As the municipal market stabilized and investors reemerged as buyers of municipal tax-exempt debt, these ratios have trended towards normalized levels.

Tax-exempt municipal credit spreads widen

- Municipal credit spreads have widened due to the extreme flight to safety and rush for liquidity across global markets.
- As the market stabilizes, investors and rating agencies will evaluate credits inclusive of the actual and expected negative financial impacts of the COVID-19 global and domestic economic downturn which will also drive credit spreads.

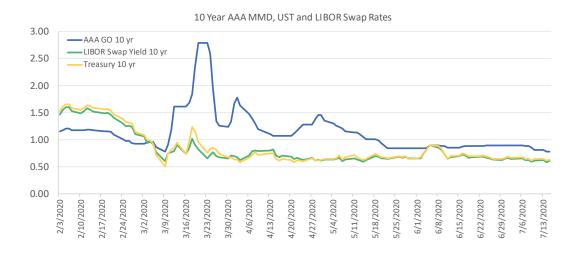

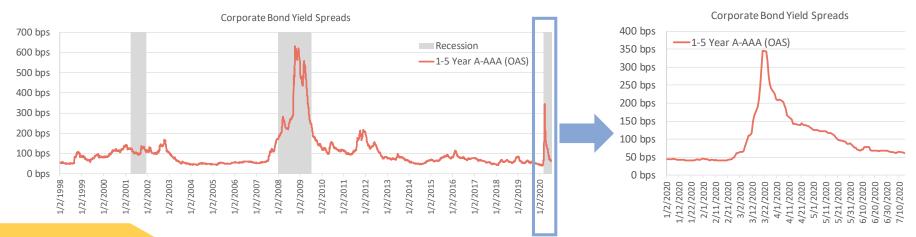

Source: Refinitiv

Bank funding remains attractive, stresses in taxable and corporate markets subside for investment grade issuers

- Bank funding costs, which are not tied to AAA MMD, have remained attractive relative to current municipal capital markets options.
- COVID-19 related volatility has resulted in wider corporate bond spreads, as funds experienced mass redemptions and investors sought liquidity and safety.
 - The March spike in corporate bond spreads was last seen during the 2008 financial crisis.

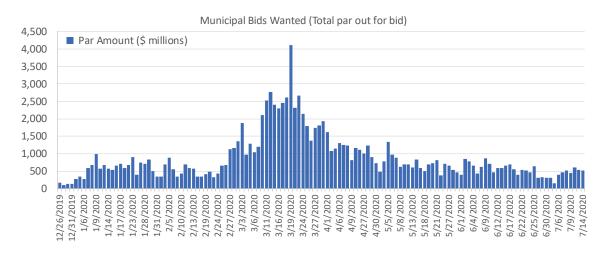

Source: Refinitiv, Bloomberg

Municipal investor activity

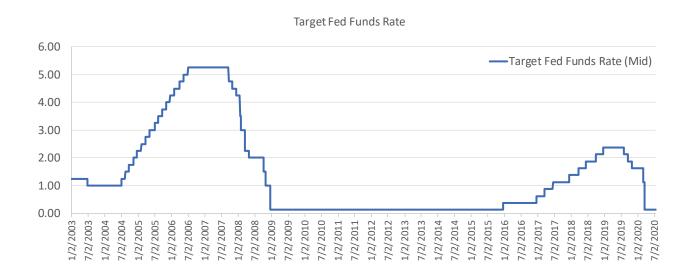

- As the reality of a global economic downturn became more pronounced due the spread of COVID-19, investors sought liquidity and safety, exiting from numerous asset classes, including municipal bonds.
 - Municipal bond funds experienced significant net outflows since the onset of the COVID-19 crisis, leading to volatility
 and a disjointed municipal market throughout the month of March*.
 - Flow volatility and volume has stabilized beginning in April and through June. The week ending July 8 saw net inflows into municipal long-term funds of \$1.844 billion.*
- Municipal market bids wanted and secondary trading have returned to more normalized levels after the spike in March and April.

Federal Funds Rate – lowered to 2008 Financial Crisis levels

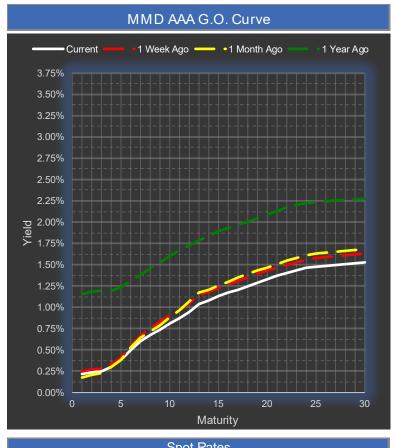

- March 3, 2020: the FOMC announced a 0.50% off-cycle cut to the federal funds rate to address ongoing risks to
 economic activity this lowered the target rate to 1.00 1.25%.
- March 15, 2020: reacting to further and increasing negative economic impacts and risk related to the COVID-19 outbreak, the Federal Reserve cut the federal funds rate by 1.00% to a target rate range of 0.00 0.25%.
 - This reduction of the rate to 0.00% was last experienced during and after the 2008 Financial Crisis.

G. REFUNDING OPPORTUNITIES

Refunding Opportunities

Refunding Strategies

- The Tax Cuts and Jobs Act, signed by President Trump on December 22, 2017, eliminated tax-exempt advance refundings of tax-exempt bonds after December 31, 2017.
- Restoration of tax-exempt advance refundings is currently included in proposed legislation though the timing and likelihood of reinstatement is unknown at this time.
- With tax-exempt advance refundings currently not permitted, the following alternative options remain:
 - Tax-Exempt Current Refunding: Wait out the call protection period and, if market conditions permit, execute a
 current refunding not more than 90 days before the bonds become subject to optional redemption.
 - Taxable Advance Refunding: If market conditions permit, execute an advance refunding using taxable bonds.
 - Cash Optimization: Utilize cash on hand to defease outstanding bonds (versus a bond-funded refunding transaction) and fund new money capital projects with tax-exempt bonds instead of cash-funding.
 - **Forward Delivery Bonds:** Issue forward delivery bonds to lock in current market borrowing levels for bonds that are issued (delivered) in the future.
 - **Forward-Starting Swaps:** Allows the Issuer to hedge against rising interest rates on a future issuance of bonds (new money or refunding bonds).
 - **Cinderella Bonds:** Issued on a taxable basis and will convert to tax-exempt status upon the occurrence of a specified condition precedent.
 - **Tender & Bond Repurchase:** Issuer makes an offer to tender outstanding bonds from a bondholder(s) at a certain price. A tender constitutes a current refunding; therefore, refunding bonds may be issued on a tax-exempt basis.

Debt Summary – Callable Debt by Coupon

The overview of refunding opportunities is focused on bonds with call dates within the next 3 years.

2010B & 2013C Opportunity / RFP Process

- Due to the size and tenor of the outstanding Series 2010B and 2013C Bonds, utilizing directly placed bank loans may be advantageous.
 - 2010B Bonds: Outstanding par amount of \$53,880,000 became callable on 7/1/2020 and matures 7/1/2021
 - 2013C Bank Loan: Outstanding par amount of \$101,855,000 is currently callable and has a final maturity of 7/1/2032
- The original plan was to request bank proposals in March 2020 but the process was delayed due to uncertainty of the impacts of Covid-19.
- On June 30, 2020, PFM, on the behalf of CFX issued a Request for Proposals to a broad list of local, regional and
 national financial institutions to provide for the purchase through direct placement of two revenue refunding bonds.
 - Refunding Bond, Series 2020A (refunding of Series 2010B Bonds) NTE \$54,500,000
 - Refunding Bond, Series 2020B (refunding of Series 2013B Bond) NTE \$102,500,000
- On the due date, July 17th, CFX received a total of 4 proposals.
 - J.P. Morgan 2020A Bond Only
 - Morgan Stanley 2020B Bond Only
 - Truist 2020A/B Bonds combined or 2020B Bond Only
 - Wells Fargo 2020A Bond Only

RFP Results & Recommendation

- Option 1 Based on indicative rates, the greatest debt service savings are achieved by awarding the 2020A Loan to Wells Fargo (1.00%¹) and the 2020B to Morgan Stanley (1.44%²).
 - Rates provided are indicative and will be set closer to closing. <u>Market movement of 8 bps would make the second</u> <u>alternative more attractive</u>
 - The Morgan Stanley proposal includes a higher coupon scale resulting in an overall increase in debt service for FY 2022-2025 averaging \$115k annually
 - The Morgan Stanley proposal requires 2 public ratings and CUSIPs
 - This option will have higher transaction costs due to higher bank counsel fees, ratings requirement, and a commitment fee for the 2020B Loan equal to 0.25% of the par amount.
 - NPV savings of \$11.7MM NPV Savings (7.5%)³
- Option 2 The second option would be to place both loans with Truist as a single Refunding Bond (1.54%).
 - The interest rate is locked for 45 days and not subject to market movement
 - Compared to the first option, this results in higher total Debt Service payments of \$1.1 million (PV Value of \$733k)
 - NPV savings of \$10.95MM NPV Savings (7.03%)
- Recommendation: Pursue Option 2 to: (i) avoid interest rate risk between now and closing, especially in light of small breakeven, (ii) avoid rating agency engagement/credit risk between now and closing and (iii) ease of execution.

Indicative rate to be set 2-3 days prior to closing.

^{2.} Indicative True Interest Cost based on the indicative pricing scale provided and AAA MMD as of 7/17/2020. Pricing to be set 8/20/2020.

^{3.} NPV Savings are inclusive of higher transaction costs

Refunding Opportunity: 2012 Bonds

- Callable Outstanding Bonds: \$84 million outstanding with a 7/1/2022 call date. Final maturity of 2025.
- A taxable advance refunding could be executed today to achieve 4% savings.
- CFX may be able to pursue a tax-exempt advance refunding or cash optimization transaction in the near term if conditions allow to achieve greater NPV Savings (subject to market movement).
- If market conditions in spring 2022 are similar to today, waiting until the call date would achieve greater NPV Savings.

Refunding Opportunity: 2013A Bonds

- Callable Outstanding Bonds: \$242 million outstanding with a 7/1/2023 call date. Final maturity of 2035.
- A taxable advance refunding could be executed today to achieve over 14% savings. However, escrow efficiency & call option value suggest further discussion is warranted.
- CFX may be able to pursue a tax-exempt advance refunding or cash optimization transaction in the near term if conditions allow to achieve greater NPV Savings (subject to market movement).
- If market conditions in spring 2023 were similar to today, waiting until the call date would achieve greater NPV Savings. Estimated Breakeven of 186 bps.

Refunding Opportunity: 2008B Bonds

- All 2008B Bonds are tied to fixed-payer, SIFMA based, interest rate swaps with corresponding amortizations resulting in synthetic fixed rates ranging from 5.24% to 5.36%.
 - Termination payments of swaps offset benefit of current lower interest rates
- The Series 2008B Bonds are directly placed floating rate notes with staggered expirations to mitigate renewal risk.
 - The next expiration is October 2021 for the 2008B-3 Bonds
- Due to a large mark-to-market on the swaps, termination of the swaps and refunding of the associated bonds is not economical at this time.
 - The current estimated cost to terminate all swaps is \$233 million

Schedule of Floating Rate Note Providers

| Provider | Series | Par | Product | \$ | Expiration |
|---------------------|---------|---------------|---------|------------------|---------------|
| BAML | 2008B-1 | \$130,135,000 | FRN | SIFMA + 56 bps | November 2022 |
| RBC Capital Markets | 2008B-2 | \$117,685,000 | FRN | SIFMA + 58 bps | July 2023 |
| BAML | 2008B-3 | \$148,790,000 | FRN | SIFMA + 46 bps | October 2021 |
| Wells Fargo | 2008B-4 | \$99,165,000 | FRN | SIFMA + 53.5 bps | January 2022 |

Refunding Next Steps / Recommendation

- Recommend CFX Board approval of a Refunding Bond to be directly placed with Truist Bank which will refund the Series 2010B and Series 2013C Bonds.
- While no transactions to refund the 2012, 2013A or 2013B Bonds are recommended at this time, in order to allow the CFO and financing team to act expeditiously should an opportunity arise, the following recommendation is requested.
- Finance committee approval of a refunding of the outstanding Series 2012, Series 2013A and/or Series 2013B Bonds should a refunding be deemed in the best interest of CFX by the CFO and financing team, contingent upon following conditions:
 - Should tax-exempt advance refundings be reinstated, refunding transactions may be pursued pending NPV savings >10%
 - A taxable refunding transaction may be pursued pending NPV savings > 15%

H. **DEBT AND** INTEREST RATE RISK MANAGEMENT **POLICIES**

CENTRAL FLORIDA EXPRESSWAY AUTHORITY

Debt Policy

I. Purpose

The purpose of this Central Florida Expressway Authority (CFX) Debt Policy is to establish guidelines and a framework for the issuance and management of CFX's debt. CFX is committed to consistent, best practices financial management, including maintaining the financial strength and flexibility of CFX and the full and timely repayment of all financial obligations. CFX will be open to recommendations or ideas for any proposed transaction as well as variations from the following guidelines provided that such variation shall be fully examined in conjunction with CFX's advisors and justified to the Board of CFX.

II. Capital Budgeting and Debt Issuance Policy

- A. CFX has retained the services of a traffic engineer and a general engineering consultant to obtain independent professional advice on the acquisition, construction, operation and management of the system, including assistance on the development of a Five-Year Work Plan and Twenty-Five Year Master Plan. The Five-Year Work Plan is typically reviewed and updated at least annually. The Twenty-Five Year Master Plan is typically updated every five years. CFX has developed and will maintain and update, as appropriate, a comprehensive Capital Planning Model as a tool in developing a financing plan for its Five-Year Work Plan, as well as other additional longer-term capital improvements. The Capital Planning Model incorporates the following elements, in addition to other factors:
 - 1. System revenue projections from CFX's traffic consultant or alternative revenue projection scenarios
 - 4.2. Projected Operations, Maintenance and Administration Expenses
 - 2.3. Existing debt service requirements
 - 3.4. Projected Five-Year Work Plan funding needs together with estimates to complete projects beyond the five year scope
 - 4.5. Projected timing of the adopted Five-Year Work Plan projects
 - 5.6. Estimated additional debt service requirements
 - 6.7. Estimated investment income
- B. Long-term debt will be used to finance essential capital projects and certain equipment where it is cost effective, prudent or otherwise determined to be in the best interest of CFX. Long-term debt, which includes capital lease financings, should not be used to fund CFX's operations. The useful life of the asset or project financed with long-term debt should exceed the payout schedule of any debt issued by CFX to finance such asset.
- C. Medium-term or "put" bonds will be used judiciously and only after careful analysis and discussion of the interest rate and rollover risks involved.
- D. Variable rate debt may be issued in various forms e.g., bonds, commercial paper, bank lines. The amount of unhedged variable rate debt generally should not exceed

25% of all outstanding debt of CFX. As a goal, CFX desires its total hedged and unhedged variable rate debt not to exceed 25% of all outstanding long-term debt of CFX.

III. Debt Service Coverage Targets and Limits

- A. For CFX to issue new bonds on a parity basis, per the Master Resolution, CFX will need to demonstrate that <u>pledged</u> revenues, as defined in the Master Resolution, shall be sufficient to cover the existing and new debt service by 1.20x.
- B. CFX shall maintain a minimum senior lien debt service coverage ratio of at least 1.45x on the existing and planned debt issues. For planning purposes, staff shall make every effort to plan for a 1.60x senior lien debt service coverage ratio.

IV. Method of Sale Evaluation

CFX will sell long-term debt on a competitive basis unless, based on the advice of the CFO and Financial Advisor, the transaction is better suited for a negotiated sale or direct placement.

- A. With the goal of obtaining the lowest cost of capital and completing a successful transaction, for each transaction recommended, the CFO, with advice from the Financial Advisor, will undertake an analysis to determine the recommended method of sale, including competitive, negotiated, or direct placement.
- B. The evaluation will take into consideration, among other factors the following considerations as outlined in the Government Finance Officers' Association (GFOA) best practice recommendations:
 - 1. Expected credit rating of bonds being issued
 - 2. Strength of revenue stream
 - 3. Structure of bonds and potential need for extensive explanation to the bond market
 - 4. Use of insurance or other credit enhancement
 - 5. Other factors that staff, in consultation with the financial advisor, believes favor the use of one method over the other-
- C. The evaluation will be shared with the Finance Committee and a recommendation as to the method of sale will be presented.
- D. Should CFX select the use of a negotiated sale, the following guidelines will be followed to increase the likelihood of a successful transaction and fully documents negotiated sale process:
 - 1. Underwriters will be selected through a formal RFP process under CFX's Procurement Policies.
 - 2. CFX's Financial Advisor will advise CFX on all aspects of the sale, including but not limited to structuring, disclosure preparation and bond pricing.
 - 3. Staff and the Financial Advisor will make a recommendation for lead underwriting firm and all participating co-senior and co-manager firms based on:

- a. results of most recent RFP selection,
- b. firm's contribution to development of strategies for transaction,
- c. demonstrated ability of firm to successfully underwrite similar transaction, and/or
- d. previous work assigned to firm under current RFP selection.
- 4. Staff and the financial advisor shall review the Agreement Among Underwriters and ensure that it governs all transactions during the underwriting period.
- 5. The Financial Advisor shall prepare a post-sale summary and analysis that documents the following:
 - a. pricing of the bonds relative to other similar transactions priced at or near the time of CFX's bond sale,
 - b. final cash flows including the true interest cost of the sale and the date of the verbal award, and
 - c. summary of all orders, allotments and allocation of takedown to the underwriting syndicate to monitor compliance with distribution rules

The analysis shall be shared with the Finance Committee.

- 5. Staff and the Financial Advisor shall review all orders and allocations to ensure compliance with the distribution rules and shall record the results at the conclusion of the sale.
- 6. The Financial Advisor shall prepare a post-sale summary and analysis that documents the pricing of the bonds relative to other similar transactions priced at or near the time of CFX's bond sale, and record the true interest cost of the sale and the date of the verbal award. The analysis shall be shared with the Finance Committee.
- E. Should a direct placement be recommended, staff and the Financial Advisor shall undertake a competitive process for selecting the placement party to ensure any CFX's objectives are met at the lowest cost of capital. Such process may include a formal RFP or solicitation of pricing indications, as appropriate.

V. Debt Structure

A. In general, CFX will seek to structure long-term debt so that it provides for level annual payments of principal and interest over the life of each respective issue (or approximately aggregate level debt service for all outstanding debt issues), after a period of interest only payments and the use of capitalized interest, as appropriate, for the respective issue in order to effectively interface with other existing debt of CFX and within the context of the Five-Year Work Plan and other considerations within this Debt Management Policy. CFX may utilize various debt structures to accomplish its financing goals, including but not limited, to the use of premium bonds, discount bonds, capital appreciation bonds, convertible capital appreciation bonds, variable rate and multimodal bonds and capitalized interest, when appropriate in order to achieve the goals provided in this Debt Management Policy.

B. CFX will consider interest rate swap transactions only as they relate to its debt management program and not as an investment instrument. No swap transaction should impair the outstanding uninsured bond rating of CFX. Additionally, no interest rate swap transactions will be considered if it causes CFX to exceed the targets in its Interest Rate Risk Management Policy. (For additional details, see CFX's Interest Rate Risk Management Policy.)

VI. Call Provisions

- A. Call provisions for CFX bond issues shall be made as short as possible consistent with the lowest interest cost to CFX, taking into consideration the option value of such call provisions.
- B. When practical, all CFX bonds shall be callable only at par.

VII. Debt Refunding

CFX staff and the financial advisor shall monitor the municipal bond market for opportunities to obtain interest savings by refunding or refinancing outstanding debt. As a general rule, the present value savings of a particular refunding should equal or exceed 3% of the refunded maturities. For an advance refunding a higher minimum savings threshold should be required, depending on how soon the bonds may be called. However, in order to meet certain restructuring or risk management goals, CFX may elect to lower the present value savings threshold for any individual transaction.

VIII. Credit Enhancement and Liquidity

Bond insurance, surety policies, letters of credit, liquidity facilities and other credit enhancements will be used when it provides economic savings or risk management opportunities for CFX. Letters of credit, liquidity facilities or other credit facilities may expose CFX to bank provider risk. In those instances, bank providers should possess minimum long term credit ratings of "A2/A/A" and minimum short term ratings of "P-1/A-1/F1" from Moody's Investors Services, Standard and Poor's Corporation and Fitch Ratings, respectively.

IX. Continuing Disclosure

CFX is committed to providing continuing disclosure of financial and pertinent credit information relevant to CFX's outstanding securities, and has and will continue to comply with those provisions of Securities and Exchange Commission (SEC) Rule 15c2-12 concerning primary and secondary market disclosure. CFX has engaged the services of <u>Digital Assurance Certification L.L.C. ("DAC")</u> to serve as <u>Disclosure Dissemination Agent. Disclosure Counsel to provide guidance and advice to CFX concerning securities law and disclosure issues.</u>

Additionally, CFX will maintain financial information on its website to provide timely information to the market and public. Such information will include, but not be limited to,

comprehensive annual financial reports, monthly cash flow reports, reports on revenue and expenses, transactional information, current official traffic and revenue forecasts and current year budgets. It will be noted that monthly financial information will not be audited and will not be reported on a full accrual basis, but is available to provide timely information to interested parties.

X. Credit Objectives

- A. It is CFX's intent to maintain and improve the credit ratings on its outstanding and proposed bond issues. CFX will maintain long-term debt ratings from at least two of the three major bond rating agencies Moody's Investors Service, Standard and Poor's Corporation, and Fitch Ratings. CFX may discontinue the use of ratings from any agency which currently rates the debt of CFX if, based on advice from CFX's Financial Advisor and underwriting team, the discontinuance of such rating will not adversely affect the rates that can be achieved in selling CFX's debt without such rating.
- B. CFX's CFO will maintain frequent communications with the credit rating agencies that currently assign ratings to CFX's various debt obligations, bank credit providers/lenders, and bond insurers that currently enhance any of CFX's various debt obligations. This effort shall include providing periodic updates on CFX's general financial condition along with coordinating meetings and presentations, as necessary, in conjunction with a new debt issuance.
- C. CFX's CFO will develop, in conjunction with the Financial Advisor and Disclosure Counsel, an investor relations program that will be designed to keep present and future investors in CFX's debt fully informed on current developments related to CFX and its long-term debt.

XI. On-going Reporting Requirements

At least twice each year, the Board shall receive a report on the status its debt. The report shall at a minimum include:

- Amount and percentage of total debt by categories:
 - o natural fixed
 - o synthetic fixed
 - o natural variable
 - o synthetic variable
- Current mark-to-market value of all interest rate exchange agreements
- Historical rate performance for all variable rate bonds
- Any changes in ratings for credit enhancers and swap counterparty

CFX's CFO, with the assistance of the financial advisor, shall be responsible for analyzing any unsolicited proposals received relative to debt issues, responding to the proposal as appropriate, and recommending to the Finance Committee any action to be taken in a timely manner.

| XII. | Policy Review | |

CENTRAL FLORIDA EXPRESSWAY AUTHORITY

Interest Rate Risk Management Policy

The Central Florida Expressway Authority (CFX) currently has a number of interest rate exchange agreements (Swaps) with a number of counterparties. As used herein, "Swap" shall mean a "swap," as defined in the Section 1a(47) of the Commodity Exchange Act and the U.S. Commodity Futures Trading Commission ("CFTC") Regulations. This policy will govern how the Swaps, together with the associated variable rate demand bonds, will be managed to provide the optimal balance of costs and risk. This policy should be read and interpreted in the context of CFX's Debt Policy.

I. Goals and Objectives

The overall objective in managing CFX's debt portfolio and interest rate risk is to balance the cost of capital with the management of risk. CFX's risk tolerance is low and therefore, opportunities to cost-effectively reduce existing or potential risks should be constantly evaluated for feasibility.

CFX has set a limit of synthetic fixed rate debt at 25% of the total outstanding debt. This goal should be considered as CFX manages its Swap portfolio and its overall debt program. New Swaps will only be considered where the overall exposure to like transactions is not increased beyond the stated limit. New, novated or amended Swaps may also be considered where a reduction in actual or potential risks may be accomplished.

It is also CFX's goal to limit exposure to individual swap dealers/counterparties to no more than 30% of the total notional amount of CFX's active Swap portfolio. Although this requirement shall not require CFX to terminate, novate or amend existing Swaps absent of other risk considerations, it does prohibit new Swaps to be considered if the new Swap would cause CFX's exposure to any individual swap dealer/counterparty to increase beyond 30% of the then existing total notional value of CFX's active Swap portfolio.

II. Monitoring and Reporting of Existing Transactions

As part of the semi-annual debt report provided to the Board (in accordance with CFX's Debt Policy), the CFO will report the current credit ratings of each swap dealer/counterparty with which it has an existing Swap and the mark-to-market value of each Swap. In addition to reporting the weekly rates on the variable rate bonds in the semi-annual debt report, the CFO will provide the Finance Committee with a quarterly remarketing report and review the results at the next scheduled meeting. As necessary, the CFO, in consultation with CFX's financial advisors, will make recommendations to address any rate dislocation including, but not limited to, changing remarketing agents or credit providers, depending on the underlying cause of the dislocation.

III. Exit Strategies

The CFO and CFX's financial advisors and designated "qualified independent representative" ("QIR") QIR—(as defined herein) should constantly monitor market rates, termination values, counterparty credit ratings, and other relevant factors to determine if voluntary termination is warranted. Generally, a voluntary early termination will be warranted if it is economically advantageous and/or if a reduction in CFX's current or anticipated risk can be accomplished at no cost. CFX shall seek to maintain sufficient liquidity, including without limitation through balances in CFX's Swap/Debt Management Contingency, short term financing capacity, and/or other borrowing capacity, to make any Swap termination payments that may become due, to the extent not paid or payable from other sources.

IV. Evaluation of Proposed Transactions

While CFX's current goals would exclude contemplation of new derivative products, the replacement of existing Swap transactions with new ones may be the most cost-beneficial method of managing risks. For that reason, this section outlines the process for evaluating and executing new transactions.

A. Review and Analysis

The proposed use of structured products must comply with all goals and provisions of CFX's existing policies. Each Swap transaction will be evaluated as an alternative to traditional, intermediate, or long-term financing options. Consideration should be given to their comparable cost, ease of entry and exit provisions, and degree of potential risk exposure, quantified to the greatest extent possible. Any proposed Swap transaction must fit into CFX's goals to limit the percentage of variable rate debt and exposure to individual counterparties.

CFX's designated QIR will provide independent analysis of any proposed Swap transaction, including an analysis of the relevant benefits and risks of such transaction. CFX's cost of the transaction and any ongoing costs, such as remarketing, credit enhancement and/or liquidity, swap advisors, financial advisors, attorney fees and other necessary costs will be included in the cost/benefit evaluations. A review of provisions required by bond and/or swap insurance providers and the cost/benefit of such insurance will also be included in an evaluation of the Swap transaction.

B. Legal Analysis

The documentation of the swap shall be in the form of an enforceable written contract. Whenever possible, those contracts shall be transacted using Florida law or, as an alternative New York law with Florida law as to CFX's authority and Orange County Florida as to jurisdiction or venue. Review of compliance with existing law and regulation (including but not limited to the Internal Revenue Code and CFTC Regulations) bond indentures and bond covenants should be completed before implementation of a Swap transaction.

V. Transaction Management and Execution

Swap transactions will:

- Comply with all applicable outstanding bond resolutions, insurance covenants, and Florida law.
- Contain terms and conditions as set forth in the International Swap and Derivatives Association, Inc. ("ISDA") Master Agreement, Schedules to the Master, Credit Support Annex and confirmation.
- Be a market transaction for which competing good faith market quotations may be obtained and with the advice and recommendation of CFX's designated QIR, and other financial professionals.
- Include a provision for the right to early termination at market under the guidelines of the ISDA Agreement. The transaction should allow for CFX to exercise the right to optionally terminate the agreement, at the then prevailing market value of the Swap.
- Produce material economic or risk management benefit believed to not otherwise be attainable under the currently existing market conditions, or existing conventional debt structures, and improve the flexibility of debt management strategies.
- Not introduce leverage solely for the means of producing economic benefit. Transactions will not be speculative in nature.
- Not unduly impair CFX's utilization of call features on outstanding bonds.
- Employ structures that will attempt to minimize existing risks and do not substantially add new risks, including but not limited to, any additional floating rate basis risk, tax-law risk or credit risk to CFX.
- Not cause the total amount of Swap transactions to exceed the debt management limitations for fixed or floating debt.

VI. The Swap Dealer/Counterparty

The following criteria will be used when considering swap dealer/counterparties for a Swap transaction:

- I. The swap dealer/counterparty must fully disclose all costs. All fees and expenses paid by the swap dealer/counterparty and to designated third parties, will be fully disclosed in writing to CFX.
- II. CFX will consider acquiring downgrade protection when possible including collateral or credit support.
- III. The assignment of a Swap agreement will not be permitted without the consent of CFX.
- IV. CFX will attempt to utilize domestically domiciled swap dealer/counterparties and/or utilize ISDA documentation which employs local currency-single jurisdiction status.
- V. The swap dealer/counterparty shall disclose relationships with other third parties which may affect the transaction, such as broker dealers, insurance companies and other swap providers.
- VI. The swap dealer/counterparty shall provide its financial statements showing the economic capability of the entity, the amount of its swaps outstanding and credit ratings, all of which shall be acceptable to CFX. At the time of entering into the Swap transaction, swap dealer/counterparties (or their guarantor) shall (i) be rated at least AA-/ Aa3/ AA- by at least one of the three nationally recognized credit rating agencies and not be rated lower than A/A2/A by any of the three nationally recognized credit rating agencies. Collateral should be required upon a downgrade from these levels.

VII. Authority's Representations with Respect to Swaps and QIR

Solely for purposes of the rules adopted by the CFTC governing business conduct standards for swap dealers and other parties as they apply to communications regarding Swaps, the Executive Director or CFO may make substantially the following representations in writing on behalf of CFX when requested by the swap dealer/counterparty.

- 1) CFX will not rely on any "recommendation" (as such term is used in CFTC Regulations §23.434 and §23.440) provided by a swap dealer/ counterparty with respect to a Swap;
- 2) CFX will rely on advice from a "qualified independent representative" designated by CFX and that it has complied in good faith with written policies and procedures reasonably designed to ensure that it has designated a "qualified independent representative" that satisfies the applicable requirements of CFTC Regulation §23.450(b);
- 3) CFX will exercise independent judgment in evaluating any "recommendations" made by the swap dealer/counterparty with regard to a Swap; and
- 4) CFX understands that the swap dealer/counterparty is not expressing any opinion as to whether CFX should enter into or terminate a Swap.

VIII. Use of Qualified Independent Representative

In compliance with the CFTC Regulations promulgated under the Dodd-Frank Wall Street Reform and Consumer Protection Act, as amended (the "Dodd-Frank Act"), CFX will designate a "qualified independent representative" ("QIR")QIR for all Swap related transactions, including terminations. The QIR must be capable of independently evaluating the risks of the Swap, independently evaluating the fair pricing of the Swap (including termination payments), and of making timely and effective disclosures to CFX (including with regard to material conflicts of interest that could reasonably affect the judgment or decision making or the QIR with respect to its obligations to CFX). The QIR must represent to CFX that:

- A. The QIR has sufficient knowledge and expertise to independently evaluate the Swap, the risks of the Swap, the fair pricing of the Swap (including termination payments) and the appropriateness of the Swap for CFX (taking into consideration the written policies of CFX);
- B. The QIR is not subject to a statutory or regulatory disqualification or any final disciplinary action that would prevent it from effectively serving as a representative to CFX in such capacity.
- C. The QIR, by accepting such designation by CFX, is undertaking a duty to act in the

best interests of CFX;

- D. The QIR has written policies and procedures reasonably designed to ensure that it satisfies the applicable requirements of CFTC Regulation §23.450(b)(1);
- E. The QIR will exercise independent judgment in evaluating any "recommendations" (as such term is used in CFTC Regulations §23.434 and §23.440) presented to it by the swap dealer/counterparty with regard to a Swap;
- F. The QIR is not and, within one year of representing CFX in connection with the Swap has not been, an "associated person," as such term is defined in Section 1a(4) of the Commodity Exchange Act, of the swap dealer/counterparty;
- G. There is no "principal relationship" (as that term is defined in CFTC Regulations §23.450(a)(1)) between the QIR and the swap dealer/counterparty;
- H. The QIR (a) will provide timely and effective disclosures to CFX of all material conflicts of interest that could reasonably affect the judgment or decision making of the QIR with respect to its obligations to CFX and (b) will comply with policies and procedures reasonably designed to manage and mitigate such material conflicts of interest;
- I. The QIR is not directly or indirectly, through one or more persons, controlled by, in control of, or under common control with the swap dealer/counterparty;
- J. To the best of the QIR's knowledge, the swap dealer/counterparty did not refer, recommend, or introduce the QIR to CFX within one year of QIR's representation of CFX in connection with the Swap;
- K. The QIR is legally obligated to comply with the applicable requirements of CFTC Regulation §23.450(b)(1) by agreement, condition of employment, law, rule, regulation, or other enforceable duty; and
- L. The QIR has registered with the CFTC as a commodity trading advisor and/or with the Securities Exchange Commission as an investment advisor under the Investment Advisers Act of 1940.

The QIR must also agree to promptly notify CFX in writing if any representations made by the QIR referenced above became incorrect or misleading in any material respect. For any representation that would be incorrect or misleading in any material respect if repeated on any date following the date on which the representation was last repeated, the QIR shall timely amend such representation by giving written notice of such amendment to CFX. The designated QIR must annually reaffirm in writing to CFX by delivery to the CFO on each July 1st the representations outlined in A through L above.

The QIR will be retained by CFX through CFX's implemented procurement procedures (i.e. RFP, RFQ, etc.) using selection criteria that ensure the designated QIR possesses the capabilities necessary to independently evaluate the risks of the Swap, to independently evaluate the fair pricing of the Swap (including termination payments), and to make timely and appropriate disclosures to CFX. The procurement of the QIR may be done in conjunction with CFX's procurement of its financial advisor. If CFX's financial advisor, or its registered commodity trading advisor or investment advisor affiliate, possesses the requisite capabilities and, by written contract, makes the representations set forth above, then CFX may designate its financial advisor, or its registered investment advisor affiliate, as the QIR.

To ensure compliance with the provisions above, CFX will designate the QIR in writing. The QIR must provide evidence of its registration with the CFTC as a commodity trading advisor and/or with the Securities Exchange Commission as an investment advisor prior to being designated as CFX's QIR. The designation can be done in the context of the financial advisor contract or amendment thereto with the financial advisor or its registered commodity trading advisor or investment advisor affiliate, or in a separate contract with a different firm. Prior to executing a Swap transaction, termination or novation, CFX will obtain from the designated QIR the written representations outlined in A through L above. If the designated QIR is unable to provide such representations in a timely manner, CFX may utilize an expedited quote process to select a new designated QIR to facilitate a time and market sensitive transaction. The CFO will monitor the performance of the designated QIR and that the designated QIR demonstrates on each transaction that (1) it has the knowledge and expertise to independently evaluate the Swap, the risks of the Swap, the fair pricing of the Swap (including termination payments) and the appropriateness of the Swap for CFX, (2) it is independent of the swap dealer/counterparty, (3) it is acting in the best interest of CFX and (4) it makes timely and appropriate disclosures to CFX, when applicable.

IX. Transaction Pricing

When procuring financial derivative products, every effort shall be made to ensure competitive pricing. The complexity of circumstances surrounding transactions and meeting goals to limit exposure to individual counterparties may be valid reasons to negotiate a particular derivative product transaction. The CFO, upon the advice of the financial advisorQIR, will make a recommendation to the Finance Committee as to the method of pricing and counterparty selection. The financial advisorQIR will evaluate prices and rates to ensure transactions are at or below market. Similarly, CFX will make every effort to competitively price swap unwind transactions. The CFO, upon the advice of the financial advisorQIR will make a recommendation as to the method of selecting counterparties for unwinding swaps when not selecting all swaps in a series. Offers from counterparties to unwind transactions below market is an example of a reason to negotiate with specific counterparties.

X. Disclosure and Financial Reporting

CFX will ensure that it complies with all regulations and guidelines for the disclosure and financial reporting of interest rate swaps as set forth by the Municipal Securities Rulemaking Board (MSRB) and the Governmental Accounting Standards Board (GASB).
