Uni — One Toll Transponder That's Accepted in 18 States

Just in Time for the Return of the Great American Road Trip

ORLANDO, Fla. — (July 9, 2020) -- As travel attitudes begin shifting from neutral to the next gear, [travel experts](#) expect to see the return of the road trip as many explore America's backyard. To make those road trips easier, [Uni](#) is now available. It's the toll transponder from the [Central Florida Expressway Authority](#) (CFX) that allows drivers to automatically pay tolls on expressway systems in 18 states.

With Uni, drivers can travel on toll roads from Florida to Maine and west to Illinois without having to stop at tollbooths to pay with cash or use different transponders. Uni is accepted on all toll roads and most bridges throughout Florida, Georgia, North Carolina, Virginia, West Virginia, Maryland, Delaware, New Jersey, New York, Pennsylvania, Massachusetts, Rhode Island, New Hampshire, Maine, Ohio, Indiana, Illinois and Kentucky.

Uni is portable and can be transferred from vehicle to vehicle, used on motorcycles and in rental vehicles. Uni offers customers convenience and savings, including no extra fees, and only one account to manage. Uni is available on [Amazon](#).

"We wanted the name to reflect the product's universal strengths; one toll pass, one technology that takes drivers where they want to go now, and in the future." said **Laura Kelley, executive director of the Central Florida Expressway Authority**. "Uni is a direct result of listening to our customers who wanted interstate toll travel to be easier and more convenient."

According to **AAA**, early indications suggest that travelers' confidence is slowly improving. [AAA predicts](#):

- Car trips will account for 97% of all travel,
- Americans will take 683 million car trips, and
- Vacationers will prefer U.S. destinations, mostly local and regional locations.

Uni works everywhere E-PASS and E-ZPass are accepted. It is compatible with E-PASS, E-ZPass, SunPass, LeeWay, PeachPass, NC QuickPass, RiverLink, I-PASS and QuickPass toll systems.

Uni, initially launched as E-PASS Xtra, offers all the same benefits and features with newer, future-ready toll technologies. E-PASS Xtra will continue to work throughout 18 states and be fully supported as part of the E-PASS family of products. For more information about Uni, see [GoWithUni.com](#).

About the Central Florida Expressway Authority: *The Central Florida Expressway Authority (CFX) is an independent agency of the State of Florida that operates and maintains a regional network of expressways for 3 million residents of Brevard, Lake, Orange, Osceola and Seminole counties and more than 75 million annual visitors to Central Florida. CFX's 125-centerline mile, user-funded system includes 69 interchanges, 17 mainline toll plazas, 74 ramp toll plazas and 339 bridges. On average, more than 1.3 million toll transactions are recorded daily, nearly 90 percent of them electronically. CFX operates E-PASS, the first electronic toll collection system in Florida, with over 500,000 E-PASS accounts. For more information, visit CFXway.com.*
