

uni Installation Guide

Manage your E-PASS account online at epass.cfxway.com or on the go with the **E-PASS toll app**:

INSTALLING YOUR UNI

- ▶ For best results, clean and dry your windshield before attaching.
- ▶ With the **uni** logo upright, place your transponder either behind or below your car's rearview mirror as illustrated in the diagram to the left. If your vehicle has a polarized windshield, please contact customer support prior to installation for information on proper placement.
- ▶ Press until suction cups hold firmly in place.
- ▶ For motorcycles, your Uni can be carried in the saddlebag.
- ▶ If moving your Uni to another vehicle, be sure to update your vehicle information on your E-PASS account.

PLEASE NOTE:

Certain vehicles may be equipped with metal oxidized windshields which can inhibit your Uni transponder from being read. If your Uni transponder is not consistently being read by E-PASS toll lanes, contact the dealer where you purchased your vehicle to ask for proper transponder placement instructions for your windshield and contact E-PASS Customer Service Center for further assistance.

Customer Support:

1-800-353-7277

Check CFXway.com for current customer service hours.
Automated customer service available 24/7.

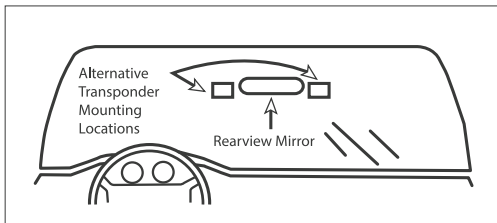

Uni is part of the E-PASS family of products, brought to you by the Central Florida Expressway Authority.

Sticker Installation Guide

CENTRAL
FLORIDA
EXPRESSWAY
AUTHORITY

INSTALLING YOUR E-PASS STICKER

To install your E-PASS sticker, affix the adhesive side to one of the transponder mounting locations on your windshield. The glass on your windshield will act as an antenna to electronically deduct tolls from your E-PASS account when you drive through a toll point. Please do not remove. Once removed, the E-PASS Sticker will no longer function and cannot be reattached to the windshield.

Please note:

- ▶ The E-PASS sticker will only operate when affixed to glass windshields. The E-PASS sticker cannot be moved from car to car and cannot be hand-held.
- ▶ Installation on a motorcycle is prohibited. The Central Florida Expressway Authority will not be held liable for any damages associated with attempt to install on a motorcycle.
- ▶ If your vehicle has a polarized windshield, please contact E-PASS (407-823-7277 or 1-800-353-7277) prior to installation for information on proper placement.
- ▶ The E-PASS User Agreement constitutes a binding agreement between E-PASS and the customer. To view the entire User Agreement, please visit www.CFXway.com/faqs/e-pass.
