EXECUTIVE SUMMARY

The Central Florida Expressway Authority's (CFX) FY 2023-2027 Five-Year Work Plan (Work Plan) was approved at the May 12, 2022 Board meeting and totals over \$4.0 billion.

CFX is authorized to build, operate and maintain a transportation facility in Central Florida, incorporating Brevard, Lake, Orange, Osceola and Seminole counties. The Five-Year Work Plan is an important tool used by CFX to effectively manage its program of system improvements, enhancements and rehabilitation. The purpose of the Work Plan is to identify projects that meet the region's transportation needs and match anticipated funding during the next five years.

During the development process, input from CFX staff and consultants was incorporated into the Draft Work Plan. The FY 2023-2027 Work Plan also utilized prior Work Plans, the 2040 Master Plan and the draft 2045 Master Plan as a foundation and supports CFX's adopted vision and mission. Renewal & Replacement, Intelligent Transportation Systems (ITS) and Technology needs were evaluated and included in the Draft Work Plan. A Financial analysis was then performed to determine the feasibility of the Draft Work Plan. The Draft Work Plan was presented to CFX's Board via a workshop on April 14, 2022. Final approval of the FY 2023-2027 Work Plan was received at the May Board meeting.

The five different reports (Category Summary, Category Reports, Fund Summary, 2040 Master Plan Summary and Project Information Reports) developed in the Work Plan process are included. These reports are structured to summarize, communicate and document project information.

“To provide the region with a world-class, integrated mobility network that drives economic prosperity and quality of life.”

Central Florida Expressway Authority's Vision Statement

Working towards the goal of a world-class system, the FY 2023-2027 Work Plan is a robust and diverse approach that will allow CFX to continue to invest in the existing system while looking for opportunities to address the mobility needs of Central Florida. With technology continuing to grow at a rapid rate and various levels of vehicle autonomy becoming more common, the connected vehicle study will open new avenues of an integrated transportation network.

Highlights of the FY 2023-2027 Work Plan include:

- The \$4.0 billion Work Plan is the largest in CFX's history
- Over one billion dollars allocated for capacity improvement projects for widening SR 408, SR 417, SR 429, SR 528 and SR 538 (60 centerline miles – 18 Projects), 17 of which are funded in the first fiscal year
- Interchange improvements to SR 408 at Tampa Avenue, SR 408 at Orange Blossom Trail (including mainline widening), and SR 528 at Dallas Boulevard as well as a new interchange on SR 429 at Binion Road

- Nine Sustainability Projects implementing photovoltaics (PVs) and renewable energy sources to the system as well as improving CFX Headquarter building efficiencies
- Resurfacing over 27 centerline miles
- Upgrading the Toll Collection System and updating CFX Operations Software
- Supporting the transportation needs of the region through two studies:
 - Southport Connector Expressway PD&E Study
 - SR 417 to Orlando-Sanford International Airport Connector Concept, Feasibility, and Mobility (C,F,&M) Study
- Developing the 2045 CFX Master Plan to identify future transportation needs of surrounding communities
- Design, right-of-way acquisition and construction for four new corridors:
 - SR 414 Expressway Extension (no right-of-way anticipated; construction partially funded in the Work Plan)
 - SR 516 Lake Orange Expressway
 - SR 538 Poinciana Parkway Extension
 - SR 534 Phase I (construction partially funded in the Work Plan)

Five-Year Work Plan

FY 2023 - FY 2027

May 12, 2022

Central Florida Expressway Authority - Five-Year Work Plan (FY 2023-2027)

1.1 Central Florida Expressway Authority System

On June 20, 2014, Senate Bill 230 created the Central Florida Expressway Authority (CFX). On July 1, 2017, by order of House Bill 299, the geographical boundary of Brevard County was added to the area served by CFX. As an agency of the State, CFX is authorized to build, operate and maintain a transportation facility in Central Florida, encompassing Brevard, Lake, Orange, Osceola and Seminole counties. This five-county region has more than 3 million residents and over 75 million visitors annually, ranking Orlando as the USA's most visited destination. CFX's system includes 125 centerline miles of limited access expressway (870 lane miles), 73 interchanges, 14 mainline plazas, 5 mainline gantries, 76 ramp facilities (includes five ramp gantries) and 346 bridges along the following roadways:

SR 408 (Spessard L. Holland East-West Expressway, Arnold Palmer Expressway and Sergeant Tracy Vickers Memorial Expressway) serves east-west commuter traffic across the Orlando urban area and provides access to the Orlando Central Business District. SR 408 currently extends from an interchange with Florida's Turnpike in the west to an interchange with SR 50 east of Alafaya Trail. CFX is responsible for the 22 miles of SR 408 between SR 50 west (at Clarke Road) and SR 50 east.

The John Land Apopka Expressway (SR 414) was constructed to provide a bypass around the City of Apopka. SR 414 extends Maitland

Boulevard to the west from US 441 / Orange Blossom Trail to US 441 near Plymouth Sorrento Road for a total of 9 miles. Out of the total 9 miles, 3 miles are part of the dual route with SR 429 (SR 429 / 414).

CFX operates and maintains the portion of the Central Florida GreeneWay (SR 417) beginning at the interchange with International Drive near SR 535, running east, south of the Orlando International Airport, and turning north to the Seminole / Orange County line for a total of 32 miles. The portions of SR 417 north of the Seminole / Orange County line and south of International Drive are owned and operated by the Florida Department of Transportation (FDOT).

The Daniel Webster Western Beltway and Wekiva Parkway (SR 429) was constructed to provide a shorter and more economical travel route between west Orange County and the Orlando Central Business District. Overall, SR 429 extends north from I-4 in Osceola County to SR 46 in Lake County. CFX's portion includes 31 miles from Seidel Road to just south of the Orange / Lake County line. Of the total 31 miles, 3 miles are part of the dual route with SR 414 (SR 429 / 414). The portions of SR 429 from south of Seidel Road to I-4 and north of the Orange / Lake County line are owned and operated by the FDOT.

SR 451 was previously the northern portion of SR 429. With the opening of SR 429 / 414 in January 2013, this 2-mile segment north of SR 414 to US 441 near Vick Road was re-designated as SR 451.

SR 453 opened in March 2018 and is a 2-mile facility that serves as a connection from SR 429 in Orange County to SR 46 in Lake County.

The Martin Andersen Beachline Expressway (SR 528) provides a direct connection between South Orlando and Cape Canaveral and serves Orlando International Airport. Although SR 528 extends from I-4 in the west to Cape Canaveral in the east, CFX's portion includes 23 miles from Boggy Creek Road / McCoy Road in the west to SR 520 in the east. The portions of SR 528 east and west of CFX's jurisdiction are owned and operated by the FDOT.

The Poinciana Parkway (SR 538) facilitates access to regional transportation networks, theme parks and the metro Orlando area for residents of Osceola County. This 7-mile expressway was originally constructed by the Osceola County Expressway Authority (OCX) and became a CFX system facility in December 2019. SR 538 extends from Ronald Reagan Parkway to Cypress Parkway near the Osceola/Polk County line.

CFX also operates and maintains the Goldenrod Road Extension, a non-system tolled expressway, which is 2 miles long with 1 mainline plaza.

1.2 Five-Year Work Plan

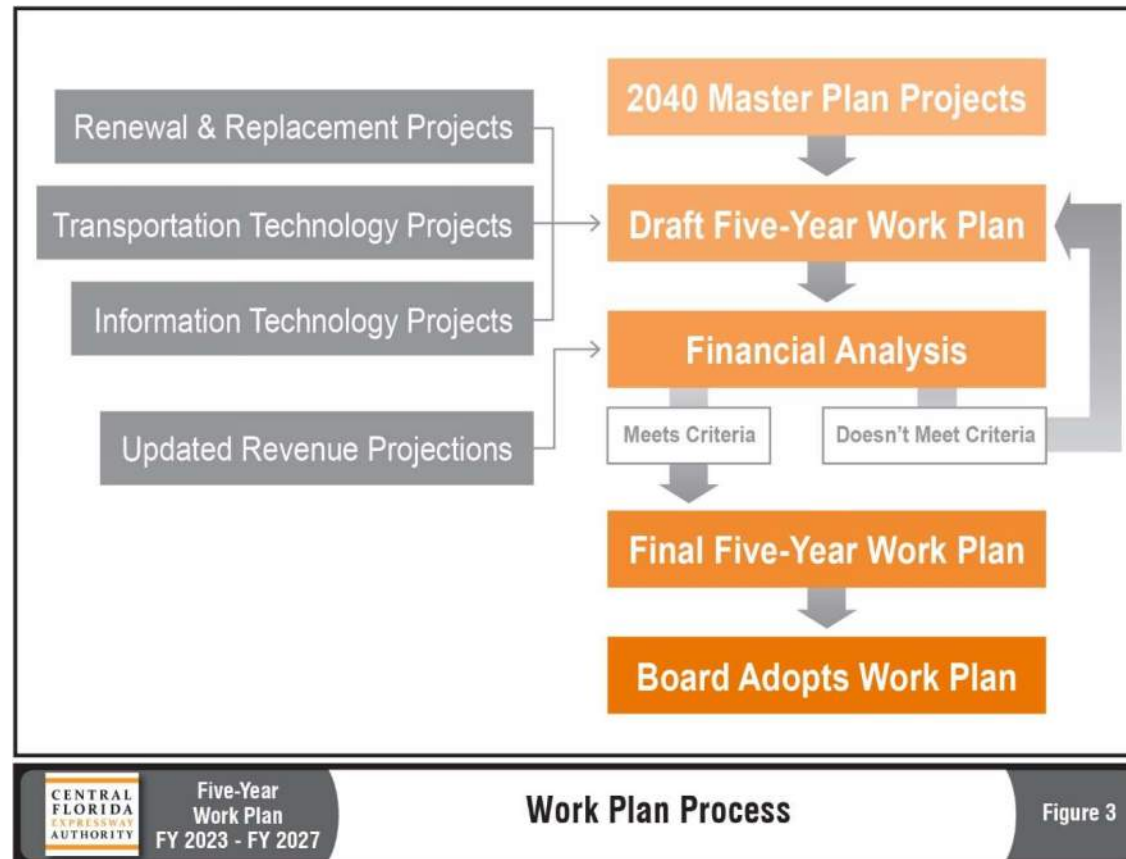

The Five-Year Work Plan (Work Plan) is an important tool used by CFX to effectively manage its program of system improvements, enhancements and rehabilitation. The purpose of the Work Plan is to identify projects that meet the region's transportation needs and match anticipated funding during the next five years. The Work Plan projects are identified and tracked through a control system which involves monitoring at the fund and project level and includes review of budgets, schedules and cash flows. The Work Plan is also used in conjunction with the financial management programs used by CFX.

The Work Plan is intended to be a living document. As such, it will change as priorities are re-evaluated, projects are completed, and new projects are identified. The Work Plan is developed from CFX's Master Plan, which includes input from local governments, businesses, transportation agencies, CFX customers and CFX's engineering, operations and maintenance staff. Available funding for the Work Plan is based on the current toll rate plan. Any toll rate plan adjustment will impact the Work Plan, changing the funds available for projects and potentially altering project timetables.

CFX's FY 2023-2027 Five-Year Work Plan was approved at the May 12, 2022 Board meeting and totals \$4.0 billion. The previous Work Plan (FY 2022-2026) was adopted on May 13, 2021 and totaled \$3.22 billion.

1.3 Development Process

During the development process, input from CFX staff and consultants was incorporated into the Draft Work Plan. The FY 2023-2027 Work Plan also utilized prior Work Plans, the 2040 Master Plan, and the draft 2045 Master Plan as a foundation and supports CFX's adopted vision and mission. Renewal & Replacement, Intelligent Transportation Systems (ITS) and Technology needs were evaluated and included in the Draft Work Plan. Figure 3 shows the Work Plan process.

All of the projects currently under contract, or encumbered, are included in the Draft Work Plan with an estimated cost to complete. The encumbered project costs are totaled separately from the unencumbered project costs. During the draft process, the unencumbered projects are assigned a priority of one through three based on the current stage of project development and other factors specific to each project.

A priority of one is assigned to projects previously authorized by the CFX Board, renewal and replacement projects necessary to maintain the physical integrity of the system, projects that enhance safety and future projects necessary to maintain acceptable levels of traffic operation. A priority of two is assigned to projects that improve an element of the system that safely and properly functions at an acceptable

level in its current condition. A priority of three is reserved for projects with a lower feasibility level and for projects in which CFX's role is not defined.

Unencumbered project costs are estimated for all projects and escalated to coincide with the year in which the expenditures for the project are projected to occur. An inflation rate of 2.9% was assumed for escalation of project costs other than construction and right-of-way. An inflation rate of 4.0% was assumed for construction for FY 2023, 2.8% for FY 2024, 2.9% for FY 2025, 3.0% for FY 2026 and 3.1% for FY 2027. The inflation rate utilized for FY 2023 was based on coordination with the Traffic and Earnings Consultant. Rates for the remaining years correspond to FDOT's published inflation factors. Right-of-way inflation was based on data obtained from the FDOT Office of Right-of-Way. The current default rate for the nine counties of District 5 within the FDOT is 3% through year 2027. Based on the location and speculative nature of the lands that would be potentially acquired, this default rate was increased to 6%.

A financial analysis, which includes input from CFX staff, financial advisors, General Engineering Consultant, General Systems Consultant, and Traffic and Earnings Consultant is then performed to determine the feasibility of the Draft Work Plan. The analysis takes into account the budget requirements, existing construction funds, interest rates, bond issuance, existing debt service, capital costs and construction scenarios, and projected toll revenues. The analysis results provide the debt service coverage projection, cash flow reports and sources and uses of funds.

The Draft Work Plan is adjusted to include projects based on the input received and the decisions made by CFX staff. The Draft Work Plan is reviewed by staff and presented to the CFX Board for their comments and approval. Once approved, the Draft Work Plan becomes CFX's Five-Year Work Plan.

1.4 MetroPlan Orlando Coordination

Once approved by the CFX Board, the Five-Year Work Plan is submitted to

MetroPlan Orlando for their use in development of the region's Transportation Improvement Plan (TIP).

1.5 Work Plan Reports

As part of the Work Plan control system, five report types are prepared: Category Summary, Category Reports, Fund Summary, 2040 Master Plan Summary and Project Information. These reports are structured to summarize, communicate and document project information that can be used at all levels of management. Each of these reports is described in detail in the following pages. A list defining the most common terms and abbreviations used throughout the Work Plan can be found in Section 5.

1.5.1 Category Summary

The projects contained in the Work Plan have been grouped into one of the following categories:

- Existing System Improvements
- System Expansion Projects
- Interchange Projects
- Facilities Projects
- Transportation Technology Projects
- Information Technology Projects
- Signing and Pavement Markings
- Renewal and Replacement Projects
- Landscape and Hardscape Projects
- Non-System Projects

The Category Summary report is one of two reports contained in the Work Plan that provide a cumulative total of all projects included in the Work Plan. The other is the Fund Summary report.

The information found in the Category Summary report is a total of the projected cash expenditures, expressed in thousands, for each individual category for each of the five fiscal years encompassed by the Work Plan. The encumbered and unencumbered project costs are shown in the first two years for each category. These figures are then totaled for each category and each fiscal year.

1.5.2 Category Reports

A Category Report is provided for each of the categories listed under Section 1.5.1.

The Category Reports contain a listing of the individual projects grouped into each specific category. Provided with this listing is general project information and the project's projected cash expenditures by fiscal year and five year total cost.

The source for information contained in the Category Reports is the individual Project Information reports included in Section 5.

1.5.3 Fund Summary

The Fund Summary report provides a detail of the projected source of funding and expenditures scheduled from each fund at a fiscal year level. The source of this information is the Project Information reports.

The Fund Summary report is intended to be used with CFX's financial models as a tool to aid in the projection of fund balances. Through the use of this tool, CFX will be able to make informed financial decisions based on the contents of the Work Plan.

The following Fund Sources are used:

- System Projects Fund (SP)
- Construction Fund (CF). The source of this fund is the Senior Lien Revenue Bonds, Series 2019B and Series 2021D. These bonds are intended to provide funds to finance, refinance, or reimburse CFX for the costs of acquiring, constructing and equipping the 2019 and 2021D System Projects.
- Renewal and Replacement (RR). The projects included in this fund are the projects needed to maintain the serviceability of the system. CFX takes a modified approach to renewal and replacement by considering infrastructure

assets to be “indefinitely lived”, therefore, not depreciated. Costs related to maintenance, renewal and replacement for these assets are not capitalized, but instead are considered to be period costs and are included in preservation expense. These projects provide rehabilitation of the CFX assets that have reached the end of their serviceable life and are not considered to be maintenance projects.

- Non-System Projects (NSP)

1.5.4 2040 Master Plan Summary

The 2040 Master Plan Summary Report is provided as a comparison summary of the projects included in the Five-Year Work Plan with those recommended in the Visioning + 2040 Master Plan.

The 2040 Master Plan recommends pursuing capacity and operational improvement projects for the existing system beyond those identified in the Work Plan. It identifies widenings along SR 417, SR 429 and SR 528, as well as interchange improvements at three existing interchanges. In addition, it outlines 12 possible new expressway expansion project opportunities. This report provides the Master Plan projects status.

1.5.5 Project Information

The Project Information report is provided for each project contained in the Work Plan. This report provides detailed scheduling, cost and cash flow information and can be updated on a regular basis.

1.6 FY 2023-2027 Work Plan Totals

As summarized in Section 2, the Work Plan totals \$4.0 billion. Figure 4 reflects the Work Plan funding distribution by category.

1.7 Major Projects in FY 2023-2027 Work Plan

The Project Information reports in Section 5 include details for each of the projects included in the FY 2023-2027 Work Plan. The following is a summary of the projects, by category. Figure 1 in the executive summary shows a graphic overview of the major projects included in the Work Plan.

1.7.1 Existing System Improvements

This category includes capacity improvement projects and operational / safety improvements. Projects with studies, design and / or construction within the first two years of the Work Plan include:

- SR 408 Eastbound Widening from Pine Hills Plaza to East of Church Street
- SR 408 Westbound Widening from I-4 to Bumby Avenue & West of SR 436 to Goldenrod Road
- SR 417 Widening from International Drive to SR 528 (5 projects)
- SR 417 Widening from Curry Ford Road to Lake Underhill Road Bridge
- SR 429 Widening from Schofield Road to SR 414 (5 projects)
- SR 528 Widening from SR 436 to Innovation Way (4 projects)
- SR 538 Widening from Ronald Reagan Parkway to Cypress Parkway and Pond 4-2 Reshaping (2 projects)
- SR 528 Farm Access Road 1 and 2 Bridge Projects (2 projects)
- SR 528 West Mainline Gantries

This category also includes landscaping projects corresponding to system projects, systemwide median protection improvements, systemwide miscellaneous safety and operational improvements, water body protection, guardrail upgrades, drainage

improvements and roadway lighting improvements scheduled throughout the five years.

Multimodal / Intermodal Opportunity Studies are also included in the Work Plan. The first study was completed in FY 2017 with a second completed in FY 2018. Future studies will be based on the findings and recommendations from these studies. Funding has also been allocated in the Work Plan for the Construction Safety Campaign.

1.7.2 System Expansion Projects

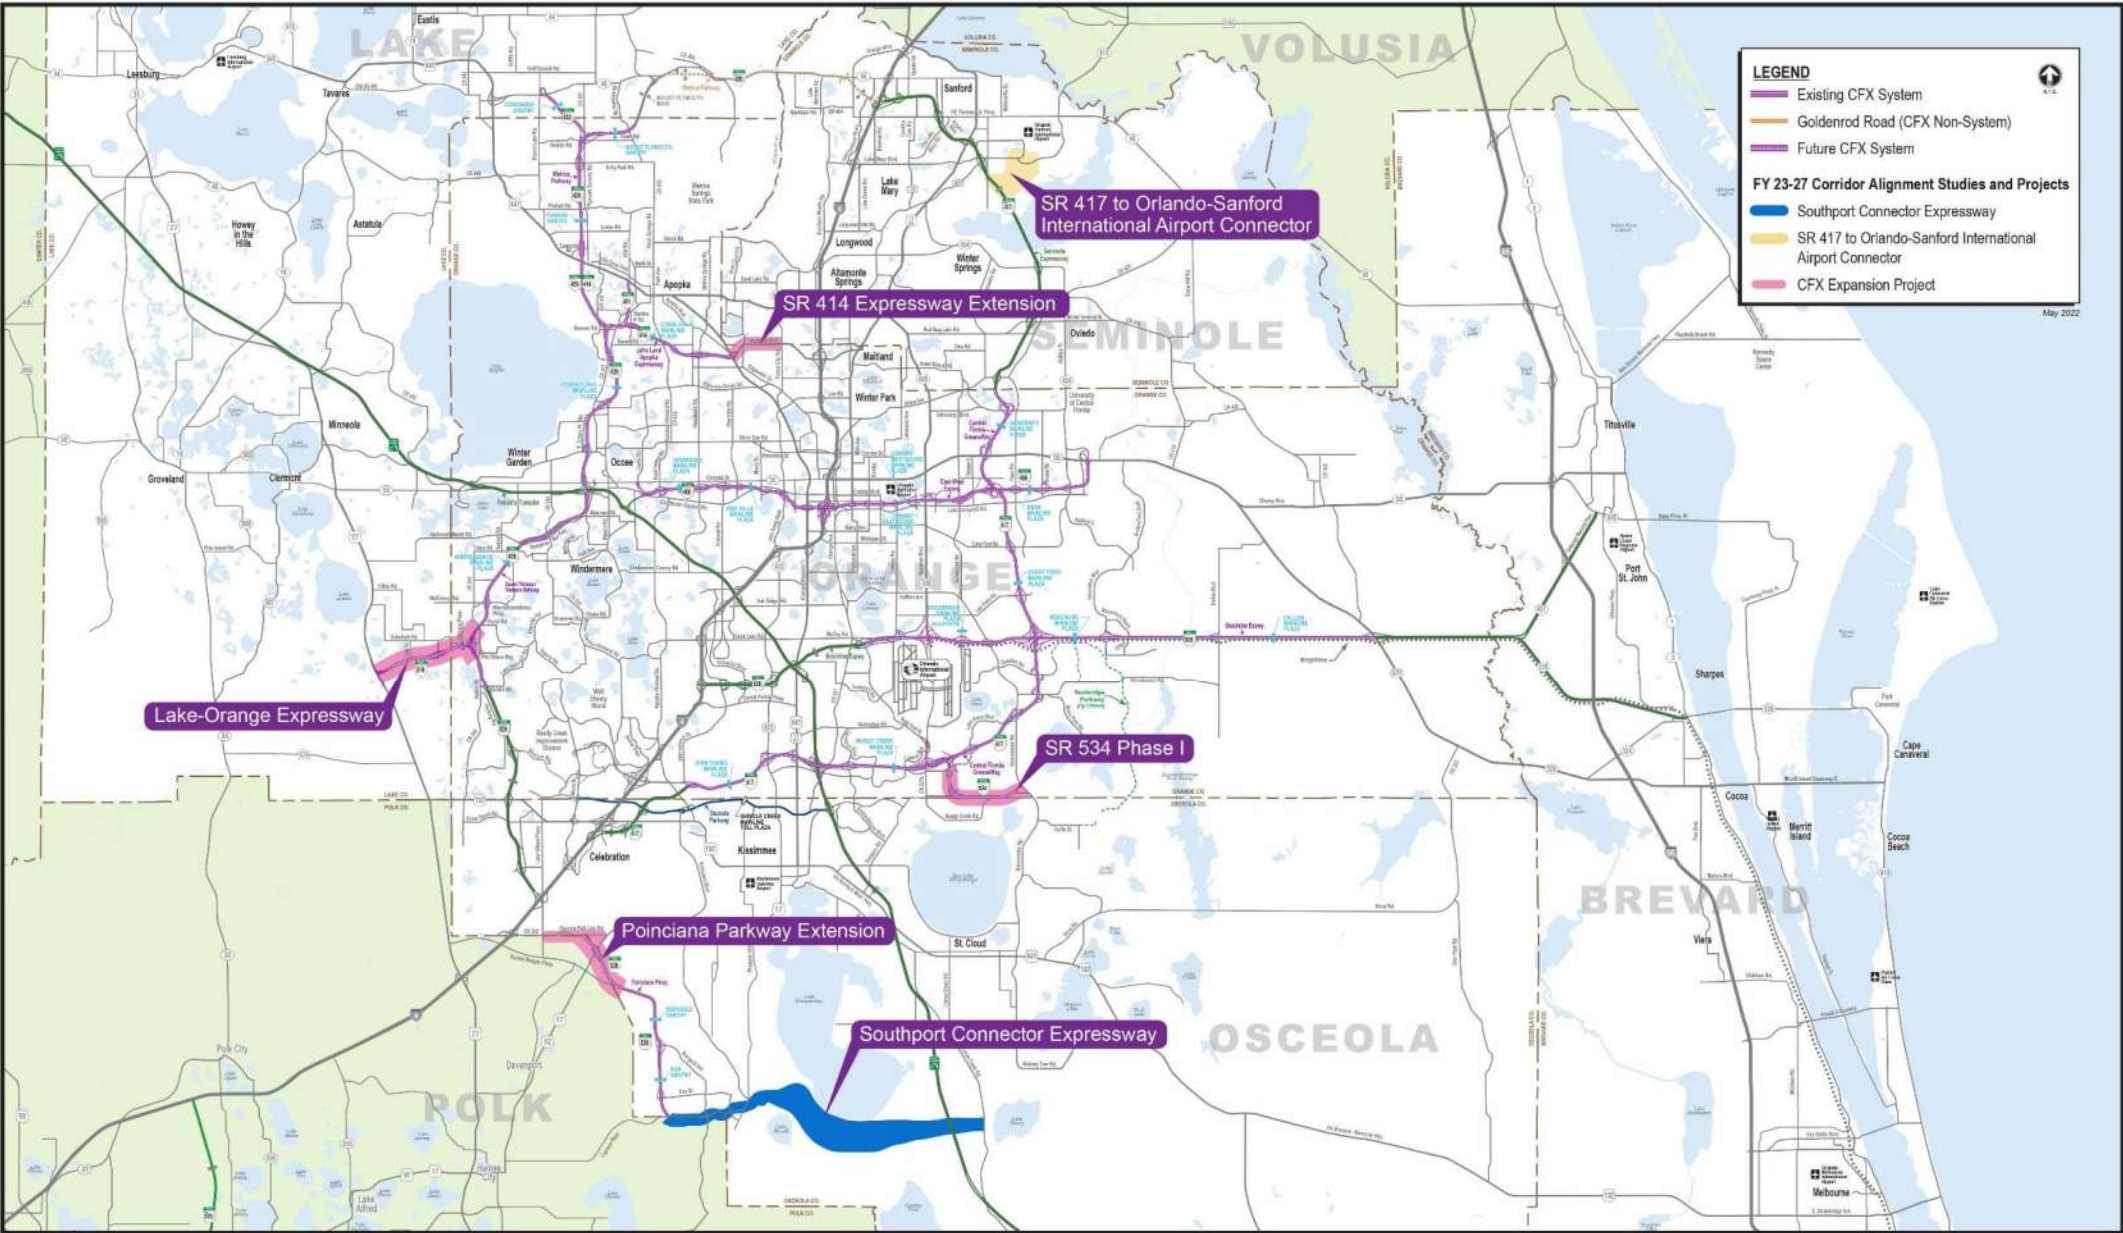

System expansion projects include new alignments. The FY 2023-2027 Work Plan includes two studies:

- Southport Connector Expressway PD&E Study
- SR 417 to Orlando Sanford International Airport Connector Concept, Feasibility & Mobility (C,F,&M) Study

Also included are four new alignments which are funded for all phases (design, right-of-way and construction):

- SR 414 Expressway Extension (partial construction)
- SR 516 Lake Orange Expressway (3 projects)
- SR 538 Poinciana Parkway Extension and CR 532 Widening (3 projects)
- SR 534 Phase I (5 projects) (partial construction)

Figure 5 shows an overall view of the studies and design projects currently identified in the Work Plan. Additional studies for future expansion projects in Brevard, Lake, Orange, Osceola and Seminole Counties are also included in this category. This Work Plan also includes developing CFX's vision for the 2045 Master Plan.

1.7.3 Interchange Projects

This category includes interchange improvements as well as new interchanges. Funding of the following interchanges is included in the Work Plan:

- SR 408 / I-4 Interchange
- SR 408 / Tampa Avenue Interchange
- SR 408 Eastbound Widening and Orange Blossom Trail Interchange
- SR 528 / Dallas Boulevard Interchange
- SR 429 / Binion Road Interchange

The SR 408 / I-4 Interchange is part of the I-4 Ultimate Project by FDOT. Five new flyover ramps at the SR 408 / I-4 Interchange opened to traffic in May 2020 followed by the opening of the express lanes in February 2022. SR 408 / Tampa Avenue Interchange is currently under design and the adjacent SR 408 Eastbound Widening and Orange Blossom Trail Interchange project is currently in process to procure a design consultant. The SR 528 / Dallas Boulevard Interchange is anticipated to begin design in the Spring of 2023. A PD&E study is underway for the SR 429 / Binion Road Interchange and design is anticipated to begin in the Spring of 2023. Funding has also been included for potential interchange planning studies which may be identified as part of the 2045 Master Plan.

1.7.4 Facilities Projects

Facilities projects include systemwide toll plaza projects, miscellaneous headquarter improvement projects, Magnolia Avenue Parking Lot Phase II, East and West District Facility projects and sustainability program projects. Also included in this category are generator, air conditioner, roof replacement and toll plaza projects.

CFX's sustainability projects include performing additional research and

implementing technologies such as photovoltaics (PVs), electric vehicle charging stations, electric vehicles and retro-commissioning efforts. Retro-commissioning efforts include improvements to building efficiencies thru replacement of the Facilities Control System and replace of fluorescent lighting with LED fixtures. A project is currently under design to implement LED fixtures at the CFX Headquarters Building. CFX's first PV implementation project was recently completed near the Hiawassee Mainline Plaza and Data Center.

1.7.5 Transportation Technology Projects

The Transportation Technology Projects category includes projects related to field devices, the ITS server environment, traffic monitoring systems, traffic safety enhancements and security improvements. Projects include:

- Regional ITS Partnership Projects
- Advanced Expressway Operations Performance Measures
- Wrong-Way Driving Countermeasures
- Three-Line DMS Upgrade Program
- Connected Vehicle and Big Data Needs Pilot and Technology Deployment
- Hardware and Software Replacements and Enhancements
- Lane Control Operations Software
- Hiawassee to HQ Direct Connection
- Lake Underhill Bridge Lighting Replacement

1.7.6 Information Technology Projects

The Information Technology Projects category includes projects related to system automation software and electronic toll operating systems. The Toll Collection

System Upgrade project is currently underway and is anticipated to be complete in FY 2023. Other projects include:

- IT Infrastructure Upgrade
- CFX Operations Software Update
- Software Development
- Financial / Accounting Software Replacement
- Toll System Hardware and Software Enhancement/Refresh
- Tolling Analytics

1.7.7 Signing and Pavement Markings

The Work Plan includes funding for the design and construction of systemwide miscellaneous signing and marking projects and guide sign replacements. Three guide sign replacement projects are included in the Work Plan, with one under design and another under construction. Additional projects include systemwide annual toll rate signing updates, systemwide trailblazer upgrades and systemwide signing and pavement marking replacement projects.

1.7.8 Renewal and Replacement Projects

The majority of funds for the renewal and replacement category are dedicated to milling and resurfacing projects. The scheduled projects follow CFX's recommendations included in the pavement management plan.

Funding for design and construction of the following resurfacing projects, depicted in Figure 6, is included in the Work Plan:

- SR 408 from West SR 50 to East of the Pine Hills Mainline Plaza (3 projects)
- SR 408 from Lake Underhill Road to Yucatan Drive
- SR 417 from SR 528 to North of Berry Dease Road
- SR 429 / 414 from SR 414 to US 441
- SR 429 from US 441 to North of CR 435 (2 projects)
- SR 451 from SR 414 to US 441
- SR 453 from SR 429 to SR 46
- SR 528 from McCoy / Boggy Creek Road to SR 436
- SR 528 Miscellaneous Resurfacing

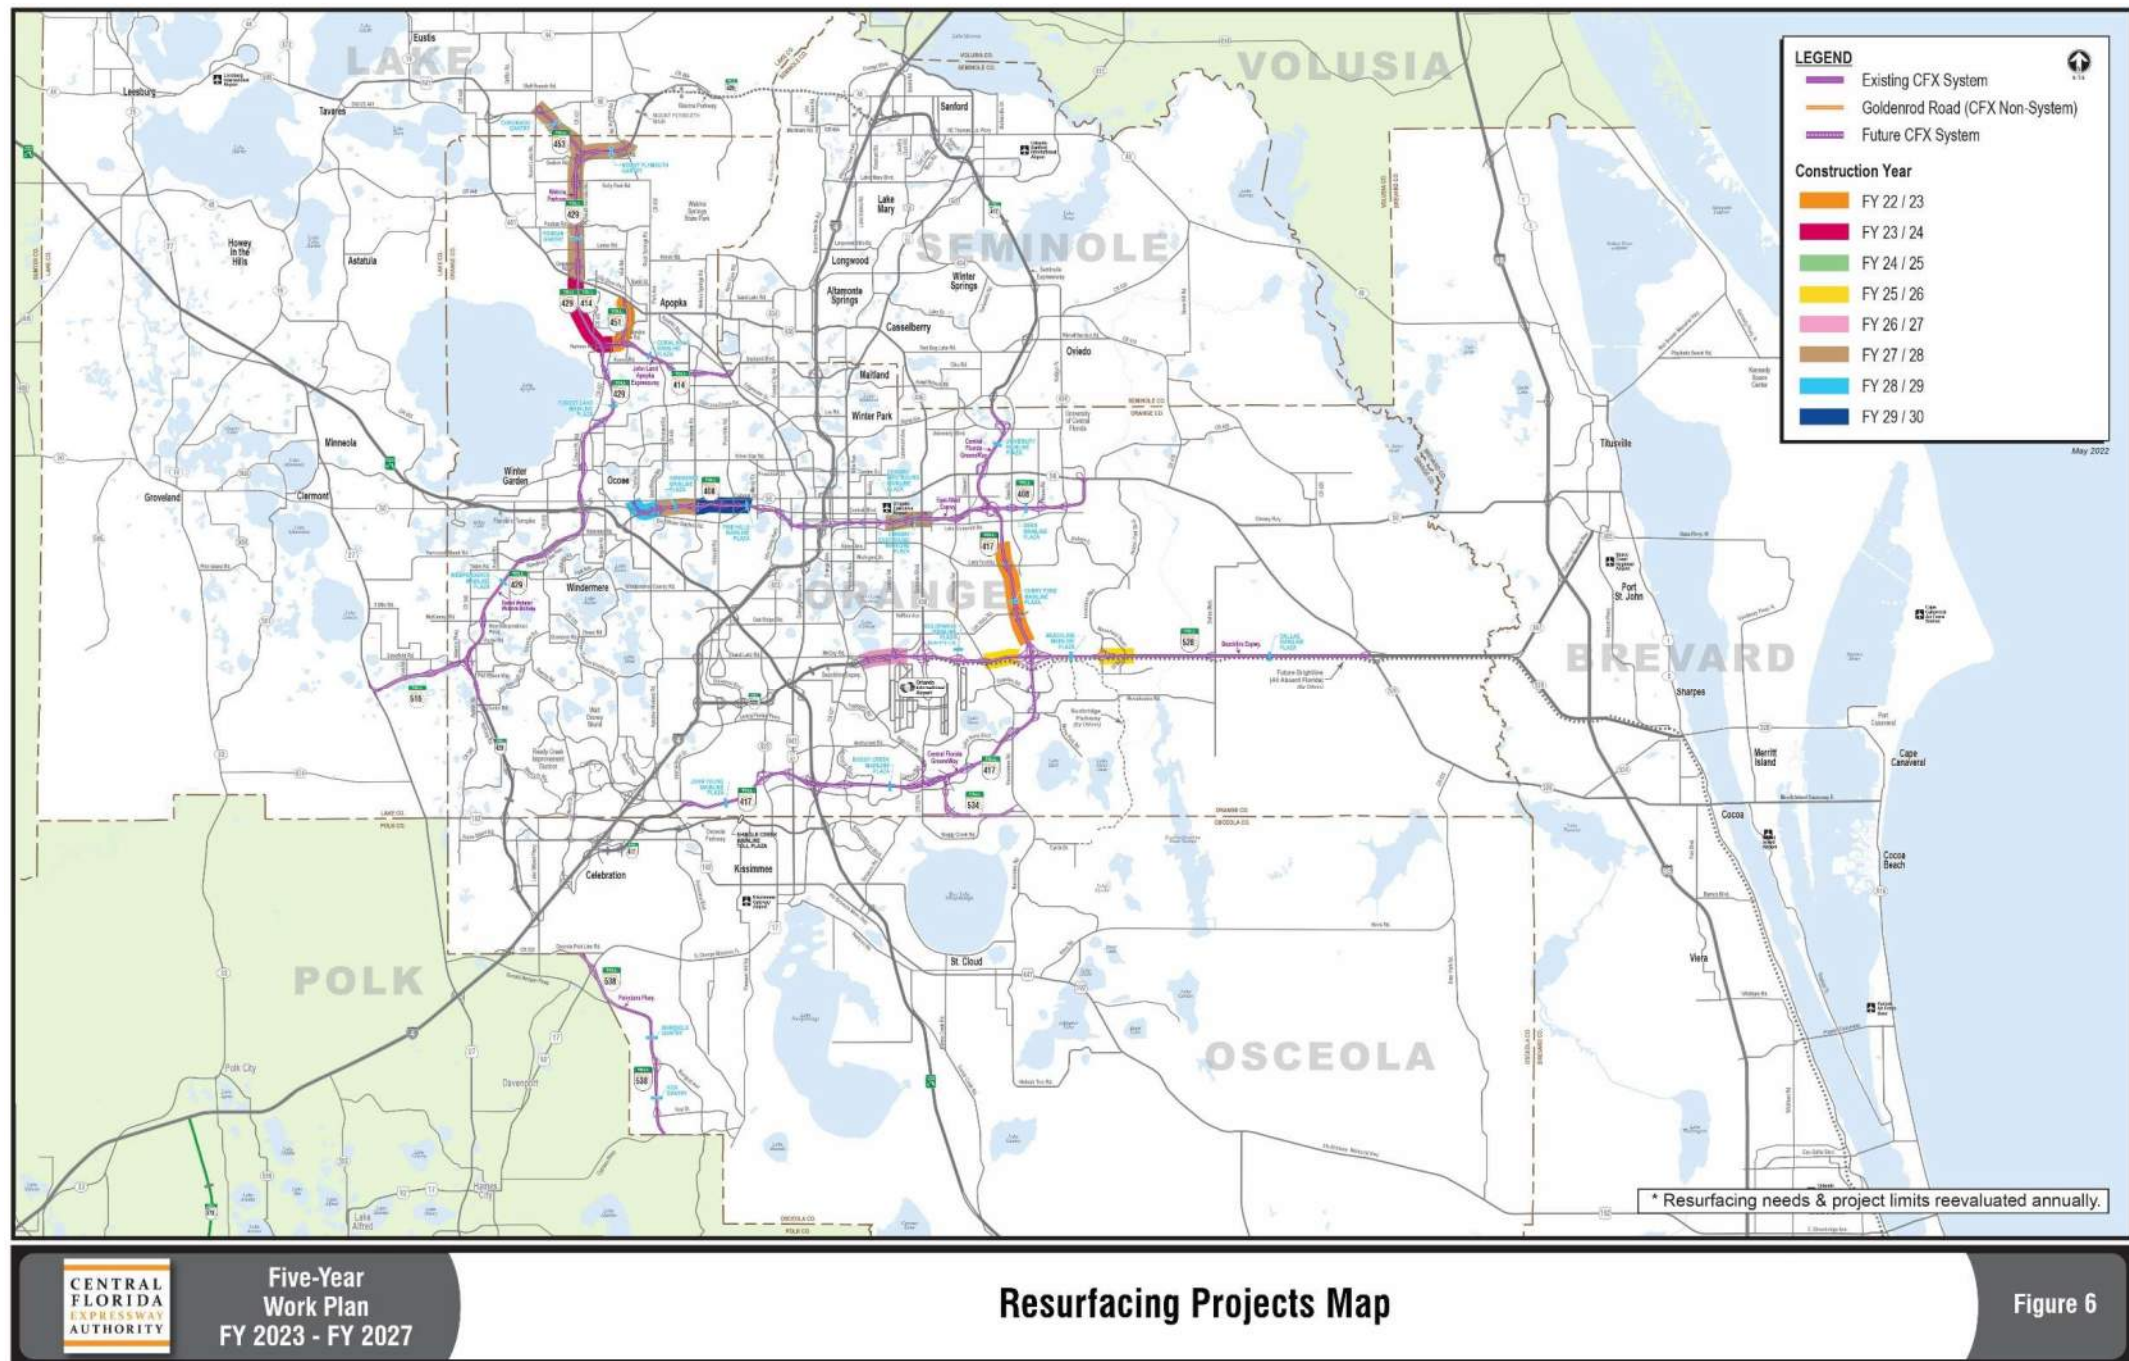

This category also includes pavement improvements, drainage improvements, bridge, coatings and fence projects, as well as retro-reflective pavement markers (RPM) and thermoplastic striping replacement. Funding has also been allocated for traffic signal and UPS replacements and upgrades.

1.7.9 Landscape & Hardscape Projects

This category includes funds for systemwide discretionary landscape and hardscape projects.

1.7.10 Non-System Projects

This category is for the Goldenrod Road extension. This non-system road is operated and maintained by CFX. Projects include thermoplastic pavement marking and RPM replacement and milling and resurfacing.

Central Florida Expressway Authority
Five-Year Work Plan
2040 Master Plan Summary

Project Category	Recommended 2040 Projects	Project Phase Included in Five-Year Work Plan		Comments (pertaining to FY 23 - FY 27 Work Plan)
		Project Phases Funded	2022 Inflated Costs (thousand \$) *	
Existing System (Capacity) Improvements				
	SR 417 : International Drive to Boggy Creek Road (Widen to 6 lanes)	Construction & Landscaping	\$178,946	SR 417 Widening from International Drive to Boggy Creek Road (3 Projects)
	SR 417 : Boggy Creek Road to SR 528 (Widen to 6 lanes)	Construction & Landscaping	\$131,806	SR 417 Widening from Boggy Creek Road to SR 528 (2 projects)
	SR 429 : Seidel Road to CR 535 (Widen to 6 lanes)	Study & Design	\$10,183	SR 429 Widening from N. of Schofield Road to N. of Tilden Road (2 Projects)
	SR 429 : CR 535 to SR 50 (Widen to 6 lanes)	Construction & Landscaping	\$104,052	SR 429 Widening from N. of Tilden Road to Florida's Turnpike
	SR 429 : SR 50 to SR 414 (Widen to 6 lanes)	Construction & Landscaping	\$301,738	SR 429 Widening from Florida's Turnpike to SR 414 (2 Projects)
	SR 528 : SR 436 to SR 417 (Widen to 8 lanes)	Design, Construction & Landscaping	\$61,136	SR 528 Widening from SR 436 to Goldenrod Road to SR 417 (3 projects) (6 & 8 Lanes)
	SR 528 : SR 417 to Innovation Way (Widen to 6 lanes)	Design, Construction & Landscaping	\$92,388	SR 528 Widening from SR 417 to Innovation Way
	SR 528 : Innovation Way to SR 520 (Widen to 6 lanes)	PD&E	\$436	
System Expansion Projects				
	SR 408 Eastern Extension from SR 50 east to SR 520 (East Orange County)			PD&E Complete
	Lake / Orange Connector (Wellness Way) from US 27 to SR 429 (SE Lake / SW Orange Counties)	Design, Right-of-Way, Construction & Landscaping	\$714,678	SR 516 Lake Orange Connector from US 27 to SR 429 (3 projects)
	SR 414 Direct Connect from US 441 to SR 434 (Orange County)	Design & Construction	\$290,566	SR 414 Expressway Extension PD&E to be complete Summer 2022. Design to begin Fall 2022.
	Osceola Parkway Extension from Boggy Creek Road to NE District (Orange / Osceola Counties)	Design, Right-of-Way, Construction & Landscaping	\$413,776	Osceola Parkway Extension from SR 417 to Narcoossee (5 projects). Design to begin Summer 2022.
	Northeast Connector Expressway from Florida's Turnpike to Osceola Parkway Ext (Osceola County)			PD&E Complete
	Southport Connector Expressway from Poinciana Parkway to Florida's Turnpike (Osceola County)	PD&E	\$500	PD&E from SR 538 to Canoe Creek Road anticipated to be complete Fall 2022.
	Poinciana Parkway from Marigold Avenue to CR 54 / US 17-92 (Osceola County)	Design, Construction & Landscaping	\$39,706	A two-lane segment of SR 538 (Poinciana Parkway) was constructed from Ronald Reagan Parkway to Cypress Parkway (7.2 miles). A design-build project is included in the Work Plan to widen SR 538 from 2 to 4 lanes.
	Poinciana / I-4 Connector from Poinciana Parkway to I-4 (Osceola County)	Design, Right-of-Way, Construction & Landscaping	\$330,839	The Poinciana / I-4 Connector PD&E Study is being undertaken by Florida's Turnpike Enterprise. SR 538 Poinciana Parkway Extension from CR 532 to Ronald Reagen Parkway (2 projects) is under design.
	Task Force Corridor D from Northeast District to SR 520 (Osceola / Orange Counties)			Preliminary study being advanced by FDOT
	Task Force Corridor F from Northeast Connector to I-95 (Osceola / Brevard Counties)			C,F,&M Study placed on hold.
	Task Force Corridor H from Northeast District to SR 528 (Orange / Osceola Counties)			Preliminary study being advanced by FDOT
	Task Force Corridor I from US 192 to SR 528 (Orange / Osceola Counties)			C,F,&M Study Complete
	Future Expansion Projects (Potential)	Design, Right-of-Way & Construction	\$560,287	Estimated total project cost assumes two new limited access facilities.
Interchange Projects				
	SR 429 / CR 535 Interchange Improvements			Minor southbound off ramp and northbound on ramp improvements completed. Stonybrook West Parkway Half-Diamond Interchange completed.
	SR 417 / Narcoossee Road Interchange Improvements			Completed Summer 2017
	SR 528 / Dallas Boulevard Interchange Improvements	Study, Design, Construction & Landscaping	\$76,414	Dallas Boulevard interchange PD&E anticipated to be complete Summer 2022. Design to begin Spring 2023.
Renewal and Replacement Projects				
	Systemwide : SR 408, SR 414, SR 417, SR 429, SR 451, SR 528	Design & Construction	\$130,971	Inflated project costs represent entire R&R program (as shown in the FY 23 - FY 27 Work Plan)
No Facilities, Transportation Technology, Information Technology, Signing and Pavement Markings, Landscape or Non-System Projects were Identified in the Master Plan.				
TOTALS			\$3,438,422	

* Construction Costs Escalated at 4.0% for FY 2023, 2.8% for FY 2024, 2.9% for 2025, 3.0% for FY 2026, and 3.1% for FY 2027. In general, all other costs escalated at an average of 2.9% per year.

FY 2023 - FY 2027

May 12, 2022

Central Florida Expressway Authority - Five-Year Work Plan (FY 2023-2027)

Project Information

Abbreviations

ACM	- Automatic Coin Machine
AVI	- Automatic Vehicle Identification
CCTV	- Closed Circuit Television
CEI	- Construction, Engineering & Inspection
CF	- Construction Fund
C,F,&M	- Concept, Feasibility, and Mobility Study
CFX	- Central Florida Expressway Authority
CR	- County Road
DMS	- Dynamic Message Signs
E	- Encumbered Project Costs for projects currently under contract
EAL	- Engineering, Administration and Legal
ERP	- Environmental Resource Permit
FDOT	- Florida Department of Transportation
FON	- Fiber Optic Network
FY	- Fiscal Year (CFX's fiscal year runs from July 1 to June 30)
IMR	- Interchange Modification Report
ITS	- Intelligent Transportation Systems
LED	- Light-emitting diode
NSP	- Non-System Projects
PEIR	- Project Environmental Impact Report
PD&E	- Project Development and Environment Study
PVs	- Photovoltaics
RPM	- Retro-Reflective Pavement Marker
RR	- Renewal and Replacement Fund
SP	- System Projects Fund
SR	- State Road
U	- Unencumbered Project Costs
UPS	- Uninterrupted Power Supply

Definitions of Terms

404 Permit - From Section 404 of the federal Clean Water Act and administered by the State of Florida's Department of Environmental Protection, this process regulates the discharge of dredge or fill materials into waters of the State including wetlands.

Cash Flow Inflated (in thousands \$):

Inflation Rate – See Section 1.3 for a detailed discussion of inflation rates utilized.

Includes same items as the "Project Cost" section but reflect inflation.

Fiscal Years - The project costs are by CFX's Fiscal Year: July 1 to June 30. The encumbered and unencumbered costs are shown. The encumbered costs are the projected costs to complete for projects currently authorized.

Fund Source - The fund used by CFX. The funds consist of System Projects Fund (SP), Construction Fund (CF), Renewal and Replacement (RR) and Non-System Projects (NSP). The Fund Source is further discussed in Section 1.5.3.

Priority - Project priority designation, one through three.

Project Category - The categories of projects listed in Section 1.5.1.

Project Cost (in thousands \$):

Activity - The phase of the project - EAL, mitigation, right-of-way, construction, installation, etc. The fees for design, permitting, bidding, CEI, administration and post-design services have been included under the EAL activity.

Totals \$ - The total costs for each activity. These costs are in current dollars.

Encumbered - The total of the projected costs to complete projects previously authorized for the first two fiscal years.

Project Number - Refers to CFX's identification number given to each project. Only projects at a more advanced stage of development have been assigned a CFX project number.

Project Schedule Activity - The phase of the project. (PD&E, design, right-of-way, permitting, bidding, construction, etc.)

Remarks: The BRAM Study will explore concepts and determine the feasibility of adding managed toll lanes to SR 408 to facilitate premium transit service between UCF, downtown Orlando, and the Winter Garden/Ocoee area.
The transit service would be operated by LYNX. The study will preliminarily identify corridor segments that provide the most opportunity for congestion management, revenue generation, and transit ridership, and develop a case for project development of one or more capital projects.

				Encumbered =		-		Encumbered =		-															

Remarks:

Projects to be determined based on the future growth and demand.

No inflation has been added. Annual escalation assumed to be included in total dollars allocated per fiscal year.

Potential projects include the Northeast Connector Phase 2 PD&E Study, SR 417 to Orlando Sanford International Airport Connector PD&E Study and studies identified in the Draft 2045 Master Plan.

Remarks:

EAL includes design, permitting, bidding, construction engineering & inspection, and administration.

Includes potential software application to help manage and communicate lane closure status as well as devices and equipment that could be used in the field to improve the overall safety of construction work zones.

Various applications may be evaluated and deployed as deemed appropriate.

Projects to be determined.

				Encumbered = -				Encumbered = -																		

Remarks:

EAL includes construction engineering and inspection as well as CFX oversight and GEC electrical support.

No inflation has been added. Annual escalation assumed to be included in total dollars allocated per fiscal year.

UPS replacements include integration, testing, and batteries throughout all toll plazas as well as the HQ building and backup data center.

Locations to be determined.
