

SR 417 TO ORLANDO SANFORD INTERNATIONAL AIRPORT CONNECTOR

CONCEPT, FEASIBILITY, AND MOBILITY STUDY

FALL 2022

In August 2022, CFX began a Concept, Feasibility, and Mobility (CF&M) Study of the approximately two-mile long potential State Road 417 (Seminole Expressway) to Orlando Sanford International Airport Connector. The study will develop and evaluate transportation alternatives that will allow for better connectivity and ease future traffic growth in the area, as well as provide a direct connection from SR 417 to the airport. An earlier study, completed in 2007, stated that the project should be considered, but it was not financially viable based on the traffic analyses at that time. The current CF&M study will determine if yet-to-be-identified alternatives are feasible based on engineering, economic, and environmental evaluations, and if the project is viable based on current traffic analyses.

STUDY AREA DESCRIPTION

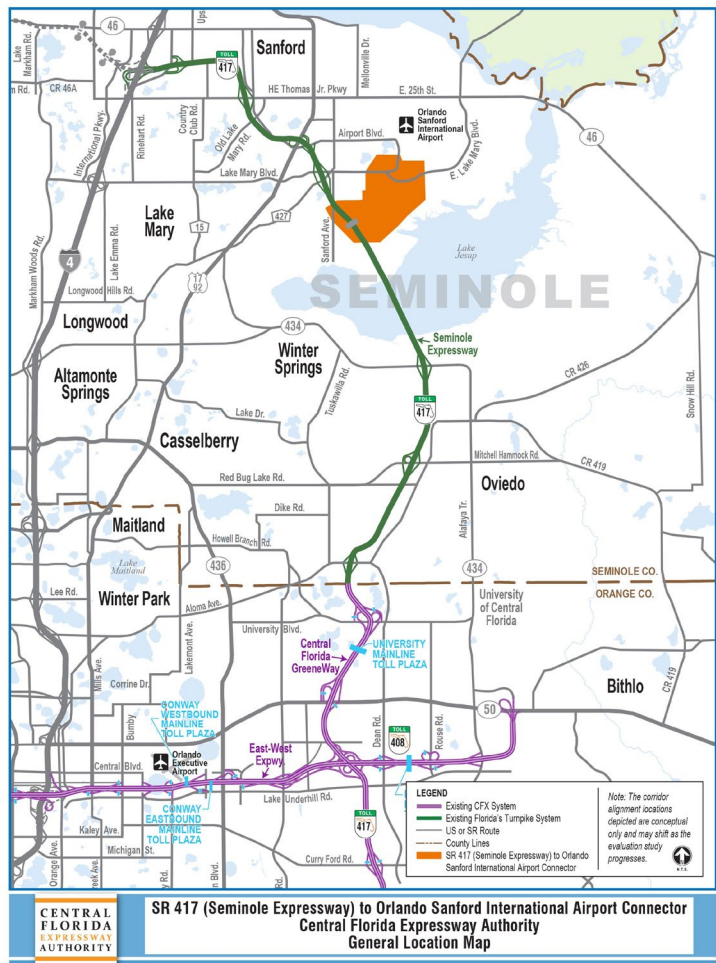

The study area (shown to right) generally extends from the Orlando Sanford International Airport southwest to SR 417 within Seminole County. The study will evaluate mobility alternatives from SR 417 in the vicinity of the Seminole Toll Plaza northeastward to East Lake Mary Boulevard at or in the vicinity of the entrance to Orlando Sanford International Airport at Red Cleveland Boulevard.

STUDY GOALS

The goals of the SR 417 to Orlando Sanford International Airport Connector Study include:

- Identify transportation mobility options.
- Enhance direct access to the Orlando Sanford International Airport.
- Enhance mobility for the area's growing population and economy.
- Provide consistency with local plans and policies.
- Promote regional connectivity.
- Fulfill the recommendation of Seminole Board of County Commissioners to re-evaluate this corridor.

Study Complete											★

STUDY PARTICIPATION

Public involvement and interagency coordination will be an integral part of the assessment process, and opportunities for public participation will be provided. CFX anticipates holding one public meeting in Seminole County as part of this study.

If you would like to receive updates regarding this study, please email ConceptStudies@cfxway.com to be added to the study database.
