

# STATE ROAD 429/BINION ROAD INTERCHANGE

## PROJECT DEVELOPMENT AND ENVIRONMENT STUDY

In August 2022, CFX began a Project Development and Environment (PD&E) Study of the SR 429/Binion Road Interchange. The study is evaluating a proposed half interchange (northbound entrance ramp and southbound exit ramp) expressway connection from Binion Road to SR 429 to provide enhanced access and mobility to southwest Apopka. A noise analysis will be conducted as part of the study.

### STUDY DESCRIPTION

The study area runs along the vicinity of South Binion Road and Boy Scout Road at SR 429. Currently, drivers must enter and exit SR 429 by traveling approximately three miles north to just north of US 441 at the SR 429 Connector Road interchange or travel three miles south to the interchange at Ocoee Apopka Road.

The 6-month study will analyze intersection improvements and access management modifications along the proposed interchange.

### STUDY GOALS

The goals of the SR 429/Binion Road Interchange PD&E Study include:

- Identify transportation mobility options and programs that could meet future demand.
- Enhance mobility of the area's growing population and economy by providing additional transportation infrastructure.
- Provide consistency with local plans and policies.
- Promote regional connectivity.

## SR 429/Binion Road Interchange PD&E Study Schedule (Subject to Change)

	2022					2023
	AUG	SEPT	OCT	NOV	DEC	JAN
Notice to Proceed	★					
Review Existing Studies/Reports						
Additional Data Collection/Analysis						
Develop/Review Alternatives						
Public Meeting				★		
Refine Alternatives						
Final PD&E Study Reports					★	
Present Findings to CFX Board					★	
Study Complete						★

### STUDY PARTICIPATION

We value your input. Public involvement and interagency coordination will be an integral part of the PD&E study, and opportunities for public participation will be provided. CFX anticipates holding one public meeting as part of this study.
