PROJECT DESCRIPTION

The Central Florida Expressway Authority (CFX) is currently in the design phase of State Road 414 Expressway Extension. The 2.8-mile project will provide a direct connection between the eastern end of the tolled portion of SR 414 and Interstate 4 (I-4).

This project features an elevated, limited-access toll expressway within the median of the existing SR 414 (Maitland Boulevard). Maitland Boulevard will be rebuilt to accommodate local travel and enhanced pedestrian and bicycle facilities.

PROJECT BENEFITS

Provide needed capacity on SR 414 to allow more reliable trip times for commuter, transit, commercial and emergency vehicles.

Improve system connectivity between SR 429 and I-4 to meet current and future traffic needs.

Improve safety by separating local traffic from regional, high-speed travel.

Support multimodal opportunities by expanding pedestrian and bicycle facilities.

CENTRAL
FLORIDA
EXPRESSWAY
AUTHORITY

The regional Central Florida Expressway Authority is responsible for the planning, design, construction, operation and maintenance of a 125-mile limited-access expressway system to serve the five-county region. CFX's system includes SR 408 (Spessard L. Holland East-West Expressway), SR 528 (Martin Andersen Beachline Expressway), SR 417 (Central Florida GreeneWay), SR 429 (Daniel Webster Western Beltway), SR 414 (John Land Apopka Expressway), SR 429 (Wekiva Parkway), SR 538 (Poinciana Parkway), State Road 453 and State Road 451.

PROJECT TIMELINE

WHAT TO EXPECT

During this phase, surveying along the project corridor is done to assist in the design of the roadway, drainage systems, structures and lighting locations. Intelligent Transportation Systems technology such as overhead dynamic message signs and traffic monitoring stations will also be considered. Additionally, Geotechnical investigations will be performed within the project right of way.

QUICK FACTS

- **Estimated Design Cost:** \$22.9 million
- **Anticipated Construction Cost:** \$332 million
