MANAGEMENT'S DISCUSSION AND ANALYSIS

As financial management of the Central Florida Expressway Authority (CFX), we offer readers of these financial statements this narrative overview and analysis of the financial activities of CFX for the fiscal years ended June 30, 2025 and 2024. This discussion and analysis is designed to assist the reader in focusing on the significant financial issues and activities and to identify any significant changes in financial position. We encourage readers to consider the information presented here in conjunction with the financial statements as a whole.

Financial Highlights

Operating income for CFX was \$580,844,000 (an increase of 7%) and \$540,776,000 (an increase of 15%) for fiscal years 2025 and 2024, respectively. The increase in operating income in fiscal year 2025 and 2024 is primarily due to increases in toll revenue from higher traffic.

Net income produced an increase in net position of \$484,013,000 and \$452,034,000 for fiscal years 2025 and 2024, respectively. The term "net position" refers to the difference of assets and deferred outflows less liabilities and deferred inflows. At the close of fiscal year 2025, CFX had a net position of \$4,571,845,000, an increase of 12% over fiscal year 2024. At the close of fiscal year 2024, CFX had a net position of \$4,087,832,000, an increase of 12% over fiscal year 2023. CFX's overall financial position has improved, as shown by the increase in net position.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to CFX's financial statements, which is comprised of the basic financial statements and the notes to the financial statements, and supplementary information presented. Since CFX is comprised of a single enterprise fund, fund level financial statements are not shown.

Basic financial statements - The basic financial statements are designed to provide readers with a broad overview of CFX's finances, in a manner similar to a private-sector business.

The balance sheets present information on all CFX's assets and deferred outflows and liabilities and deferred inflows, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial condition of CFX is improving or deteriorating. Net position increases when revenues exceed expenses. Increases to assets without a corresponding increase to liabilities results in increased net position, which indicates an improved financial condition.

The statements of revenues, expenses and changes in net position present information showing how a government's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event occurs, regardless of timing of related cash flows. Thus, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

Notes to the financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Other information - In addition to the basic financial statements and accompanying notes, this report also presents certain *supplementary information* concerning CFX's composite debt service ratio, as defined by the bond resolutions, as well as trend data on infrastructure condition and pension schedules.

Financial Analysis

Net position may serve, over time, as a useful indicator of a government's financial position. In the case of CFX, assets and deferred outflows exceeded liabilities and deferred inflows by \$4,571,845,000 at the close of the most recent fiscal year. This represents an increase of \$484,013,000 (12%) over the previous year, which is attributable to operations. Unrestricted net position increased from \$659,227,000 on June 30, 2024, to \$702,529,000 on June 30, 2025, an increase of \$43,302,000 (7%). This increase was largely due to the decrease in CFX's unrestricted liabilities.

By far, the largest portion of CFX's net position reflects its investment in capital assets (e.g., right-of-way, roads, bridges, buildings, toll equipment, etc.), less any related debt used to acquire those assets that is still outstanding. CFX uses these capital assets to provide service and, consequently, these assets are not available for liquidating liabilities or for other spending.

Of the \$6,940,806,000 in capital assets, net of accumulated depreciation, \$39,749,000 represents the roadway, toll plaza and equipment on the Goldenrod Road Extension. This project, which opened to traffic in March 2003, was jointly funded by CFX, the Greater Orlando Aviation Authority, the City of Orlando, Orange County, Florida, and private developers, with CFX serving as the lead agency on the project. The Goldenrod Road Extension extends from the previous terminus of Goldenrod Road at Narcoossee Road south to Cargo Road. This facility intersects SR 528 (Martin B. Andersen Beachline Expressway), east of the Orlando International Airport, at a system interchange. Each partner contributing to this project will be repaid through toll revenues generated by this road. After all operational expenses are met and the partners are reimbursed for their contributions, the toll plaza will be demolished, and the roadway will be transferred to the City of Orlando. CFX will retain ownership of the interchange to SR 528 and certain portions of the right-of-way.

Since the Goldenrod Road Extension is a non-system project, it is accounted for on individual lines in the statements of revenues, expenses and changes in net position, in the non-operating revenues (expenses) section. The toll revenues on this non-system project are not pledged to CFX's bond indebtedness.

CFX's toll revenues increased 6% and 12% during the fiscal years ended June 30, 2025 and 2024, respectively.

Toll revenue represents approximately 98% of all operating revenues. CFX's toll revenue annual growth rate has averaged 8% over the last 10 years.

CFX's Operations, Maintenance and Administration ("OM&A") expenses for fiscal year 2025 increased 5% from fiscal year 2024 and ended the year 7.4% under budget. CFX came in under budget primarily due to several roadway maintenance and traffic operations programs that came in under budget and unfilled positions.

Transponder sales increased by a modest 4% between fiscal years 2025 and 2024.

Interest income was \$36 million in 2025. This increase of \$5 million between fiscal years 2024 and 2025 was largely due to increased balances in investments for much of the year.

Other operating revenue consists of various fees that are collected, such as statement fees, and fees received for collecting revenue on behalf of other entities. Other operating revenue increased by 29% between fiscal years 2023 and 2024 and increased by 6% between fiscal years 2024 and 2025. These increases are due to a rise in fees collected from the court system for uniform traffic citations.

Preservation expense includes such items as resurfacing and restriping. The budgeted amounts are based on projected requirements to keep the roadway in good condition and, therefore, the expenses related to preservation can vary significantly from year to year. Preservation expense decreased 32% in fiscal year 2024 and 53% in fiscal year 2025. These ups and downs should be expected as the system matures, and various sections need additional attention.

Other expenses are expenses that were not part of CFX's OM&A budget, but also were not capitalized. These expenses are expected to fluctuate from year to year depending upon the amount spent on non-capitalized projects. Other expenses decreased by 3% between fiscal years 2023 and 2024 and then increased by 11% between fiscal year 2024 and 2025. The increase in 2025 is largely due to additional program support and a rise in new pilot programs and feasibility studies that are not eligible to be capitalized. 2024, although decreasing by 3%, remained fairly stable reflecting a continuation of this rise in program support.

There was a loss of \$3.8 million in capital assets in fiscal year 2024 and a loss of \$7.3 million in 2025. There have been various bridges, signs and toll plaza lanes removed and/or demolished to make way for road widening, extension and interchange projects over the past few fiscal years. The bulk of the loss in fiscal year 2024 and 2025 was due to 2 bridges that were torn down and some signs that were replaced.

Capital Asset and Debt Administration

Capital Assets - CFX's investment in capital assets amounted to \$6,940,806,000 net of accumulated depreciation as of June 30, 2025, an increase of \$350,349,000 (5%) over that of June 30, 2024. CFX's investment in capital assets amounted to \$6,590,457,000 net of accumulated depreciation as of June 30, 2024, an increase of \$456,348,000 (7%) over that of June 30, 2023. Capital assets include right-of-way, roads, bridges, buildings, equipment and furniture. A schedule of the change in CFX's capital assets is in Note 4 of the financial statements.

Major capital asset events during fiscal year 2025 included the following:

- Completion of some facility renovations.
- Completion of a systemwide sign and lighting improvements.
- Widening Projects on SR 408 and SR 528 started.
- Construction ramped up on sections of SR 516.
- Newest phase of the wrong way driving countermeasures was launched.

Modified Approach for Infrastructure Assets - CFX has elected to use the modified approach for infrastructure reporting. This means that, in lieu of reporting depreciation on infrastructure, CFX reports as preservation expense the costs associated with maintaining the existing roadway in good condition. CFX's policy is to maintain the roadway condition at a Maintenance Rating Program rating of 80 or better. The Florida Department of Transportation ("FDOT") annually inspects CFX's roadways and has determined in fiscal year 2024 that all its roadways exceed this standard. Pursuant to its bond covenants, CFX maintains a renewal and replacement fund for these preservation expenditures. For fiscal year 2025, projected expenses for preservation were \$32,936,000 with \$7,624,000 being spent. For fiscal year 2024, projected expenses for preservation were \$4,557,000 with \$16,359,000 being spent. The expenses were lower than projected in 2025 and higher in 2024 due to timing on several preservation projects.

Long-term Debt - CFX has outstanding bonds payable of \$3,155,655,000 (net of unamortized bond premiums and discounts) as of June 30, 2025.

During fiscal year 2025, CFX issued \$215,605,000 and \$145,430,000 of fixed rate revenue bonds (Series 2024B and 2024A) on August 14, 2024. \$73,175,000 were term bonds and the rest were serial bonds. The purpose of the 2024A and 2024B series bonds was to fund projects in the Five-Year Work Plan.

The annual requirements to amortize all revenue bonds and revenue refunding bonds outstanding as of June 30, 2025, along with more detailed information on long-term debt activity, can be found in Note 5, Long-Term Debt, which begins on page 36 of the financial statements.

CFX's debt service ratio changed to 2.98 for fiscal year 2025 from 3.09 for fiscal year 2024 and 2.72 in fiscal year 2023. The fiscal year 2025 decrease can be attributed to an increase in debt payments. The fiscal year 2024 increase can be attributed to an increase in toll revenue.

CFX has a Lease-Purchase Agreement (LPA) with the FDOT whereby the FDOT is required to reimburse CFX for the maintenance and operation costs associated with certain portions of the roadways and toll plazas on CFX's System. During fiscal years 2012 and 2013, FDOT did not reimburse CFX for the operations portion of their obligation because the Governor of Florida exercised his line-item veto authority to remove that line from the state's budget. During fiscal year 2013, CFX and FDOT amended the LPA under which the FDOT agreed to uphold its obligation for operations and maintenance costs provided CFX agrees to repay those funds to the FDOT within 60 days. CFX plans to repay those funds in accordance with its Master Bond Resolution, which permits such payments provided CFX is able to fund its OM&A budget, debt service requirements, required reserve deposits, and renewal and replacement fund requirements. The FDOT reimbursement is taken into consideration when calculating CFX's debt service ratio.

CFX's bond ratings as of June 30, 2025 are as follows:

CENTRAL FLORIDA EXPRESSWAY AUTHORITY
NOTES TO FINANCIAL STATEMENTS
Years Ended June 30, 2025 and 2024

Note 1 - Organization and Summary of Significant Accounting Policies

Reporting Entity - The Central Florida Expressway Authority (CFX) is an agency of the state, created by the Florida Legislature. On June 20, 2014, the Governor of Florida signed the bill to create CFX, which assumed the governance and control of the former Orlando-Orange County Expressway Authority, including its assets, personnel, contracts, obligations, liabilities, facilities, and tangible and intangible property. CFX is an independent, locally controlled transportation authority responsible for the construction, maintenance, and operation of toll roads in Seminole, Lake, Osceola and Orange Counties, and may also acquire, construct and equip rapid transit, trams and fixed guideways within the rights-of-way of the expressway system. The governing board of CFX is made up of ten members, consisting of: (a) one member each appointed by the respective chairs of the county commissions of Brevard, Lake, Osceola and Seminole Counties; (b) one member of the Orange County Commission appointed by the mayor of Orange County; (c) three citizens appointed by the Governor; (d) the Mayor of Orange County; and (e) the Mayor of the City of Orlando. The Florida Turnpike Enterprise Executive Director serves as a non-voting advisor. CFX is authorized to issue revenue bonds to finance portions of the System and to execute the refunding of existing revenue bonds.

For financial reporting purposes, CFX is a stand-alone entity; there are no component units included in the accompanying financial statements, and CFX is not considered a component unit of another entity.

Basis of Accounting - CFX prepares its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America for proprietary funds, which are similar to those for private business enterprises. Accordingly, revenues are recorded when earned and expenses are recorded when incurred.

The assets, deferred outflows, liabilities, deferred inflows, and net position of CFX are reported in a self-balancing set of accounts, which include restricted and unrestricted resources, representing funds available for support of CFX's operations. When both restricted and unrestricted resources are available for use, it is CFX's policy to use restricted resources first for their intended purpose, and then unrestricted resources, as they are needed.

Operating Revenues and Expenses - CFX's operating revenues and expenses consist of revenues earned and expenses incurred relating to the operation and maintenance of its System. The Goldenrod Road Extension, which is a project outside the normal course of operations, and all other revenues and expenses are reported as nonoperating revenues and expenses.

Lease-Purchase Agreement - Under the requirements of the Lease-Purchase Agreement between CFX and the FDOT, dated December 23, 1985, as amended and supplemented, CFX is reimbursed by the FDOT for the maintenance costs of SR 528, portions of SR 408, improvements to the Airport Interchange at SR 528 and State Road 436 (Semoran Boulevard), and the cost of operations of the Conway and Pine Hills Plazas. However, the reimbursements received are recorded as advances from the FDOT and are included in due to governmental agencies, since they are to be repaid to the FDOT from future toll revenues after the requirements for retirement of bonds and all other obligations have been met.

CENTRAL FLORIDA EXPRESSWAY AUTHORITY
NOTES TO FINANCIAL STATEMENTS
Years Ended June 30, 2025 and 2024

Note 1 - Organization and Summary of Significant Accounting Policies (Continued)

While CFX's position has been that the FDOT's obligations under the Lease-Purchase Agreement were not subject to appropriation, the Governor vetoed the operations component of the reimbursement for fiscal year 2013. CFX entered into a Memorandum of Agreement with FDOT on February 14, 2013 where it was agreed that commencing in fiscal year 2014 the operations and maintenance payments made by the FDOT will be refunded to the FDOT within sixty days of payment.

Cash and Cash Equivalents - For purposes of the statements of cash flows, demand deposit accounts with commercial banks, and cash invested in commercial money market funds (including restricted assets) are considered cash equivalents. For investments that are held separately from the pools, those which are highly liquid (including restricted assets), with an original maturity of 90 days or less when purchased or so near their maturity that they present insignificant risk of changes in value because of changes in interest rates, are considered to be cash equivalents.

Investments - Investments consist of unrestricted and restricted investments, and are carried at fair value, as determined in an active market.

Accounts Receivable - The accrued interest and accounts receivable primarily consists of amounts billed to individuals via one or more Pay by Plate invoices for tolls not paid at the point of System use. This item also includes interest earned but not paid by the end of the fiscal year or amounts due from individuals or other entities for prepaid items or for services provided. This amount is recorded at the net realizable value; therefore, a provision for doubtful accounts has been made for the estimated amount of uncollectible Pay by Plate invoices based on historical information.

Lease Receivable - CFX recognizes a lease receivable and a deferred inflow of resources at the commencement of the lease term for lease agreements for which CFX is a lessor. The lease receivable is measured at the present value of the lease payments expected to be received during the lease term. The deferred inflow of resources is measured as the value of the lease receivable in addition to any payments received at or before the commencement of the lease term that relate to future periods.

Inventory - Inventory, which consists of E-PASS transponders that will be distributed to customers, is carried at the lower-of-cost or market and is valued using the first-in, first-out (FIFO) method.

Restricted Assets - Restricted assets of CFX represent bond proceeds designated for construction, and other monies required to be restricted for debt service, operations, maintenance, administration, renewal, and replacement.

Deferred Outflows / Inflows of Resources - In addition to assets, CFX reports a separate section for deferred outflows of resources on its balance sheets. Deferred outflows of resources represent a consumption of net assets that applies to future periods and will not be recognized as an outflow of resources (expense) until then. CFX has two items that qualify for reporting as deferred outflows of resources.

NOTES TO FINANCIAL STATEMENTS
Years Ended June 30, 2025 and 2024

Note 1 - Organization and Summary of Significant Accounting Policies (Continued)

Deferred Outflows / Inflows of Resources (Continued)

Deferred Outflow on Refunding of Revenue Bonds - The difference between the re-acquisition price and the net carrying amount of refunded bonds is presented on the balance sheets at June 30, 2025 and 2024 as a deferred outflow of resources in the amount of \$196,371,000 and \$236,246,000, respectively, and is amortized as an adjustment to interest expense on a straight-line basis over the life of the refunded bonds or the life of the refunding bonds, whichever is shorter.

Deferred Outflows Related to Pensions - These deferred outflows of resources are an aggregate of items related to pensions as calculated in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. The deferred outflows related to pensions totaled \$4,435,000 and \$4,324,000 at June 30, 2025 and 2024, respectively, and will be recognized as either pension expense or a reduction in the net pension liability in future reporting years. Details on the composition of the deferred outflows of resources related to pensions are further discussed in Note 8.

In addition to liabilities, CFX reports a separate section for deferred inflows of resources on its balance sheets. Deferred inflows of resources represent an acquisition of net assets that applies to future periods and will not be recognized as an inflow of resources until then. CFX has three items that qualify for reporting as deferred inflows of resources.

Deferred Inflow on Interest Rate Exchange - During the fiscal year ended June 30, 2007, CFX entered into six mandatory, cash-settled interest rate exchange agreements, the purpose of which was to lock in the interest rate associated with the Series 2007A Bonds. The result of these agreements was an \$8,078,000 net payment to CFX on June 28, 2007, which is presented on the balance sheets at June 30, 2025 and 2024 as a deferred inflow of resources in the amount of \$3,924,000 and \$4,155,000, respectively, and is amortized as an adjustment to interest expense over the life of the bonds.

Deferred Inflows Related to Pensions - These deferred inflows of resources are an aggregate of items related to pensions as calculated in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. The deferred inflows related to pensions at June 30, 2025 and 2024 totaled \$1,429,000 and \$375,000, respectively, and will be recognized as a reduction to pension expense in future reporting years. Details on the composition of the deferred outflows of resources related to pensions are further discussed in Note 8.

Deferred Inflows for Leases - During the fiscal year ended June 30, 2022, CFX implemented GASB Statement No. 87, *Leases*, and recognized a deferred inflow of resources related to a Fiber Optic Conduit Lease Agreement with Sprint Communications Company, L.P. The deferred inflow related to this lease at June 30, 2025 and 2024 totaled \$3,414,000 and \$4,285,000, respectively, and is further discussed in Note 6.

CENTRAL FLORIDA EXPRESSWAY AUTHORITY
NOTES TO FINANCIAL STATEMENTS
Years Ended June 30, 2025 and 2024

Note 1 - Organization and Summary of Significant Accounting Policies (Continued)

Capital Assets

Cost Basis - Capital assets are recorded at historical cost with the exception of donated capital assets, which are reported at acquisition value. The cost of property and equipment includes costs for infrastructure assets (right-of-way, highways and bridges substructure, and highways and bridges), toll equipment, buildings, toll facilities, other related costs (including software) and furniture and equipment. Highways and bridges substructure includes road sub-base, grading, land clearing, embankments and other related costs. Costs for infrastructure assets include construction costs, design and engineering fees, administrative and general expenses paid from construction monies, and bond interest expense incurred during the period of construction.

Capitalization Policy - Costs to acquire additional capital assets, and to replace existing assets or otherwise prolong their useful lives, are capitalized for toll equipment, buildings, toll facilities, other related costs, and furniture and equipment. Under CFX's policy of accounting for infrastructure assets pursuant to the "modified approach," property costs represent a historical accumulation of costs expended to acquire rights-of-way and to construct, improve and place in operation the various projects and related facilities. It is CFX's policy to capitalize amounts equal to or in excess of \$5,000.

Depreciation Policy - Depreciation of toll equipment, buildings, toll facilities, other related costs, signs, software, and furniture and equipment is computed using the straight-line method with a half-year convention over the estimated useful lives of the assets as follows:

Software	3 years
Furniture and equipment	7 years
Toll equipment	8 years
Signs	20 years
Buildings, toll facilities and other	30 years

Under the modified approach, infrastructure assets are considered to be "indefinite lived" assets; that is, the assets themselves will last indefinitely and are, therefore, not depreciated. Costs related to maintenance, renewal and replacement for these assets are not capitalized, but instead are considered to be period costs and are included in preservation expense.

Construction in Progress - Construction in progress represents costs incurred by CFX for in-process activities designed to expand, replace, or extend useful lives of existing property and equipment.

Retainage Payable - Retainage payable represents amounts billed to CFX by contractors/consultants for which payment is not due pursuant to retained percentage provisions in various contracts until performance is accepted by CFX.

Compensated Absences - Accumulated vacation pay, vested sick pay, and other compensation payable to employees is recorded and included in accounts payable and accrued liabilities. The balance of compensated absences had a net increase of \$314,000 from June 30, 2024 to June 30, 2025.

Note 1 - Organization and Summary of Significant Accounting Policies (Continued)

Bond Premium, Discount, and Prepaid Bond Insurance Costs - Bond premium, discount, and prepaid bond insurance costs associated with the issuance of bonds are amortized on a straight-line basis over the life of the bonds, which approximates the effective interest method. Bond premiums and discounts are presented as an addition and a reduction, respectively, of the face amount of revenue bonds payable whereas prepaid bond insurance costs are recorded as assets.

Restricted Net Position - Restricted net position is comprised of amounts reserved for operations, maintenance, administrative expenses and renewals and replacements in accordance with bond covenants.

Pensions - In the balance sheets, net pension liability represents CFX's proportionate share of the net pension liability of the cost-sharing pension plans in which it participates. This proportionate amount represents a share of the present value of projected benefit payments to be provided through the cost-sharing pension plan to current active and inactive employees that is attributed to those employees' past periods of service (total pension liability), less the amount of the cost-sharing pension plan's fiduciary net position.

CFX participates in both the Florida Retirement System (FRS) defined benefit pension plan and the Retiree Health Insurance Subsidy Program (HIS) defined benefit pension plan administered by the Florida Division of Retirement (collectively, FRS/HIS).

For purposes of measuring CFX's net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of FRS/HIS and additions to/deductions from FRS/HIS's fiduciary net position have been determined on the same basis as they are reported by FRS/HIS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Budgets and Budgetary Accounting - CFX abides by the following procedures in establishing budgetary data:

On or before February 1 of each year, CFX completes a review of its financial condition for the purpose of estimating whether the gross revenues, together with series payments, system payments and supplemental payments, if any, for the ensuing fiscal year will be sufficient to provide at least 120% of the annual debt service requirements of the bonds and that gross revenues will be sufficient to pay all other amounts required by the Master Bond Resolution, as amended and restated.

In the event that CFX determines that revenues will not be sufficient to satisfy the above payments, CFX will conduct a study to determine the toll revenue rate increase required to restore the revenue deficiency.

All schedules of toll revenues and revisions thereof are filed with the FDOT.

On or before April 1 of each year, a preliminary budget is prepared for maintenance, operations and administrative expenses for the ensuing fiscal year. The preliminary budget is reviewed by the FDOT and modified, if necessary.

Budgets and Budgetary Accounting (Continued)

On or before July 1 of each year, a final budget of maintenance, operations and administrative expenses is adopted subject to approval by the FDOT.

CFX may adopt an amended or supplemental annual budget for the remainder of a fiscal year subject to approval by the FDOT.

Reclassifications - Certain amounts in the 2024 financial statements have been reclassified to conform to the 2025 classifications.

Note 2 - Deposits and Investments

Cash and Cash Equivalents, and Investment Portfolio

Pursuant to Section 218.415, Florida Statutes, CFX has formally adopted a comprehensive investment policy most recently reviewed on August 12, 2021, which establishes permitted investments, asset allocation limits and issuer limits, credit rating requirements and maturity limits to protect CFX's cash and investment assets. CFX maintains a common cash and investment pool for the use of all funds. In addition, cash and investments are separately held by CFX's bond proceeds/construction, debt service, capitalized interest, and debt service reserve funds.

The following chart outlines the types of permitted investments, credit quality risk rating requirements by security type, the maximum concentration of credit risk by percentage of the total portfolio that may be invested in a single issuer and in total by security type and maturity limits prescribed to mitigate interest rate risk exposure:

Deposits

On June 30, 2025, the carrying amount of CFX's various deposits accounts was \$639,168,907. CFX's cash deposits are held by banks that qualify as public depositories under the Florida Security for Public Deposits Act, as required by Chapter 280, Florida Statutes.

Investments

Concentration of Credit Risk – CFX has not invested more than 5% of the total portfolio in any one issuer as of June 30, 2025 and 2024.

Interest Rate Risk - CFX's Investment Policy states that portfolios shall be managed in such a manner that funds are available to meet reasonably anticipated cash flow requirements in an orderly manner. To the extent possible, an attempt will be made to match investment maturities with known cash needs. Investments of current operating funds shall have maturities of no longer than 24 months. Investments of debt obligation reserves, construction funds and other non-operating funds shall have a term appropriate to the need for funds and in accordance with debt covenants. The purchase of investments for core funds with maturities longer than five and a half (5.5) years requires CFX's approval prior to purchase. However, final maximum maturity for any investment is limited to ten (10) years.

Goldenrod Project - On March 24, 1999, CFX signed the Goldenrod Road Extension Development Agreement (the "Agreement") for the extension of Goldenrod Road to SR 528 (the "Extension"). The Agreement is between CFX and other local agencies and governments, including the City of Orlando (the "City"), Greater Orlando Aviation Authority ("GOAA") and Orange County (the "County"). Under the Agreement, each of the parties agreed to contribute a set amount toward construction of the Extension. The contributions made by each party for construction are as follows:

City of Orlando	\$ 2,000,000
GOAA	\$ 4,500,000
Orange County	\$ 1,000,000
CFX	\$ 44,284,529

CFX's responsibilities under the Agreement were to acquire, design and construct the right-of-way for the Extension. Construction of the Extension began in January 2001 and opened to traffic in March 2004. Under the terms of the Agreement, toll revenues generated from the Extension will be distributed, first to operating cost, then to repay the contributions to each contributing party.

The construction costs of the roadway, toll plaza and toll equipment are included in CFX's capital assets. These assets will remain the property of CFX until the final payments of all contributions are made. Upon the final repayment of all contributions, ownership of the roadway will revert to the City and the City will be responsible for all future maintenance costs. CFX will retain ownership of the interchange to SR 528 and certain portions of the right-of-way. Since this project is a non-System project, it is reported net in the non-operating section of the statements of revenues, expenses, and changes in net position. The toll revenues generated from the Extension are not pledged to CFX's bond indebtedness.

In the 2002 legislative session, the Florida Legislature amended Chapter 348, Part V (now Part III of the "Expressway Act") to, among other things, revise and expand the powers of CFX to finance or refinance its projects, including the power to refund bonds previously issued on behalf of CFX by the State of Florida Division of Bond Finance of the State Board of Administration (Division of Bond Finance), through the issuance of its own bonds or other obligations. Consistent with the authority granted in the Expressway Act, CFX adopted an Authority Bond Resolution on July 2, 2002, authorizing the issuance of up to \$2,000,000,000 of additional bonds or other indebtedness to finance projects of CFX. Although not required, the first issuance of bonds by CFX under the Authority Bond Resolution was validated by the Circuit Court of the Ninth Judicial Circuit of Florida, in Orange County, Florida, on September 20, 2002.

On January 28, 2003, the Division of Bond Finance adopted a resolution formally recognizing CFX as the issuer of bonds under that certain Master Junior Lien Bond Resolution pursuant to which the Division of the Bond Finance had previously issued bonds on behalf of CFX. CFX further adopted, on February 3, 2003, an Amended and Restated Master Bond Resolution pursuant to which CFX amended and restated the Authority Bond Resolution and the Master Junior Lien Resolution into a single, consolidated, single-lien resolution to govern the existing outstanding bonds and future bond indebtedness of CFX. All bonds or other obligations issued under the Amended and Restated Master Bond Resolution are payable from, and secured by, a pledge of net revenues from the operation of the System.

As notated in Note 1, on June 20, 2014, the Governor of Florida signed a bill to create CFX, which assumed the governance and control of the former Orlando-Orange County Expressway Authority, including its assets, personnel, contracts, obligations, liabilities, facilities, and tangible and intangible property. Central Florida Expressway Authority assumed all the debt of the former Orlando-Orange County Expressway Authority pursuant to Chapter 2014-171, Public Laws of Florida.

Fixed Rate Debt

The Central Florida Expressway Authority Revenue Bonds, Series 2024B, were originally issued on August 14, 2024 and were outstanding in the aggregate principal amount of \$215,605,000 and \$0 on June 30, 2025 and 2024, all of which were serial bonds. The outstanding serial bonds are due in annual installments beginning on July 1, 2029 through July 1, 2035 in amounts ranging from \$14,430,000 to \$60,340,000, plus interest. The 2024B Bonds are payable from, and secured by, a pledge of net revenues from the operation of the expressway System. Interest on the 2024B Bonds is due and paid semiannually. The purpose of the Series 2024B Bonds was to fund a portion of the Five-Year Work Plan.

Collectively, the purpose of the Series 2012 and 2012A Bonds was to refund the Series 2003C1 and 2003C3 Bonds and to fund the termination payments on the associated swaps. The refunding resulted in a deferred outflow of \$60,159,863, most of which was related to the swap termination payments. The difference between the cash flow of the old debt and the cash flow of the new debt was \$7,202,160 higher post-refunding, which represents \$4,712,369 on a net present value basis. The purpose of this refunding was to lower the risk profile of CFX's debt at an attractive rate.

The annual requirements to amortize all revenue bonds and revenue refunding bonds outstanding as of June 30, 2025, are summarized as follows (all amounts in thousands). The totals below are net of capitalized interest funds available for debt service.

Note 6 – Leases

CFX leases excess capacity of the Fiber Optic Network (FON) to Sprint Communications Company L.P. This is a ten-year lease with two five-year renewal options followed by three three-year renewal options. If CFX terminates this agreement because of licensee's (Sprint's) default, the licensee shall pay CFX, as liquidated damages, an amount equal to the minimum total fees and charges for the remaining agreement term. There is no termination clause for the licensee except by default of CFX. The second three-year renewal was executed at the end of fiscal year 2024.

CFX recorded \$6,900,000 balances for lease receivable and deferred inflows of resources as of July 1, 2021. The lease receivable balance was reduced by \$842,000 and \$809,000 for fiscal years 2025 and 2024, respectively. Note 8 - Retirement Plans

Plan Descriptions

Florida Retirement System (FRS) Pension Plan - Most employees of CFX participate in the State of Florida Retirement System (the "FRS"), a multiple-employer, cost-sharing, defined-benefit retirement plan, or defined-contribution retirement plan, administered by the Florida Department of Administration, Division of Retirement. As a general rule, membership in the FRS is compulsory for all employees working in a regular, established position for a state agency, county government, district school board, state university, community college or a participating city or special district within the state of Florida. The FRS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Employees are classified in either the regular service class or the senior management service class ("SMSC"). The SMSC is for members who fill senior-level management positions. Employees classified as SMSC may opt out of participation in the FRS. Benefits are established by Chapter 121, Florida Statutes, and Chapter 60S, Florida Administrative Code. Amendments to the law can be made only by an act of the Florida Legislature.

Retiree Health Insurance Subsidy (HIS) Program – Employees of CFX also participate in the Retiree Health Insurance Subsidy (HIS) Program, which is a cost-sharing, multiple-employer defined-benefit pension plan established and administered in accordance with Section 112.363, Florida Statutes. The benefit is a monthly payment to assist retirees of the state-administered retirement systems in paying their health insurance costs. Eligible retirees and beneficiaries receive a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$7.5. The minimum payment is \$45 and the maximum payment is \$225 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS benefit, a retiree under one of the state-administered retirement systems must provide proof of eligible health insurance coverage, which can include Medicare.

Public Employee Optional Retirement Program - Employees may participate in the Public Employee Optional Retirement Program (the "Investment Plan"), a defined-contribution retirement program, in lieu of participation in the defined-benefit retirement plan ("Pension Plan"). If the Investment Plan is elected, active membership in the defined-benefit retirement plan is terminated. Eligible members of the Investment Plan are vested at one year of service and receive a contribution for self-direction in an investment product with a third-party administrator selected by the State Board of Administration. The contribution rates for fiscal year 2025 were 11.3% regular class and 12.67% for senior management class and for fiscal year 2024 were 11.3% for regular class and 12.67% for senior management class.

Note 8 - Retirement Plans (Continued)

Benefits Provided – For employees in FRS, benefits are computed on the basis of age, average final compensation and service credit. Regular class and senior management class employees who were enrolled in the FRS prior to July 1, 2011 and retire at or after age 62 with at least six years of credited service, or 30 years of service, regardless of age, are entitled to a retirement benefit payable monthly for life, based on their final average compensation of their five highest fiscal years of pay for each year of credited service. Employees enrolled on or after July 1, 2011 and who retire at or after age 65 with at least eight years of credited service, or 33 years of service, regardless of age, are entitled to a retirement benefit payable monthly for life, as explained above based on their eight highest fiscal years of pay. Using their date of enrollment as a basis, vested employees with less than the minimum years of service may retire before the minimum age and receive reduced retirement benefits. A post-retirement health insurance subsidy is also provided to eligible retired employees through the FRS defined benefit, in accordance with Florida Statutes.

In addition to the above benefits, the FRS administers a Deferred Retirement Option Program (“DROP”). This program allows eligible employees to defer receipt of monthly retirement benefit payments, while continuing employment with an FRS employer for a period not to exceed 96 months after electing to participate. Deferred monthly benefits are held in the FRS Trust Fund and accrue interest.

Contributions - Starting on July 1, 2011, Chapter 2011-68 of the Laws of Florida required members of the FRS not enrolled in DROP to contribute 3% of their salary to their retirement. Governmental employers are required to make contributions to the FRS based on statewide contribution rates. The fiscal year 2025 contribution rate applied to regular employee salaries was 13.63%, including 2.00% for a post-retirement health insurance subsidy (“HIS”). The fiscal year 2024 contribution rate was 13.57%, which included 2.00% for HIS. The fiscal year 2025 contribution rate applied to senior management salaries was 34.52%, including 2.00% HIS. The fiscal year 2024 contribution rate was 34.52%, which included 2.00% for HIS. The fiscal year 2025 contribution rate applied to the salaries of the employees in DROP was 21.13%, including 2.00% for HIS. The fiscal year 2024 contribution rate was 21.13%, which included 2.00% for HIS.

CFX’s actual contributions to the FRS for the fiscal years ended June 30, 2025 and 2024 were \$1,994,000 and \$1,800,000, respectively. Employee contributions were \$335,000 and \$307,000 for the fiscal years ended June 30, 2025 and 2024, respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

CFX reported a liability of \$12,364,000 and \$13,337,000, at June 30, 2025 and 2024, respectively, for its proportionate share of the net pension liability of FRS and HIS. The net pension liability as of June 30, 2025 and 2024 was measured as of June 30, 2024 and 2023, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. CFX’s proportion of the net pension liability was based on CFX’s historical employer contributions to the pension plans for fiscal year 2023 and 2024 relative to the historical contributions of all participating employers. At June 30, 2024, CFX’s proportion was 0.02233% and 0.02485% for FRS and HIS, respectively, which was an decrease of 0.00151% and an increase of 0.00068% from its respective proportion measured as of June 30, 2023.

The long-term expected rate of return, net of investment expense on pension plan investments was 6.70% and 6.70% as of June 30, 2024 and June 30, 2023 respectively. This rate was determined using a forward-looking capital market economic model. The table below shows the assumptions for each of the asset classes in which the plan was invested at that time based on the long-term target asset allocation. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The expected real rate of return is presented in arithmetic means.

Discount Rate – The discount rate used to measure the total pension liability was 6.70% and 6.70% for FRS for June 30, 2024 and June 30, 2023 respectively. The discount rate used to measure the total pension liability was 3.93% and 3.65% for HIS as of June 30, 2024 and June 30, 2023 respectively. For FRS, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the plan sponsor.

Sensitivity of CFX's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents CFX's proportionate share of the net pension liability calculated using the discount rate of 6.70% and 6.70% for FRS for June 30, 2024 and June 30, 2023 respectively. The discount rate of 3.93% and 3.65% was used for HIS for June 30, 2024 and June 30, 2023 respectively. The following also presents what CFX's proportionate share of the net pension liability would be at June 30, 2025 and 2024 if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the respective current rate:

Trend Data on Infrastructure Condition

CFX elected to use the modified approach to account for maintenance of its infrastructure assets starting in fiscal year 1997. The FDOT annually inspects CFX's roadways. The FDOT utilizes the Maintenance Rating Program (the "MRP") to assess the condition of the System. Copies of the MRP manual may be obtained from the State Maintenance Office, 605 Suwannee Street, Mail Station 52, Tallahassee, FL 32399-0450. The MRP manual provides a uniform evaluation system for maintenance features of the State Highway System. The roadways are rated on a 100-point scale, with 100 meaning that every aspect of the roadway is in new and perfect condition. CFX's System, as a whole, is given an overall rating, indicating the average condition of all roadways operated by CFX. The assessment of condition is made by visual and mechanical tests designed to reveal any condition that would reduce highway-user benefits below the maximum level of service. CFX's policy is to maintain the roadway condition at a MRP rating of 80 or better. The results of the last five completed inspections are as follows:

Evaluation Period

5 Status of Open Recommendations

EXECUTIVE SUMMARY

Overview

As part of the Fiscal Year 2026 Internal Audit plan, Internal Audit performed a review of open audit recommendations from prior audit reports as of September 30, 2025, to verify the implementation status reported by management. Open recommendations from the following audits were evaluated:

2019 Accounting Financial Controls Review	2024 Policy and Procedure Review
2019 IT Project Management Review	2024 Microsoft Cloud Security Review
2020 Secure Code Review	2025 Procurement and Contract Billing Audit
2020 P-Card and Gas Card Audit	2025 COSO Governance Review
2020 Retail Transponder Sales Review	2025 Ethics Policy Compliance Review
2022 Engineering and Construction Invoicing Review	2025 Right of Way Audit
2022 Customer Service Center Performance Assessment	2025 ITS Security Review
2023 Sensitive Data Review	

Internal Audit last reviewed the status of open audit recommendations in March 2025. Results were reported to the Audit Committee in April 2025.

Objectives, Scope, and Approach

This review was completed as of September 30, 2025, and consisted of meetings with management to determine the status of open audit recommendations and testing of management's response and reported status. In addition, only the recommendations that remained open at the time of the last review have been included in this report. If a recommendation was completed as of March 31, 2025, no further work was performed, and the recommendation was not included for review.

Testing performed included inquiry with the employees responsible for completing the recommendations and/or review of documentation evidence to confirm management's reported status and explanation. In instances where the evidence obtained did not agree with management's status, discussions with management were held and the differences were resolved. There were no instances where management and Internal Audit did not come to an agreement on the status of a prior audit recommendation.

*24 recommendations are classified as "In Progress".

Of the 24 "In Progress" recommendations, 15 are past the original agreed-upon due date, although **five of the 15 are contingent upon the implementation of the new ERP or CRM systems and due dates have been revised to reflect this contingency and to match the estimated timing to the necessary event. Of the remaining **ten** recommendations reflected as past due, **one** relates to the 2022 Customer Service Center Performance Assessment which has been impacted by the delay of integration work required with the Dynamics project and has a revised due date of 3/31/2026. **One** relates to the 2020 Secure Code review, which has been impacted by a phased system implementation approach that CFX has chosen to pursue and has a revised due date of 12/31/2025. **Six** recommendations relate to the 2024 Policy and Procedure Review, which have been delayed in consideration of ongoing strategic discussions. **Two** relate to the 2024 Microsoft Cloud Security Review, which have been delayed by the integration work required with the Dynamics project and ongoing investigative procedures.
