Introduction

At the end of 2024, The Central Florida Expressway Authority (CFX) system includes 125 centerline miles, 893 lane miles (including ramps), 73 interchanges, 349 bridges, and 19 mainline toll facilities. CFX's system includes SR 408 (Spessard L. Holland Expressway and Arnold Palmer Expressway), SR 528 (Martin Andersen Beachline Expressway), SR 417 (Central Florida GreeneWay), SR 429 (Daniel Webster Western Beltway and Wekiva Parkway), SR 414 (John Land Apopka Expressway), SR 451, SR 453, and SR 538 (Poinciana Parkway).

“To provide the region with a world-class, integrated mobility network that drives economic prosperity and quality of life”

Vision Statement

SR 408 (Spessard L. Holland East-West Expressway, Arnold Palmer Expressway, and Sergeant Tracy Vickers Memorial Expressway) serves east-west commuter traffic across the Orlando urban area, providing access to the Orlando Central Business District. SR 408 currently extends from an interchange with Florida's Turnpike in the west to an interchange with SR 50 east of Alafaya Trail. CFX is responsible for the 22 miles of SR 408 between SR 50 west (at Clarke Road) and SR 50 east.

SR 528 (The Martin Andersen Beachline Expressway) provides a direct connection between South Orlando and Cape Canaveral, serving Orlando International Airport. Although SR 528 extends from I-4 in the west to Cape Canaveral in the east, CFX's portion includes the 23 miles from Boggy Creek Road / McCoy Road in the west to SR 520 in the east. The portions of SR 528 east and west of CFX's jurisdiction are owned and operated by Florida's Turnpike Enterprise (FTE).

SR 417 (The Central Florida Greeneway and Seminole Expressway) is a beltway around the east side of Central Florida, which extends north from I-4 in Osceola County to I-4 in Seminole County. CFX's portion includes 32 miles from east of the intersection of SR 536 (World Center Drive) and SR 535 (Kissimmee Vineland Road), to the Seminole / Orange County line. The portions of SR 417 south of International Drive and north of the Seminole / Orange County line are owned and operated by the Florida Department of Transportation (FDOT) and FTE.

SR 429 (The Daniel Webster Western Beltway and Wekiva Parkway) is a beltway around the west side of Central Florida, which extends north from I-4 in Osceola County to I-4 in Seminole County.

CFX's portion includes 31 miles from Seidel Road south of the Orange / Lake County line. Of the total 31 miles, 3 miles are part of the dual route with SR 414 (SR 429/SR 414). The portions of SR 429 from south of Seidel Road and north of the Orange / Lake County line are owned and operated by FDOT and FTE.

SR 414 (The John Land Apopka Expressway) was constructed to provide a bypass around the City of Apopka. SR 414 extends Maitland Boulevard west from US 441 / Orange Blossom Trail to US 441 near Plymouth Sorrento Road for a total of 9 miles. Of the 9 miles, 3 are part of the dual route with SR 429 (SR 429/SR 414).

SR 451 was previously the northern portion of SR 429. With the opening of dual route SR 429 / SR 414 in January 2013, this 2-mile segment north of SR 414 to US 441 near Vick Road was re-designated as SR 451.

SR 453 opened in March 2018 and is a 2-mile facility that connects SR 429 in Orange County to SR 46 in Lake County.

SR 538 (The Poinciana Parkway) facilitates access to regional transportation networks, theme parks, and the metro Orlando area for residents of Osceola County. This 7-mile expressway was originally constructed by the Osceola County Expressway Authority (OCX) and became a CFX system facility in December 2019. SR 538 extends from Ronald Reagan Parkway to Cypress Parkway near the Osceola/Polk County line.

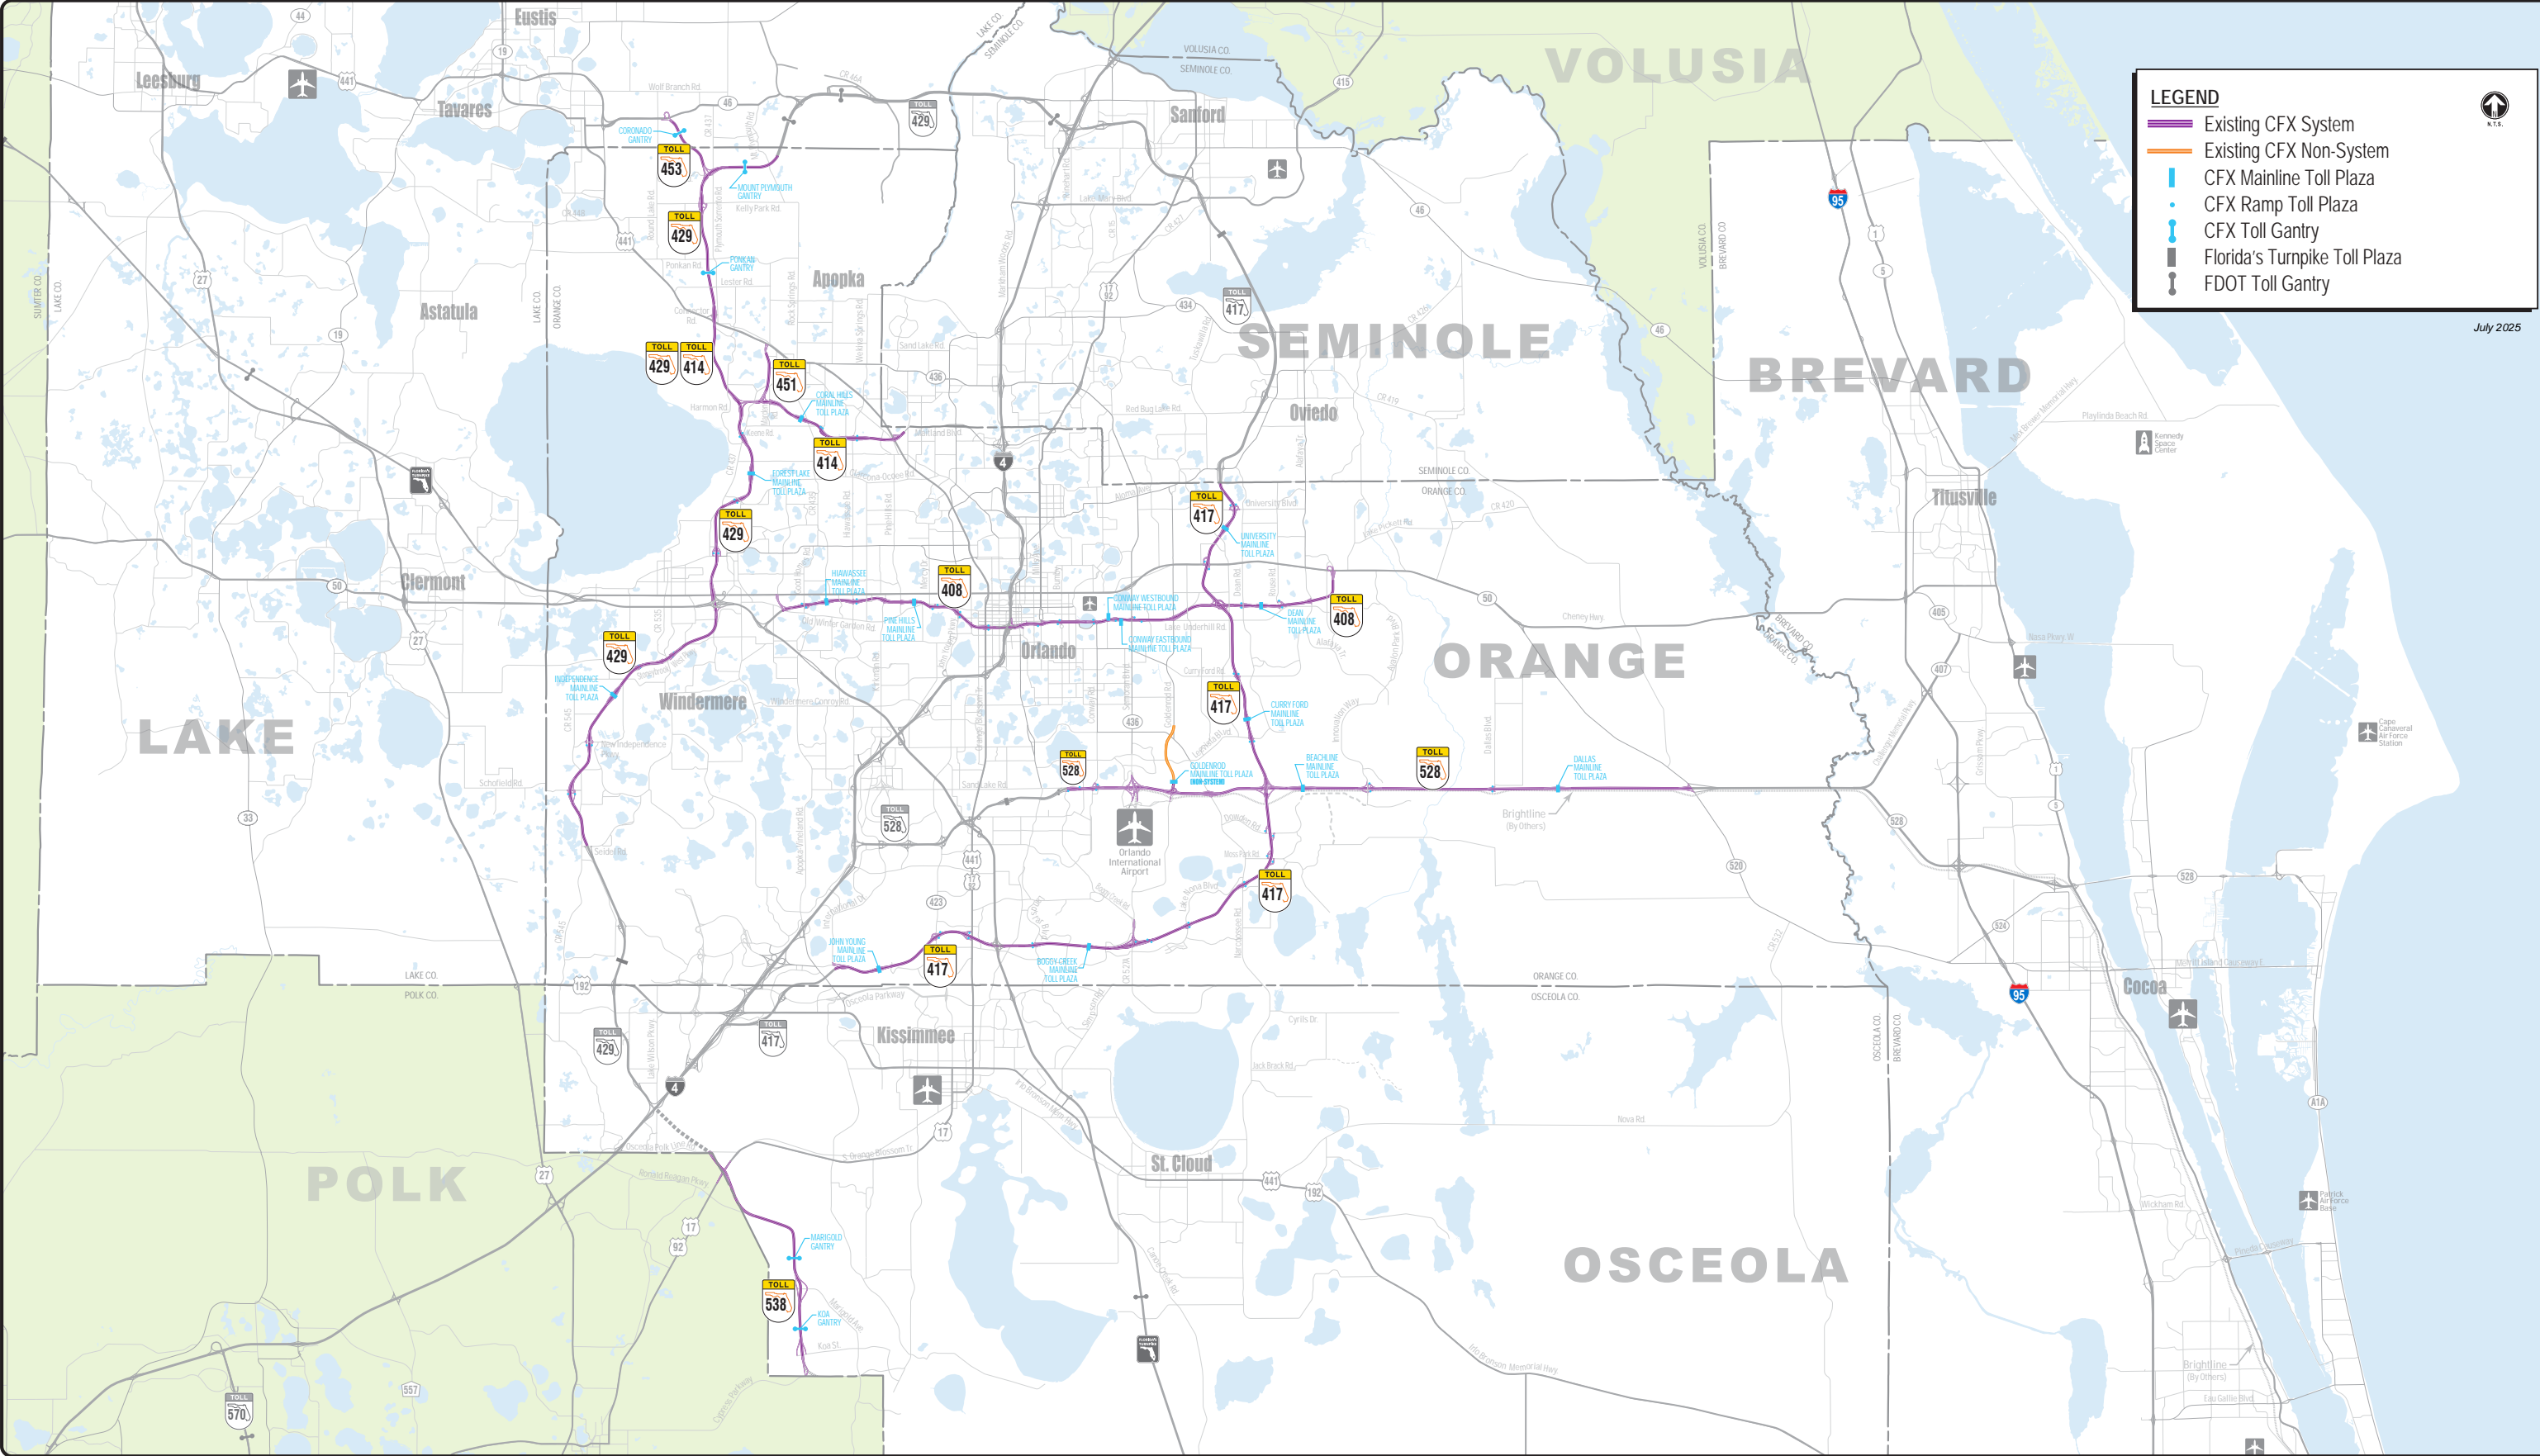

On average, over 1.5 million toll transactions are processed daily. CFX is authorized to build, operate, and maintain a transportation facility in Central Florida, incorporating Brevard, Lake, Orange, Osceola, and Seminole counties. This five-county region has over 3.5 million residents and attracts more than 74 million visitors annually.

In pursuit of a world-class system and in line with its strategic priority to build a customer-driven organization, CFX has prepared this manual to provide a comprehensive set of data, including traffic volumes, traffic characteristics, toll facility operations, and interchange lane configurations for its system. This data is utilized to project traffic trends and identify future capacity improvement projects within the system that can be included in the Five-Year Work Plan.

The data collected and detailed in this report is a snapshot in time. It is worth noting that this data varies over time due to several factors. Factors such as construction and weather can affect the

routes that drivers choose to travel. Some of the activities controlled by CFX and others that may influence traffic data include:

- Existing System Capacity Improvements under construction
 - Widening SR 417 from John Young Pkwy to Landstar Blvd (417-142)
 - Widening SR 417 from Landstar to Boggy Creek Road (417-149)
 - Widening SR 417 from Boggy Creek Rd to Narcoossee Rd (417-151)
 - Widening SR 417 from Narcoossee Road to SR 528 (417-150)
 - Widening SR 429 from CR 535 to FTE (429-154)
 - Widening SR 429 from FTE to West Road (429-152)
 - Widening SR 429 from West Road to SR 414 (429-153)

SECTION I: Traffic Counts

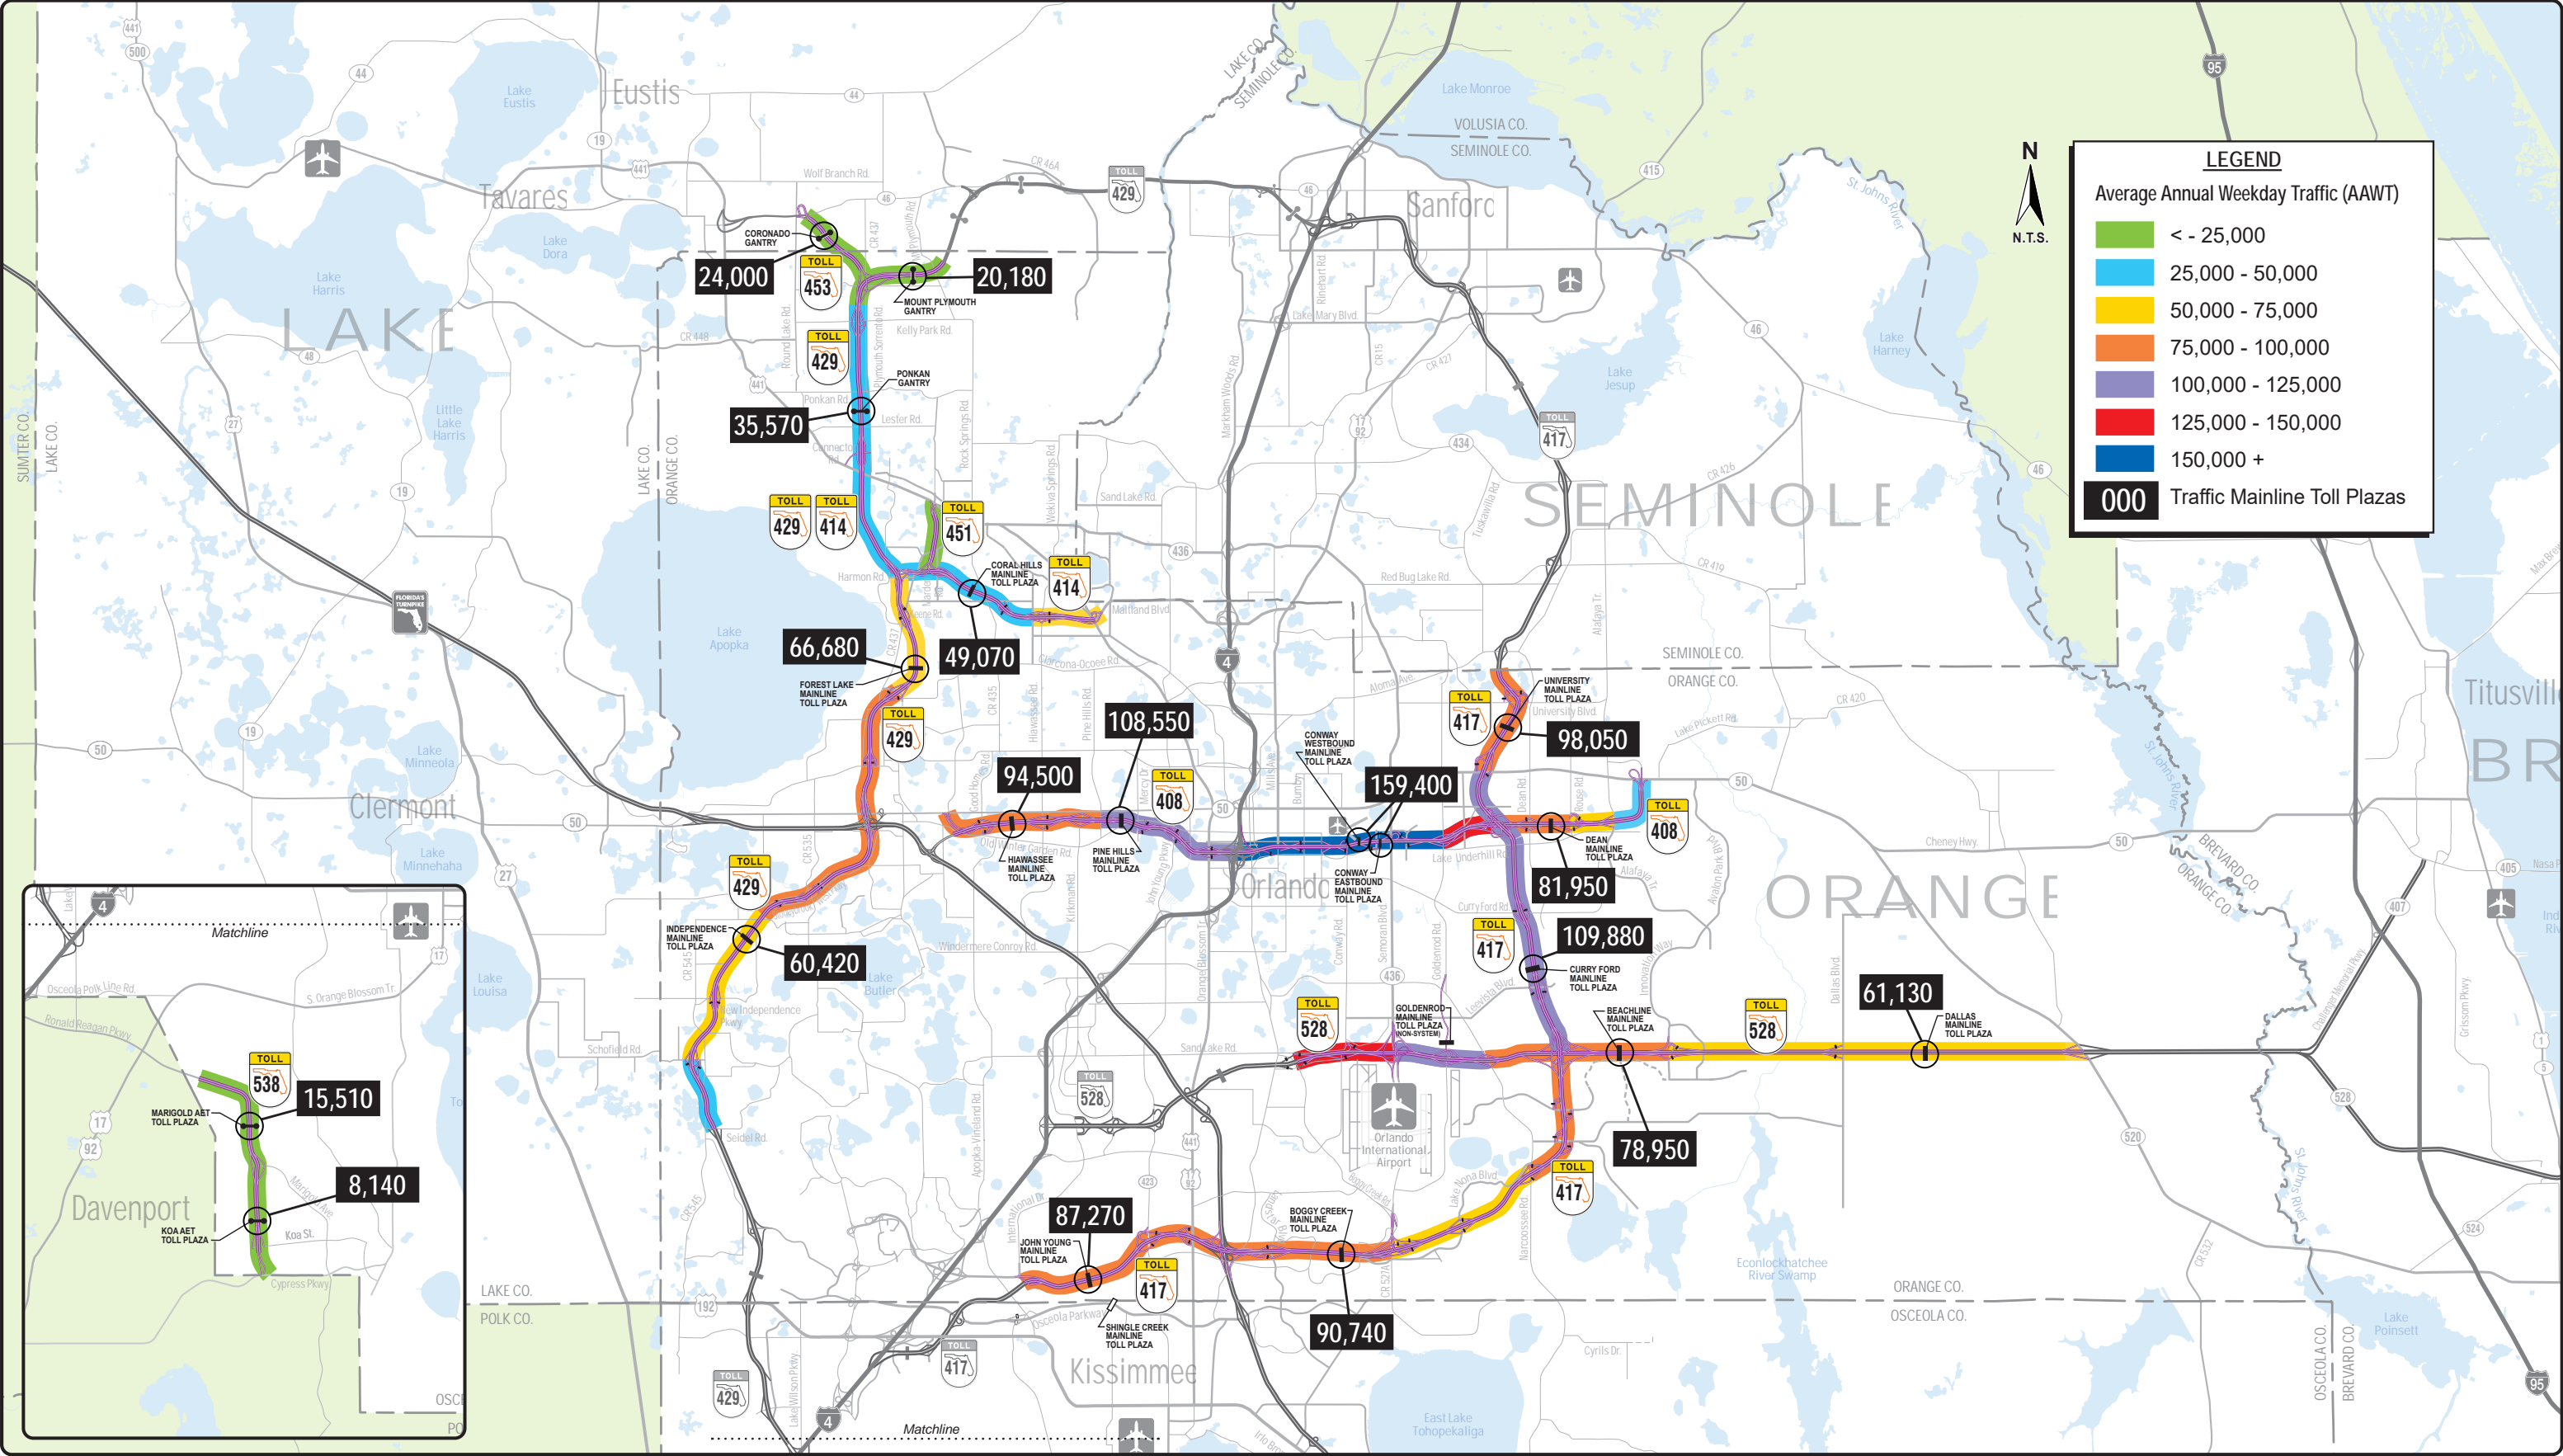

Traffic Counts

The traffic data presented in this manual was collected in April 2024 at CFX System ramps and mainline locations. Collection occurred Monday through Friday in April 2024, utilizing the Wavetronics Data Collection Sensors (SS125 HD) that have been installed throughout the CFX system. Pneumatic Tube counts were collected for areas on the system not covered by the Wavetronics sensors. Traffic data collected at the ramp and mainline toll plazas was also utilized to calculate the Annual Average Weekday Traffic (AAWT).

Monthly adjustment factors are used to convert 24-hour weekday traffic counts to Average Annual Weekday Traffic (AAWT) for each mainline segment and its accompanying ramps. These factors are based on the sensor information for mainline toll plazas. For example, if a 24-hour roadway count is collected on a normal weekday in April at a certain location, then that count would be multiplied by the appropriate monthly (April) factor to convert it to an annual average weekday volume. This normalizes the variations in weekly and monthly traffic, allowing counts taken at different times of the year to be compared.

The following pages contain estimates of AAWT for all mainline sections and ramps associated with the CFX system facilities. The data includes the most recent observations and historical traffic volumes starting from 2014 (where applicable).

Notes:

1. SR 408 under construction in Years 2015-2020 at the Interstate 4 (I-4) Interchange (I-4 Ultimate). Orange Avenue WB On-ramp closed in Years 2016-2019.
2. SR 408 under construction from Good Homes Road to Hiawassee Road in Years 2017-2018.
3. SR 408 / SR 417 Interchange under construction in Years 2016-2020, by projects 408-253 F/G.
4. SR 408 under construction in Years 2017-2019, from SR 417 to Alafaya Trail.
5. 2018-2024 AAWT volumes based on adopted seasonal factors, utilizing the 2016 and 2017 toll plaza transaction data.
6. SR 408 / I-4 Interchange ramps open to traffic in 2020.
7. 2016-2020 AAWT volumes Orange Avenue WB Off Ramp based on historical growth of corresponding ramp movement.
8. The Florida Toll Relief Program went into effect from 1-1-23 to 12-31-23 and 4-1-24 to 3-31-25. This program offered drivers a 50% credit for 35 or more transactions per month.

Southbound Off-Ramp	-----	-----	-----	-----	100	80	70	410	1,070	1,300	1,960

Notes:

1. Wekiva Parkway from SR 429 Connector Road to Kelly Park Road opened in July 2017.
2. Wekiva Parkway, from Kelly Park Road to SR 46 including the SR 453 interchange, opened in April 2018.
3. 2018 - 2022 AAWDT volumes based on adopted seasonal factors, utilizing the 2016 and 2017 toll facility transaction data.
4. SR 429, from CR 535 to SR 414, under construction in the Years 2021-2024.
5. The Florida Toll Relief Program went into effect from 1-1-23 to 12-31-23 and 4-1-24 to 3-31-25. This program offered drivers a 50% credit for 35 or more transactions per month.
6. FDOT opened the final section of Wekiva Parkway in 2024.

Interchange - Ramp Volume Summary SR 538 (POINCIANA PARKWAY)

SECTION I

Systemwide Adjustment Factors

Weekday, Daily and Monthly Adjustment Factors

Annual Average Weekday Traffic (AAWT) is the estimated volume of traffic on a highway and/or expressway segment for five (5) days of the week (Monday through Friday). This is obtained by collecting 24-hour traffic counts and adjusting these weekday traffic counts using monthly seasonal adjustment factors.

All weekday traffic volumes collected must be adjusted to reflect the seasonal changes in traffic volumes. To calculate the AAWT and Annual Average Daily Traffic (AADT), monthly seasonal adjustment factors are calculated from each of the mainline toll facilities for each month of the year. These factors are then used to convert the 24-hour Weekday Traffic Counts to AAWT.

In addition to developing the AAWT, seasonal adjustment factors and an AADT conversion factor were determined. AADT is the estimated daily traffic volume on a highway and/or expressway for all days of the week (Monday through Sunday) over the period of one year. The AADT is obtained by applying similar adjustment factors developed from mainline and ramp toll facility transactions to the same 24-hour weekday traffic counts. This calculated factor is used to convert the AAWT to AADT by multiplying the appropriate factor by the corresponding AAWT to obtain the AADT volume.

The following tables summarize the daily and monthly adjustment factors for the Central Florida Expressway Authority's system. Note that these adjustment factors are based on adopted seasonal factors, utilizing the 2016 and 2017 toll facility transaction data.

SR 538 (Poinciana Parkway) was incorporated into the CFX system in 2019. This is primarily a commuter route and does not have a seasonal adjustment factor.

SR 451 (Western Beltway Connector Road)						
SR 429 to US 441 (Orange Blossom Trail)	1.0286	1.0066	0.9894	0.9620	0.9661	0.9476
SR 453						
SR 429 to SR 46	0.9831	0.9629	0.9961	1.1253	0.9744	1.0245

Notes:

1. SR 453 opened to traffic in March of 2018. Due to not having a full year's worth of traffic counts, the seasonal factors for SR 453 will match the north end of SR 429.
2. SR 538 was not included as there is not daily data available. Use 1.00 as it primarily serves as a commuter road and is low volume.
3. Plaza volumes based on 2016-2017 toll transaction data.

SECTION II: Mainline Toll Facility Characteristics

Mainline Toll Facility Characteristics

The following pages provide figures summarizing the type and number of lanes, as well as the average annual weekday traffic through the mainline toll plazas listed below. Beginning in July 2025, all ramps and mainline toll sites will transition to all-electronic tolling (AET).

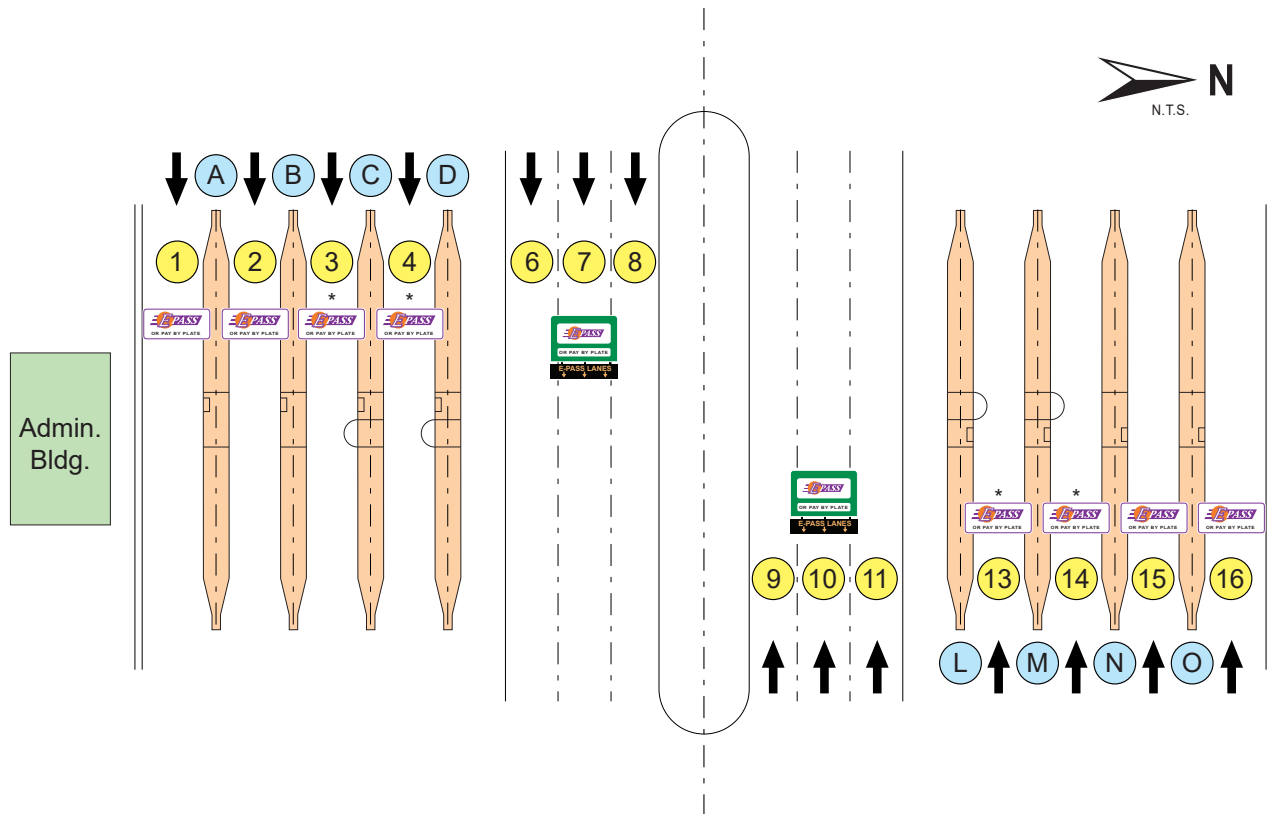

- **SR 408 (East-West Expressway)**
 - Hiwassee Mainline
 - Pine Hills Mainline
 - Conway Mainline
 - Dean Mainline
- **SR 414 (Apopka Expressway)**
 - Coral Hills Mainline
- **SR 453**
 - Coronado Gantry
- **SR 528 (Beachline Expressway)**
 - Beachline Mainline
 - Dallas Mainline
- **SR 538 (Poinciana Parkway)**
 - Marigold Gantry
 - Koa Gantry
- **Non-System Goldenrod Extension**
 - Goldenrod Mainline
- **SR 417 (Central Florida GreeneWay)**
 - John Young Mainline
 - Boggy Creek Mainline
 - Curry Ford Mainline
 - University Mainline
- **SR 429 (Western Beltway and Wekiva Parkway)**
 - Forest Lake Mainline
 - Independence Mainline
 - Ponkan Gantry
 - Mt. Plymouth Gantry

SECTION IV: General Statistics

General Statistics

This section of the manual summarizes the general statistics for the Central Florida Expressway Authority's expressway system. Data is included for SR 408 (East-West Expressway), SR 528 (Beachline Expressway), SR 417 (Central Florida GreeneWay), SR 429 (Daniel Webster Western Beltway and Wekiva Parkway), SR 451 (Western Connector), SR 414 (Apopka Expressway), SR 453, SR 538 (Poinciana Parkway), and the non-system Goldenrod Extension.

The information contained in this section is shown below:

- Expressway Total Centerline Mileage and Total Lane Miles for SR 408, SR 528, SR 417, SR 429, SR 451, SR 414, SR 453, SR 538, and the Goldenrod Extension.
- Toll Facility Lane Summary for SR 408, SR 528, SR 417, SR 429, SR 414, SR 453, SR 538, and the Goldenrod Extension.
- Toll Rate Schedule for all mainline and ramp toll plazas based on the number of axles.
- Distance between interchanges for SR 408, SR 528, SR 417, SR 429, SR 414, SR 453, and SR 538. (Centerline of Crossroad to Centerline of Crossroad)
- Toll Rates and/or Toll Costs between interchanges on SR 408, SR 528, SR 417, SR 429, SR 414, SR 453, and SR 538.
- Toll Cost per Mile between interchanges on SR 408, SR 528, SR 417, SR 429, SR 414, SR 453, and SR 538.

Expressway Mileage, Lane Miles, Toll Facility Lanes, and Toll Rate Schedules
