Procurement Objectives

It is the mission of CFXs Procurement Department to promote public confidence in procedures the agency follows to procure goods and services.

What We're Hearing

Industry Partners Want

- Earlier visibility into upcoming opportunities
- Consistent communication
- Efficient procurement processes
- Clear solicitation requirements

Internal Stakeholders Want

- Faster procurement cycles
- Strategic procurement support
- Better planning and forecasting
- Stronger vendor engagement

Opportunity

Move from a transactional procurement model to a strategic partnership model.

Modernizing Procurement at CFX

Vision

Become the Benchmark

Make CFX the best public agency to do business with.

Innovation and Automation

Challenge assumptions, pursue continuous improvement and leverage technology.

Vested Partners

Industry partners shape outcomes—not just respond to solicitations. Create a community, not just a vendor network.

Let's do it Together

Together, we'll continue advancing procurement operations that innovate with industry, inspire pride among employees, and set the benchmark other agencies aspire to emulate.
Let's change the game.

Collaboration

Build partnerships that improve outcomes, not just contracts.

Input

Stop telling industry how to do business with government and start listening to how government can do business better.

Feedback

Design procurement around the user experience.

Trust

Maintain an environment where industry feels safe sharing ideas, concerns, and hard truths.
